Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise what's the point?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
22621	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lofian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
22622	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals. West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to delivery the services needed. The service provides advice, assistance and advocacy to individuals.	50 - These services SHOULD be essential to the community. The benefits system is terrifying and confusing for many people. The Advice Shop supports people to feel a little less alone and to help lighten the burden that many are feeling. Without these services, what do you think is going to happen? Where are people going to go? Think of the big, long term picture rather than short term cost saving.	Corporate Policy and Resources	2. 22729	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Corporate Policy and Resources	2. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Corporate Policy and Resources	2. Do not reduce the advice shop provision, as this is a lifeline for the most vulnerable in our communities. The advice shop generates significant income for people (around 30 million a year I believe) who then spend the vast majority in the local economy. A win win for other services and businesses. Anything else is a dereliction of duty.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

While I agree the areas of concern are around the removal of services that can directly impact on those in the community that are the most vulnerable. Removal of services such as the Advice Shop is worrying as a lot of people are supported by them to ensure that they have the right benefits, sustain their tenancy, debt with their financial issues and other matters such as energy and illness. The fall out of losing this service could put much more financial pressure on other departments with the council.	Corporate Policy and Resources	2. 22791	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Corporate Policy and Resources	2. Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

22793	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they cant cope. Bad. This is a recipe for disaster. Stop these cuts now! Let 's kids play let youth get support. Let LGBT community get support from the service.	Corporate Policy and Resources	2. 22796	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn 't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don 't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for staff morale to keep being touted as a solution to a problem not of their making. Have some compassion and show some sensitivity!	Corporate Policy and Resources	2. 22798	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	I cannot agree with reducing spending on non - statutory services. It is an easy financial win; however, the long - term consequences of reducing or removing some of these services are huge. Services such as advice services prevent many people from needing statutory services through improving health and wellbeing, life chances, and developing community assets and opportunities. 22802	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Corporate Policy and Resources	2. 22816	Theme 5- Reducing Spending on Non-Statutory Services	50 - The provision of income maximisation, energy and housing advice. The service provides advice, assistance and advocacy to individuals.	No — cutting non - statutory services might seem easy on paper, but these are often the very services that make the biggest difference to daily life. Things like advice services all prevent far greater costs down the line. Remove them, and you'll simply shift the pressure onto education, policing, health and social care. These services are the safety net that keeps communities functioning — the difference between supporting people early or paying for crisis intervention later. Instead of stripping them back, the Council should focus on smarter investment, partnerships, and community	Corporate Policy and Resources	2. The Anti Poverty service also is the only Agency in West Lothian where people can get Debt advice at look at Statutory Debt solutions - in the last financial year we successfully managed £1. 6 million of debt for 201 customers. The Advice Shop support statutory services such as social policy, housing and education from ensuring people are financially included to support them to remain their tenancy. Without Advice shop support, the impact on other frontline council services will be significant. The Advice shop has supported over 14, 000 customers in the past year in the last year we have prevented 175 evictions through advice and assistance from our court advice project. The total cost of evicting a single person can be around £24, 000 – this is a substantial saving to the council As a service we lead on National priorities to support those most in need, we take the lead on the Tackling Poverty Strategy and support the public to complete key consultations for the Scottish Government	Corporate Policy and Resources	2. When looking at savings in this area the return on investment should be considered seriously, for example 50 - income maximisation, energy and housing advice is a vital service for the community. It supports around 14, 000 customers a year, many who are very vulnerable and need the advice and support provided by the advice shop in accessing their entitlements. In 2024 / 25 the advice shop supported customers with financial gains of £26 million - this is all money that is being used locally and going back into the economy.	Corporate Policy and Resources	9. While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. I think they should look at this but The Advice Shop provides income maximisation, energy, debt and housing advice to residents of West Lothian. Debt seems to have been missed from this which is surprising considering The Advice Shop are the only organisation in WL to provide free debt advice and formal debt solutions. In the last financial year they have successfully managed £1.6million worth of debt for 201 customers with formal debt solutions. Debt owed to the council such as council tax and rent arrears makes up 68 % of the total debt successfully managed. Without Advice shop support, the impact on other frontline council services will be significant. The Advice shop has supported over 14, 000 customers in the past year and all of these people will seek support elsewhere in the council increasing pressures on statutory services across the board. 22980	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Spending on these services should be revised. Some areas get more of of these services than others. A complete overhaul of services and budgets are required.	Education	1. The respondent advised that they agree with the proposal.
22981	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isnt a direct loss of service.	Education	1. The respondent advised that they agree with the proposal.
22982	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum. 22992	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to deliver the services needed.	Education	1. The respondent advised that they agree with the proposal.
22993	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum. 22998	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people.. if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I dont see why you couldn't make significant changes in the budget and the way things are run	Education	1. The respondent advised that they agree with the proposal.
22999	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum. 23000	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Agree with almost all proposal - however disagree strongly in 5C / 5H our children should not suffer in budget cuts. Schools and support for schools particularly our children with additional needs should be the councils biggest priority. We value the service's provided but further rationalisation is required across all the other non - statutory services to ensure we protect the children of West Lothian's future.	Education	1. The respondent advised that they agree with the proposal.
23001	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum. Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise what's the point?	Education	1. The respondent advised that they agree with the proposal.
23019	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Education	1. The respondent advised that they agree with the proposal.

No, I don't agree with reducing spending on non - statutory services. Many of these services are essential for children, families, and vulnerable people — music lessons. Even though they are not statutory, they help improve mental health, education, and community wellbeing. Especially now, when everything is becoming digital, these services are one of the few ways people can still stay social and connected. Without them, life could start to feel isolated again — almost like during lockdown — with people spending all their time alone on phones instead of being part of their community.	Education	2. It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms! ... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Education	2. 23138	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. 23140	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little to reduce the council's budget.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

I cannot agree with reducing spending on non - statutory services. It is an easy financial win; however, the long - term consequences of reducing or removing some of these services are huge. 23149	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable.	Education	2. 23150	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. 23161	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	The council should ensure the instrumental music service is saved. This is a vital part of young people's education. The IMS provides young people who normally might not be able to afford to the chance to learn an instrument. More and more universities and jobs are now recognising music as a valuable skill. West Lothian used to be known for having one of the best instrumental music service in Scotland and their bands and ensembles were recognised at Scottish and national level. To cut this service would be unacceptable. It hasn't even been 6 months since the staff of IMS were told that they were safe for 3 years and now this. It's shocking	Education	2. I oppose any further changes to the instrumental music service. Cuts to this previously had a terrible affect in children being able to access this. Without free music tuition in the early years young people can not meet the standard required for school exams and certainly not that required for conservatoire or university entry. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Education	2. 23250	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Music service is always an easy target - a short sighted is an understatement. There is a rich heritage in this area which is being depleted already. Music gives identity and meaning to many children and young people and to remove this is an easy target. There is also a significant contribution made by SG for this specifically.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23251	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Absolutely not. Non - statutory services are the very ones preventing higher long - term costs in social care, education, and health. Having worked in teaching and now in social policy at WLC, I've seen first - hand how cuts to youth work, family support and community learning lead to greater crisis intervention later. Services like music tuition are not "optional extras", they're preventative supports that keep people connected, confident, and well. Reducing them risks widening inequality and increasing future statutory pressures. Instead, the Council should focus on modernising delivery, strengthening partnerships, and investing in early - intervention models that reduce dependency and build community resilience.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23252	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Looking at the services that are provided, I am concerned that should the council stop providing these potentially vital services, it would have an impact on the local community and Services that could be removed NOT TO BE CUT (however savings could be identified in levels of non front line roles): 5p	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23253	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Some services can be removed or capped. But since you have placed them all on one category. Without being able to vote for specific ones, my answer is no	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23254	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	All of these seem vital to the community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23255	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	These services are critical to West Lothian, and some of these services helps people meet other people and also assist with these day activities. West Lothian council needs to make sure they are not making people who use these services from being affected by physical and emotional stress of not having these services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23256	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	No - absolutely do not agree. And I have already gave a brief run down of why I think this and also what my idea to improve things would consist of. To take funding away from these would be abhorrent to the people who make use of them	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23257	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	the mental well being of our children and young people should be taken into consideration. The removal of vital services including, music provision, provide safe spaces for our future generations. more should be done to protect such spaces and services, and promote positive mental health and wellbeing for our children and young people. This in turn would reduce demands on services including CAMHS etc	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23258	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Instrumental music service should be statutory. This is very important for young people.	Education	2. 23259	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	The council should ensure the instrumental music service is saved. This is a vital part of young people's education. The IMS provides young people who normally might not be able to afford to the chance to learn an instrument. More and more universities and jobs are now recognising music as a valuable skill. West Lothian used to be known for having one of the best instrumental music service in Scotland and their bands and ensembles were recognised at Scottish and national level. To cut this service would be unacceptable. It hasn't even been 6 months since the staff of IMS were told that they were safe for 3 years and now this. It's shocking	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23260	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	To even consider reducing the instrumental music service budget is completely short sighted. This invaluable service was promised last year that they would be safe for 3yrs. Why are they yet again facing uncertainty in their jobs?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23261	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	There needs to be a balance. Why is it Arts and Culture is 1st for the chop. Music / Drama groups etc ste a real life line for some young people, very positive for good mental health	Education	2. 23271	Theme 5- Reducing Spending on Non-Statutory Services	5p - Instrumental Music Service which provides free instrumental music lessons to primary and secondary school pupils, which goes beyond the statutory minimum.	Section 5p – any reduction to the Instrumental Music Service would be hugely detrimental to the children who participate in it. Learning an instrument brings so many positives, not least in the opportunities it brings to play with others in school bands / orchestras. All of this helps to create and sustain a positive culture within schools, benefiting not just those children who play instruments but the whole school community. If there is to be any reduction to this service / move to a payment system, means testing should be a given. Music is core to the curriculum & those with an interest or talent should not find funding a barrier.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

23375	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise whats the point?	Education	1. The respondent advised that they agree with the proposal.
23376	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Education	1. The respondent advised that they agree with the proposal.
23377	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals. West Lothian Council has a proven track record of delivering huge savings. 23457	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Youth Services is an important service that supports and provides learning opportunities that young people may not get otherwise. Many young people are not engaging at school and CLD Youth Services provide educational opportunities and programmes within school and additionally within the community. Schools do not have the capacity to provide enough support for young people who are not attending. Additionally for young people who stop attending school completely or have left school without a positive destination and without qualifications, there are less opportunities available for them to progress in life. CLD Youth Services provides education, accredited awards, life skills and opportunities for young people to aspire and thrive.	Education	2. None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23462	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. 23465	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	In my view as a youth worker for west lothian council. Our youth based services should be protected. Young people are coming up in an uncertain world their mental wellbeing is at its worse and now more then ever the require support to navigate issues and reach a positive destination. I see the crisis on a daily basis and if we don't supply the provision and support now the long term affects could be catastrophic. Our services not only provide support for targeted groups but also offer socialisation, confidence building and so much more that young people desperately need. To cut these services would be a disaster for the young people of west lothian and the council should be protecting these services at all costs.	Education	2. Non - statutory services that bring real value—like youth work, actually save money long term by preventing poverty, crime, and social isolation. These must be protected	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23476	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	The council should consider some of the smaller scale savings. However the funding for the 3rd sector and community projects should be protected and the group strongly object to the cuts to helping the youth and vulnerable communities throughout Armadale. Money should be used to support local communities in West Lothian and to help local people in areas. The larger scale support to the third sector is needed. The football club and partnership centre are the only things worth keeping in Armadale. We can't keep cutting services when there is nothing left, all the issues in the community are caused by the cuts to the third sector and community projects.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23477	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals. 23480	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	This needs to be a balanced approach especially with youth services supports. How many use youth services and is it value for money i.e. referrals versus money, can they use alternative buildings or maximise use of building (however is it some of the only support some of the kids have)	Education	2. 23481	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	There is far too much in this section to be able to give a yes or no answer to the whole thing. I would not support reducing the budget for many of these - they may not be statutory but they are vital eg youth services (the likely impact of stopping the funding would be an increase in ASB and crime)	Education	2. 23484	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	I would also suggest that ceasing support for youth services will cause many of them to close. Just this week I passed Linlithgow's Youthspace at 8pm and it was full of young people. I suspect that if they hadn't been there, they would have either been bored at home, or out potentially causing trouble (something we experienced with a gang of youngsters in the town in recent years). 23490	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5i. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL. In particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1.2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Education	2. 23512	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Although I have answered YES, I believe a number of the suggestions above would be poor choices as it would negatively impact on West Lothian Communities. The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals, (£1. 6 million) ALTHOUGH THIS SUGGESTION IS NON - STATUTORY - THESE ARE VITAL SERVICES NECESSARY FOR SUPPORTING LOCAL FAMILIES - would absolutely disagree this would be a good way to reduce costs	Education	2. 23520	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	5q - WLC Consultation Document relating to the delivery of Youth Services. The Bathgate FABB Club is a well long - established club providing support and experiences for young adults with and without disabilities across West Lothian. This includes Youth Exchange work as well as the fortnightly club opportunities which now supports 4 clubs and can accommodate 60 young people when full. The biggest concern relating to delivery of Youth Services is to remind WLC that we have a Partnership Agreement and have staff provided by "Work with Young People's Team" to take the lead with 3 of our 4 groups. (One group is not supported due to the age of our oldest members within the club and is supported by Volunteers only). This work is pivotal to ensure that our members continue to meet their friends, continue to gain confidence and have experiences that would otherwise be unattainable for them. We would also take this opportunity to remind WLC that behind the actual activities it is parents and volunteers that take on the burden of running the Club and all that this entails. We fundraise to ensure that we can ensure the experiences are met but the input of the staff and volunteers within the groups are crucial to the structure, safety and wellbeing of the members, without which the Club would struggle to continue. We are sure that WLC are aware of the need to protect the vulnerable groups across West Lothian but we wanted to highlight the particular needs of our members who are already socially isolated with cutbacks already affecting Day Services for them. We would be happy to engage further with WLC regarding the support we receive from Youth Services and the impact it would have on our groups if that would be helpful.	Education	2. 23523	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	No, I don't agree with reducing spending on non - statutory services. Many of these services are essential for children, families, and vulnerable people — such as youth programmes. Even though they are not statutory, they help improve mental health, education, and community wellbeing. Especially now, when everything is becoming digital, these services are one of the few ways people can still stay social and connected. Without them, life could start to feel isolated again — almost like during lockdown — with people spending all their time alone on phones instead of being part of their community.	Education	2. It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... 23566	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	In my view as a youth worker for west lothian council. Our youth based services should be protected. Young people are coming up in an uncertain world their mental wellbeing is at its worse and now more then ever the require support to navigate issues and reach a positive destination. I see the crisis on a daily basis and if we don't supply the provision and support now the long term affects could be catastrophic. Our services not only provide support for targeted groups but also offer socialisation, confidence building and so much more that young people desperately need. To cut these services any further would be detrimental to young people and would not be getting it right for ever child as we promised ro do.	Education	2. 23573	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Education	2. 23574	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no course to engage or develop their skills. Community projects are a must.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23575	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they cant cope. Bad. You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter, you'll still increase costs and reduce services. 23578	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Council officers need to be aware that the savings they may make from these options will just increase the demand on other services council or not. For example removing community youth clubs is proposed, however, these reduce the crime rate amongst young people within the county by giving young people something to do than just hanging about the streets. 23582	Theme 5- Reducing Spending on Non-Statutory Services	Sq - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little to help people who are in need of support and who are often the most vulnerable in our communities.	Education	2. 23590	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	I cannot agree with reducing spending on non - statutory services. It is an easy financial win; however, the long - term consequences of reducing or removing some of these services are huge. Services such as services for young people, prevent many people from needing statutory services through improving health and wellbeing, life chances, and developing community assets and opportunities. 23597	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable.	Education	2. 23598	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Education	2. The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals are vital to the community and young people, ultimately if this service is reduced, particularly the CLD youth services employability work, I believe this will end up costing the council more money in the long run. This employability service works with the hardest to reach young people in West Lothian, reducing unemployment and bad mental health amongst young people, I do not know the exact figures but a SIGNIFICANT number of young people 's mental health has improved as part of this service meaning strains on other services have decreased as a result. 23649	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Youth work - again an easy target. Things like galadays, bunting and lights can be considered by a local group and would be something easily dropped with no long term impacts. Look at what would have an impact in 10 years on both individuals and on groups.	Education	2. 23651	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Looking at the services that are provided, I am concerned that should the council stop providing these potentially vital services, it would have an impact on the local community and Services that could be removed NOT TO BE CUT (however savings could be identified in levels of non front line roles): 5q	Education	2. 23654	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	These services are critical to West Lothian, and some of these services helps people meet other people and also assist with these day activities. West Lothian council needs to make sure they are not making people who use these services from being affected by physical and emotional stress of not having these services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23655	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Please don't reduce spending on 5q or 5r! These funds are vital to supporting our young people and helping them be the kind of neighbours we want to live next to in the future - they need our help now. As a trustee of Youthspace (Linlithgow & Bridgend), I see the hugely positive impact of our dedicated team of youth workers on local young people. For every Ethe council awards, the payback is multiple times this. The work covers mentoring, counselling, youth volunteering programmes, small groups, PSE lessons and meta skills programmes in primary schools. L'gow Academy is urgently asking for more help with health and wellbeing issues and we are currently limited by funding in what we can offer. The expansion of Winchburgh creates more opportunities (and need) for youth work - again, this will require financial support. Summer holiday funding from WLC has been critical in recent years - thank you! Our programme is always fully booked and heavily subsidised, making it accessible to all.	Education	2. 23663	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	All non statutory services should be looked at to help streamline and make savings if possible, but completely stopping funding seems short sighted. Especially in areas such as youth group funding. Education in all areas is so important and so much education and opportunities happen out of the school environment, in clubs and youth groups.	Education	2. 23668	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	West Lothian Drama and Mime Group is a unique resource for a vulnerable group of young people who live in West Lothian. We rely on support from WLC Youth Services so any reduction in their funding would directly affect us. The majority of our members have additional support needs. That means they rely on benefits and struggle financially. We make every attempt to keep the group affordable, but despite almost doubling our fees recently we still need to fundraise to cover financial deficits. Without the support we currently receive from WLC, we would struggle to continue operating and without us, there is a high risk of our members becoming socially isolated as opportunities for them are very limited. 23671	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Youth services are integral parts of the community and society as a whole. Children will not have any alternative safe spaces where they can socialise, be creative and learn new skills. Children who are vulnerable or live in deprived areas will be more likely to get into antisocial behaviour and this will end up in more money in the future.	Education	2. 23683	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	I cannot agree with this. The use of non-statutory language implies of lesser importance and that society can do without it. Some of the services listed above make life worthwhile for people. Having recently completed this consultation with young people I heard a young person say CLDYouth Services had SAVED their life. I have heard countless others say it has changed their lives, made their lives better or improved how they feel about themselves. I've seen young people at absolute rock bottom who are now flourishing and happy. School is not for everyone and some young people have had horrific experiences which made them feel like failures, hopeless and destined to be lonely with no friends and no motivation to change. 1 positive experience can change this. We have an attendance crisis in our schools as many young people are miserable, several of the services listed above can give these people (younger and older) second chances and the hope, potential and motivation to turn it around. The respondent suggested an improvement. Officers will consider how this could be developed.
23704	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	This is another question which had no correct answer. While cutting non - statutory services offers the quickest way to balance a budget, it often proves to be a false economy. Cutting youth groups means that there might be an increase in antisocial behaviour. Can these be delivered in a better way? Possibly yes, can the council ask for funding from local developers to help out with maintaining a library or make a donation to a youth group? Developers who build houses in our area should make a contribution to the roads, local amenities and the schools in that area.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

23706	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	In terms of clubs and services, these have all increased in subscriptions. It would be beneficial for the council to increase these prices; i. e golf & other leisure memberships. My personal gym membership has increased by £3 per month, it's not unreasonable for the council to do the same.	Education	6. The respondent suggested an improvement. Many options here may be a big saving now but the long term impact may cost more. For example removing services for young people can increase violence, anti - social behaviour, reduce employability later on and increase homelessness. We need to ensure we invest in children and young people.	Education	7. 23721	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isn't a direct loss of service.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
23722	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Cuts and more cuts. Some yes but the majority no. These are much needed services	Education	7. 23723	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	There should also be a clearer focus on local reinvestment to ensure communities benefit from any income raised. Non - statutory services need careful evaluation before cuts to ensure critical support is not lost. Above all, the Council must be transparent with figures and involve the community more directly in decisions.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

23727	Theme 5- Reducing Spending on Non-Statutory Services	5q - The delivery of youth services, including support to youth clubs and outreach work with vulnerable groups and individuals.	Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Education	8. 23761	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I dont see why you couldn't make significant changes in the budget and the way things are run	Education	1. The respondent advised that they agree with the proposal.
23762	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I think there was a whole host of services that can be cut. Summer activities being a prime example. Subsidising services that arent popular enough to be profitable.	Education	1. The respondent advised that they agree with the proposal.
23763	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Unfortunately only essential services should be supported	Education	1. The respondent advised that they agree with the proposal.

23765	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Agree with almost all proposal - however disagree strongly in 5C / 5H our children should not suffer in budget cuts. Schools and support for schools particularly our children with additional needs should be the council's biggest priority. We value the service's provided but further rationalisation is required across all the other non - statutory services to ensure we protect the children of West Lothian's future.	Education	1. The respondent advised that they agree with the proposal.
23766	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Yes but it's mostly peanuts.	Education	1. The respondent advised that they agree with the proposal.
23767	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Yes. School holiday clubs should not be provided by the council. This is the parents responsibility to organise privately.	Education	1. The respondent advised that they agree with the proposal.
23768	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I agree, but... I can see West Lothian turning into a dump if they get rid of all those services	Education	1. The respondent advised that they agree with the proposal.
23769	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	With the exception of 5m, 5n, 5p and 5x which I think should remain, I believe all the other suggested savings should be made	Education	1. The respondent advised that they agree with the proposal.
23770	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Reduce non - statutory spending as much as possible.	Education	1. The respondent advised that they agree with the proposal.

23800	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I agree with all of these ways of saving money, I know people who get a council house then lets someone else live in it, most comen people who are in drug related I understand the need to save money, s for the council homes that are not used for people's drug related acts this has to include looking at the fraud side this has been going on for along time. 23802	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise whats the point?	Education	1. The respondent advised that they agree with the proposal.
23803	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather a re-evaluation of how they are funded and delivered. People who care about such things can demonstrate such by paying for them	Education	1. The respondent advised that they agree with the proposal.
23804	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	All of these are ancillary and should be eliminated. 23805	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I have insufficient knowledge of the details of non - statutory services provision to provide further suggestions. However, in the current economic position, the cessation of many of those activities listed previously is a no - brainer. I'm surprised they have not been stopped before. 5g is the most alarming item to me.	Education	1. The respondent advised that they agree with the proposal.
23806	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period. 23811	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Funding should be reduced for non statutory services unfortunately needs must.	Education	1. The respondent advised that they agree with the proposal.
23812	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Almost all of the above should be reviewed to assess the impact of this spend has on achieving councils core priorities and to see if it duplicates / competes with third sector or other stakeholder provision. Could some of this provision be delivered as well / better by other agencies e. g. NHS, college, charities or the business community. Is the provision needed in an AI world where people can access a wealth of information in other ways?	Education	1. The respondent advised that they agree with the proposal.
23813	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Summer of play activities as this is also not used much.	Education	1. The respondent advised that they agree with the proposal.
23814	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I notice the amount of money spent on "Play" is rather high. Why can't people these days teach their kids how to use their imaginations when it comes to "play" instead of relying on the council to supply them with services that the reality if the matter is, such services are NOT needed or required if people would revert back to simply sending their kids out to play as they did during my time and for generations beforehand. This is where "we" learned how to play, think and socialise that stood us in good stead hading towards adult life and we didn't need a "council" to supply us with "services" that were and are NOT needed just to be able to "play". Cut the funding for such nonsense and get kids back to simply going out to play and suing their imaginations as we did in my younger days and as was done for generations beforehand and stop wasting a load of money on something that is a sad trait of todays society.	Education	1. The respondent advised that they agree with the proposal.
23815	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	There are many things I agree totally with, for instance 5g, 5k, 5o and 5r should be cut completely, others I'm so so about.	Education	1. The respondent advised that they agree with the proposal.
23816	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Summer activities that are funded should go - there are other activities that parents can access, including the free country parks.	Education	1. The respondent advised that they agree with the proposal.
23817	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Reduce spending in all non statutory services before cutting statutory services. Parliament has decided which services are statutory, and funds councils to provide them. Don't risk the effectiveness of statutory services by throwing this money away where its not required. Stop some spending completely i. e anti - poverty, regeneration, non - statutory school busses. West Lothian Council has a proven track record of delivering huge savings. Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. 23910	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. I would like the Advice Shop to remain at £1.25m and have a small cut to £1.1m to allow for other services. The total cost of 5r keep but target better free school meals should get first refusal	Education	2. 23912	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Although providing a service for children during school holidays should not be cut - this would stop people from being able to get a job if they did not have summer school clubs etc.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23913	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Although I have answered YES, I believe a number of the suggestions above would be poor choices as it would negatively impact on West Lothian Communities. Providing Summer of Play activities and support during the school holiday period. - ALTHOUGH THIS SUGGESTION IS NON - STATUTORY - THESE ARE VITAL SERVICES NECESSARY FOR SUPPORTING LOCAL FAMILIES - would absolutely disagree this would be a good way to reduce costs	Education	2. 23917	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r. How is this targeted? How are parents / carers informed about this service? Those that need it should be the ones getting access. Many of the remaining youth and education services listed are accessed by some of the most vulnerable members of our society living in areas of chronic deprivation. To remove them simply tips the people who access them into then needing the support of statutory services instead, so you are simply moving the problems elsewhere.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23918	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	The non statutory areas are necessary	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23919	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	No, I don't agree with reducing spending on non - statutory services. Many of these services are essential for children, families, and vulnerable people — such as summer play activities. Even though they are not statutory, they help improve mental health, education, and community wellbeing. Especially now, when everything is becoming digital, these services are one of the few ways people can still stay social and connected. Without them, life could start to feel isolated again — almost like during lockdown — with people spending all their time alone on phones instead of being part of their community.	Education	2. 23947	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... 23974	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn 't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don 't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little to reduce the council's budget.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23975	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period. We are firefighting all the time, and statutory services are costing us so much because we keep cutting those services that stop people getting to the front line. Wake up! This is where we need the money to be spent. This is where residents see the money being spent, and this is where communities value the money being spent. Given the choice of a school summer activity programme for kids or a 6 - figure chief executive salary, I know what communities would choose.	Education	2. 23987	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable.	Education	2. 23988	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Education	2. 23995	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Totally disagree with this	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23996	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	So if the council will give up all those services who then will deliver them as there is not many in West Lothian free services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23997	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	These services are what hold our communities together and I would vehemently be against their removal. How about making savings from those who do not contribute to our communities, as opposed to those who do?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23998	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r - this should be kept	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
23999	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Most of the services provided appear to be important and with the exception of one or two would seem to be what's needed.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24000	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Again, too much lost already	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24001	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Many of these services are essential	Education	2. 24003	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Although these are non - statutory services they make an important contribution to life in West Lothian and how West Lothian Council Works. The knock on effect of removing these services is far larger than is implied by the accompanying statements. In addition there are no alternative services for to fill the gaps created by their removal.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24004	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	these are important - keep them and make decisions on the big stuff where big savings can be made	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24005	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	This is the vital unseen part of what's needed in communities - this needs continual funding, especially on local infrastructure	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24006	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Most of these are vital community services which could probably benefit from more spending	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24007	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Too many depend on these non statutory services and alienating tourists mean income moves elsewhere	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24008	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	They may be non statutory but seem very important and if removed would significantly impact on communities.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24009	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	These cuts will impact on the community hugely	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24010	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Nope, they should be put money into the services making the services more stable not taking the money away from it all	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24011	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	No cuts to education this is a false economy.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24012	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	We should not be cutting anything regarding childrens welfare.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24013	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Children should not be affected. These services should not be cut they are west lothian future and these decisions shape how they will be. summer of play Cutting these is detrimental	Education	2. 24015	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Too many cuts already	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24016	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Most of these non - stat services are services council tax payers expect to see. To remove them would be nothing short of a joke.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24017	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Feel this could be better managed but don't believe reducing / removing these services is a good idea	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24018	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I don't think any of this should be reduced.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24019	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	A lot of people rely on these services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24020	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Often the non statutory aspects are the buffer for those on low incomes and loss of these supports affects the physical and mental well being of the clients. Large employers should be encouraged to support more community based projects.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24021	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Cutting off from other sources not from these essential services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24022	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	With the exception of bunting, Christmas lights and golf courses, these are all essential services. Surely the Council would not remove itself from COSLA?	Education	2. 24024	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Absolutely not these services are vital for West Lothian	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24025	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	non statutory services cannot be cut, these services are essential to early intervention and prevention for chronic issues e. g. violence against women and girls and mental health services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24026	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	These are too broad and diverse - some I would support and some, like child care services are essential for working families and to help lift some out of poverty.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24027	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Absolutely not. Non - statutory services are the very ones preventing higher long - term costs in social care, education, and health. Having worked in teaching and now in social policy at WLC, I've seen first - hand how cuts to youth work, family support and community learning lead to greater crisis intervention later. Services like play provision	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24028	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Some services can be removed or capped. But since you have placed them all on one category. Without being able to vote for specific ones, my answer is no	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24029	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	All of these seem vital to the community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24030	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	These services are critical to West Lothian, and some of these services helps people meet other people and also assist with these day activities. West Lothian council needs to make sure they are not making people who use these services from being affected by physical and emotional stress of not having these services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24031	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Please don't reduce spending on 5r or 5r! These funds are vital to supporting our young people and helping them be the kind of neighbours we want to live next to in the future - they need our help now. As a trustee of Youtospace (Linnithgow & Bridgend), I see the hugely positive impact of our dedicated team of youth workers on local young people. For every Ethic council awards, the payback is multiple times this. The work covers mentoring, counselling, youth volunteering programmes, small groups, PSE lessons and meta skills programmes in primary schools. L'gow Academy is urgently asking for more help with health and wellbeing issues and we are currently limited by funding in what we can offer. The expansion of Winchburgh creates more opportunities (and need) for youth work - again, this will require financial support. Summer holiday funding from WLC has been critical in recent years - thank you! Our programme is always fully booked and heavily subsidised, making it accessible to all.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24032	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	No - absolutely do not agree. And I have already gave a brief run down of why I think this and also what my idea to improve things would consist of. To take funding away from these would be abhorrent to the people who make use of them	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24033	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r might need to be increased - the number of feral youths is increasing in West Lothian. Our youth need places to go & burn off steam.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24034	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	theres not enough for children to do outside of school, especially because not all parents can afford for their children to partake.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24035	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r - summer of play - This helps people to enjoy summer who are not able to afford a holiday.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24036	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r - Do not get rid of this maybe - charge £1	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24037	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	These are the services that mostly support the most vulnerable in our community, everything is important to the functioning of our society.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24038	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	think these are all services that are needed	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24039	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	These are all important funding	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24040	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r Again, strongly object. If you remove all art, leisure and youth provision then there will be nothing for children and adults to do in West Lothian except shopping and staying indoors gaming. Our children deserve better as under the UNCRC.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24041	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	all these things are needed	Education	2. 24054	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	5r - could we look at integrating with WLL for means - tested / reduced cost service for low income families?	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24055	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Community centres are hardly used Yes they could get rid of some stuff but bring new stuff in like more stuff for kids e. g parks, clubs or get rid of things that are making less more You can do more activities that get kids / adults out and do it outside when nice outside and have a building like a church or something to go in if it's not good weather it to people who need it	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24056	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	No but ask for an effective fee. Allow parents opportunities to pay for their care in different clubs.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24057	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	In terms of clubs and services, these have all increased in subscriptions. It would be beneficial for the council to increase these prices; I. e golf & other leisure memberships. My personal gym membership has increased by £3 per month, it's not unreasonable for the council to do the same.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24058	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	I think you find ways to offer services at a premium to help pay for other services. We are in the fortunate position of being able to afford summer camp. I would happily pay money for a football camps - especially if I knew my son's place was helping to fund a camp place for another child. You have wealth in the region, find ways to offer things people will pay for to get money moving here.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

24073	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isn't a direct loss of service.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
24074	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	Cuts and more cuts. Some yes but the majority no. Above all, the Council must be transparent with figures and involve the community more directly in decisions.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
24077	Theme 5- Reducing Spending on Non-Statutory Services	5r - Providing Summer of Play activities and support during the school holiday period.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
24078	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. We have never been in a worse state, stop funding the nice to do and fund the must do	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24094	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Yes. They should be providing a statutory service of maintaining roads, refuse collections and recycling etc. But anything out with statutory needs to go	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24095	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Absolutely, maintain and improve core services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24096	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Yes but not everything at once. Please be mindful about our safety and wellbeing	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24097	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	I agree to reduce this spending but not at the expense of safety (i. e gritting of roads etc) also people's mental well being needs to be at the forefront, especially as these times are hard financially on all of us.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24098	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. 24100	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	I would agree although we must be looking at improvements / cuts that will ho in favour of future generations. The country is on its knees and its not going yo get any better	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24101	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Yes but we can also reduce spending on statutory services. We still provide the service but to a lesser extent	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24102	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	If it's not legally required to be provided then why would the council pay for it. You need to start thinking with private sector mindset if you have such a dire financial shortfall.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24103	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. 24108	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Any none essentials should be reduced.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24109	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala burning and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!!	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24110	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Bulletin is this necessary given the number of other information media options?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

24113	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I don't see why you couldn't make significant changes in the budget and the way things are run	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24114	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Some of these are ridiculous amounts being spent on these items and feel hugely inflated, a complete waste of money if that's the true amount. B, c, f, i, s, & a should already be gone.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24115	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. Agree with almost all proposal - however disagree strongly in 5C / 5H our children should not suffer in budget cuts. Schools and support for schools particularly our children with additional needs should be the councils biggest priority. We value the service's provided but further rationalisation is required across all the other non - statutory services to ensure we protect the children of West Lothian's future.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24118	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. 24157	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Agree that Council should look at range of non - statutory services being provided but acknowledging that many add significant economic, social, community and environmental value and benefits to West Lothian residents and communities - which without these services would potentially have an adverse impact on these very communities.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24158	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Yes, reduce spending here. I think it is still important to offer some support for less fortunate and possible at risk children during school holidays and offering days where a professional will see them in order to monitor safety	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24159	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. 24160	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	I agree with all of these ways of saving money, I know people who get a council house then let someone else live in it, most common people who are in drug related I understand the need to save money, s for the council homes that are not used for people's drug related acts this has to include looking at the fraud side this has been going on for a long time.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24161	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	To a certain extent but I would need very careful scrutiny and thought which might outweigh the benefits	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24162	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise what's the point?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24163	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24164	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	All of these are ancillary and should be eliminated. People who care about such things can demonstrate such by paying for them	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24165	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	I have insufficient knowledge of the details of non - statutory services provision to provide further suggestions. However, in the current economic position, the cessation of many of those activities listed previously is a no - brainer. I'm surprised they have not been stopped before. 5g is the most alarming item to me.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

Rather than tax more, cut the non - statutory services you are not obliged to provide,	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24253	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Some of them should be prioritised above others	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24254	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isn't a direct loss of service.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24255	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. 24268	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to deliver the services needed.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24269	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	People are already suffering with cuts and cost of living. How much does your Bulletin cost to deliver? Couldn't you ask people to opt in to getting it via email and just send to those who decline?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
24270	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	All non statutory services should be looked at to help streamline and make savings if possible, but completely stopping funding seems short sighted	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

24277	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by looking	Corporate Policy and Resources	2. 24278	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24279	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1.2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Corporate Policy and Resources	2. 24290	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Bulletin is a great resource. You are getting more older people but yet want to get rid of Bulletin (obvious demographic). You should keep Bulletin as it appeals to older people more. SO yes I agree, but only if you keep Bulletin. I know my parents, aunts etc all read it and they are older.	Corporate Policy and Resources	2. These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Corporate Policy and Resources	2. 24348	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24349	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they can't cope. Bad. This is a recipe for disaster. Stop these cuts now! Let's kids play let youth get support. Let LGBT community get support from the service.	Corporate Policy and Resources	2. 24350	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24351	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter, you'll still increase costs and reduce services. 24355	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn 't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don 't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for staff morale to keep being touted as a solution to a problem not of their making. Have some compassion and show some sensitivity!	Corporate Policy and Resources	2. 24365	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable. 24366	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Corporate Policy and Resources	2. 24371	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Totally disagree with this	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24372	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	So if the council will give up all those services who then will deliver them as there is not many in West Lothian free services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24373	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	These services are what hold our communities together and I would vehemently be against their removal. How about making savings from those who do not contribute to our communities, as opposed to those who do?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24374	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Most of the services provided appear to be important and with the exception of one or two would seem to be what's needed.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24375	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Again, too much lost already	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24376	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Cuts and more cuts. Some yes but the majority no. These are much needed services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24377	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Many of these services are essential	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24378	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	most of the non statutory services are beneficial for community as there is not any alternatives for access them apart via the council.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24379	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Although these are non - statutory services they make an important contribution to life in West Lothian and how West Lothian Council Works. The knock on effect of removing these services is far larger than is implied by the accompanying statements. In addition there are no alternative services for to fill the gaps created by their removal.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24380	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	these are important - keep them and make decisions on the big stuff where big savings can be made	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24381	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	This is the vital unseen part of what's needed in communities - this needs continual funding, especially on local infrastructure	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24382	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Most of these are vital community services which could probably benefit from more spending	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24383	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Too many depend on these non statutory services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24384	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	They may be non statutory but seem very important and if removed would significantly impact on communities.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24385	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	These cuts will impact on the community hugely	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24386	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Nope, they should be put money into the services making the services more stable not taking the money away from it all	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24387	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	I do not. This is all very important to the community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24388	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Too many cuts already	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24389	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Most of these non - stat services are services council tax payers expect to see. To remove them would be nothing short of a joke.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24390	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Feel this could be better managed but don't believe reducing / removing these services is a good idea	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

24391	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	I don't think any of this should be reduced.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24392	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	A lot of people rely on these services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24393	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Often the non statutory aspects are the buffer for those on low incomes and loss of these supports affects the physical and mental well being of the clients. Large employers should be encouraged to support more community based projects.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24394	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Cutting off from other sources not from these essential services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24395	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	With the exception of burning, Christmas lights and golf courses, these are all essential services. Surely the Council would not remove itself from COSLA?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24396	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	No I do not agree, these services are important to communities	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24397	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Absolutely not these services are vital for West Lothian	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24398	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	non statutory services cannot be cut. these services are essential to early intervention and prevention for chronic issues e. g. violence against women and girls and mental health services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24399	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Looking at the services that are provided, I am concerned that should the council stop providing these potentially vital services, it would have an impact on the local community and Services that could be removed NOT TO BE CUT (however savings could be identified in levels of non front line roles): 5s	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24400	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Some services can be removed or capped. But since you have placed them all on one category. Without being able to vote for specific ones, my answer is no	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24401	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	All of these seem vital to the community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24402	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	These services are critical to West Lothian, and some of these services helps people meet other people and also assist with these day activities. West Lothian council needs to make sure they are not making people who use these services from being affected by physical and emotional stress of not having these services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24403	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	No - absolutely do not agree. And I have already gave a brief run down of why I think this and also what my idea to improve things would consist of. To take funding away from these would be abhorrent to the people who make use of them	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24404	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	There should also be a clearer focus on local reinvestment to ensure communities benefit from any income raised. Non - statutory services need careful evaluation before cuts to ensure critical support is not lost. Above all, the Council must be transparent with figures and involve the community more directly in decisions.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24405	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	These are the services that mostly support the most vulnerable in our community. everything is important to the functioning of our society.	Corporate Policy and Resources	2. 24415	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	5s - the Bulletin provides relevant and necessary information to local residents and businesses. Any alternative method ensuring vital information is delivered to everyone in West Lothian will undoubtedly results in a greater cumulative cost to the council therefore it would make sense to retain the publication. However it could also be used to generate income, working with local business in the area.	Corporate Policy and Resources	4. The council is already doing this.
24416	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	5s - cut this in half, maybe a student could do this for free experience placement.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
24417	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	The council should only spend what it can afford to spend. If it can afford to spend on non statutory then it should but it should be well thought out and if you can't do it all maybe you do it on rotation for every year	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24418	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	Move paper info into digital - bulletin newspaper that is posted into every home - a waste.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24419	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin.	1) Bulletin to be accessed online with email advising when new edition updated by email.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
24420	Theme 5- Reducing Spending on Non-Statutory Services	5s - Providing information, education and news to customers on both council and local services, and events via the council's social media channels, and the council's newspaper, Bulletin. 24453	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala bunting and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!!	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if possible and save with the bus drivers the extra money instead of having a whole lot of people. If you have an education officer you can help with the budget.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

24493	Theme 5- Reducing Spending on Non-Statutory Services	51 - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise what's the point?	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
24494	Theme 5- Reducing Spending on Non-Statutory Services	51 - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

24570	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it 's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to delivery the services needed. None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes and preventing them from seeing people and making friends. Social isolation can be a huge health issue and is preventable. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. 24578	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	There should be no reduction in non - statutory services that deliver benefits to health and wellbeing e. g. the Ranger Service or Environmental education. Education and promotion of healthy environments is key to encouraging better choices to be made to look after the environment, leading to savings from energy and health care needs, prevention of irresponsible outdoor access. The education work provided on environmental matters likely saves the Local Authority hundreds of thousands through the benefits gained by people being able to safely access and enjoy the environments. Learning for Sustainability is an entitlement for all pupils and services delivering environmental education are critical to this! Management of habitats and ecosystems by non - stat services who do environmental work are crucial to meet the targets set by the Scottish Biodiversity Strategy and future statutory targets for Nature coming soon. Without these, WL will fall behind on tackling nature and climate crisis.	Environment and Sustainability	2. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Environment and Sustainability	2. I do think this should only be for people who live here. Environment and Ranger services are often seen as an easy target but without these services there are no connection to nature that is proven to help physical and mental health as well as overall well - being. 24599	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	While I appreciate the Council needs to focus on statutory responsibilities, it is vital that the environment of West Lothian is maintained so that residents can take pride in their sense of place. They need safe places to walk so that they can take exercise and use active travel around the area where possible and where it is safe to do. Biodiversity and climate mitigation measures are vital so that we can all live together - humans and nature all around us. Part of this includes provision of public toilets in country parks and other places so that the environment is safe for all to use.	Environment and Sustainability	2. 24602	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Below I made a comment on a particular proposed measure: 5t Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services. (£322, 000) I am unsure if the above would mean that Waste Service will not engage with the public at all, if this is the case this saving is a false saving as Waste Services cannot deliver saving and more efficient way to provide the service without engaging with the public. In my opinion, the way that environmental education currently happens needs to be redesigned to focus on education and operation support which will deliver behaviour changes and savings. 24639	Theme 5- Reducing Spending on Non-Statutory Services	51 - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... Please examine the long term future and savings / income / grants etc generated from some of these service areas	Environment and Sustainability	2. No, these services are needed.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24657	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re-evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24658	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids need music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24659	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	No as these are vital. I know you call them non-statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they can't cope. Bad. This is a recipe for disaster. Stop these cuts now! Let's kids play let youth get support. Let LGBT community get support from the service.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24660	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	If the council wants to just be a provider of last resort then go ahead and stop all non-statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Environment and Sustainability	2. 24661	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter, you'll still increase costs and reduce services. 24665	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24666	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non-statutory shouldn't diminish its importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little to reduce the council's budget. I don't necessarily think that non-statutory spending should be reduced although I do think that all spending should be considered. Many of the non-statutory items are very important to people and communities.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Difficult one, but these are the things that bind our society together. The importance of these things can be so much more beneficial than any monetary value can say.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24669	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	The problem with reducing non-statutory spending is it may make a short-term saving the long-term cost, which will have to be paid for by the council although may not be a direct cost	Environment and Sustainability	2. 24671	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	These non-statutory services often provide a life line for ordinary citizens - a simple walk in a well-maintained park, bring a bit of light into an almost mundane and grey existence which many residents experience. I don't think that the value of these can be underestimated	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24672	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	I cannot agree with reducing spending on non-statutory services. It is an easy financial win; however, the long-term consequences of reducing or removing some of these services are huge	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
24673	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services. 24677	Theme 5- Reducing Spending on Non-Statutory Services	51 - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable. 24678	Theme 5- Reducing Spending on Non-Statutory Services	51 - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Environment and Sustainability	2. 24702	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Environmental protection and community engagement through the ranger services is a non negotiable service, given the high economic deprivation levels throughout West Lothian any cuts to these services are likely to have far reaching effects on communities and remove access to outdoor education from the most deprived communities. Environmental protection through planning and biodiversity advice services is a critical part of the planning process and should be bolstered and improved, not degraded. 24724	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	West Lothian Council must not cut its ranger service, which has protected nature and supported communities since 1977. Rangers fulfil statutory duties under the Land Reform (Scotland) Act 2003, including managing outdoor access and the Core Paths Plan, while safeguarding biodiversity, heritage, and wellbeing. Other councils that tried similar cuts have backtracked. Continued investment is essential to meet obligations and protect our environment.	Environment and Sustainability	2. 24725	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Some non statutory services could be cut but and it's a big but, these non statutory services often impact on your statutory duties, for instance cutting park ranger services, will impact on your biodiversity and wider environment duty, can impact on people's health and wellbeing, so impacting on the council's duties again. This relatively small amount of saving, whilst having little impact on the overall budget deficit, could proportionately have a massive impact on the quality of experience within your parks and open spaces. 24728	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	In making budgetary decisions, WLC must note the Ranger Service's essential role in meeting statutory duties. For example, under S13 of the Land Reform (Scotland) Act 2003, the Council has a statutory duty to uphold access rights. WLC's Ranger Service enables the Council to meet important statutory duties of benefit to the public, whether resident or visiting. If an access situation escalates, a local authority may need to go to court. This is avoided by the dedicated work of access ranger teams. Their day - to - day efforts, which include speaking to the general public and land managers, mean a council's statutory duty to uphold public access rights is achieved at a far smaller outlay than expensive legal action. Reducing / losing a ranger service's capacity will make minor access problems worse, so is a false economy. ScotWays encourages the WLC to reconsider its plans in light of the statutory duties covered by its Ranger Service, and ensure it retains at least its present funding level. 24737	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	Gosh - they're all so important. Non - statutory services are often the ones that mean the most and support our communities in moving forward and totally make the difference in people's lives. I believe that spending in many of these areas in comparison has a much higher value. Having lived in West Lothian for many years, I totally appreciate the contribution of community and volunteers - I've worked with and volunteered with WLC Ranger Service and associated Friends Groups over the last years and can't underestimate their value and support in community partnership, driving projects, practical projects and genuine friendships. 24738	Theme 5- Reducing Spending on Non-Statutory Services	5t - Providing environmental education, management and patrols of open space assets, such as country parks and play parks, by the Ranger Service and Waste Services.	The Ranger Service brings a great wealth of knowledge and skills to the Council, from engaging with local communities and delivering education sessions, managing and working with volunteers, and dealing with the general public: to site and visitor management, conservation, health and safety, and promotion of the Scottish Outdoor Access Code – one of the listed statutory duties as set out in Section 4 of the Land Reform (Scotland) Act 2003. The Ranger Service (including an Access Ranger) also carries out all statutory functions related to outdoor access as set out in the Land Reform (Scotland) Act 2003. The loss of this service would result in greatly reduced outcomes across the West Lothian Council area for residents, communities and visitors alike, with particular impacts on the delivery of the Council's 'Open Space Plan', 'Climate Change Strategy', and 'Local Biodiversity Action Plan'; as well as many important outcomes highlighted in the Council's 'Local Outcomes Improvement Plan'. Check with local groups into what is needed within an area and waiting funds moving play equipment around a park. Especially when the company chosen doesn't know the area so moves it to an inaccessible, inappropriate place. Takes away equipment that was fit for purpose to replace it with move expensive substandard equipment. If you aren't willing to speak with local community groups before going ahead with plans then you should be listening to the employees that work / maintain these areas on a daily basis. No not all that have been suggested! Def some are not needed as others provide those services. Some suggested services will not save enough money such as the loss of rangers. Instead a number of services could be merged as the skill set already exists in some of the teams that could do other things as well. E. g. Ranger can help with early, mid education levels, vulnerable people, elderly etc. Where there are no other providers keep those services.	Environment and Sustainability	7. 24793	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	The parks golf clubs and tree preservation should be kept by all the areas such as skate boarding areas should be maintained more by the tenants who have young kids should be with the kids as older boys and girls use such areas to smoke cannabis taking drugs of any kind but they are doing this in front of the smaller kids. I've actually saw this in a few places drinking is unacceptable in front of these younger children who actually enjoy the skate parks, this isn't somewhere I want my grandson to see all this happening we can't interact with the older kids I'm disabled I use an electric scooter to go with my grandson, personally I'd cut down in areas such as parks my daughter plants trees herself to encourage animals such as deer and more, we certainly don't need more parks. Take some away to save maintenance on them.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
24794	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala bunting and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!	Environment and Sustainability	1. 24800	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Yeah absolutely these are all things that could be readjusted... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I don't see why you couldn't make significant changes in the budget and the way things are run	Environment and Sustainability	1. 24853	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise whats the point?	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
24854	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
24855	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	All of these are ancillary and should be eliminated. 24963	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to delivery the services needed. 24971	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Environment and Sustainability	2. 24972	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

24982	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Environment and Sustainability	2. 25015	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative. ... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... 25033	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven 't the older houses been re - evaluated, I don 't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

25034	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they cant cope. Bad. This is a recipe for disaster. Stop these cuts now! Let 's kids play let youth get support. Let LGBT community get support from the service.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25035	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25036	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter, you'll still increase costs and reduce services.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25037	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	reads like a dereliction of duty here.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25038	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Protect all the stated services here. Has anyone projected the disaster this can and will cause if this goes ahead.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25039	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	No, you are cutting to the bone not to the benefit of the people of West Lothian.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25040	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn 't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don 't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for staff morale to keep being touted as a solution to a problem not of their making. Have some compassion and show some sensitivity!	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25041	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	I don't necessarily think that non - statutory spending should be reduced although I do think that all spending should be considered. Many of the non - statutory items are very important to people and communities.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25042	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Difficult one, but these are the things that bind our society together. The importance of these things can be so much more beneficial than any monetary value can say.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25043	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	The problem with reducing non statutory spending is it may make a short term saving the long term cost, which will have to be paid for by the council although may not be a direct cost	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25044	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25045	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	I cannot agree with reducing spending on non - statutory services. It is an easy financial win; however, the long - term consequences of reducing or removing some of these services are huge	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25046	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Dumbfounded someone actually costed losing these facilities. 25049	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	No we need these it 's important there 's hardly anything out there Go tax the big wigs with money more instead of coming after the poor!!!!	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25050	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in other areas.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25051	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated that the council are considering cutting these services which are so important to our communities and people.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25052	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	A lot on non statutory services are required and relied upon by us as public members whether you see it as non statutory or not, it is in the eyes of the public	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25053	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Lack of non statutory services just puts pressure on statutory services and is therefore an inefficient response.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

25079	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	I do not agree that the Council should reduce spending on non - statutory services. These are the very services that hold our communities together — the ones that make West Lothian a place where people want to live, not just exist. Things like local regeneration may not be required by law, but they are vital to real life on the ground. They give young people positive outlets, help older residents stay active and connected, and support families who already feel forgotten.	Environment and Sustainability	2. 25121	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	I worry that my definition of efficiency and the councils don't align. Such as stopping grass cutting	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
25122	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Try cutting the grass on road verge's and roundabouts, also cut the grass at the side of the footpaths not just a strip, instead of saying you are letting it go back to nature what a load of bull. When we first moved to Livingston it was a nice place, now it is turning into a dump, I am ashamed to bring visitors here.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
25123	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	I am less sure about some, such as the maintenance of golf courses	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
25124	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Consider all of these to be important. We would support efficiency savings if that can be achieved but this should not come at the cost of reduction of quality of service.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
25125	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isn't a direct loss of service.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
25126	Theme 5- Reducing Spending on Non-Statutory Services	5u - Grounds maintenance and upkeep of public amenity golf courses.	Cuts and more cuts. Some yes but the majority no. 25161	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I dont see why you couldn't make significant changes in the budget and the way things are run	Education	1. The respondent advised that they agree with the proposal.

25201	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather ensuring they are funded appropriately. All of these are ancillary and should be eliminated. People who care about such things can demonstrate such by paying for them	Education	1. The respondent advised that they agree with the proposal.

I have insufficient knowledge of the details of non - statutory services provision to provide further suggestions. However, in the current economic position, the cessation of many of those activities listed previously is a no - brainer. I'm surprised they have not been stopped before. 5g is the most alarming item to me.	Education	1. The respondent advised that they agree with the proposal.

Almost all of the above should be reviewed to assess the impact of this spend has on achieving councils core priorities and to see if it duplicates / competes with third sector or other stakeholder provision. Could some of this provision be delivered as well / better by other agencies e. g. NHS, college, charities or the business community. Is the provision needed in an AI world where people can access a wealth of information in other ways?	Education	1. The respondent advised that they agree with the proposal.
25211	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	Reduce spending in all non statutory services before cutting statutory services. Parliament has decided which services are statutory, and funds councils to provide them. Don't risk the effectiveness of statutory services by throwing this money away where its not required. Stop some spending completely i. e anti - poverty, regeneration, non - statutory school busses.	Education	1. The respondent advised that they agree with the proposal.

None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes, excluding their voices from social media. -Amoral, intolerant, arrogant and inferior, you are authoritarian! There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1.2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Education	2. Pupil placement has been valuable in putting new starts for nursery onto Seemis and the office staff finding it a lot easier to add start dates and bring them into the system for their school though this is not consistent and some go on and others do not. The systems we are using at the moment are needing updated and easier to work rather than repeating on the systems the same information it would be better if it was just step by step and less mistakes would be made in all of this. Kids need music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25362	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they can't cope. Bad. This is a recipe for disaster. Stop these cuts now! Let's kids play let youth get support. Let LGBT community get support from the service.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25363	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Education	2. 25368	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn 't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don 't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for itself outside the basic service itself and with regard to the wellbeing of the population. The services are essential and should not be cut.	Education	2. 25378	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25379	Theme 5- Reducing Spending on Non-Statutory Services	5v - Education business and customer support service which provides pupil placement and support to individual schools with HR, health and safety, and financial advice for head teachers.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It 's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Education	2. Ref to section 5 as didn't have enough words Section 5v – removal of any part of Education business and customer support service would push functions such as pupil placement onto schools which have no spare capacity to deal with it. Removing advice on issues such as HR and health and safety runs the risk of bad decisions being made in schools by people who do not have the qualifications and skills in these areas (because they trained as teachers not in these other professions), potentially causing major issues for the council down the line. There is no spare capacity in schools to take on any of these functions, and to push them onto schools will lead to schools having to stop using staff time on other activities which contribute directly to pupil welfare and achievement. This support has already been reduced in previous years and the additional work load placed on Head Teachers in school. Care needs to be taken not to simply remove jobs and place this work load onto the remits of others with no additional hours to undertake this. I feel that absence rates in education is a concern and often linked to stress of having to cover / fill in for others on top of their own work load which is unsustainable.	Education	2. 25481	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	The parks golf clubs and tree preservation should be kept by all the areas such as skate boarding areas should be maintained more by the tenants who have young kids should be with the kids as older boys and girls use such areas to smoke cannabis taking drugs of any kind but they are doing this in front off the smaller kids, I've actually saw this in a few places drinking is unacceptable in front off these younger children who actually enjoy the skate parks, this isn't somewhere I want my grandson to see all this happening we can't interact with the older kids I'm disabled I use an electric scooter to go with some friends and we go to the park and we see all this stuff and we don't know what to do about it. I don't want my grandson to see all this stuff and we don't know what to do about it. I don't want my grandson to see all this stuff and we don't know what to do about it. 25482	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala bunting and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!!	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
25483	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders. 25485	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	Yeah absolutely these are all things that could be readjusted... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... If you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... If certain positions are overstuffed and could be done with less cut down.... If one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc i dont see why you couldn't make significant changes in the budget and the way things are run	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

25520	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	I agree with all of these ways of saving money, I know people who get a council house then lets someone else live in it, most comen people who are in drug related I understand the need to save money, s for the council homes that are not used for people's drug related acts this has to include looking at the fraud side this has been going on for along time.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
25521	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	To a certain e tent but I would need very careful scrutiny and thought which might out weigh the benefits	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
25522	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise whats the point?	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
25523	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
25524	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	All of these are ancillary and should be eliminated. People who care about such things can demonstrate such by paying for them	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
25525	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	I have insufficient knowledge of the details of non - statutory services provision to provide further suggestions. However, in the current economic position, the cessation of many of those activities listed previously is a no - brainer. I'm surprised they have not been stopped before. 5g is the most alarming item to me.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

25597	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to deliver the services needed. 25600	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	Environmental protection and community engagement through the ranger services is a non negotiable service, given the high economic deprivation levels throughout West Lothian any cuts to these services are likely to have far reaching effects on communities and remove access to outdoor education from the most deprived communities. Environmental protection through planning and biodiversity advice services is a critical part of the planning process and should be bolstered and improved, not degraded. 25603	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Environment and Sustainability	2. 25604	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25605	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders. 25609	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5i. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Environment and Sustainability	2. 25643	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... 25660	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25661	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
25662	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they cant cope. Bad. This is a recipe for disaster. Stop these cuts now! Let 's kids play let youth get support. Let LGBT community get support from the service.	Environment and Sustainability	2. 25663	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Environment and Sustainability	2. 25664	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter , you'll still increase costs and reduce services. 25668	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn 't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don 't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for staff morale to keep being touted as a solution to a problem not of their making. Have some compassion and show some sensitivity!	Environment and Sustainability	2. 25678	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in	Environment and Sustainability	2. 25679	Theme 5- Reducing Spending on Non-Statutory Services	5w - Planning enforcement action beyond the statutory minimum and delivering initiatives such as the promotion of tree preservation orders.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I dont see why you couldn't make significant changes in the budget and the way things are run	Corporate Policy and Resources	1. COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Corporate Policy and Resources	1. Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Corporate Policy and Resources	2. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1.2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Corporate Policy and Resources	2. COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re-evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Corporate Policy and Resources	2. 25933	Theme 5- Reducing Spending on Non-Statutory Services	5x - Membership of the Convention of Scottish Local Authorities (COSLA). COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids need music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Corporate Policy and Resources	2. 25934	Theme 5- Reducing Spending on Non-Statutory Services	5x - Membership of the Convention of Scottish Local Authorities (COSLA). COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they can't cope. Bad. This is a recipe for disaster. Stop these cuts now! Let's kids play let youth get support. Let LGBT community get support from the service.	Corporate Policy and Resources	2. COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for staff morale to keep being touted as a solution to a problem not of their making. Have some compassion and show some sensitivity!	Corporate Policy and Resources	2. COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Corporate Policy and Resources	2. If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Corporate Policy and Resources	9. COSLA works on the behalf of Councils to engage with governments and others on policy, funding and legislation.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable. Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala burning and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!	Economy, Community Empowerment	1. Yeah absolutely these are all things that could be readjusted... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window... if certain positions are overstaffed and could be done with less cut down... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there 's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc i dont see why you couldn 't make significant changes in the budget and the way things are run	Economy, Community Empowerment	1. 26122	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Economy, Community Empowerment	1. 26212	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it 's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to delivery the services needed.	Economy, Community Empowerment	1. The respondent advised that they agree with the proposal.
26213	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	All non statutory services should be looked at to help streamline and make savings if possible, but completely stopping funding seems short sighted	Economy, Community Empowerment	1. One potential area of saving would be the money given to voluntary organisations. Whilst some are invaluable to the community, there are others that are duplicates and their cost could be reduced by amalgamating with similar organisations.	Economy, Community Empowerment	1. The respondent advised that they agree with the proposal.
26216	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	West Lothian Litter Pickers or WLLP are a vital part of our community and should be recognised for the work they do! Starting off as a small group of volunteers which has grown due to the demand within West Lothian. The service they provide should not be limited, reduced or done away with it should be invested in. The state of the local areas will only get worse without WLLP. If my voice and my options truly matter then show it by investing in this vital community service.	Economy, Community Empowerment	2. None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and ications where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Economy, Community Empowerment	2. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. Many of non statutory expenses are critical to the wellbeing of many. Volunteers provide a hub service to support those with cancer diagnosis. Without this service clients receiving unexpected life changing diagnosis have nowhere to turn. Impact on well - being, family, finances is immeasurable. It is a lifeline for many at the lowest point of life. Health inequality and age both factors. NHS provide medical support only. LB Strategic Plan should review how it interacts. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Economy, Community Empowerment	2. Agree that Council should look at range of non - statutory services being provided but acknowledging that many add significant economic, social, community and environmental value and benefits to West Lothian residents and communities - which without these services would potentially have an adverse impact on these very communities. It should also be strongly recognised that many non - statutory services being provided by dedicated Council officers (such as Economic Development,) are done so without use of core Council funding (e. g. externally funded sources). These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re-evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Economy, Community Empowerment	2. Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they can't cope. Bad. 26299	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Economy, Community Empowerment	2. There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for the people of West Lothian to have their services reduced and their communities weakened.	Economy, Community Empowerment	2. I cannot agree with reducing spending on non-statutory services. It is an easy financial win; however, the long-term consequences of reducing or removing some of these services are huge. Services such as community support prevent many people from needing statutory services through improving health and wellbeing, life chances, and developing community assets and opportunities. 26316	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable. 26317	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. This is the vital unseen part of what's needed in communities - this needs continual funding, especially on local infrastructure	Economy, Community Empowerment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26335	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	Most of these are vital community services which could probably benefit from more spending	Economy, Community Empowerment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26336	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	Too many depend on these non statutory services and alienating tourists mean income moves elsewhere	Economy, Community Empowerment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26337	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	Non - statutory services often play a vital role in supporting communities, especially where statutory services fall short. Cutting these would be short-sighted. Many of these services like community development, and mental health support—are essential and can unlock further investment if managed strategically. By working in partnership with third sector organisations, the council could access grant funding for regeneration and community programmes. These services not only improve wellbeing but also reduce long - term demand on statutory services. Rather than viewing	Economy, Community Empowerment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

26353	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	No — cutting non - statutory services might seem easy on paper, but these are often the very services that make the biggest difference to daily life. Things like community regeneration	Economy, Community Empowerment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26354	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	I do not agree that the Council should reduce spending on non - statutory services. These are the very services that hold our communities together — the ones that make West Lothian a place where people want to live, not just exist. Things like youth work, adult learning, festive events, environmental education, and local regeneration may not be required by law, but they are vital to real life on the ground. 26387	Theme 5- Reducing Spending on Non-Statutory Services	5y - The provision of a service which works with individuals and community based projects to assist regeneration, and to deliver targeted campaigns and support to reduce inequality in these communities, and associated financial support to the voluntary sector.	Get secondary (and perhaps some primary age children depending on what it is) to contribute to community projects and activities as well as retired people or those who are not able to work but are seeking to do something positive. This can be in so many different areas of council services, for example the state of the green areas especially on roundabouts in Livingston area are so neglected and would be nice to put some better looking plants and flowers there to enhance the area. By including people who live here in community projects people are more likely to take care of the area ~~there could be a lot of work done and also them doing it, they can be encouraged to help out the council and also the council could be additional~~	Economy, Community Empowerment	4. The council could organise and run initiatives that are devoted to tidying up local communities through local volunteers willing to devote their time. For example, where the council spends money on garden or nature clean ups, there may be ways to galvanise community volunteers. This could save staff time and let them focus resource on other areas as well as introduce more community spirit. The council acting as the facilitator would likely make this more successful than purely community led initiatives.	Economy, Community Empowerment	6. The respondent suggested an improvement. 26467	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala bunting and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!!	Economy, Community Empowerment and Wealth Building	1. The respondent advised that they agree with the proposal.
26509	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lofian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but rather reviewing them to identify efficiencies, reduce duplication, or explore alternative delivery models such as working in partnership with communities or voluntary groups. It's about making difficult but necessary choices to protect vital frontline services and maintain financial sustainability over the long term.	Economy, Community Empowerment and Wealth Building	1. West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to deliver the services needed. 26596	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	Yeah absolutely these are all things that could be readjusted... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if possible. Not sure how much of this is possible but it's worth considering. If you have a problem then you can't blame it on the budget.	Economy, Community Empowerment and Wealth Building	1. 26603	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes relieving their news from social media. Again! Internal saving first before you cut externally	Economy, Community Empowerment and Wealth Building	2. 26604	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it. The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5i. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1.2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child. 26647	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!.... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... Please examine the long term future and savings / income / grants etc generated from some of these service areas	Economy, Community Empowerment and Wealth Building	2. These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids need music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. 26667	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Economy, Community Empowerment and Wealth Building	2. 26672	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it 's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it 's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little to reduce the council's budget and it does nothing to improve the lives of the people of West Lothian. I don't necessarily think that non - statutory spending should be reduced although I do think that all spending should be considered. 26682	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable. 26683	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. 26728	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	The council should only spend what it can afford to spend. If it can afford to spend on non statutory then it should but it should be well thought out and if you can't do it all maybe you do it on rotation for every year	Economy, Community Empowerment and Wealth Building	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26729	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	Stop disbursements and ask Councillors to put the money towards lights and bunting which helps all communities	Economy, Community Empowerment and Wealth Building	6. 26733	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	Consider all of these to be important. We would support efficiency savings if that can be achieved but this should not come at the cost of reduction of quality of service.	Economy, Community Empowerment and Wealth Building	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26734	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects.	There are a lot of non statutory services that people feel are an entitlement with no willingness to contribute to the cost these should be reviewed or cancelled.	Economy, Community Empowerment and Wealth Building	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26735	Theme 5- Reducing Spending on Non-Statutory Services	5z - Disbursement payments which are small sums of monies provided to community groups for local projects. 26739	Theme 5- Reducing Spending on Non-Statutory Services	Sz - Disbursement payments which are small sums of monies provided to community groups for local projects.	Some of the areas highlighted are critical for the residents of west lothian and further investigation would be required	Economy, Community Empowerment and Wealth Building	9. The respondent made a comment on the survey question
26740	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes - I am shocked at the list of things that are provided here. I come from a country where we pay for all these things. BUT perhaps instead of not offering it - do these things at a price or reduced cost? For instance - why are you paying to cut golf lawns - only a few elite play golf so let them pay a surcharge for grounds maintenance.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26741	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes — given the current financial situation, it is clear that the Council should reduce spending on some non - statutory services. However, this must be done very carefully to ensure that cost - cutting does not negatively impact the quality of life of those who rely on these services. Each area of spending should be reviewed individually to identify where savings can be made with the least harm to the community. Some services, especially those supporting vulnerable people, should be protected as much as possible, while less essential activities may be reduced or reorganised to use resources more efficiently.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26742	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reduce each service proportionally	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26743	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Less non - statutory services and staff needed.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26744	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Concentrate on services that you are legally responsible for not services that you are not obligated to do	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26745	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cut non statutory services. Breakfast clubs.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26746	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	stop funding to anything that is not for the most vulnerable people that reside in west Lothian	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26747	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	A small charge to use these services? When I mean small under £10 per month?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26748	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I agree with reducing some of the services listed but not all.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26749	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Well they can try and cut it down a bit try and spend it wisely	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26750	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I do agree that the council should reduce spending on non - statutory services that are aimed at children - they get enough of the budget as it is. For some services that are aimed at adults, such as learning courses, these shouldn't be reduced and should be actively promoted.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26751	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I am still new here but perhaps stop providing so many services - cut some of them or make people pay!	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26752	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	St Cut services that are no longer required or are wasteful and use them on tidying up local areas instead.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26753	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There was a lot mentioned where savings could be made as long as basic needs and poverty are cared for.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
26754	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Again money needs to be saved, but in the right places. Non - Stat services deliver much valuable support to families, communities, and individuals. Savings must be sought from the appropriate ones and made with consideration of potential knock on impacts.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26755	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Re imagine, reshape redesign but do not remove services, the council is very responsible and reliable some might disagree but the council are imperative in creating non statutory services, the council may save money in shorter term by not providing these services but will create bigger problems later, the framework for running the council is a blueprint that can be enhanced and re imagined but not removed altogether, can end over management to local trusts, volunteers groups, charity groups, shared services with neighbouring councils, preventive investments, prioritisation of services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26756	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Because there is to many services being cut that we need if you cut anymore there will be nothing left	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26757	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Councils should not reduce this. They need to increase joint up working	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26758	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	All these services are important. Just across the board say a 10 % reduction.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26759	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If you remove these services, you will be removing a lot of what the community see as a benefit to having a council.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26761	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	In some of these areas but you cannot cut education and EKL funding anymore. Some nurseries has very limited resources as it is	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26762	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I also dont agree to cut budget in education as that will impact how well prepare the new generation will be prepared for the future.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26763	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Do not take everything from education. We already see what is happening due to lack of care and we must not put the future of West Lothian at risk.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26764	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Youth Services there is less this year than there was last as they have had several cut. So wrong right to a safe place to hang out with friends during puberty so so important. It takes a village to raise a child! Therefore should be protected by the local authority and local MSP and MPs.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26765	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	But the education services are very important, early years especially	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26766	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	And there are a number which should absolutely not be eliminated or have their funding reduced..	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26767	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	some of them are low cost but encourages good community moral which you cant put a price on	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26768	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reducing these services may save money but the effect local community services and morale. Try facilitating these services in other ways. People on things like job seekers allowance who are able to work should be completing community services where funding is being reduced like litter picking, grass cutting services, galaday support, support with the elderly. Not just getting free money.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26769	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If all of the issues listed were applied it is effectively the Council ceasing to do anything. Whilst accepting that the Council has a Statutory responsibility to balance its budget but this year - on - year reduction of services needs to be pushed back. The savings on school busses will be negated by closing schools.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26770	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Care should be taken on what reductions are made in view of the effect on residents health and wellbeing.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26771	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	State assets are everyone's assets. Reducing these and selling them off increases inequality.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26772	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	These services are vital and should not be getting cut	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26773	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Have a word with yourselves! The amount of council tax paid and your mismanagement of funds is a joke! Some of these services are a crucial life line to people and children.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26774	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	A lot of that stuff sounds too important to people. Although, some, not so much.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26775	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I certainly don't agree with many of them.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26776	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Although it looks like there could be savings in reality it would cost more. For example getting rid of the subsidised bulky uplift will encourage fly tipping and that is expensive to clear up Putting bunting up for Gala says helps underfunded comitees do something good for community promoting inclusion etc	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26777	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reducing these services only causes problems for the future. The money spent trying to solve these problems will be far more than any temporary reductions	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26778	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If council reduce spend on non stat services. Statutory services will feel pressure and stress and pick up this work as workers parent teachers young people. committees and our local. athority workers do therefore increasing pressure on MH and WB and stress and heart issues. Quite negligent really.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26779	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Many of the non - statutory services provided are vital to the health and wellbeing of communities and, in some cases, are regarded highly by the public. Indeed, many of the services mentioned actually provide more to the lives of citizens than some statutory services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
26780	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	These may be non statutory services but for many people these are critical to their wellbeing. If you cut these off you will more than likely increase spending elsewhere.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

26835	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There are not many if any services I would agree with removing entirely there but surely their delivery can be optimised. Could some delivery be provided through charities?	Corporate Policy and Resources	4. The council is already doing this.
26836	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Like everything else, there are areas of spending that can be reduced, however a large amount of spending mentioned is essential for the good of the local community. The Council should look internally at their policies and procedures, and at the way employees are managed by senior staff. More efficient management leads to more efficient services leads to more efficient spending and less waste.	Corporate Policy and Resources	4. The council is already doing this.

26872	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	non - statutory services are the basis of a thriving community. You cannot offload everything to the private citizens. I don't really have suggestion at this time but the brown bin tax is an extortion, considering that the allowance of black bins is ridiculously low. Not sure if wrote this here already, but increase opening hours of recycling centers to encourage proper disposal, rather than spending money dealing with fly tipping	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
26873	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The council could hang permanent decorations for Christmas, Bonfire Night etc organised council at each West Lothian Patch Areas where Tenants could contribute towards for clean up and installing new decorations when required and would save on £88,000 expenditure on hanging up and taking down, also putting in designated areas where customers can take unwanted items white goods and other unwanted items at certain times of the year to cut down on fly tipping and some of these items could be recycled and sold of to companies looking for old parts. Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26881	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Education improvement: there are a number of individuals on significant wages that are, in essence, 'quangos' and do not in my opinion justify their high wages. The use of AI (e.g. Power BI co-pilot functionality) and streamlining the chain of bureaucracy to avoid the substantive 'top down' approach in WLC's education management would be welcome for both economic and morale purposes amongst frontline staff.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26882	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Additionally, investing in recreational infrastructure—such as a sports centre or a family-friendly Lido with children's activities like soft play—would make the area more attractive to both residents and newcomers, fostering long-term growth and community well-being. 26887	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	As mentioned earlier the council needs to EMPOWER local residents. Tighter scrutiny (if not already do so) the contractors quoting for the jobs. Its not uncommon for contractors to inflate prices just because of it being the public purse.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26888	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The use of partnership centres on Tuesdays when there is a non public service provided, they should close the building on these days, or cut the staff on these days.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26889	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	We used to have 3 grit bins on out street, and neighbours took responsibility for the pavements on our street. Removing them might make it easier to remove the need to top them up, but you're now having to provide this service on residential pavements.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26890	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If management of open spaces and public golf courses could be better linked up to education and allow for WLC to provide these services but also learning and employability experiences then this could create some savings as well as opportunities.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.

The respondent suggested an improvement. Officers will consider how this could be developed.
26893	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	- 2 - Similarly reducing street lighting in residential areas - particularly cul de sacs with dead ends with no pedestrian thoroughway. Light pollution from houses alongside security lighting and outside lights is more than enough for the residents to find their way to their front door. Less mowing.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
26894	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I suggest that a target spend reduction is set by the council. I suggest a 25 % reduction per annum and councillors should decide which services are reduced. If that figure was achieved, it would save over £10mn per annum. I do think that the festive decoration lights expenditure is completely unnecessary and should be stopped immediately.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.

The respondent suggested an improvement. Officers will consider how this could be developed.
26898	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Make West Lothian a safer and more enjoyable place to live and more people will want to live / move here. A lot of people are desperate to get out as it's such a crime ridden and depressing place to live. If you focus on improving the community spirit and trying to bring people together more whilst also tackling the crime etc then more people would be happy to live here. There are many lovely nature areas in West Lothian, and if you improve events / social life factors then it could really be an enjoyable place to live. Instead of cutting services that people need to live (that are barely meeting their needs as it is) and increasing employee benefits etc. put money into planning community events etc and making the place a more enjoyable place to live then revenue could potentially improve. A small fee could be charged for these events and then profit used to improve services	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.

26909	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	English classes for foreign individuals, such as my husband of 33 years in Scotland, should be reinstated and restarted as a priority. They need this for citizenship, and not all residents can travel or cope with university, even if west Lothian college had a class it would help these individuals immensely These services should be reinstated at a minimum. All the rest would depend on need, on how far the cuts go, but cuts should not affect the community too deeply	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26910	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	On a very broad overview it would seem to be a simple matter to 'shave off' savings on higher budget organisations rather than remove funding for lower budget organisations. 26929	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes I agree. Households with children using non - statutory for their children should be required to pay for at least some of the service they require. They chose to have children therefore they should be prepared to pay for the services they wish to use. Households with no children should not be expected to help cover these costs.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26930	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I would keep a few of the other services. A department meeting for reducing costs where possible would be good.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26931	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There's a balance to be made here as people need to take more ownership and responsibility for their own actions e. g., complaining too much and receiving benefits or extras when they shouldn't really get them. A firm no, and that decision stood by, rather than worrying about hurting someone's feelings needs to be made. There's too much consideration for every single variation these days; if you can walk to school or work then do it, no excuses or taxis in case you get a blister and suffer "emotional damage". Get a grip.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26932	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Some of the service cuts I don't really agree with but many could be removed. It would be interesting for people of West Lothian to see exactly where and how all their council tax money / government funding is used.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26933	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Some of the services should be removed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26934	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think we can invite private sector enter into the market, rather than supplying by council.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26935	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	People should pay for these services if they want them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26936	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Some of these items are a complete waste of money	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26937	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	some I feel could be less, but some maybe already struggle. It has to be about what is important for the people who live here. There are many things which I feel the public could potentially volunteer to help with.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26938	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reduce spending by closing non essential services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26939	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes, but not all the suggestions you have made. Some are good areas to reduce but others really add to community spirit.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26940	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes - however not broadly. I think a further consultation on this, allowing more detailed input should be considered.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26941	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Agree that as an umbrella look services could be cut back in areas but not outright halted, a major factor or financial point to make on services is why not get away from pre covid way of approaching public dumps instead of appointment slots and greatly slowing down availability of what is an open ground for public to use service why not bring in a charge system for private cars / vans and commercial vehicles pay to dump / use or recycle this would not only encourage the community to use facilities and offset costs of running facility and also reduce to amount of flytipping which in turn ~~reduces the need for more vehicles and should be using a more practical and appropriate approach to waste management as a whole a better point of~~	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26942	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Focus on the minimum required by law	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26943	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Non - statutory services should be run / provided by local communities, and funded by those that want to use them.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26944	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Again this depends on what	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26945	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If it helps to meet demand cut some services that could be met by others or should be met by parents...	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26946	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes. As said before, council should ensure safety and minimum quality of life for the community. I don't think councils should be fully socialistic. This kills appetite for businesses locally.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26947	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It may have to.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

26949	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is not a black and white answer and is rather complex.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26950	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	On the point of subsidy to bus routes, why is that even a thing. A bus company should be reaching all areas in the community and not be funded to put on a certain route because they have decided they don't want to go that way due to less people using it. The main reason people don't rely on the bus service is because it's unreliable. Buses should not be in competition with each other, they should pull together to cover all routes, ergo less cars on the road as people will rely on them.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26951	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes, but with VERY CAREFUL THOUGHTS to provision of services to C & YP and the elderly.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26952	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes in certain areas, but not in all of the area's you suggest, it's ludicrous that you can even think of doing so, we will never achieve anything if the "powers that be" in this Council think like this!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

26954	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	However I don't agree with spending cuts on some of the items you have highlighted where costs can be saved. You need to be careful that you are still providing a service to the residents of West Lothian that makes them feel safe.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

26956	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The list is extremely extensive, its very difficult to answer that specific question as there are definitely elements of your a - z list that funding should stop for, however that said, there is also a number of non - statutory services that the council should continue to help provide	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26957	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This needs proper consultation with community members first	Corporate Policy and Resources	7. 26959	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes and no: yes reduce amount especially on services that are not meeting high targets or demands look at third sector organisations that are doing their best to meet the needs of families, mental health, re - introducing young people into education, support, financial support, extra curricular activities these are beneficial as it is helping educational setting, social work, police and the NHS with the work load they are now unable to manage. Yes some cuts are needed but for others its keeping the economy going into a positive alignment you take them all away I fear you will destroy what is left of society actually working and managing because everything else is failing massively in its current state. West Lothian is in crisis	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26960	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	A lot on here eg 5r 5q are geared at disruptive children instead of children with serious health conditions. A lot in this list I didn't even know existed having a child with disabilities and the youth services we cannot attend as disruptive children and parents having punch ups attend pushing out disabled kids.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26961	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There are some things in that list that could be considered for removal or at least a reduction of money towards those services, it all comes down to the potential impact of removing the service.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26962	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Be careful on what you choose to stop as some of these would have a massive impact on people - especially young people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26963	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Do the basics and do them well. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26964	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	To some degree.... not totally about this but looks like you'll be stripping services to the bone. Such a shame no doubt the most vulnerable and probably your lowest scale workers will be the ones bearing the brunt of your savings plans while the higher ups likely unaffected	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26965	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If they don't need to spend on certain things they don't need to spend	Corporate Policy and Resources	7. 26977	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Looking at the breakdown there are definitely things that could be cut back on while they are nice to have non essential should always be reviewed first.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26978	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes and no!!! There are a lot of the above that can be taken away it just takes a brain to decide which ones.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

26982	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Certainly some of these services could have savings. However bear in mind once services are cut then what happens? It feels like we are going backwards rather than forwards...	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26983	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Need to be very careful about which services are reduced because some of these help maximise income of some of the most vulnerable residents.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26984	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I work in roads department, we are currently driving 10 year old HGVs while all the other departments are driving 75 plate vehicles... not to mention the amount of brand new vehicles that are sitting parked up never been used. 26985	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	review the costs of providing non - statutory services and charge an appropriate fee for use to ensure services are cost effective and potentially profitable	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26986	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Many of these things are already provided by charities and private companies and so these services can be paid for when needed by individuals instead of relying on a common and often over charged pot.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26987	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This needs looked at carefully and prioritised many of the things listed could be cut but others should be kept a degree of common sense needed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26988	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Many of the remaining non - statutory services listed support and give opportunities to the most vulnerable members of our community, Removing them will simply tip these people into then needing access to statutory services. 26989	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Others could be looked at, for example ways of working should be updated and improved to provide savings rather than removing services completely. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26990	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Don't cut essential support services, the government are doing enough of that on their own.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26991	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Which services are being used the least? These ones should be the ones to go.	Corporate Policy and Resources	7. 26992	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Don't take away services that will help with this like anything to do with kids or education or benefits.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26993	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I am assuming that you have figures about which of these services are most used and provide the most effective return to the community and the council. Some will be bringing in revenue to the area and ensuring that we are effective in the future. These are the ones you should keep.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26994	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Anything to do with young people is an investment in the future. Other things need to be looked at with a fine tooth comb. Need to consider what could be managed by more effective community volunteer involvement.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26995	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I don't agree to cuts in all the facilities mentioned in the section. While some of the facilities are non - critical and may only cause inconvenience, there are some like those for vulnerable which are critical to society and well being of individuals. Cutting the facilities for uplifting the vulnerable will be counter productive to the society and cause more harm than good. So also are some facilities for environmental sustainability which need to be taken forward. It would be best to have consultations in the affected areas when making amends to really understand the impact of the change. It would rather be beneficial to amend the charges for the service. Each amendment needs to be carefully considered with the cost benefit to detrimental impact to the residents or beneficiaries of specific services.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26996	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	But I don't agree with all of this list. Any services for vulnerable families and young people that add quality to their lives and give them options a d Hope are important.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26997	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes, but you've only set out around £14m here from a total of £42m non - statutory services. With a forecast budget deficit of £23m you need to look at the entirety of the £42m non - statutory services. The £28m not included on your list in this consultation would cover the budget deficit. It seems a bit secretive and non - transparent.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26998	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It would appear that WLC can cover the deficit if it works hard to look at all costs. Your goal should be to stop increasing Council Tax. Squeezing the middle is driving people out of Scotland.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
26999	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	You will do what needs to be done. But be very wary cutting some non statutory work will likely result in some people requiring statutory services at a later point!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27000	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is hard as I did not know what was non statutory things you did the list is pretty big and most of it I feel is essential	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27001	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Emigration - Stop putting up people in hotels and spend the money on adult day services. We as members using day centre (Braid House) need this service for socialisation (in person).	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27002	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think the council should cut down on costs that are not necessary.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27003	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I feel like a lot of that people don't know about and people wouldn't want a lot of money going towards	Corporate Policy and Resources	7. 27005	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Get back to basics. Leave superfluous to charities. 27008	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Investment in the essential services and supports that third sector orgs deliver is essential. The sector is trusted by communities and embedded into the fabric of society. Monies for the sector should be increased not reduced. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27010	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Non statutory services should be 'offloaded' to another public body / organisation. They are NOT the responsibility of the council.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27011	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	wow - I have never ever lived in a country which does all this for free - if there is no need for the service - delete. If there is a need - introduce a reduced cost	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27012	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is non sensible. Many of the non statutory services were introduced in previous years as a way to reduce demand on statutory services. Early intervention activity is an essential activity to reduce the pressures on statutory services, so why are you proposing cutting them??? This will most likely just put up costs. Does this not fly in the face of previous recommendations from reviews such as the Christie Commission?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27013	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Its perhaps time to focus on delivering statutory services within budget and efficiently then re - evaluating non - statutory. 27014	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is very difficult one. A cost benefit analysis must be prepared for each of the proposals, bearing in mind how closure may effect others services re increase costs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27015	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This should be determined by what is necessary rather than a support need.	Corporate Policy and Resources	7. 27016	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I do not think that cutting services that helps empower, educate and support often those most vulnerable members of society is a sensible option	Corporate Policy and Resources	7. 27019	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think some of the non statutory services could be reduced, however a lot of good work is achieved from the financial support, of the council. I think the priority has to be the most vulnerable, in our communities. If we can safeguard them in this much needed process, not an easy task. Good luck.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27020	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	While there a few of these services which could be reduced, the majority are the difference between a confident Council and one providing the bare minimum.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27021	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think cuts of non - statutory services should be made wisely. There is no point to cut budget if that would mean that council will incur further cost.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27030	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Make use of charities within West Lothian to deliver some of these services more cost effectively and with grants from other avenues.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27031	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	• any reduction in non - statutory services should be as a result of a very detailed best value assessment. For example, other local authorities have, after detailed studies, relented on discontinuing home to school transport where the distance is below the statutory minimum. Generally, because of enormous parent pressure which proved that there were no safe routes to school in many instances. In Linlithgow for example there are no safe cycling routes east to west in the town and certainly none to the Academy.	Corporate Policy and Resources	7. 27054	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There may be some non - statutory services which could be trimmed or delivered in different ways. For each need to be clear as to what is to be achieved and fit the staffing to that. Some of the items support a statutory / legal obligation eg Waste Services supporting West Lothian Litter pickers - joint effort by council and residents makes a real difference. Proper informed cost benefit analyses need to be undertaken in order to make good long - term decisions - it often seems that decisions are made without proper scrutiny and sometimes all or nothing choices made as opposed to looking at what is needed by services users and whether there are other more cost effective ways of delivering the service or reduce / better target provision rather than cutting completely. 27104	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	With regards to point 5f. Galadaye bunting. I realise this is just a small amount but there was a complete lack of common sense taken when putting up last year's bunting. It was put up a day before a big storm hit the area, which resulted in a lot of the bunting breaking and people had to come back out and fix this. Surely something as easy as looking at a weather forecast before putting the bunting up and delaying by a day or two to ensure this doesn't happen.	Corporate Policy and Resources	7. 27112	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Too many options grouped together some of these do seem wasteful but others should be continued	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27113	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Agree some of this can be reduced however bunting and christmas lights are a big thing for the communities and feel this should continue	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27114	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reduce money for education as so much is wasted	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27115	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Almost all of those services described in the previous page are provided for children and young people and people who are vulnerable, to remove these would have a crippling effect on the community, which has already had a number of public services removed or vastly reduced.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27116	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Defo not. Everyone suffers when things are cut. West Lothian know yous have plenty money just the team is incompetent to manage it.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27117	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Again, some of these I would agree with especially those surrounding unnecessary bureaucracy but for the most part these are services that would cause great detriment to these communities should they not exists and many of these communities may not be in a position to successfully advocate for themselves. Has to council provided meaningful and independent advocacy for these groups to be able to engage in a equitable dialogue around these proposals?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27118	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No, I don't agree. Working in Community Inclusion, I see every day how much difference non - statutory services make to people's lives. These supports keep people connected, independent, and active in their communities — preventing isolation, mental health crises, and higher - cost care placements later on. If these services are reduced, the pressure will only shift to already overstretched statutory services. What looks like a short - term saving would end up costing more in the long run — financially and socially. It's essential that the Council protects community - based support, because that's where prevention and real inclusion happen.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27119	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	These services are vital for so many, removing them could be catastrophic, and create more issues.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27120	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	You've already did this on many community issue yet you never seem to have spare cash to spend. Lookat where the excess cash is going. It's certainly not for the people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27121	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Stop taking away essential services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27122	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No if looked after all one born brought up here do cutsi said we should be fine	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27123	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think they should be reviewed but as these are often early intervention services which prevent much more expensive statutory services to get involved	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27124	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Again keep costs down by not paying staff overtime to do these jobs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27125	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	All these service seems to help someone so why reducing here.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27126	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No more cuts to non - statutory services. How depressing do you want to make this council area? See previous answers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27127	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I feel many of these non statutory services particularly those that support vulnerable groups actually save money in the longer term as by offering supports and providing this it can help prevent breakdowns, reduce homelessness, keeps children safe and cared for at home or by family, provides opportunities for children and without these services it could end up costing more money repairing issues that come from them later	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27128	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Some of these services are vital and you have lumped a lot of them here together. Perhaps a breakdown of which ones are maybe less valuable than others would be easier to look into.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27129	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	While I agree some of these services need to be cut alot of communities really need them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27130	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	A lot on non statutory services are required and relied upon by us as public members whether you see it as non statutory or not, it is in the eyes of the public	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27131	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Although these are non - statutory services they make an important contribution to life in West Lothian and how West Lothian Council Works. The knock on effect of removing these services is far larger than is implied by the accompanying statements. In addition there are no alternative services for to fill the gaps created by their removal.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27132	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is the vital unseen part of what's needed in communities - this needs continual funding, especially on local infrastructure	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27133	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cut non - statutory services to balance the budget - your figures show how easy this would be if you stop spending money you don't have on services you don't need.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27134	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	You say increases but neglect to say at what % remembering that we currently pay for our garden waste to be collected. Also the amount of housing areas in West Lothian has increased four fold, and they are majority all council tax payers.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27135	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Focus the council tax on higher earnings household. People on benefits are already struggling to decide to pay bills or heat and eat as it is	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27136	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Thw funding should already be spent the right way rather than wasting money on such things as 20mph enforcement which was carried out suring covid and dis not work. Get people on benefits to work and give back to the society rather than spending days in pubs and consuming drugs.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27137	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cut non - statutory services to close the budget gap. Reduce the number of Council buildings. Close schools and nurseries, and cut the number of teachers where number of children is falling.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27138	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The key services are at an all time low at the moment, I fail to see how you can review and make more cuts!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27139	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cut non essential spending as described in previous question. Lobby the government to stop non essential spending and feed more money into the councils to make decisions at a local level. Of course councils need to be better at tackling fraud	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27140	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	We need a balanced community. Removing services could impact negatively on encouraging people to live here.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27141	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Most of these services are the most popular	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27142	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	See answer to 3 & 4 Maintain Community enhancing provision	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27143	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	We need to keep, help and support our young (and vulnerable) via provision of education and support.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27144	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No, these services provide vital help to people and the environment. It's a pity the council can't get businesses to sponsor some of these areas to help support our communities.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27145	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cost benefit analysis, here appears to be based on saving money regardless of the costs in lives, needs much more explanation	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27146	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Spending review needs to tailor its needs to individual community situations not a blanket policy.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27147	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I support reduce spending on some options but not all the mentioned. Need broken down version	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27148	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Keep our children safe and free from hardship. Feed them keep them warm, educate and protect at all costs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27149	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is paramount to the health and wellbeing of the community	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27150	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Most of these items are very worthwhile spending, however, it might be possible to reduce some but each item should be voted on individually by the public.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27151	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Many of the services your talking about cutting ARE essential and used regularly	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27152	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Most of these services you have mentioned above are essential for the well being of west lothian residents	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27153	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There are so many controversial suggestions in this group that I don't know where to start. Reducing financial support in so many of these areas would affect all the vulnerable groups of residents in West Lothian. Many of these individuals rely on benefits and struggle financially and without the support of services provided by West Lothian Council there is a high risk of them becoming socially isolated.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27154	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cut red tape which would save time and money but many of these services are essential, look at how to make them run more efficiently	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27155	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Think outside of the box	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27156	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	not sure about all of this I use alot of charities though	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27157	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Non - stat service might cost money, but they save money in the long term - reduction of crime, improved public health, improved tourism, attracting business, reducing impacts on climate change etc. They may not be 'essential' but cutting funding here is short sighted. Furthermore, some of the points here don't make sense. One in particular puts some aspects of 4 different employees from 4 different teams into 1 saving. We've overheard that this was just a point you copied from another Council, which clearly has a different structure? Very disheartening that decisions on cuts, possibly people's jobs, are being put forward by someone who doesn't know the actual remit of different teams.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27158	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	no i feel there is people with severe mental imparments that rely on these services especially citizens advice bureau west Lothian	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27159	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If reduced there will be a big community impact	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27160	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Again, let's cut something instead of looking inward. Why can I get a quote for a replacement roof for £29K from a professional accredited company & the council quote is £70K more, just because they are on your accredited list? There is where you need to be saving costs. Do you compare your accredited list of contractors against other reputable companies to make sure you are not being ripped off?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27161	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Bring new enforcement for cleaning your own yard like Canada and USA. Look into other councils who managed this successfully.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27162	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Some services yes but others no.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27163	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Most of these things are needed but they could try reduce the costs a bit	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27164	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think they could reduce spending in certain places but I also think that some things are needed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27165	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No, people use groups things for a break, so I don't think it's fair if they don't support them anymore	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27166	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No. Most of these services are very much needed.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27167	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It seems the council wants to reduce jobs in any way they can	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27168	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Assuming that non statutory services are less important than statutory services is incredibly short sighted. Engaging children, young people and their families in community activities to improve their mental health and well being are crucial in improving their ability to deal with significant life events, and reduce isolation. Any issues or challenges will be picked up sooner by professionals, and reduces the need for more formal intervention by statutory services in the future. Skills can be developed by families allowing them to increase their own resilience and opportunities, engaging them in a more meaningful way, voluntarily with early intervention services. It also improves community around an area, community building, or school for all ages, especially when poverty is on the rise.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27169	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	STOP PAYING YOUR SELF 'S AND PAY FOR OUR COMMUNITY	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27170	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Even with what the council spend on these services just now, they opt to do the bare minimum. Doing even less would be ridiculous	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27171	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Some non statutory services prevent the need for statutory services. Short sighted thinking causes increased cost in longer - term.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27172	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The impact many of these on children and their life chances as well as environmental issues would be considerable.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27173	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Most, if not all the items in the list, although non - statutory, do enhance the spirit of community within West Lothian, and would have a greater negative impact on individuals than many of the other cost saving proposals.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27174	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This can also have an unrealistic impact on the public.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27175	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	While a lot of these things are not a necessity they do provide a sense of joy and community. Removal of all these things will result in bleak community spirit	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27176	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Dont take away from the kids	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27177	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Most of these services are important yet non essential. They provide a betterment of the community	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27178	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	In other questions there is 3 - 11 items! This question has squashed everything together making it impossible to answer an important section! It has trivial things like lights against community centres. Golf courses against bus services? It's redic.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27179	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	More scrutiny required.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27180	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No beacuse it helps a lot of people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27181	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The provision of many of these services makes a huge difference to the quality of life for so many residents of WL who are unable to access other subsidised options.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27182	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	A lot of people will rely on some of these services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27183	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Bathgate Community Council wish to place on record on your consultation exercise feedback that we are disappointed that once again we are having to go through a devastating cuts programme with services being reduced or done away with completely. We had hoped that those days were over and that valuable services could at least be retained at current levels. We understand the position our council is in financially, but we don't like it. We and the people of Bathgate value our public services which impact on everyone's life and are essential to a civilised society. We are also upset that you have highlighted non statutory services in your consultation as a potential area for reductions or cutting completely. Most of the population do not know or even care if a service is statutory or non - statutory. We value all our services so if you must cut the expenditure, please look at all services across the board without regard to their historic legislative status.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27184	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	No but all of these services are so important and should not be reduced or stopped.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27185	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It is highly likely that if some non - statutory services are removed now that they are unlikely to be reintroduced when the council is in a better financial position. The council should not reduce non - statutory spending on areas that have a demonstrable impact on quality of life / life chances of people within West Lothian including vulnerable groups.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27186	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It is a relatively small part of the budget and savings could be made elsewhere.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27187	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	We need to provide non statutory services for all ages	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27188	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	some of them are a waste of time - what do they even mean?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27189	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Stop giving out money to people who don't contribute. Stop giving junkies houses to trash then giving them another one.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27192	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Do away with those silly automated bins waste of money to start with.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27193	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	stop bonfire nights and displays	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27194	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	maybe just make our area look more nice and better	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27195	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	For waste services, the booking system for using the recycling centres should be removed. This will allow more flexibility for people and hopefully reduce fly tipping.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27196	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Cut back on the high cost of different bins for everything as according to your statistics many loads are contaminated anyway as not all people use them correctly. Waste of time us doing it if neighbours bins are non compliant	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27197	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Give more money to street cleansing	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27198	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Introduce a small charge for primary school meals for families not receiving financial support or benefits.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27199	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Particularly with waste management, Livingston has less refuse centres than small towns like Blackburn. Making it more difficult and expensive to get rid of waste creates the even more expensive problem of fly tipping.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27200	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Parks, verges are poorly managed now and look terrible and present a safety hazard.	Corporate Policy and Resources	7. 27206	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Waste dumping has much increased since recent changes were introduced. 27209	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Stop building new infrastructure we cannot afford to maintain, like the provision of cycleways, paths for leisure. Whilst the funding to build them might come from the Scottish Government, the funding to maintain them just isn't there. We don't have enough money to maintain what we already have, never mind the additional cost of maintaining new infrastructure. 27213	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The council has destroyed my village, building houses on what was alleged protected green fields, I now along with most of the resident, can get doctors appointments or dental appointments, because of the rise in population which largely look down their nose at locals, my village is being left to rot, while the new schemes get ebikes, ecars new schools. While in the village, the main St is disintegrating weed everywhere and no money for us to improve our village!!!!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27214	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	If funding for Braid House was reduced it would have a serious impact on our wellbeing and on our carers. I understand the council has to save money but services like Braid House are essential and cost effective, without them people like me would need much more expensive care elsewhere.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27215	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Braid House Day Centre is vital for families like mine, offering essential respite and support in a safe and caring environment. I know my mum really enjoys going to Braid House as she is more talkative with the family when she comes home. This day care service gives my mum important community socialisations and a very cost effective price, home care doesn't give the same level of socialisation and fulfilment to my mother	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27216	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I understand that the council as to save money but its always us elderly who suffer. We don't ask for much, so leave our elderly day care services as they are. I don't feel as much of a burden on my family when I attend the day centre, it makes me feel myself again.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27217	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reducing spending on non - statutory services may be necessary but care must be taken to protect essential community services like Braid House. This centre provides vital support and respite to clients and their families and it's absence would lead to higher costs elsewhere in the system. The council could carefully review non - statutory spending to identify efficiencies while maintaining support for services what have a significant impact on vulnerable clients and provide cost effective care.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27224	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The Council should introduce measures to hold individuals and families accountable for actions that create avoidable costs on non - statutory services. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
27225	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There is far too much being taken away from communities i. e leisure centres and pools for a town the size of Livingston to not have a large leisure pool is a disgrace as it is	Corporate Policy and Resources	8. 27226	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Why do we pay council tax.? If the council are to reduce services and amenities then council tax should be exponentially reduced or scrapped. People also have to amend budgets.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
27227	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I also think that there should be a review of 'statutory' spending. Why do certain things fall to local authorities to provide when the income they get from central government is falling. Maybe they should paid for by central government and maybe some f this spending shouldn't be protected	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
27228	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and services are being asked to do more with less every year, and it feels like our communities are paying the price. The UK and Scottish Governments need to take more responsibility and provide proper funding to local councils instead of constantly cutting budgets. West Lothian — like many areas — needs real investment and support to rebuild. We need funding for local jobs, employability programmes, business growth, and community services. These are the things that make a real difference in people's lives and help strengthen the local economy. It feels like priorities at national level are all wrong, with too much wasted spending in some areas while vital local services are struggling to survive. Ordinary people are the ones left to deal with the consequences. Our council and our communities need proper financial backing, fair funding.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

27229	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	We would join calls for a more equitable funding settlement for Scottish local government. Notwithstanding these external factors, this is an opportunity to target resources on demonstrably excellent practice. We would urge West Lothian Council to protect spending on non - statutory services for the reasons it outlines in the consultation paper, namely, the small proportion of overall spending that this takes and the important role these services play for often vulnerable and marginalised communities. We are clear that the Trust has a role to play in improving outcomes for marginalised communities here in Linlithgow and elsewhere in West Lothian, irrespective of their accessing our services – or not. We believe that the approach we take to support, grounded in wellbeing and inclusion, offers neurodivergent people the chance to live well. The early interventions we offer are key pillars of preventative spending that removes the need for costly crisis interventions at a later date.	Corporate Policy and Resources	8. 27230	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Please do not spend our money housing asylum seekers in hotels with breakfast and transport to medical appointments. This is a gross injustice when seeking savings from tax paying citizens. I fully support helping some asylum seekers, but we need to do this whilst being fiscally responsible. 27252	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I agree spending in some of these areas could be decreased. But I also feel you could provide a more broken down, yes / no list. For example, listed all the school savings in one question. I think you could save on school transport but if you do this surely you will need crossing guards.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27253	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	A consultation paper should be considered to ensure the demographic groups are captured in schools for parents care homes and leisure facilities so many residents do t appear to have knowledge of these actions	Corporate Policy and Resources	9. 27254	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	there are also valuable services here that should be retained. 27255	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Given many of these savings could directly impact individual council employees employment and livelihoods, I would have expected council leadership to have the courtesy to brief staff on these proposals prior to publication i. e. pretty unpleasant and not conducive to morale to learn your job may be going on a public survey.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27256	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There is a massive range of considerations presented in this section. Some have significant impact in terms of protecting the community and council resources through enforcement, and others are nice to have things. There should be a focus on services that help the community where the community can't resolve things themselves.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27257	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is not a yes or no answer, some of services listed help improve people's life, I think the list needs to be reviewed properly.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27258	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It is difficult to reflect on the list provided on the previous page as I cannot see it above this comment box and there were many items listed. Could you request comments to be made on the same page and then those giving their views would be able to reflect and answer more fully.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27259	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It is not possible to agree or disagree with the statement that councils should reduce spending on non - statutory services because it is a complex issue with valid arguments on both sides	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27260	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Many of these will be devastating for communities and are a short term fix leading to long term harm.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27261	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Great care will be required in determining which services to cut. Many non - statutory elements are critical to groups of individuals experiencing something that makes their lives worthwhile. Removing non - statutory programmes for children and young people may actually end up costing more due to teenagers causing damage / grief in their community.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27262	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There are 26 proposed measures identified with only an option of yes or no to them all. There are some I agree with and some that I don't however do not have the opportunity to agree / disagree with the individually.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27263	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Yes but the prior list is too diverse to comment on as one thing, some of these are more necessary to quality of life in West Lothian than others.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27264	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	With all due respect something as complicated as this should not be reduced to 1000 characters. This shows that any replies can't exactly be taken seriously. It is a complex area being reduced to a couple of sentences. It's not a yes and no question. Some of those examples need a lot more information as they are beyond vague.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27265	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I'm torn, undecided about this one, but there was no option to choose.	Corporate Policy and Resources	9. The respondent made a comment on the survey question

27272	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	But be careful what you classify as non statutory. Consultation processes should be robust. For instance the proposed closure of Whitdale care home makes no sense. This is a hub to the community which needs investment.	Corporate Policy and Resources	9. Corporate Policy and Resources	9. The respondent made a comment on the survey question
27275	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This needs a survey of its own. There are nice to haves and must haves in the list. Not all should considered for cost savings.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27276	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	How much did it cost to populate this very poor survey	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27277	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Only after proper consultation as this survey is not objective enough to provide the constituents of West Lothian with the opportunity for focused response to individual matters highlighted within each question and is therefore yet another example of how this council wastes money and will no doubt do nothing of any significance with responses like this	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27278	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The available details are insufficient to provide feedback. A detailed breakdown should be provided for each service and a cost - benefit analysis done. How many people benefit from each service? What is the return on each of them? Maybe the services can be kept but the operation optimized to reduce costs.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27279	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is a very broad factor which should be discussed for each matter. 27280	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It seems you are targeting communities & the most vulnerable in those communities Get out into the communities - be the face & not just a nameless survey. You 'd be surprised at how much knowledge you could & should "tap into "	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27281	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is a ridiculous question, there 's too many points to give proper feedback in 1000 characters. Removing services needs to be done in a way that doesn 't overly effect people 's lives, or that of the environment. Removing youth work provision will increase crime as they don 't have a safe third place to be. Removing waste education and enforcement will increase fly tipping and will prevent those causing the issue to face the consequences. Removing public access to committee meeting files in the face of the council 's core values of being open and honest to the public. Removing anti - fraud opens the council up to fraud from both inside and outside the council.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27282	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Again, I answered no but there ought to be a "yes but with caveats" option. There's a lot on the list there I would not dream of cutting whereas some seems extraneous and unnecessary for a council to provide. There ought to be massive public consultation on this section in particular and you never know what volunteers, local businesses and experts might provide in terms of time, expertise, facilities, etc. There are probably compromises to be made in some areas, as well as concessions and what actually is appropriate to defund. This one is a huge topic	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27283	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	These services need to be reviewed and consulted on more fully, the people of west Lothian need to know the impact of the reduction / removal of each of these services to allow informed decisions	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27284	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There is such a diverse list of services here it is difficult to agree to all cuts, however I believe some may be necessary and more supported than others	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27285	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Not until you are clear open and honest about exactly what you are cutting. Could you cut some of these? Sure, but which ones will you be cutting? Lumping a whole bunch of different things together and asking people to agree that some of them should be cut is pointless and a bit crafty to be honest.	Corporate Policy and Resources	9. The respondent made a comment on the survey question

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
27288	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is ultimately a flawed survey, the survey being a binary response to each of these questions doesn't allow the public to have their say on what they think is actually important. Council officers need to be aware that the savings they may make from these options will just increase the demand on other services council or not.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27289	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	You have listed some obviously important stuff as amongst that list what exactly are you planning to reduce spending on?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27290	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This questionnaire is very limited in scope.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27291	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	again, you can't lump all these different things together - let us vote on individual savings	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27292	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Whilst some of the areas mentioned could be discussed, again there are too many areas lumped into one section and it's not a yes or no to all as the survey is seeking. Additionally there is not enough detail given. Has the council taken a whole systems approach to any of these proposed savings? I.e. liaising with the rhs in response to not addressing footways in winter, the resulting impact of that on other services when there is an accident because footways have not been addressed. A joined up whole systems approach working together to fund a preventative measure like this saves for both services. I would suggest looking at the Marmot principles and how Marmot cities are working. Additionally, a lot of the areas being suggested to be looked at in this survey are already undergoing change, have changed or are in place. This makes this a retrospective survey, non transparent and quite honestly is insulting for letting the people of West Lothian think they even have a voice.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27293	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This question is not valid as you should allow for voting on individual items as each one should stand on its own merit. It is not fair to ask for a vote on items with the values to be defined.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27294	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is nto a valid question as a mixed bag so each item should have a specific vote.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27295	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	They services you have listed to reduce or remove are vital and the savings are in my opinion too small to have a massive impact to the budget They're is far to many things listed this should have been split in to the removal of services facilities and the addition of services ect to make this easier and each of the options should have a agree or disagree option to allow for individual selection.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27296	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There are 26 items listed, some should stop being funded. Others should not. With 26 items there should have been yes no for each item in the list. Poor survey generation.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27297	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I think you are drawing a fine line between non - statutory and statutory services, so why not make it clear what is and what isn't and tss as me it from there.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27298	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There are myriad non - statutory services that can have considerable impact on the lives of individuals and communities. This is the area I think should have the most focus. There will undoubtedly be minority nice to haves alongside minority essentials. This topic cannot relieve a broad brush approach.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27299	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	There may be some opportunity here, but asking us to vote yes / no to all is unacceptable.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27300	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Of course you should consider reducing spending on non - statutory services but your list of options is too long to answer with a simple yes or no question.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27301	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Ridiculous amount of questions for a yes no answer. Looks like the questionnaire has been designed in a very particular way.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27302	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Flawed survey, no ranking of priorities	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27303	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Until you yourselves can give an impact statement on what it would mean for cutting spending in any area listed here, I vote no. There are a few where I question the reasonability for continued spending based on Don the wording used. And others that should not be up for debate. The whole positioning of this survey is ridiculous in my opinion and geared towards spending bias in a time where everyone wants to save money, without realising the impact of pushing a y / n button. Shame!	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27304	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I've said NO because yet again you frame the question dishonestly - conflating things which are clearly a waste of money with others that are essential.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27305	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	As before, this isn't yes or no question and I don't have the information needed to answer it. Many of these saving may cost the council great deal more in the long run. This survey is going to produce responses that aren't helpful just tick a box to say you have asked people so you can justify cuts.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27306	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	People need and use these on a regular basis so no keep them people use them I am a bit puzzled by this consultation as this is a first for me never been asked for any inputs from the council so why now is this so that the council can blame us the residents for the decisions you are going to make who knows time will tell	Corporate Policy and Resources	9. 27308	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Make each option an individual point that can be surveyed on, having all the options as one yes or no answer is completely [XXXX] pointless	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27309	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I agree with some but not with others. I think this questionnaire is flawed in that it should allow respondent to tick against each of the individual proposals.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27310	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Hopefully there is space to comment on this later, but this 'survey' and its design is ridiculous - you can't list 20 different things and then ask a generic question about cutting things.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27311	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is a completely ridiculous grouping of saving proposals that can't be answered with one yes or no answer! I believe that careful consideration needs to be given to each suggestion to fully understand the impact. Those making these suggestions do not have any understanding of how the services operate and therefore no knowledge of the wider impact. Using the revenue budget lines are not the way that savings should be considered, those with a true understanding of these services should be given the opportunity to put forward proposals, not those unknown characters with no real knowledge of the true value of each service. Accountants should only be brought in at the end of the process.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27312	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It's hard to choose from the list that has been provided as it includes very different services.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27313	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	It is hard to provide any feedback on the proposed improvements to schools which will cut costs given how little information is provided.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27314	Theme 5- Reducing Spending on Non-Statutory Services	General comment	Education improvements and services is very vague. When do the Council plan to share more information. We would appreciate if the Council could advise the next stages of this consultation and when it plans to provide more details plans on the steps highlighted. How the plan to implement and the impact to our children and the community.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27315	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Reduce some of them but not all.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27316	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I understand the need to review spending on non - statutory services, but reductions must be approached with caution. Many of these services, while not legally required, play a vital role in prevention, wellbeing, and community cohesion. Cutting them could increase pressure on statutory services in the long term. Reviews should focus on efficiency, partnership working, and income generation rather than removal. Where reductions are necessary, decisions should be evidence - based, assessing social impact and equality implications. Protecting preventative and community - led services will ultimately deliver better outcomes and long - term financial sustainability for the Council.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27317	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Any proposed cut in non statutory services should be accompanied by a comprehensive cost / benefit including a fully descriptive description of outcomes as a result of service cuts	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27318	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Whoever has come up with this question needs to be sacked and not living in the real world	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27319	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	This is what's called a double - barrelled question, which is a big no - no when constructing a survey. If I answered 'yes', which part of the question would I be agreeing with?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27320	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	The starting point is identifying and reducing duplication and inefficiencies, then having a serious discussion around prioritising the core non - statutory services you wish to continue delivering. There is also an opportunity to investigate alternative funding mechanisms.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27321	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	yes take away services we already pay for then give it another name and charge again for it. oh wait thats your modus operandi now	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27322	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	You cannot win in this area, every funded activity will fight it's own corner. I'm glad this is not my decision.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27323	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	I disagree with most of these proposals however I would like to see some of them reviewed and reduced to an acceptable amount. Look at the option of volunteering and or self funding posts that can operate some of the services. Note, you cannot comment on the last question. Also, I'm not impressed with the survey at all as it is limits responses. Have you made up your mind anyway. Re the last question - I agree the council tax could be increased as long as people of the community have their say on what it is spent on.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
27324	Theme 5- Reducing Spending on Non-Statutory Services	General Comment	Remember who you are. Cutting back on social care? Really? How? Most disabled families live hand to hand, buying out of date food because it's all they can afford, no respite services for dementia sufferers under 65. Just don't fail the most vulnerable, unable to voice their fears of dying cold, hungry, and owing so much it will be the end of many couples.	Corporate Policy and Resources	9. 27389	Theme 6- Have your say on Council Tax	6a - Council Tax	council tax comment - any increases should be kept to a minimum so that it is still affordable.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27390	Theme 6- Have your say on Council Tax	6a - Council Tax	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27391	Theme 6- Have your say on Council Tax	6a - Council Tax	Charge all houses the correct level of council tax. Plenty older houses worth thousands on wrong council tax rates, so paying a pittance. Thousands could be recovered.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27392	Theme 6- Have your say on Council Tax	6a - Council Tax	These methods of raising money may be effective but are not truly fair. Charge more council tax for things that people care about and make sure they understand the link between tax and outcome. Tax to improve the pathetic standard of mental health care and the outrageously poor neurodivergence pathways. These are long term investments.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27393	Theme 6- Have your say on Council Tax	6a - Council Tax	Raise council tax.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27394	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax to cover costs	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27395	Theme 6- Have your say on Council Tax	6a - Council Tax	In principle, I do agree. BUT WITHIN REASON. The cost of living is hard enough. How you do it, I don't have an answer, Means Testing? An additional community charge in some way?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27396	Theme 6- Have your say on Council Tax	6a - Council Tax	Spend extra council tax on non stat services they have been cut enough.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27397	Theme 6- Have your say on Council Tax	6a - Council Tax	I support an increase but only minimal. People are struggling financially as it is and some might not be able to support this.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27398	Theme 6- Have your say on Council Tax	6a - Council Tax	However, any increase should be fair and affordable for families who are already facing high living costs. People will support paying more if they can clearly see the positive changes in their local schools, roads, and community life	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27399	Theme 6- Have your say on Council Tax	6a - Council Tax	I would approve an increase if so many services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27400	Theme 6- Have your say on Council Tax	6a - Council Tax	Who decides what is key, any money raised by increasing tax should be used to fund all services non statutory ones as well as "key "services. I support raising council tax as a general school of thought to benefit the many.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27401	Theme 6- Have your say on Council Tax	6a - Council Tax	Depends on the rate of the increase	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27402	Theme 6- Have your say on Council Tax	6a - Council Tax	I would only support it if there was real commitment to put money where it was needed and improvements could be seen such as the roads, environment and housing quality.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27403	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27404	Theme 6- Have your say on Council Tax	6a - Council Tax	as long as the increase is used for public services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27405	Theme 6- Have your say on Council Tax	6a - Council Tax	You need to charge more council tax not slash savings	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27406	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase the council tax. Keep the services if people not happy to pay suggest they live elsewhere. West Lothian council has always been one of the best. Please don't let it slip any further than it already has	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27407	Theme 6- Have your say on Council Tax	6a - Council Tax	In something of a contrarian view, I selected not because I would support CT increases in order to improve the lives of the people of WL even in areas outside of key services. There has been a long running view that something must be bad if it's provisioned by a local council, and of course that has happened at times, however it would seem that to flip it on its head, surely it should be an aspiration that if it came about that the worst thing someone might experience in West Lothian is having to rely on a high - quality, well run council service or product then funding that goal is worthwhile. So, in the answer, yes I would support a CT increase if it was ringfenced for improving key WL services, however I would also support using a CT increase for any improvement that can be brought to WL.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

27408	Theme 6- Have your say on Council Tax	6a - Council Tax	I would consider council tax increases year on year, which is what should have happened from the start. No to any massive increase.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27409	Theme 6- Have your say on Council Tax	6a - Council Tax	If we see a return for our tax it's ok to increase but at present see very little benefit	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27410	Theme 6- Have your say on Council Tax	6a - Council Tax	I would increase Council tax to everyone. I would happily pay more but only if the money is spent on improvements.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27411	Theme 6- Have your say on Council Tax	6a - Council Tax	Taxation though higher council tax	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27412	Theme 6- Have your say on Council Tax	6a - Council Tax	Again mental health crisis stop sucking the joy out of everything just charge me a bit more council tax	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27413	Theme 6- Have your say on Council Tax	6a - Council Tax	I know funds are tight but these are the things that improve people's lives and are worth doing. I'm happy to pay more council tax to allow WLC to continue doing them	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27414	Theme 6- Have your say on Council Tax	6a - Council Tax	I would support additional council tax provided that the raises was equitable - same across all bands and there was a guarantee that funds would be used accountably for essential services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27415	Theme 6- Have your say on Council Tax	6a - Council Tax	Not a substantial increase. Modest yes.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27416	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27417	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax should not be increased	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27418	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase revenue by increasing council tax. Funding is a political decision, therefore it is a political choice to not fund council services at their current levels. Politicians are making the choice to have council employees manage the consequences of their decisions. Maybe a new approach to funding allocation is needed?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27419	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax to maintain service	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27420	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax. I am on a minimum wage job and would be willing to pay more council tax to protect school funding as I have a child in highschool now.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27421	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing council tax would be less detrimental to communities and households	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27422	Theme 6- Have your say on Council Tax	6a - Council Tax	A council tax increase should also be considered	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27423	Theme 6- Have your say on Council Tax	6a - Council Tax	Re the last question - I agree the council tax could be increased as long as people of the community have their say on what it is spent on.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
27424	Theme 6- Have your say on Council Tax	6a - Council Tax	As long as the council tax for houses does not rise	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27425	Theme 6- Have your say on Council Tax	6a - Council Tax	That's your job surley to work that. Far to high council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27426	Theme 6- Have your say on Council Tax	6a - Council Tax	However - putting up people's council tax, even though you stated we are one of the lowest paying council authorities - is ridiculous. We have already had an increase and it's getting to the point, we are being squeezed too much as every company wants more money and unfortunately, wages do not cover it! I think you would find a lot more people would not pay creating bigger problems.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27427	Theme 6- Have your say on Council Tax	6a - Council Tax	I most definitely do not agree with a raise in council tax as I have only 500 pounds left after I have paid my bills for the month. Im a nurse in the NHS and cant afford an increase in bills. I do not live a luxurious life style but just manage to get by often dipping into my saving on 5 week months	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27428	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is stupidly high and that's why people are struggling to pay it.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27429	Theme 6- Have your say on Council Tax	6a - Council Tax	No increase in council tax - payments are very high.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27430	Theme 6- Have your say on Council Tax	6a - Council Tax	Optimize the cost spending but not by increasing the council taxes	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27431	Theme 6- Have your say on Council Tax	6a - Council Tax	Don't put the council tax up any more. Poor value for money, paying more and more every year but getting less from it.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27435	Theme 6- Have your say on Council Tax	6a - Council Tax	However I DO NOT support an increase of council tax. We pay £300 each month and factor fees on top of this. Livingston is more littered and overgrown than it has ever been. It has become embarrassing to live here. I do not believe you would use the money to improve these services, but instead use it to pay off debt / deficits. I firmly DO NOT support a rise in council tax. It's not justifiable.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27436	Theme 6- Have your say on Council Tax	6a - Council Tax	but not council tax.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27437	Theme 6- Have your say on Council Tax	6a - Council Tax	Need to get the community together to create a better environment and not increase the tax.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27438	Theme 6- Have your say on Council Tax	6a - Council Tax	Do not increase council tax I already know that people are moving away from West Lothian which was once seem as a cheaper convenient location which is now not the case.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27439	Theme 6- Have your say on Council Tax	6a - Council Tax	They should lower the council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27440	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is high enough for people to be charged even more.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27441	Theme 6- Have your say on Council Tax	6a - Council Tax	You have increased council tax a huge amount last year and I dont believe it should be raised again. People are already on their knees when it comes to spending and people cant afford it. I would encourage anyone to boycott paying council tax if it is raised again. I myself will not be able to afford it. I have had to reduce my working hours as WL fails to provide ASN provision for after school for children with complex needs, despite other councils providing a provision. I would also be willing to pay for this. You need to invest in people - things to do, that people are willing to pay for. Create activities, outings, groups at the library / community centres, council run after school clubs that are inclusive of all children. Council run classes for adults with a charge associated with these - people will be willing to pay a small charge. Actually chase council tax and rent arrears more aggressively and stop any kind of council members expenses.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27442	Theme 6- Have your say on Council Tax	6a - Council Tax	we already pay a lot of council tax for reduced services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27443	Theme 6- Have your say on Council Tax	6a - Council Tax	We are in a cost of living crisis and working families are already struggling so raising rent and council tax yet again is not affordable. Raising money from the other methods would be fine	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27444	Theme 6- Have your say on Council Tax	6a - Council Tax	Council taxes have gone up by a massive amount. You can't just keep thinking of ways to charge people more. Especially those that are coming to work.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27445	Theme 6- Have your say on Council Tax	6a - Council Tax	Stop increasing council tax and other charges	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27446	Theme 6- Have your say on Council Tax	6a - Council Tax	The tax burden across Scotland is already too high.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27447	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is meant to be used for key services at the moment and they are sadly lacking. Also road tax is allocated to all councils to help support infrastructure, improve of public transport. Again something I have not seen happening for a long time.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27448	Theme 6- Have your say on Council Tax	6a - Council Tax	I dont no agree that council tax should be increased. I have £500 after ive paid my mortgage and rest of my bills. I dont have any expendable outcome and i live pay check to pay check each month. Often dipping into my saving. With everything else going up currently im struggling to manage this and i dont want to be in debt just because you want to put the tax rates up.	Corporate Policy and Resources	2. 27449	Theme 6- Have your say on Council Tax	6a - Council Tax	West Lothian has thousands of new houses all paying council tax. This must generate a massive new income stream for the council. You have sold off land i. e. the area where Bubbles was. You need to improve efficiencies rather than keep increasing council tax.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27450	Theme 6- Have your say on Council Tax	6a - Council Tax	Upping council tax unions will defend workers for higher pay so why rob petter to pay Paul. I don't agree to the increase as the basics aren't even being covered just now by WLC	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27451	Theme 6- Have your say on Council Tax	6a - Council Tax	Passing on council debt to hard working homeowners who many are not in the public sector working getting payrises every year is not acceptable.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27452	Theme 6- Have your say on Council Tax	6a - Council Tax	People can 't afford any more, the council will need to look at efficiency savings instead.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27453	Theme 6- Have your say on Council Tax	6a - Council Tax	Why should I pay extra for services I don't need or want when the ones I do are either reduced or I have to pay extra for. The Council is not trying to support all residents of West Lothian, just the ones who complain.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27454	Theme 6- Have your say on Council Tax	6a - Council Tax	Raising council tax again is an insult to the residents of west lothian. No sooner had the council tax go up than the councillors and workers went on strike or gave themselves an above inflation wage increase! The public are not stupid. The public remember this and will show their disapproval at the next election. The idea of increasing the council tax when you are talking aboyt making cuts etc to fill a black hole is an insult! I would again suggest making internal savings and cut waste first.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27455	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax has risen quite substantially over last few years. I don't believe it should be increased again.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27456	Theme 6- Have your say on Council Tax	6a - Council Tax	Otherwise, don't increase the council tax and raise the money as discussed in the other sections and same with the savings.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27457	Theme 6- Have your say on Council Tax	6a - Council Tax	I've suggested in previous questions. Increasing council tax is ridiculous. Bills are unaffordable for most as it is as we cannot keep up with inflation.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27458	Theme 6- Have your say on Council Tax	6a - Council Tax	No as the money we pay now doesn't improve roads etc. The council aren't listening to the public	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27459	Theme 6- Have your say on Council Tax	6a - Council Tax	Broadly speaking, I'd be against a council tax rise on the basis that I feel that's an 'out' for a public service being inefficient. I understand such bodies are in difficult positions because some members of the public focus on the emotional side to losing services even if they don't use them (swimming pools) or complain about spending and then moan when they see changes stemming from that.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27460	Theme 6- Have your say on Council Tax	6a - Council Tax	As I pay a factor feein addition to council tax I would be strongly against any rise.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27463	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay more than enough - look at salaries of senior staff and their benefits	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27464	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay enough for ridiculously reduced services as it is ☐	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27465	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is disgustingly expensive enough for the extremely poor level of local services as it is	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27466	Theme 6- Have your say on Council Tax	6a - Council Tax	Enough already taken	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27467	Theme 6- Have your say on Council Tax	6a - Council Tax	No - Council Tax is already high enough, and further increases would put even more pressure on working people who are already struggling with the rising cost of living.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27468	Theme 6- Have your say on Council Tax	6a - Council Tax	Pay enough already for a poor service.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27469	Theme 6- Have your say on Council Tax	6a - Council Tax	As I have said I cannot take another hike in the cost of anything! It is a case very soon of a choice between heating or food! Another hike in council tax will send me personally into debt	Corporate Policy and Resources	2. 27487	Theme 6- Have your say on Council Tax	6a - Council Tax	It is high enough and don 't get the service we need	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27488	Theme 6- Have your say on Council Tax	6a - Council Tax	Already pay a substantial payment each month and feel we receive very little (personal) benefits of it.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27489	Theme 6- Have your say on Council Tax	6a - Council Tax	I can 't afford my council tax as it is rather try dining vandals and idiots who park on path stop attacking those who are struggling and stop lining your own pockets time for reform	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27490	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax should not be increased, as many working families are already struggling with the rising cost of living, and child poverty remains a serious issue in West Lothian. Further increases would place even more pressure on households that are already stretched to their limits. West Lothian also has a large elderly population, many of whom live on fixed or limited incomes. Higher council tax bills could push vulnerable residents into financial hardship, forcing difficult choices between heating, food, and other essentials.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27491	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely no, we are already paying more for petrol being in West lothian rather than edinburgh	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27492	Theme 6- Have your say on Council Tax	6a - Council Tax	Im not paying more for your poor financial decisions.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27493	Theme 6- Have your say on Council Tax	6a - Council Tax	Taxed on everything paying to much as is	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27494	Theme 6- Have your say on Council Tax	6a - Council Tax	Not until withdrawn / reduced services that Council Tax previously paid for are restored in full.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27495	Theme 6- Have your say on Council Tax	6a - Council Tax	It has went up enough people ar struggling to pay for it	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27496	Theme 6- Have your say on Council Tax	6a - Council Tax	Wouldn't support this as I personally know of the eye watering waste of money by the council.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27497	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay mine and it goes up and services drop. Its ridiculous to expect people to pay more for less	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27498	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is high enough! Dont penalise home owners	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27499	Theme 6- Have your say on Council Tax	6a - Council Tax	Stop charging the average family more, Paying more for less is how I feel.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27500	Theme 6- Have your say on Council Tax	6a - Council Tax	I personally feel that the council tax is excessive.As a higher rate tax payer I feel aggrieved that I pay a high income tax plus the council tax is not an insignificant amount to pay. Increasing council tax, whilst an obvious funding solution, doesn't sit well with me.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27501	Theme 6- Have your say on Council Tax	6a - Council Tax	We already pay enough and have no services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27502	Theme 6- Have your say on Council Tax	6a - Council Tax	Honestly, current prices are ridiculous frankly for services many of which are of no benefit to me beyond emptying my bin.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27503	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't think savings should be made in this area. As it's stands just now, not all services provided are adequate enough so I don't feel the current cost of taxes is up to standard for what you get	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27504	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is almost crippling as it is and residents do not feel like they are receiving value for money in this regard. Personally I think raising council tax is an easy way out and it has been increased sufficiently for now	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27505	Theme 6- Have your say on Council Tax	6a - Council Tax	Because it's already to high!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27506	Theme 6- Have your say on Council Tax	6a - Council Tax	Your kidding right! We pay for a little service as it is! You can't possibly think we should pay more for a service that we are already getting that is poor and to pay more for services that will be getting cut! This is a joke question right?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27507	Theme 6- Have your say on Council Tax	6a - Council Tax	NO MORE INCREASES, The working people just can't afford to be squeezed anymore	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27508	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already high	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27509	Theme 6- Have your say on Council Tax	6a - Council Tax	I disagree with council tax been increased unless all the other cuts are taking place.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27512	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not as it's so expensive as is and cannot afford to pay anymore and on top of that trying to pay for a brown bin collection is madness	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27513	Theme 6- Have your say on Council Tax	6a - Council Tax	People already pay too much council tax, especially for higher tax bands.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27514	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already an unaffordable expense.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27515	Theme 6- Have your say on Council Tax	6a - Council Tax	Already too high.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27516	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already too high and putting people into debt. The increases each year are ridiculous with no sign of improvements in our community.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27517	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already expensive and living costs are too expensive to be able to consider to pay more.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27518	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay enough council tax for the house I live in and pay the same amount of other people living in the same house they own and I do not feel we get the proper amount of services for what we pay. Bins taken away garden rubbish not allowed to be taken away without buying a permit.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27519	Theme 6- Have your say on Council Tax	6a - Council Tax	No council tax is already too expensive and had a massive reduction in services provided	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27520	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax should not be increased due to the governments inadequate funding.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27521	Theme 6- Have your say on Council Tax	6a - Council Tax	I have learned today through this survey that the council is needlessly spending money and I would not be happy for an increase	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27522	Theme 6- Have your say on Council Tax	6a - Council Tax	I think the council tax that we currently pay is high enough especially for those whom have worked all their lives to buy their own property as we also now have to pay factors fees which are extremely high as they are not included in the council tax fee	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27523	Theme 6- Have your say on Council Tax	6a - Council Tax	rather than increasing council which has already been increased	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27524	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax continues to increase, however services continue to reduce. Paying for waste collections, roads are a mess, grass is overgrown and I or left when cut, paths are a disgrace, closing of community centres - the list goes on - DEF DO NOT SUPPORT INCREASE	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27525	Theme 6- Have your say on Council Tax	6a - Council Tax	I already pay additional charges on brown bin, factors fees, woodland association. I cannot afford a further increase in tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27526	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay enough and you also took the brown bins away unless you pay, how can I afford this on universal credit	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27527	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is high enough as it is for lower paid families	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27528	Theme 6- Have your say on Council Tax	6a - Council Tax	My council tax is all ready over £260 a month on top of my rent I'm nearly having to pay out £1060 a month just to live. As a single parent of 3 kids it's ridiculous. I don't see where my council tax money goes, I can never get parked near my house, the roads are a mess and my bins aren't even big enough for a family of four that I need to use the dump	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27529	Theme 6- Have your say on Council Tax	6a - Council Tax	You can't keep increasing council tax which cutting services. It's immoral and people are already struggling with cost of living in all other areas. Absolute no no.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27530	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has been increased quite a lot especially in recent years so I don't think it's a good idea at all	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27531	Theme 6- Have your say on Council Tax	6a - Council Tax	Im already in financial difficulty I cant afford anymore council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27532	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax already far too high for the poor services provided	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27533	Theme 6- Have your say on Council Tax	6a - Council Tax	This cost has already gone up this year and I would struggle with any further increases.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27534	Theme 6- Have your say on Council Tax	6a - Council Tax	Spend the money you already have appropriately. I don't believe the council is spending money properly or wisely so I'm not supportive of digging into peoples pockets more until there is proper scrutiny and accountability for the funds we do already provide. There are 100s of examples of this council mis - spending so no I'm not supportive of a rise.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27535	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not you all can't be trusted if it increases I won't pay it. And if you come to my door we will have it out	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27536	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay more than enough like another mortgage it is ot sustainable for families to keep increasing council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27537	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay over £300 a month for council tax plus £50 for brown bin so no - im not happy to pay more!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27538	Theme 6- Have your say on Council Tax	6a - Council Tax	Its already been put up the council need to manage this income better	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27539	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is extortionate and not value for money.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27540	Theme 6- Have your say on Council Tax	6a - Council Tax	People are struggling with the cost of living crisis so raising council tax is a no no	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27541	Theme 6- Have your say on Council Tax	6a - Council Tax	for a single person with discount already in place the increase of Council Tax will be very detrimental.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27542	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not until payers were sure that it wasn't just going once again to cover council inefficiencies. It would be like royal mail continually increasing their stamp price while year after year always missing their delivery targets then being fined massively for it. But continuing to charge the end user more and more.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27543	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing the council tax won't help, families are already struggling to put food on the table, I'm not paying more council tax just for it to be spent on incomers who have zero connection to west lothian which is what will and is happening.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27544	Theme 6- Have your say on Council Tax	6a - Council Tax	Pay enough, and get nothing back	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27545	Theme 6- Have your say on Council Tax	6a - Council Tax	No, I do not trust the people in charge will spend it in the right areas	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27546	Theme 6- Have your say on Council Tax	6a - Council Tax	Disgusting idea! Already cutting and lack of service Single parent here left in family home having to pay £270 a month with no option to sell as cannot afford another property £270 a month ridiculous amount	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27547	Theme 6- Have your say on Council Tax	6a - Council Tax	Pay to much cutax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27548	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already costing much more than it should.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27549	Theme 6- Have your say on Council Tax	6a - Council Tax	It 's high enough	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27550	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely no way do I support being charged more in Council Tax for the Council to mismanage! You most certainly are not maintaining the roads I travel on, they are shocking! As for new community services, you are shutting, or running, them all down I. e. community centres, swimming pools to name but a few. Verges are not being maintained, trees are overgrowing into roads, fewer roads and paths are being gritted. As previously stated, households are having to do more with significantly less money and it would appear that WL Council seem to think they should be exempt and should not be charged for the services they are not providing.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27551	Theme 6- Have your say on Council Tax	6a - Council Tax	Family spend and taxes are already at a record high. We cannot afford any more increases. Time for local and central government to spend our money more wisely, rather than it going into the Private Shareholder, MP's or Councillors pockets!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27552	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't have the extra money to give you. Stop taking money from working people to support those that choose not to work. I have my own family to support and you're making it so difficult already.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27553	Theme 6- Have your say on Council Tax	6a - Council Tax	No. Cost of living is high enough right now and already stretched within the budgets and wages we have.	Corporate Policy and Resources	2. 27555	Theme 6- Have your say on Council Tax	6a - Council Tax	We are already paying more for less services and have extra charges on bins ect.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27556	Theme 6- Have your say on Council Tax	6a - Council Tax	It's too easy just to increase CT as you proved this year with an 9 % increase. We pay Income tax, VAT already so why should we pay more CT. You need to get more money from the Scottish government we are already paying the most tax in the UK. Think like a private company where you cannot just charge your customers more with improved services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27557	Theme 6- Have your say on Council Tax	6a - Council Tax	No, I pay too much money for council tax and I don't even have a job and I'm a band E property and it's not like you do anything different for the last five years me living in the house and I still pay more and more and more and more and more and more and more and more and more and more less services smaller Benz just the usual nonsense. I think a lot of people are gonna be not very happy with the council this year.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27558	Theme 6- Have your say on Council Tax	6a - Council Tax	I couldn't disagree with this more. Fees are very high and people are already pushed to their limits. Try spending the money all ready raised more efficiently.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27559	Theme 6- Have your say on Council Tax	6a - Council Tax	Increases in council tax without specific benefit is not valid.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27560	Theme 6- Have your say on Council Tax	6a - Council Tax	I feel we pay enough council tax already	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27561	Theme 6- Have your say on Council Tax	6a - Council Tax	No. Make long term investment in people and the communities we live in. People are broken, society is broken and you want to remove further services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27562	Theme 6- Have your say on Council Tax	6a - Council Tax	There is very little I see the council actually do with my council tax. As I live in a E band property it will go up massively for me. I do not support huge increases when I am already trying to balance insane costs of childcare, day to day living and other costs	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27563	Theme 6- Have your say on Council Tax	6a - Council Tax	Do not raise council tax as people are already struggling as it is with the current cost of living crisis. You should be easing the burden on people by giving them rebates and money back like you did during the pandemic	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27564	Theme 6- Have your say on Council Tax	6a - Council Tax	And stop raising our taxes while reducing our services, its simply gross.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27565	Theme 6- Have your say on Council Tax	6a - Council Tax	Already pay a lot on council tax. Wages aren't going up that much. As a working couple and raising two kids that get no help at all from the government and have to work extra shifts to make ends meet. You need to be concentrating on getting people into work and getting people paying tax. Housing is a joke and can't get a bigger house but can't afford to buy either. Your raising council tax every year. I've got a disabled son and am not allowed a reduction in my council tax but someone that doesn't work at all gets it for free. Priorities wrong on the cuts. Can't cut services but	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27566	Theme 6- Have your say on Council Tax	6a - Council Tax	No. Human nature in complicated bureaucracies is to waste much of the money. There is not a funding problem, there is a spending problem because politics is about promises. Reality is coming knocking now and desperate measures are needed. Raising taxes reduces disposable income and will further depression our businesses	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27567	Theme 6- Have your say on Council Tax	6a - Council Tax	To date I have not seen much in the way of value, customer care or service from WLC. What I have experienced is a faceless entity of apathy and no accountability. It seems like there is no understanding that WLC are supposed to provide a service rather than vushy jobs. Until you get the basics right I resent wasting more money on WLC.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27568	Theme 6- Have your say on Council Tax	6a - Council Tax	People are struggling to pay council tax as it is...	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27569	Theme 6- Have your say on Council Tax	6a - Council Tax	Definitely not increase tax. That is until the competency within council officials demonstrate they are spending what they receive efficiently and effectively.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27570	Theme 6- Have your say on Council Tax	6a - Council Tax	Unless the council can show they have taken all reasonable measures to protect the money already under their control, raising further taxes is unnecessary. Any increase above inflation will further impact families in West Lothian, particularly those who are already struggling	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27571	Theme 6- Have your say on Council Tax	6a - Council Tax	As all ready said I have £500 after all my bills come off, I cant afford to have this increased. I dont want to be in debt just because you have decided to put the tax rates up.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27572	Theme 6- Have your say on Council Tax	6a - Council Tax	Tax is high enough.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27573	Theme 6- Have your say on Council Tax	6a - Council Tax	I do not support any increase in Council Tax. Many households are already struggling with the cost of living, and pay is not keeping pace with inflation. Asking residents to pay more risks disproportionately impacting those on low or fixed incomes. Council Tax increases should only be considered as a last resort, with clear transparency on how every additional pound will be spent to protect essential services without placing undue burden on the most vulnerable.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27574	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is expensive enough as is the rent especially when we have to live with old kitchens in desperate need of replacing	Corporate Policy and Resources	2. 27576	Theme 6- Have your say on Council Tax	6a - Council Tax	The tax burden in the UK is already too high, especially in Scotland.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27577	Theme 6- Have your say on Council Tax	6a - Council Tax	Last year was a large increase in council tax. Personally almost 75 % of my pay increase was taken up by the council tax increase. This now leaves my little excess to cover additional cost increases in my gas, electricity broadband, fuel, shopping etc. The increase was too high last year.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27578	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely NO.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27579	Theme 6- Have your say on Council Tax	6a - Council Tax	The Council Tax is too high as it is while we are all going through a fuel crisis, energy crisis and cost of living crisis	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27580	Theme 6- Have your say on Council Tax	6a - Council Tax	No more council tax increase for next 5 years at least	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27581	Theme 6- Have your say on Council Tax	6a - Council Tax	Give us a break. Roads are awful. Overgrowth of greenery is shocking. Issues with bin emptying being consistent. Lighting is poor. Public bins often overflowing. Paths gritted less and less. And you want to charge more? I'll crack the jokes wic	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27582	Theme 6- Have your say on Council Tax	6a - Council Tax	Currently no – as you first should show substantial improvement. It was increased last year by ~ 9 %, and nothing changed.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27583	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay enough for council tax in west lothian specifically in Bathgate my home town when all I see is no funding to help town Centre grow ie new shops, only more barber shops nail bars and cafes, most funding is put into Livingston shopping center, also kerb side are full of weeds etc and run down parks and outside spaces.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27584	Theme 6- Have your say on Council Tax	6a - Council Tax	I have paid a big amount ready.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27585	Theme 6- Have your say on Council Tax	6a - Council Tax	and stop increasing council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27586	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax expensive enough	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27587	Theme 6- Have your say on Council Tax	6a - Council Tax	The people of West Lothian pay more than enough for Council services and Council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27588	Theme 6- Have your say on Council Tax	6a - Council Tax	I agree with all the suggestions made to raise fees other than raising council tax itself. We already pay so much and if there are other ways to raise money, as you have suggested, I think these options should be considered first before the tax is raised. Everyone is stretched so thin at the moment and it is very stressful.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27589	Theme 6- Have your say on Council Tax	6a - Council Tax	I can't honestly afford more on my bills, I've never been in debt and don't have any nor do I want any but we have nothing left at the end of the month to actually enjoy or to spend on luxuries and the bills going up is just exhausting	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27590	Theme 6- Have your say on Council Tax	6a - Council Tax	Too expensive	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27591	Theme 6- Have your say on Council Tax	6a - Council Tax	The whole point of the suggestions in this survey is to identify ways to cut costs and save money and / or reduce spending on unnecessary services. Raising the cost of living for people is NOT the way to do it.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27592	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already high enough reduce your own wage	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27593	Theme 6- Have your say on Council Tax	6a - Council Tax	No council tax increase this will only burden the residence more which are already overtaxed, reducing cost is the way to go and closing none essential facilities and getting rid of outdated services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27594	Theme 6- Have your say on Council Tax	6a - Council Tax	I am working full time and I cannot afford Council Tax as it stands. This is a huge drain on my monthly expenses. In the current climate, I would 100 % prefer less services rather than an increase.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27595	Theme 6- Have your say on Council Tax	6a - Council Tax	My council tax has significantly increased. I now pay additional charges for garden waste and food waste collection. I would not support a further increase to council tax charge. I think savings should be made elsewhere.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27596	Theme 6- Have your say on Council Tax	6a - Council Tax	pay enough already.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27597	Theme 6- Have your say on Council Tax	6a - Council Tax	See previous answers there are other areas to save or make money it cannot be a constant increase on the residents homes	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27598	Theme 6- Have your say on Council Tax	6a - Council Tax	Over priced as it is	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27599	Theme 6- Have your say on Council Tax	6a - Council Tax	I feel I pay more than enough for the services provided at the moment. There has been a substantial decrease in services provided to service users.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27600	Theme 6- Have your say on Council Tax	6a - Council Tax	I agree that council tax should be used on key services only and no on non - statutory services (as per my previous answer) however I do not agree to a council tax increase. If the council is no longer providing non - statutory services then the current amount of council tax should suffice to cover these alongside implementing some of the cost saving initiatives you've noted. Council tax in its current form in the UK is one of the most expensive in the world, most other countries manage perfectly well in providing key services for a manageable cost, I have never seen any other country where people pay so much to a local authority each year (exceptions for large cities such as New York / London etc), but not for a Scottish country local authority.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27601	Theme 6- Have your say on Council Tax	6a - Council Tax	My household could not afford an increase its already expensive we would need to cut this increase from food shop	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27602	Theme 6- Have your say on Council Tax	6a - Council Tax	No — not without stronger accountability and fairness for all residents, not just council tenants. Households across West Lothian are already under financial strain, and another rise in Council Tax would hit working families and homeowners who are already paying more but seeing less in return.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27603	Theme 6- Have your say on Council Tax	6a - Council Tax	You are already over charging, cut waste	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27604	Theme 6- Have your say on Council Tax	6a - Council Tax	I absolutely do not agree with increasing council tax. I already pay £2, 115 and see no return in Livingston: poor tree clearance, dirty footpaths, restricted waste - site access. Freeze Council Tax and fix basics first.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27605	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not. Cut down your spending. Every service besides the absolute minimum should come with a charge and be self sustained at best.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27606	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not!! Council tax should be banned it 's far to expensive	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27607	Theme 6- Have your say on Council Tax	6a - Council Tax	You can't expect to keep putting council tax up all the time but also cutting services. To get potential buy in for this a complete plan set out on what it would fund before putting it to a vote.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27608	Theme 6- Have your say on Council Tax	6a - Council Tax	I can barely afford it at the moment Better management is needed	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27609	Theme 6- Have your say on Council Tax	6a - Council Tax	The council rate I already pay is extremely high with very little benefit for this. Including not having salt bins filled over winter and no glass collection and having to pay an additional food bin permit.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27610	Theme 6- Have your say on Council Tax	6a - Council Tax	Many residents like myself struggles to pay for council tax, energy bills, transport and food - many do not have the money even to go on holidays!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27611	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is too high. That's why it was frozen for years, for people on limited incomes It's a real burden. I am a pensioner still living in my family home. I do get the single person discount but I don't get much more than the state pension. The council tax represents a large proportion of that. I can only just afford it. Perhaps people on low incomes could get more council tax relief.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27612	Theme 6- Have your say on Council Tax	6a - Council Tax	Not until I have confidence that the council is well run, systems and data are robust and there is appropriate governance in place for decision making.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27613	Theme 6- Have your say on Council Tax	6a - Council Tax	No — because Council Tax has already been increased, and yet we're still facing the same poor level of service. Roads, bins, maintenance, and communication have all gone downhill despite paying more every year. If the Council can't show clear improvements or where the extra money has gone, then another rise can't be justified. People are struggling as it is, and it feels like these decisions are being pushed through regardless of what residents actually say. Until there's transparency, accountability, and real improvement in frontline services, I can't support any further increase.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27614	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't believe it is good value for money as it stands. How would the council really improve services? Residents already pay for things like Brown bins to be emptied. Disabled people on benefits have to pay for this and I do not agree with that at all.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27615	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is a joke and the current council should get their own house in order before the consider the public for more money.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27617	Theme 6- Have your say on Council Tax	6a - Council Tax	I am already paying nearly £300 per month	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27618	Theme 6- Have your say on Council Tax	6a - Council Tax	You're already rinsing us of everything we work for. Get it changed before it's done by the people hand with force. Any increase in council tax will be met with force. We've had enough of your incompetence	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27619	Theme 6- Have your say on Council Tax	6a - Council Tax	It's already expensive enough without increasing it	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27620	Theme 6- Have your say on Council Tax	6a - Council Tax	How could anyone condone paying more for increasingly less and less. Nothing functions or is being done well. Education poor, roads poor, art and child provision care poor, etc etc. Start showing worth	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27621	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is high already and we need to pay extra for garden waste and bulky uplifts ourselves	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27622	Theme 6- Have your say on Council Tax	6a - Council Tax	No the council tax bill is already high for amenities provided. No wage rise next year will save a lot and reduce amount out to pensions. Working in private sector I have had 1 wage rise in 6 years - if you are over budget how can you reward with a wage rise!!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27623	Theme 6- Have your say on Council Tax	6a - Council Tax	I believe adding additional financial burden on those who are already struggling to make ends meet is just a step too far!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27624	Theme 6- Have your say on Council Tax	6a - Council Tax	We are already paying one of the highest council tax in the country	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27625	Theme 6- Have your say on Council Tax	6a - Council Tax	Don't agree with council tax in principle	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27626	Theme 6- Have your say on Council Tax	6a - Council Tax	Cannot afford. Salary has not increased. But inflation happened and expenses increased. A wise distribution of fund and it's review is required rather than adding more burden on people	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27627	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay enough.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27628	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay enough taxes. The council don't manage money properly. Houses are falling down.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27629	Theme 6- Have your say on Council Tax	6a - Council Tax	No, I do not support an increase in CT as I believe this is already high. Can it be used better yes. Can some of the community costs be passed to the Housing Companies earning great sums with new builds?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27630	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay over £330 and would not support paying more - our services are way below those in other councils	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27631	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay enough for council tax with reduced services as it is	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27632	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not. The residents of West Lothian are paying through the nose and getting next to nothing in return.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27633	Theme 6- Have your say on Council Tax	6a - Council Tax	Not at all, council tax rates are terrible as it is when services are consistently being cut.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27634	Theme 6- Have your say on Council Tax	6a - Council Tax	Based on the options and details provided before this question I feel there are ample opportunities to save money before having to raise council tax. The crossing patrol is just one example	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27635	Theme 6- Have your say on Council Tax	6a - Council Tax	No my council tax is far too high as it is!! The people of West Lothian spoke about the local swimming pool and how this was vital for them, it community and we weren't listened to! So absolutely not agreeing for council tax to be increased when we are not listened to	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27636	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is large outgoing for us now in comparison to when we first became home owners. I don't support any further rise to council tax as I feel this is already such a large bill in comparison to income	Corporate Policy and Resources	2. 27637	Theme 6- Have your say on Council Tax	6a - Council Tax	I fell the council tax should not be raised due to the cost of Living crisis as the community is already struggling. I believe if the council fund new effective ways to reduce costs use rentable energy cut back on expenses and expenditure on things that are no longer needed or required for the community and the residents the money would stretch a lot more and the money would Be more efficient and spent on what is needed and not wasted on items that do not matter	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27638	Theme 6- Have your say on Council Tax	6a - Council Tax	Already too expensive	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27639	Theme 6- Have your say on Council Tax	6a - Council Tax	Why on earth would we agree to pay more For less?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27640	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay enough as it is for this Tory tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27641	Theme 6- Have your say on Council Tax	6a - Council Tax	We already pay a fortune as Council Tax, it is beyond extortion and we do not have a chance to save on it because it is imposed!!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27642	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay enough as it is. It 's up to you to manage the money you take not for me to tell you how to.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27643	Theme 6- Have your say on Council Tax	6a - Council Tax	No one has the funding for another council tax increase, we are all stretched to this as it is	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27644	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not I can 't afford it 's current rate	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27645	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already expensive for an already poor service. I e paying extra for garden waste collection plus all the cut backs. Leave council tax alone.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27646	Theme 6- Have your say on Council Tax	6a - Council Tax	We already don 't get value for money.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27647	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax is raised every year with all other bills increasing its getting harder for households to keep up and budget. So no i definitely don 't think it should be increased.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27648	Theme 6- Have your say on Council Tax	6a - Council Tax	Pay more get less. If it wasn 't mandatory I bet not 1 single person in west Lothian would think we get value for money. Why would you pay more for anything to get less than you had before. Your questions are all about savings and how to save. What about increasing earnings. You need to make money and to do this you have to work for it by new ideas and services that people want and pay for. Not taken the easy option to get more money by upping tax. Lazy lazy lazy	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27649	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is expensive enough, £88 a month to get my bin emptied!! Roads are an absolute joke in West Lothian, I'm a driving instructor and trying to teach people to drive and follow good road procedure in places where there's no markings is awful and also extremely UNSAFE	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27650	Theme 6- Have your say on Council Tax	6a - Council Tax	It 's expensive enough and we already struggle to pay this, our mortgage and gas / electricity. As well as our other smaller bills.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27651	Theme 6- Have your say on Council Tax	6a - Council Tax	Spend enough on council taxes	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27652	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already very high and more often than not, bins are not being emptied etc.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27653	Theme 6- Have your say on Council Tax	6a - Council Tax	There is no money for the local people and people are struggling day to day every day people struggle to leave so any tax racist will definitely damage the communities	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27654	Theme 6- Have your say on Council Tax	6a - Council Tax	Most can't afford it as is, raising it would put an even more strain on low income households	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27655	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax payments as it stands are already high and we have already seen a reduction in services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27656	Theme 6- Have your say on Council Tax	6a - Council Tax	Prices are already high and families struggling as it is with cost of living and inflation	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27657	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay a high rate of council tax for very little on return. All I get use is water and bins and I pay my brown bins. I am 252 pm for basically next to nothing. I pay maintenance for grass cutting and the play park in my area is disgusting. So I will not be paying any more council tax for a depleting service. 27658	Theme 6- Have your say on Council Tax	6a - Council Tax	I am in council tax G with councils are using outdated historic version of calculating taxes. Council is pushing home owners away from my new houses with hefty council tax bills. If council taxes are increased by such fashion, home owners will be moving in to debt mode. So I wont support any council tax changes.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27659	Theme 6- Have your say on Council Tax	6a - Council Tax	No it's hard the now with council tax going up every year and it's putting families in debt to pay it	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27660	Theme 6- Have your say on Council Tax	6a - Council Tax	You keep squeezing people and providing nothing of value in return. We pay more receive less, and get largely ignored for our troubles.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27661	Theme 6- Have your say on Council Tax	6a - Council Tax	No, I would not support an increase in Council Tax. The Council must first maximize all savings and income opportunities detailed in sections 1 to 5 to avoid placing a greater financial burden on residents. The Council must prioritize funding key services through: (e.g., 10c. .). Only after these actions are exhausted should a Council Tax rise be considered.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27662	Theme 6- Have your say on Council Tax	6a - Council Tax	Paying too much now	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27663	Theme 6- Have your say on Council Tax	6a - Council Tax	Cannot already afford the unrealistic price of this Council tax. This is an unfair tax as we all receive the same service.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27664	Theme 6- Have your say on Council Tax	6a - Council Tax	Not right now when too many people are struggling. Also what checks and measures would be put in place? If the community says yes to an increase how is that monitored and adjusted fairly?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27665	Theme 6- Have your say on Council Tax	6a - Council Tax	Already far too high and having to already pay for services in addition. Better management of the budget given should be the priority and if elected officials cannot deliver then they should step down and allow others to try.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27666	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay council tax and as it is, we struggle to have our waste collected. I would not support a raise in council tax unless core services were improved.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27667	Theme 6- Have your say on Council Tax	6a - Council Tax	As a full time working household I already feel the council tax charges are at an all time high, and any increases would mean further pressure of making ends meet each month.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27668	Theme 6- Have your say on Council Tax	6a - Council Tax	We do already pay a high amount of council taxes to receive not enough services, it is impossible to have extra bins, collections are really sporadic. Brown been charged of 502l's already crazy and commuting to recycle glass is not good and impossible for some households Communal spaces have to kept cleans from locals as council doesn't care	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27669	Theme 6- Have your say on Council Tax	6a - Council Tax	No because there is no level of public confidence in your decision making. Everyone I know could tell you what 's a waste of money. My parents are buried in new east Calder cemetery. The tap for water for plants and flowers hasn't worked in at least six months, yet they can run competitions and spend money on an eye sore art installation that adds nothing to the cemetery experience. When it was being created I thought maybe a war memorial or monument to reflect west Lothian people or achievements. Nope it looks like a kids mechano set and toy animals stuck on it. But you ran a competition and had a council committee. So there is some savings type that could have been made with no pain. I love art galleries and would rather that art budget had gone to something like a local museum.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27670	Theme 6- Have your say on Council Tax	6a - Council Tax	Can't afford to pay anymore	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27671	Theme 6- Have your say on Council Tax	6a - Council Tax	Many people struggling to pay existing cost of council tax and I feel any further increase would result in people stopping paying altogether. The only way an increase could be considered would be a complete overhaul of the process - eg in line with income	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27672	Theme 6- Have your say on Council Tax	6a - Council Tax	With everything increasing people who pay council tax already have enough to deal with. People of West Lothian want to be proud of the area they stay in however at present West Lothian is not a great place to stay, the area looks unkempt, with weeds and overgrown road sides and streets with bins that are overflowing with bins that have been refused to be emptied as they are filled with wrong stuff and no one taking responsibility, green areas being destroyed by motorbikes and quad bikes and no come back on it, left for residents again in Whitburn. No one willing to take responsibility and services in the area are restricted	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27673	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has been increased multiple times and services have got worse, not better. I can't imagine anyone would want to pay more council tax to have a vastly reduced council service. A raise in council tax would not cover the deficit I'd assume, so services would still be cut regardless of an increase in tax.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27674	Theme 6- Have your say on Council Tax	6a - Council Tax	I spend enough of my hard earned cash on council tax Try reducing some of the waste of money that you do 20mph zones for instance coming back after being a failure and what else does that happen with	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27675	Theme 6- Have your say on Council Tax	6a - Council Tax	It's already very high. You are also Collecting revenue from brown bin.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27676	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already high, and with the cost of living increasing in all areas I feel as increase in council tax would be the 'nail in the coffin' for many families already struggling	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27677	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is expensive enough. More harder for ones like myself that work. This doesn't need to be increased again	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27678	Theme 6- Have your say on Council Tax	6a - Council Tax	No we pay enough for council tax. Increasing this is just going to make us all Especially the ones that work suffer more	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27679	Theme 6- Have your say on Council Tax	6a - Council Tax	People are already struggling day to day, everything has gone up with the exception of the money they have coming in. People in West Lothian are already not getting a great service in my opinion so why would we want to contribute more.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27680	Theme 6- Have your say on Council Tax	6a - Council Tax	Already pay a ridiculous amount for the services provided. Last years increase was the easy option for you and most likely an indication of what you will now do every year now regardless of surveys such as this. Over £400 a month for what????	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27681	Theme 6- Have your say on Council Tax	6a - Council Tax	WLC cannot afford and should not be responsible for financial mismanagement by WLC. Increasing Council tax, is hiding the problem and not confronting the issue.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27682	Theme 6- Have your say on Council Tax	6a - Council Tax	You've raised it enough you take more and more yet it's still not enough. When will it be enough. There's a hole somewhere in your budget which needs to be addressed as this is the extra cash you need find out where it's going and why then you'll see you don't need the people to keep topping up your living.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27683	Theme 6- Have your say on Council Tax	6a - Council Tax	I cannot see where our current money goes and would not be paying an increase	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27684	Theme 6- Have your say on Council Tax	6a - Council Tax	The general consensus about council tax in the country is we pay a lot. I suggest the council look into other income generating	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27685	Theme 6- Have your say on Council Tax	6a - Council Tax	I currently pay £330 a month, it can't be justified to go up any further. The lower rates need to be raised and the non payers need to be addressed. £330 a month and I still need to pay £50 extra for my garden waste bin.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27686	Theme 6- Have your say on Council Tax	6a - Council Tax	I think we pay enough in council tax especially in small villages where we have no amenities	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27687	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely NOT, we personally pay £226 per month, my husband has stage 4 cancer and we are struggling as it is, what benefits do we get paying this ridiculous amount every month? apart from bins being emptied and water, we don't want to help home migrants or illegals but we have no choice	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27688	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is ridiculous enough, you won't listen anyways and will continue to hurt people further by raising again when the cost of living has to be the main priority. Working people can't continue to pay all these rises. Will be talking to a brick wall as guaranteed these responses will be manipulated to get the answer the council want to see.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27689	Theme 6- Have your say on Council Tax	6a - Council Tax	It's expensive enough, employ people better at managing the tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27690	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not, it is already too expensive and is not fit for purpose, the number of services we receive and quality of such is vastly inferior	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27691	Theme 6- Have your say on Council Tax	6a - Council Tax	Stop making the bills go up for us	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27692	Theme 6- Have your say on Council Tax	6a - Council Tax	This should already be spent on essential services. The amount we pay is ridiculous. I cannot afford any more and I do not see any benefit at all	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27693	Theme 6- Have your say on Council Tax	6a - Council Tax	People cannot afford the amount they need to pay already, council tax is expensive already that mixed with all the other increases families cannot cope. Some children are cold at home as it's eating or heating adding a bigger pressure means there will be cold kids and hungry kids. There is a breaking point and people are close already.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27694	Theme 6- Have your say on Council Tax	6a - Council Tax	People are financially at their limits. I'm a single mum of a 17 year old. I cannot afford a raise. More people won't pay.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27695	Theme 6- Have your say on Council Tax	6a - Council Tax	NO TO COUNCIL TAX RISE	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27696	Theme 6- Have your say on Council Tax	6a - Council Tax	It's already too high. Along with everything else. How are we supposed to live.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27697	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay enough council tax for reduced services it's an absolute joke. No rise in council tax we are all struggling financially	Corporate Policy and Resources	2. 27699	Theme 6- Have your say on Council Tax	6a - Council Tax	No but if you raise council tax you are putting more people into poverty	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27700	Theme 6- Have your say on Council Tax	6a - Council Tax	I already pay additional charges on brown bin, factors fees, woodland association. I cannot afford a further increase in tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27701	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has been increased quite a lot especially in recent years so I don't think it's a good idea at all	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27702	Theme 6- Have your say on Council Tax	6a - Council Tax	we pay enough and you are talking about taking away so much and giving nothing in return for anyone why don't you stop the fancy meals and events for yourselves and why don't the big wigs take a pay cut the same as the workers	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27703	Theme 6- Have your say on Council Tax	6a - Council Tax	All the savings look great, so why the need to increase council tax? Work smarter costs savings will happen through time. The answer isn't always to put up bills.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27704	Theme 6- Have your say on Council Tax	6a - Council Tax	No council tax increase.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27705	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing council tax for worse public services makes zero sense.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27706	Theme 6- Have your say on Council Tax	6a - Council Tax	Already paying 1 / 3 of pension on council tax. How much more can we pay?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27707	Theme 6- Have your say on Council Tax	6a - Council Tax	We Gave a Huge increase in Council Tax last year, it is clear that this Tax increase has not work the people in the community are not a Bottomless pit to be abused by the Council, no tax increase, m	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27711	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is extortionate already for an decreasing level of service	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27712	Theme 6- Have your say on Council Tax	6a - Council Tax	Can't afford even the small bit I have to pay.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27713	Theme 6- Have your say on Council Tax	6a - Council Tax	Already too high cost of living for people, the higher it is the more people won't pay it, maybe this costs you more to chase it?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27714	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living is already too high so no rise in CT. Look to other ways to generate income, such as better use of people who are not occupied in productive ways, and could be used to support services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27715	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living is already too high and is pushing vulnerable families, single people and pensioners into hardship.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27716	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing taxes for zero discernible benefits should not happen	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27719	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax should not be increased, because is already too high for me to bear after so much shifts to cover my bills	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27720	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already expensive, I would rather you cut services than have to pay more of my hard earned money in council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27721	Theme 6- Have your say on Council Tax	6a - Council Tax	It's unreasonable to expect people to pay more. You have just laid out many ways to make savings, focus on the ones with the least real life impact.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27722	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely not. You can make savings in many areas of the Council 's operations. Council Tax is way too high already for the service level provided. Everyone benefits from an educated society but people are sick of funding social care to the level that it 's reached. It 's a drain on hard working people and the criteria for accessing funded support are far too relaxed. The reduction in bin collections, charging for brown bin collection instead of getting creative with local composting facilities, closing libraries, providing less and less and charging more and more to help offset 'levelling up' the pay of unskilled and semi - skilled workers has reached a tipping point. WLC needs a healthier population with more people in paid work, less demand for social housing, and more of a drive to be an exemplar local authority not a rough, underperforming part of Scotland with a few pockets of affluence. Be bolder and aim for better instead of blandly increasing Council Tax and having no new ideas.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27723	Theme 6- Have your say on Council Tax	6a - Council Tax	People are already struggling to pay their bills with more people than ever relying g on food banks etc. To make increases would add to struggles	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27724	Theme 6- Have your say on Council Tax	6a - Council Tax	No, the roads are a mess and need fixing, once the community sees a difference within the community and roads behind upheld and improved then people may agree	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27725	Theme 6- Have your say on Council Tax	6a - Council Tax	Some people cannot afford this.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27726	Theme 6- Have your say on Council Tax	6a - Council Tax	Focus on reducing infancies and necessary spending before rising council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27727	Theme 6- Have your say on Council Tax	6a - Council Tax	No to raising council tax - we as pensioners pay enough	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27728	Theme 6- Have your say on Council Tax	6a - Council Tax	You have just done this and cost of living is bad enough	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27729	Theme 6- Have your say on Council Tax	6a - Council Tax	I think they should keep the costs just as they are	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27731	Theme 6- Have your say on Council Tax	6a - Council Tax	I think the council should lower down some prices.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27732	Theme 6- Have your say on Council Tax	6a - Council Tax	You cannot raise the council tax & provide substandard services. You are cutting everything & you want us to pay more!!!! You mismanaged at every level.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27733	Theme 6- Have your say on Council Tax	6a - Council Tax	this would have an impact on my family	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27734	Theme 6- Have your say on Council Tax	6a - Council Tax	No because money should have already been spent on key services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27735	Theme 6- Have your say on Council Tax	6a - Council Tax	I think if we want more funding for key places then more money should be taken from non key places instead of adding taxes	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27736	Theme 6- Have your say on Council Tax	6a - Council Tax	Some people can't afford paying more council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27737	Theme 6- Have your say on Council Tax	6a - Council Tax	No as many people can't afford it, the council NEED to take this into consideration. People are in a cost of living crisis and the council can't keep raising tax constantly as people cannot afford it	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27738	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living is already an issue and struggling families already are struggling this would further put them in debt. 27745	Theme 6- Have your say on Council Tax	6a - Council Tax	I am not seeing anything nice in Whitburn - I would begrudge paying a higher council fee unless you introduce flowers and pretty lights etc.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27746	Theme 6- Have your say on Council Tax	6a - Council Tax	If I thought it would actually go to these services id say yes, but seen as its more likely id pay more money and you would still do the same or less, im not willing to fork out more money.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27747	Theme 6- Have your say on Council Tax	6a - Council Tax	No rise is necessary - you can balance the budget by spending less.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27748	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't agree with raising council tax to pay the interest on an unnecessary £90 million school. Utter madness!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27749	Theme 6- Have your say on Council Tax	6a - Council Tax	I simply cannot afford any increase to my bills and I'm already working 2 jobs	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27750	Theme 6- Have your say on Council Tax	6a - Council Tax	Raising Council Tax would put even more pressure on Families and push them further into poverty.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27751	Theme 6- Have your say on Council Tax	6a - Council Tax	I dont believe raising council tax is the answer. This penalises people who may not use many services. I think a reduction in spending on inappropriate things is more important than raising tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27752	Theme 6- Have your say on Council Tax	6a - Council Tax	already increased the bin charges, should not increase council tax	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27753	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is paid by the few for the benefit of the many and is already high enough for the services it provides.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27754	Theme 6- Have your say on Council Tax	6a - Council Tax	No, I pay enough council tax and I never abused the sickness so why should I be penalised	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27755	Theme 6- Have your say on Council Tax	6a - Council Tax	some people dont have the access to money to pay additional taxes	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27758	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax and central funding is there to pay for providing services. I pay c£250 per month council tax for basically nothing now. Refuse to pay £50 on top to empty my brown bin as matter of principle. Blood boils having to pre book to go to community recycling centres and paying someones salary to check my car registration to lift barrier. Symptomatic of farsical route council going down.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27759	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax should not be used to cross fund a lack of funding from the SG. Councils should be forced to stop a large part of non statutory services before proposing large council tax rises. Normal working people are being squeezed from all sides.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

27760	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase people's rent instead	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27761	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax already gone up we now have tiny bins as rubbish all over the West Lothian the place looks like a giant bucket and we want our big bins back. We want to do our own recycling and we want to get our own stuff out so I don't see why the council tax needs to go up since we're doing less and less and less than even sold off their waste industry to another company to a bit money in profits and people getting their pay bonuses	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
27762	Theme 6- Have your say on Council Tax	6a - Council Tax	WORKING families are struggling to make ends meet, can't afford any more increases in the cost of living. 27766	Theme 6- Have your say on Council Tax	6a - Council Tax	Improve efficiency. Implement strategies to improve council tax collection rates. Paying taxes via direct debit and e - billing is cheaper to administer.	Corporate Policy and Resources	4. The council is already doing this.
27767	Theme 6- Have your say on Council Tax	6a - Council Tax	Collecting unpaid council tax.	Corporate Policy and Resources	4. The council is already doing this.
27768	Theme 6- Have your say on Council Tax	6a - Council Tax	Using firms like Alex damsons to chase both council tax and rent debt. Most people if struggling will not pay their rent over other bills as this doesn't affect their credit scores if they miss payments	Corporate Policy and Resources	4. The council is already doing this.
27769	Theme 6- Have your say on Council Tax	6a - Council Tax	A small Council tax rise is likely to bring in significant revenue. Ask the government for more money!	Corporate Policy and Resources	4. The council is already doing this.
27770	Theme 6- Have your say on Council Tax	6a - Council Tax	First get the basics right. We need greater transparency in how OUR money is spent. Better metrics on how the council is run will better highlight opportunities for efficiency. If this were provided the council paying tax public will quickly find savings guaranteed. Greater accountability.	Corporate Policy and Resources	4. The council is already doing this.
27771	Theme 6- Have your say on Council Tax	6a - Council Tax	Improve collection rates on unpaid council tax. Utilise grant schemes by seeking out and applying for central government or other funding grants. Early intervention	Corporate Policy and Resources	4. The council is already doing this.
27772	Theme 6- Have your say on Council Tax	6a - Council Tax	Owners of multiple properties should be taxed higher on their council tax.	Corporate Policy and Resources	4. The council is already doing this.
27773	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is high enough! Keep supporting those who advocate for greater government funding to make up the deficit that has resulted in recent years.	Corporate Policy and Resources	4. The council is already doing this.
27774	Theme 6- Have your say on Council Tax	6a - Council Tax	Chase the people who are not paying their council tax. The non - payment number in West Lothian is out of control. The people in West Lothian who pay their council tax are fed up seeing increases but with less services and their money being wasted.	Corporate Policy and Resources	4. The council is already doing this.
27775	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax needs reform, not blanket increases across the existing tiers. Its up to local government and government to advocate and implement this.	Corporate Policy and Resources	4. The council is already doing this.

27777	Theme 6- Have your say on Council Tax	6a - Council Tax	The focus should be on increasing the number of people paying council tax	Corporate Policy and Resources	4. The council is already doing this.
27778	Theme 6- Have your say on Council Tax	6a - Council Tax	Until the arrears have been collected I do not support another increase. WLC increased their rates yoy when over councils stuck to the government freeze! I don't know the demographics for the arrears but this should be reviewed and steps taken to claw it back! The current debt value unacceptable!	Corporate Policy and Resources	4. The council is already doing this.

27781	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax is already charged at a high rate and it only affects people who actually pay it. There are so many people who choose not to pay the council tax, they have high debt and arrears but nothing is done about this. This would be a better way to make money. Also take into account all of someone's income rather than disregarding disability payments, child benefit etc as some people have more money coming in than me but don't pay a penny towards rent or council tax.	Corporate Policy and Resources	4. The council is already doing this.
27782	Theme 6- Have your say on Council Tax	6a - Council Tax	Payout less benefits and look for council tax not being paid to actually be paid rather than making the ppl who already pay too much pay more. We need to tackle those not working and living off the rest of us.	Corporate Policy and Resources	4. The council is already doing this.
27783	Theme 6- Have your say on Council Tax	6a - Council Tax	Focus on those who haven't paid council tax. Unless pay rises are in line with council tax rises, you are pushing residents into poverty.	Corporate Policy and Resources	4. The council is already doing this.
27784	Theme 6- Have your say on Council Tax	6a - Council Tax	The council needs to become more efficient, not making the public pay for its mismanagement.	Corporate Policy and Resources	4. The council is already doing this.
27785	Theme 6- Have your say on Council Tax	6a - Council Tax	Chase non payers. Don't reduce by as much for those on benefits if they don't work. People who already get free or subsidies on housing rent should still pay as much council tax as a Mortgage or full renter. The benefits should cover essential bills and be taken before give to the recipients. Not going on latest fashion, cigarettes or drugs as quite often witnessed in my area.	Corporate Policy and Resources	4. The council is already doing this.
27786	Theme 6- Have your say on Council Tax	6a - Council Tax	Outstanding debt requires to be collected as only people paying are contributing and then paying more.	Corporate Policy and Resources	4. The council is already doing this.
27787	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has already increased substantially putting further pressure on residents of West Lothian. I believe savings can be made by actively pursuing residents who are in council tax and rent arrears. People should not be allowed to get away with not paying council tax and rent and there should be stronger consequences in place to deter people from defaulting on payments.	Corporate Policy and Resources	4. The council is already doing this.
27788	Theme 6- Have your say on Council Tax	6a - Council Tax	Improve collection rates from people who don't pay	Corporate Policy and Resources	4. The council is already doing this.
27789	Theme 6- Have your say on Council Tax	6a - Council Tax	Can I suggest that you recover council tax that is not paid, instead of punishing those who pay religiously?	Corporate Policy and Resources	4. The council is already doing this.
27790	Theme 6- Have your say on Council Tax	6a - Council Tax	If WLC Collected council tax properly and stopped subsidised council tax for those who can and should be working and contributing to society would cover a huge amount of the deficit. Stop penalising the hard working!	Corporate Policy and Resources	4. The council is already doing this.
27791	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already too high, prosecutions should be followed through on all refusal / persistent non payments, the only reduction that should be in place should be the single householder, no automatic reduction for those on benefits as everyone needs to contribute and budget if they wish the services	Corporate Policy and Resources	4. The council is already doing this.
27792	Theme 6- Have your say on Council Tax	6a - Council Tax	raising the council tax will only generate a small amount. Government funding is at an all time low, it should be putting pressure on Scottish and National government to be providing additional funding.	Corporate Policy and Resources	4. The council is already doing this.
27793	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is a con and unfair tax £1750 a month to get bins emptied and water I pay extra for brown bin why? Chase the non council tax payers the non rent payers and there savings of few million if people want to move make it like in the past that houses have to pass inspection and things back to normal instead of council employees repairing and replacing things again millions saved	Corporate Policy and Resources	4. The council is already doing this.
27794	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't want to pay anymore than I already do as it's already akin to a small second mortgage! Again recoup money from people that should be paying council tax. Or let's heavily increase the council tax on houses over £400k	Corporate Policy and Resources	4. The council is already doing this.
27795	Theme 6- Have your say on Council Tax	6a - Council Tax	Try recovering council tax from them who just don't pay and stop using adamsons to recover monies from the council tax payers who only miss one or two payments, it's the ones who never pay and never have you need to pursue	Corporate Policy and Resources	4. The council is already doing this.
27796	Theme 6- Have your say on Council Tax	6a - Council Tax	Collect all outstanding council tax arrears	Corporate Policy and Resources	4. The council is already doing this.
27797	Theme 6- Have your say on Council Tax	6a - Council Tax	Collect the Council Tax arrears and rent arrears outstanding, not waiting until arrears are at the level which makes it harder to get payments back in - early intervention is key in collecting arrears	Corporate Policy and Resources	4. The council is already doing this.
27798	Theme 6- Have your say on Council Tax	6a - Council Tax	Try catching up with the folk that owe thousands for council tax and rent instead of just writing it off	Corporate Policy and Resources	4. The council is already doing this.
27799	Theme 6- Have your say on Council Tax	6a - Council Tax	Cut subsidised council tax	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
27800	Theme 6- Have your say on Council Tax	6a - Council Tax	Because it should not be covering road maintenance costs. This should come from vehicle tax!	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
27801	Theme 6- Have your say on Council Tax	6a - Council Tax	Leave taxes... make sure people actually pay the current amount instead of writing it off. Cut services if u must..... No payment = no water or rubbish removal	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.

27802	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is more than enough and target the folk that dont pay it	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
27803	Theme 6- Have your say on Council Tax	6a - Council Tax	Freeze council tax for another year, until you get your budgets and suggested savings in order. Who and how will you deliver - you need the right people, with the right skills in key areas.	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
27804	Theme 6- Have your say on Council Tax	6a - Council Tax	I would only support if it was guaranteed no more cuts to services.	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
27805	Theme 6- Have your say on Council Tax	6a - Council Tax	If some of the savings set out earlier in the consultation go ahead then shouldn't also raise tax. Should be either raise tax or make cuts	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
27806	Theme 6- Have your say on Council Tax	6a - Council Tax	We have private healthcare (work), had to take education due to WLC failures... so I would not want to raise my taxes further when I see more of the same mediocrity. I am a socialist at heart but your council has made this impossible. I believe I have given suggestions to make savings. You have to reframe how you look to 'balance out our budget'. You have to diversify your income. Private is probably the easiest way.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
27807	Theme 6- Have your say on Council Tax	6a - Council Tax	Help people that work, the council tax pay is terrible it's not cheap and thh what is the council giving us for what we pay for?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27808	Theme 6- Have your say on Council Tax	6a - Council Tax	Make council tax feel more worth the money by providing adequate services. This might make more folk pay it. It feels like a scam currently.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27809	Theme 6- Have your say on Council Tax	6a - Council Tax	My generation have paid thousands of pounds into local councils, where is my return now that I'm 67	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27810	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasingly council tax is only going to make people fall deeper into debt.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27811	Theme 6- Have your say on Council Tax	6a - Council Tax	However, it is clear that an increase in council tax has been included in this question, along side some more progressive ideas, in an attempt to skew the results of the survey, as it is obvious that an increase in council tax will not be popular.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27812	Theme 6- Have your say on Council Tax	6a - Council Tax	Its inevitable. Regardless what we vote, guaranteed that you'll hike up or council tax and tell us you're doing us a favour because "some councils like Falkirk" put theirs up higher than West Lothian	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27813	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay council tax you set to cover services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27814	Theme 6- Have your say on Council Tax	6a - Council Tax	The people of West Lothian are already paying top much council tax and receive appalling customer service and live in a state of disrepair... being told the repairs needed are not essential.. why should we have to pay more for horrendous service and already being overcharged for everything we do already pay for	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27815	Theme 6- Have your say on Council Tax	6a - Council Tax	The cost of living is crippling. If council tax charges go up this will only hurt lower income households. My household would definitely find it harder and we are earning what should be a good wage. The majority of our earnings already go toward bills.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27816	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay £150 a month already	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27817	Theme 6- Have your say on Council Tax	6a - Council Tax	As I see it, we run the risk of council tax payers, paying for little more than having expensive politicians and executives to look at and the administration of billing is for it.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27818	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay nearly £3000 council tax where is it all going!!!! Something doesn't add up here if there is so many more people in West Lothian why have you no money. How many people in West Lothian are claiming benefits and paying almost no council tax!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27819	Theme 6- Have your say on Council Tax	6a - Council Tax	Why are you cutting services when you have more revenue from council tax on all the new houses??	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27820	Theme 6- Have your say on Council Tax	6a - Council Tax	I already pay nearly £3000 council tax why do I need to pay more, get people on benefits to pay to use services seen as they don't pay any council tax	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27821	Theme 6- Have your say on Council Tax	6a - Council Tax	The council tax burden is hard enough. The rate of default will increase as the rising cost of living bites	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27822	Theme 6- Have your say on Council Tax	6a - Council Tax	If council tax is increased. Then I am sure a lot of people would like to see a benefit. I seem to pay more and don't see any change to my circumstances, paths / roads / fly tipping / litter just seems to be getting worse. Paying extra for my brown bin, can't just get rid of large waste items at the recycling centre. Trying to fit it in amongst ridge times and days. Easier to cut up and dispose of in little junks in the back bin is easier.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27824	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already too high for the services provided.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27825	Theme 6- Have your say on Council Tax	6a - Council Tax	Price inflation for everything is hard enough, without council tax going up as well	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27826	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already too high for the amenities and services available in West Lothian and more areas are becoming run down whilst vanity projects such as winchburgh receive all the investment.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27827	Theme 6- Have your say on Council Tax	6a - Council Tax	Stop wasting money. West Lothian council cannot be trusted to manage funds they already receive. Why should tax payers keep propping up a council that is clearly incompetent	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27828	Theme 6- Have your say on Council Tax	6a - Council Tax	Quite simply, you can't reduce services again and charge more.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27829	Theme 6- Have your say on Council Tax	6a - Council Tax	The council tax does not cover nor will it ever cover the budget gap that exists for the council. Constantly raising the council tax by 5 % at least each year is only punishing those who work hard for a living and who have earned the right to live the way they do. Why should I be punished for where I stay and the house I've worked so hard over the years to own?!! So much so that if the council tax keeps increasing at the rate it does we will need to seriously consider downsizing. Council tax is not the cash cow the council seems to think it is and should not be treated as such. Internal efficiencies should be addressed long before punishing the working class. If increases continue to occur there will be an increasing number of people refusing to pay and you'll shoot yourselves in the foot as it will require more expense and effort to try reclaim it.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27830	Theme 6- Have your say on Council Tax	6a - Council Tax	Already ridiculous model and cost for less and less services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27831	Theme 6- Have your say on Council Tax	6a - Council Tax	Council can't be trusted to spend the budget on essential services.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27832	Theme 6- Have your say on Council Tax	6a - Council Tax	We pay enough as it is on Council Tax and you have mentioned taking away some services such as refuse collection which we pay for in our Council Tax.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27833	Theme 6- Have your say on Council Tax	6a - Council Tax	People are SKINT, wages are not rising or keeping up with increased costs. You will end up with more defaults in payments	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27834	Theme 6- Have your say on Council Tax	6a - Council Tax	By your own admission increase in council tax would have very little impact on improving services. If you were honest and tell people that you can not do a number of things and encourage more community involvement as happens with litter pickers etc and allow the public to have more responsibility	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27835	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already very expensive and putting a strain on household budgets.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27836	Theme 6- Have your say on Council Tax	6a - Council Tax	Monies paid and services covered for this payment don't mirror up as with every increase the service provision is less	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27837	Theme 6- Have your say on Council Tax	6a - Council Tax	The money does not go to help it is used to supplement wages of top councillors that get paid to much roads don't even get fixed West Lothian is going down hill	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27838	Theme 6- Have your say on Council Tax	6a - Council Tax	It would be only if it was spent on key services. The recent increase does not show that this has been done. I've no faith that the council would do as they say	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27839	Theme 6- Have your say on Council Tax	6a - Council Tax	That's interesting I thought I paid my road tax for road repairs Seems that's not the case after all! I wonder what else you haven't been sharing with your wage providers the tax payers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27840	Theme 6- Have your say on Council Tax	6a - Council Tax	Raising council tax is inevitable but be mindful you already discussing cutting more funding and more jobs which most of us do. Where will we get the funds to pay for increases if we don't have work?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27841	Theme 6- Have your say on Council Tax	6a - Council Tax	With the level we pay now services are awful. Roads are full of holes etc	Corporate Policy and Resources	7. 27843	Theme 6- Have your say on Council Tax	6a - Council Tax	People are stretched financially and increasing council taxes is not the answer to help people You say key services but what is key to person A is not key to person B. People want to know what the money will actually be spent on. Eg a 1% increase in taxes will 100 % be used to take on more teachers. Or build a new school not just £20k to pay for arts and £20k to pay for a new window etc etc.	Corporate Policy and Resources	7. 27845	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has gone up every year substantially and puts huge pressures on the cost of living whilst the services provided for the fee have decreased in frequency, availability and quality. Why are people paying more every year for less.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27846	Theme 6- Have your say on Council Tax	6a - Council Tax	Increases in council tax have shown no benefit. The council have shown no ability of how to achieve the correct balance of any increases. 27847	Theme 6- Have your say on Council Tax	6a - Council Tax	What you charge us versus what you give us is already a disgrace. Stop robbing us to pay for the council being so lazy.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27848	Theme 6- Have your say on Council Tax	6a - Council Tax	The council key services standards are terrible compared to what they used to be. Towns and areas are a mess. Jobs half done if they are ever done at all. They used to be before Bathgate is in a shocking state weeds, roads, drains not cleaned out ever. Grass cutting half done and not tidied up afterwards. Why should we pay more? Need to review yourselves as daily myself and many other people see how inefficient your services are and we all moan about this daily. Why should anyone pay money for a service that is substandard. We pay factors less money and get better services. About time the council sorted themselves out before anything else	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27849	Theme 6- Have your say on Council Tax	6a - Council Tax	people are struggling as it is with the cost of living	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27850	Theme 6- Have your say on Council Tax	6a - Council Tax	The monies raised by this will only be wasted elsewhere	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27851	Theme 6- Have your say on Council Tax	6a - Council Tax	Nobody should have to pay aade up tax we have to pay enough it's a joke	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27852	Theme 6- Have your say on Council Tax	6a - Council Tax	Once again make people more poor and the rich richer let's increase their bills	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27853	Theme 6- Have your say on Council Tax	6a - Council Tax	We are already paying council tax for reduced services. The bin collection and access to recycling centres of an absolute joke as it is. I would pay more for a better service, however you can't expect people to pay more for less.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27854	Theme 6- Have your say on Council Tax	6a - Council Tax	Why should we pay more council tax when there is nothing for children to do in West Lothian? Everything's been taken away from them?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27855	Theme 6- Have your say on Council Tax	6a - Council Tax	rather than higher council tax which may plunge families into further poverty putting further strain on council services. If council tax is increased by a minimal amount of 1 % this could lead to some income generation but not such an amount which would cause impact on West Lothian residents.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27856	Theme 6- Have your say on Council Tax	6a - Council Tax	The council tax that I currently pay reflects the service I use. Any further increases would put me in a state of hardship. The cost of this and my current rent is half my full monthly wage. I'm using myself as an example of a full time worker paying full rent and council tax.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27857	Theme 6- Have your say on Council Tax	6a - Council Tax	I believe a rise in council tax will cause people to be more angry when you remove all the services you are suggesting.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27858	Theme 6- Have your say on Council Tax	6a - Council Tax	I'm already wrapping up rather than using my heating so an increase in council tax at this point would be catastrophic From reading this email, it appears that there are a lot of other options to save money	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27859	Theme 6- Have your say on Council Tax	6a - Council Tax	Residents are struggling with cost of living. You will push some over the edge. Use a spell - checker, rasing is not a word.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27860	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is predominantly spent on postcode areas with some areas getting almost all things done before some of the outlying areas and is unfair	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27861	Theme 6- Have your say on Council Tax	6a - Council Tax	In all honesty there is plenty for the council to amend from just my comments and more why does the residents need to suffer again because money has been put to the wrong places. Review it first come back to the people and then let's decide if we need to invest. If xcite is not reduced in prices, facilities for working parents to use child care is not approved then no I wouldn't agree for an increase.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27862	Theme 6- Have your say on Council Tax	6a - Council Tax	We have seen council tax increase over the past years with no noticeable benefit. You are clearly mismanaging the situation. It would not be a surprise if you are managing in the same way the University of Dundee did.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27863	Theme 6- Have your say on Council Tax	6a - Council Tax	It's bad enough that you decided to introduce this to provide services that you are making your tenants pay more for things e. g. brown bins the fact that instead of doing the recycling promises you are still taking it all to the one place	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27864	Theme 6- Have your say on Council Tax	6a - Council Tax	you are making people pay more than enough for it already if you keep putting it up then there will be more and more people on benefits and getting it payed for them as they can not afford to pay it just now	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27865	Theme 6- Have your say on Council Tax	6a - Council Tax	Already don't get a adequate service for the council tax we pay	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27866	Theme 6- Have your say on Council Tax	6a - Council Tax	You don't need to pay council tax i dont	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27867	Theme 6- Have your say on Council Tax	6a - Council Tax	Its not about alternatives, its the fact that many feel they wouldnt trust that the council would actually use the revenue from increased tax for what they promise initially	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27868	Theme 6- Have your say on Council Tax	6a - Council Tax	Yet again taking more money from people when they see nothing in return. Salaries and benefits are not increasing but we are expected to pay out more. I am on disability benefit, since moving to universal credit I receive less now than I did 5 years ago!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27869	Theme 6- Have your say on Council Tax	6a - Council Tax	It goes up most years anyway show where this payment is used.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27870	Theme 6- Have your say on Council Tax	6a - Council Tax	In a businessman who earns a living by working efficiently and generating wealth. The councils should be more entrepreneurial, you cant just keep taxing people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27871	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax does not improve the savings a lot but give a lot of burdens to people already in this high cost living environment. Just look at how much in and then cut down more service to make balance	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27872	Theme 6- Have your say on Council Tax	6a - Council Tax	It's already stripped back to basics.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27873	Theme 6- Have your say on Council Tax	6a - Council Tax	I think the council need to learn to work more efficiently rather than increase costs again. I don't know how many times you see council workers out on the roads or streets doing nothing. They don't even empty your bin when it's left out.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27874	Theme 6- Have your say on Council Tax	6a - Council Tax	The rises in recent years have been eye watering. Making savings through some of the big ticket cuts previously mentioned is far more palatable for the rate payer.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27875	Theme 6- Have your say on Council Tax	6a - Council Tax	It would go into the council pockets	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27876	Theme 6- Have your say on Council Tax	6a - Council Tax	Value for money is already poor in West Lothian Look at the potholes	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27877	Theme 6- Have your say on Council Tax	6a - Council Tax	Paying more council is not the answer as there are family's still struggling by the intact of the last rise. the council has squandered mine away over the years with stupid art structures etc etc	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27878	Theme 6- Have your say on Council Tax	6a - Council Tax	How can you say you want to increase council tax? There are thousands upon thousands of houses being built generating millions of pounds for the council, which you can therefore use for all the things highlighted previously. WL is getting bigger with a larger growing population buying large homes then you are generating much more wealth and emptying their bins is not going to outweigh the amount generated by that new homes council tax.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27879	Theme 6- Have your say on Council Tax	6a - Council Tax	I feel like for what is paid now the services do not seem good enough. There is little evidence that increasing payment would result in the service being worth it. If anything it would be catch up	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27880	Theme 6- Have your say on Council Tax	6a - Council Tax	Cutting all the red tape meetings ect that cost thousands Of you put council tax up again people expect more for Thier money and you cannot provide them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27881	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing council tax beyond inflation demonstrates failure in setting priorities, loss of purpose, and failing to perceive what rile of a council should be.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27882	Theme 6- Have your say on Council Tax	6a - Council Tax	You charge way more than enough for the terrible services offered currently. The streets are disgusting & full of litter. Large uplifts are unaffordable for most people. The houses are often in disgusting conditions when moving in. If you don't have a good housing officer you've no chance.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27883	Theme 6- Have your say on Council Tax	6a - Council Tax	My council tax has risen 25 % in 10 years where the average wage has only increased 5 %. This is causing poverty in households. Council tax has been abused enough over the years to subsidise failing council financial competence.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27887	Theme 6- Have your say on Council Tax	6a - Council Tax	The tax is my second highest bill every month and I already feel cheated with what I get for it	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27888	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax rises are not going to help struggling families. I dont have the answers but again savings anywhere that does not directly impact families finances at this difficult time is more appropriate	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27889	Theme 6- Have your say on Council Tax	6a - Council Tax	It's ridiculous how high the council tax is. It has been put up but we're getting less done. We now have to pay to get garden waste taken away. People who don't pay this just dump it or put it in grey bin. The kerb weeds are not being sprayed and now the pavements are being destroyed by them. There's more pot holes and bushes growing over paths.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27890	Theme 6- Have your say on Council Tax	6a - Council Tax	I pay a lot to the council yet get next to nothing bar waste, water, refuse in return... am sick of it, you can't even cut my grass you get new build houses to have factors to do such things, I wish I could hold money back to you until you tidied up the place as it's the pits that relies on the public and private estate people to look after for you	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27891	Theme 6- Have your say on Council Tax	6a - Council Tax	Make sensible cost savings and the public won't need to pay more through council tax.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27892	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has been increased almost at double digits rate which is not justified with falling level of service. Anymore raise in council tax will see protests from residents because they are fed up with coalition council govt and policies to support only certain town in the council.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27893	Theme 6- Have your say on Council Tax	6a - Council Tax	Already been increased	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27894	Theme 6- Have your say on Council Tax	6a - Council Tax	I honestly don't think I trust that any additional raise would make much of a difference. It's throwing money into a black hole. Household budgets are already stretched to the absolute max. Communities (and this goes for across Scotland and the rest of the UK) are being asked to pay more for receiving less. My car - which had to be repaired earlier in the year - certainly doesn't see the benefits of 'maintained' roads.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27895	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living keeps going up people can't afford increases	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27896	Theme 6- Have your say on Council Tax	6a - Council Tax	The council can't be trusted to manage the extra funds an increase would result in. And again we would be paying even more, for even less.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27897	Theme 6- Have your say on Council Tax	6a - Council Tax	Because you don't do what you say you will don't trust you	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27898	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax is already high on top of the extensive taxes taken by Government as well as tax on all products and services.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27899	Theme 6- Have your say on Council Tax	6a - Council Tax	Fin alternative ways to raise funds as this would only push poorer people out if the area	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27900	Theme 6- Have your say on Council Tax	6a - Council Tax	I do not believe that the current council would spend it correctly.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27901	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax has been increased with no significant change. No concern for cost of living crisis the residents are still struggling with.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27902	Theme 6- Have your say on Council Tax	6a - Council Tax	Most households are already struggling with the increase in council tax but also the increase in other bills too. It's getting to the point some families can't make ends meet and that's families who are not deemed to be on a low income.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27903	Theme 6- Have your say on Council Tax	6a - Council Tax	I am currently questioning what an earth we pay council tax for anyway we are charged over and above to get our brown bin emptied. 27905	Theme 6- Have your say on Council Tax	6a - Council Tax	You've spent the last couple of pages explaining where you want to cut services. The value of council tax already isn't worth the cost. 27908	Theme 6- Have your say on Council Tax	6a - Council Tax	We know if CT is raised key services will not benefit. CT has been raised and the roads are still bad, the hedgerows are blocking driver vision, the street lights are dim and foliage is overgrown, making safety on the streets reduced. This survey is about cutting schools, nursery provision, community facilities. Libraries, tell me how a raise in CT will improve services; use the CT wisely, there is a perception this is being squandered by a bad decision making process. You need to do better before a rise in CT will be supported	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27909	Theme 6- Have your say on Council Tax	6a - Council Tax	I feel the council tax is always the first thing to go up and those of us who pay and are employed by the council are bearing most of the cost. All it will do is put those in poverty deeper into debt as they either can't afford to pay or make a choice not to.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27910	Theme 6- Have your say on Council Tax	6a - Council Tax	we pay high council tax	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27911	Theme 6- Have your say on Council Tax	6a - Council Tax	I think people are already at their limit and cannot afford any more significant increases. It will push people further into poverty and there are a lot more options on the table to improve efficiency and reduce costs. It is your responsibility to the people you represent to make internal change without compromising their welfare	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27912	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't pay council tax cause you don't have any services that I use. I just get my bins picked up which is a free service, so I don't see why I should pay for things I don't use and I don't have kids. I'm disabled but I'm house bound. It's just a scam paying council tax and so is your court rooms all not legal. So nobody will pay this cause we don't have any services that we pay for	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27913	Theme 6- Have your say on Council Tax	6a - Council Tax	People are struggling as it is without being charged more for services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27914	Theme 6- Have your say on Council Tax	6a - Council Tax	don't feel the money gained from this will have a big impact on saving services.	Corporate Policy and Resources	7. 27915	Theme 6- Have your say on Council Tax	6a - Council Tax	You get more than enough £280pm month u charge firing cut down collection cut days to a min in recycling centres roads are appealing which is paid for by car tax so give a really good reason to increase council tax when decreasing services. I find it odd that this survey being done now when u are carrying out a lot of proper road repairs a bit like trying to ensure u get a good plus for roads sorry to late	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

27917	Theme 6- Have your say on Council Tax	6a - Council Tax	Average people are already struggling why would anyone want to pay more for less?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27918	Theme 6- Have your say on Council Tax	6a - Council Tax	Why if you raised it you still would not spend it on key services you would keep it in house as always	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27919	Theme 6- Have your say on Council Tax	6a - Council Tax	Stop cutting all the services council tax covers and then charge people more for it!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27920	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living is already high this would cause more barriers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27921	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax in West Lothian is already very expensive and if it was to increase, this would mean that more people may not be able to afford it, leading to very negative outcomes. However, if there is a SLIGHT increase, and the council tax is raised because of new services opened up within the council, this may be beneficial to the budget long term.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27922	Theme 6- Have your say on Council Tax	6a - Council Tax	Absolutely no way should council tax be increased, get yourself to xxxx. Criminals.	Corporate Policy and Resources	7. 27933	Theme 6- Have your say on Council Tax	6a - Council Tax	We currently pay the highest council tax in West Lothian and yet we have to manage repairs on our own road which is 0.25 mile long and any carry out / pay for works needing done. Leyden Road which leads up to our road is also filled with litter and we have to clear this ourselves with annual litter picks. I appreciate council tax serves the wider community but I already feel it is unfair what we have to pay when we see no benefit for the fees we already pay (other than bin collection).	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27934	Theme 6- Have your say on Council Tax	6a - Council Tax	It would depend on the proposed increase amount. In this country we are taxed on everything we spend, we save etc. I think keep hiking up more taxes is putting a strain on already strained households. The government is discussing a Co2 tax - next it will be a tax on the amount of air we breath 🙄🙄	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27935	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing Council tax is unfair when people are struggling with increased cost of living.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27936	Theme 6- Have your say on Council Tax	6a - Council Tax	I haven't ever paid the amount I have to pay in my life on and off benefits, im well in arrears and didn't even know I had owed that amount as never received I had to do as my dwp used to take of benefits, uc doesn't	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27937	Theme 6- Have your say on Council Tax	6a - Council Tax	If you remember rightly, the SNP were "supposed" to be abolishing Council Tax!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27938	Theme 6- Have your say on Council Tax	6a - Council Tax	This is the EASY target and no - one can quantify how the extra income is allocated, the Council is not that efficient in the area of forensic accountancy. Focus needs to be on efficiencies and waste not on fleecing the cash cow of Council Taxing West Lothians residents. If the area becomes too expensive people will electrical to move elsewhere. I moved here 25 years ago on the grounds of affordability versus Mid and East Lothian.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27939	Theme 6- Have your say on Council Tax	6a - Council Tax	Provisions are already being cut and people struggling, especially those on lower incomes.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27940	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is so high that people on low income can't afford it	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27941	Theme 6- Have your say on Council Tax	6a - Council Tax	The council tax payers pay enough for continually reducing services.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27942	Theme 6- Have your say on Council Tax	6a - Council Tax	So you're making us pay for green bins. You're taking away the right to social inclusion at community centres. Why should we pay increased council tax for less services.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27943	Theme 6- Have your say on Council Tax	6a - Council Tax	Tax just keeps going up, time to look at new steps	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27944	Theme 6- Have your say on Council Tax	6a - Council Tax	Council Tax is already at too high a level for many.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27945	Theme 6- Have your say on Council Tax	6a - Council Tax	Instead of trying to generate more income, save on non essential spending. If you have to keep trying to make more money it means that there is a money management problem somewhere down the line	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27946	Theme 6- Have your say on Council Tax	6a - Council Tax	I have already explained where to make the savings and the sources of extra income. It is time for West Lothian Council to make some bold and brave decisions!!!!	Corporate Policy and Resources	7. 27948	Theme 6- Have your say on Council Tax	6a - Council Tax	Because the more you get the more you waste. You're not efficient in your spending.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27949	Theme 6- Have your say on Council Tax	6a - Council Tax	Increased council tax increases poverty and will ultimately lead to more crime, child poverty, and increase demands for food banks. This is not an option on cost cutting.....	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27950	Theme 6- Have your say on Council Tax	6a - Council Tax	I do not feel current tax is used effectively and cost of. living is increasing too fast as it is.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27951	Theme 6- Have your say on Council Tax	6a - Council Tax	Families are struggling already without putting the cost up.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27952	Theme 6- Have your say on Council Tax	6a - Council Tax	Cut back on non - statutory services. How much more money do we need to fork out. There have already been cuts to schools, less teaching staff, support staff. Less frequent bin pick ups, council tax already went up which is a big chunk of my household wage. Maybe get the big employers salary cut back or freeze their pay.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27953	Theme 6- Have your say on Council Tax	6a - Council Tax	We have already had increasing costs in council tax as it stands. How can families afford to live if we are the targets to make up the councils budget saving!??	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27954	Theme 6- Have your say on Council Tax	6a - Council Tax	The community is becoming poorer and losing creativity and pride in community growth or personal development, financial pressure on families creativity personal growth and innovation contribute to economic resilience mental health and community cohesion, short term council saving via tax hikes may save money but reduce future productivity social engagement and well being, use income generating models	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27955	Theme 6- Have your say on Council Tax	6a - Council Tax	As you are already suggesting removing the fundamental parts of what council tax has been put in place to pay for. 27960	Theme 6- Have your say on Council Tax	6a - Council Tax	Operate more efficiently. Cut cloth accordingly, can't keep raising taxes.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27961	Theme 6- Have your say on Council Tax	6a - Council Tax	Clearly, money is being wasted elsewhere. If you stop those outgoings the council tax wouldn't need to be raised.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27962	Theme 6- Have your say on Council Tax	6a - Council Tax	The people this tends to affect is those in work. Increasing council tax again would only serve to reduce their income and possibly put some into poverty.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27963	Theme 6- Have your say on Council Tax	6a - Council Tax	The council blows the funds and expect the people to pick up the tab???	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27964	Theme 6- Have your say on Council Tax	6a - Council Tax	I'm hoping this part was a joke	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27965	Theme 6- Have your say on Council Tax	6a - Council Tax	Service delivery already minimal for the services delivered. Increases would only agitate and provoke backlash from communities.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27966	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living the increase has just occurred and Scotland is now becoming unliveable for families across the board. Get people back into work, create jobs or make the country go back a few generations because the developments that has occurred have been Atrocious for the economy we are living in today!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27967	Theme 6- Have your say on Council Tax	6a - Council Tax	This mentions roads and education both of which are not looked after. Throwing more and more money at it does not improve these services. If we seen in the past that paying more money would help these issues I could understand but it hasn't. We agreed in a rise to pay for more council houses but these get filled with foreigners and we have too many locals still homeless so again did not help.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27969	Theme 6- Have your say on Council Tax	6a - Council Tax	An annual council tax rise should be no more than any rise in average earnings in the private sector. Alternatively if earnings do not rise or should fall then so should council tax.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27970	Theme 6- Have your say on Council Tax	6a - Council Tax	Noone has any money left! The government has already taken it all and wasted it. 27971	Theme 6- Have your say on Council Tax	6a - Council Tax	This has only just increased for most of the services are not provided	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27972	Theme 6- Have your say on Council Tax	6a - Council Tax	services remain poor	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27973	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax increase only affects those who work who are already paying tax, perhaps more fundraising events would be more beneficial rather than hurting those already struggling.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27974	Theme 6- Have your say on Council Tax	6a - Council Tax	Budget better first	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27975	Theme 6- Have your say on Council Tax	6a - Council Tax	You need to do what every other business is doing to control costs. We are already paying a lot of tax when services are constantly reducing. In the Mid / East colder area there have been a huge amount of new houses built which all generate hefty council tax. Where has that gone? Certainly not into the community...	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27976	Theme 6- Have your say on Council Tax	6a - Council Tax	Before raising any prices, gain trust of West Lothian again. Or it's more backlash. We now if things get cut the council also waste that money	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27977	Theme 6- Have your say on Council Tax	6a - Council Tax	People are struggling. All that happens is u take money off people to then either give them it back in benefits or charge them more for emptying their bins. Makes no sense	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27978	Theme 6- Have your say on Council Tax	6a - Council Tax	Increasing CTax is the easy option instead of making difficult decisions	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27979	Theme 6- Have your say on Council Tax	6a - Council Tax	Recent increases in Council tax payments are ridiculously high comparing to salary increase. How can anyone afford these as salaries are not rising in line with increases you propose. How can anyone afford these?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27980	Theme 6- Have your say on Council Tax	6a - Council Tax	The council tax is increasing every year and the council want to do less every year	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27981	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax should already be spent on key services! Asking for more money to do a job that should already be done is ridiculous	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27982	Theme 6- Have your say on Council Tax	6a - Council Tax	Reduction of non essential services needs to be made to prevent already over stretched family budgets from being further impacted as the previous tax rises are still being felt.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27983	Theme 6- Have your say on Council Tax	6a - Council Tax	Cost of living, currently in poverty with children and currently paying £300per month and could no longer feed my children if it rises anymore	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27984	Theme 6- Have your say on Council Tax	6a - Council Tax	I already pay council tax, and have to pay extra if I want my garden waste taken away.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27985	Theme 6- Have your say on Council Tax	6a - Council Tax	Food, gas electricity fuel petrol ALL going up and these are essential bills, council tax is not and already excessive on hardworking people. Look at cutting staff overheads bonuses overtime and do more to help the people of west lothian we are paying More yet getting LESS the removal of garden waste from the brown bin is just another way of taking money off the working man	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27986	Theme 6- Have your say on Council Tax	6a - Council Tax	Your question only asked about key services, nothing about non statutory services. They need protecting.	Corporate Policy and Resources	7. 27991	Theme 6- Have your say on Council Tax	6a - Council Tax	However if fees are inclusive of council tax then no I don't think this should increase. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27992	Theme 6- Have your say on Council Tax	6a - Council Tax	You have cut services left right and centre, yet increased the council tax for the people who live in the council area by a ridiculous amount.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27993	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't pay this yet as still live with my parents but I know people struggle with it.	Corporate Policy and Resources	7. 27994	Theme 6- Have your say on Council Tax	6a - Council Tax	Already increased significantly in recent years way above avg salary raise.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27995	Theme 6- Have your say on Council Tax	6a - Council Tax	There are a lot of good ideas in this consultation, particularly cutting underused buildings, responding to falling numbers of children, and cutting back / stopping non - statutory services, that could make tax rises unnecessary.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27996	Theme 6- Have your say on Council Tax	6a - Council Tax	Mum and Dad are skint	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27997	Theme 6- Have your say on Council Tax	6a - Council Tax	a / Council Tax is already high enough and the run down of services in the last few years is appalling. For example, the decision to close Broxburn Swimming Pool was nothing short of a scandal and what happened to the building afterwards before the public ownership group had a had a chance to raise funds is very suspicious and worthy of Police investigation.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27998	Theme 6- Have your say on Council Tax	6a - Council Tax	What the council classifies as key services is not always what the people of West Lothian would call key services, in the case that the council make the unintelligent decision to raise council tax the people of West Lothian should be allowed to decide what this money is spent on and not the people who make more than the majority of the citizens of the county. Raising Councillor wages is not a key service and the people of West Lothian are dumfounded as to why it is classed as such.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
27999	Theme 6- Have your say on Council Tax	6a - Council Tax	I'd only want increased council tax if it kept the streets clean. Thus town is becoming a rubbish tip and the scummy people won't change their habits so you need to do it	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28000	Theme 6- Have your say on Council Tax	6a - Council Tax	Not everyone accesses key services, while it's important a number of non - key services such as maintenance for public pathways and grounds are neglected.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28001	Theme 6- Have your say on Council Tax	6a - Council Tax	Not as simple as a yes or no reply can be given. It depends on how much of an increase it would be and council consultations and accountability for what it would be spent on.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28002	Theme 6- Have your say on Council Tax	6a - Council Tax	What services do we get with council tax? I can hardly get repairs done in my house and you want to increase the cost, maybe you should stick to running baths and not councils	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28003	Theme 6- Have your say on Council Tax	6a - Council Tax	Look at housing council tax bands. Some of the old expensive properties are still at lower bands	Corporate Policy and Resources	8. 28004	Theme 6- Have your say on Council Tax	6a - Council Tax	Consider if the level of funding is appropriate.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28005	Theme 6- Have your say on Council Tax	6a - Council Tax	Re visit council tax banding based on current representative house prices, with higher bands for very large properties	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28006	Theme 6- Have your say on Council Tax	6a - Council Tax	Also council tax bands need to be reviewed. Where relevant, we will forward these comments to our partner organisations.
28007	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is well overdue a refresh. The bands need to be refreshed to reflect today's house prices. Alternatively introduce new council tax band tiers for larger houses.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. 28008	Theme 6- Have your say on Council Tax	6a - Council Tax	Reduce council tax for working parents.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28009	Theme 6- Have your say on Council Tax	6a - Council Tax	Can the council tax system be reviewed at a local level? I.e. create new bands for higher earners? I think my house is in the top or second top band but is only worth 330k. I can afford to pay the tax (could pay more if required) but I wonder if the ever-increasing price of houses could a new band be created or the bands realigned?	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

28011	Theme 6- Have your say on Council Tax	6a - Council Tax	If permitted, I would avoid increasing council tax and instead create a local per person charge that is more aligned to the use of council services by any given household. For example a one person household respective of the size of that house is likely to use significantly less Services than a five person household this would feel fair and would be less likely to attract significant negative feedback when announced. me from surplus power into the grid	Corporate Policy and Resources	8. 28012	Theme 6- Have your say on Council Tax	6a - Council Tax	It would be interesting to know how much money is lost in council tax, I think the collection system, threats and intimidation, the instant you miss a payment your sent to a debt collector putting peoples credit score in jeopardy. That also puts people off working because they will need to pay the debt. Why is a public body putting people into debt and financial destitution. Change to a fairer system and you 'll get more people paying	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. 28020	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax why is there a single persons discount? They still use all the same facilities as a house with a couple etc. Crack down to people in rent and council tax arrears. This must cost the council a lot of money.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28021	Theme 6- Have your say on Council Tax	6a - Council Tax	A variable component can be introduced on the council tax depending primarily on the household income and secondarily on the number of occupants. 28030	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax currently is too high and an outdated system. For example in our street we pay a lot more council tax with 2 adults and 1 child living in the house than a neighbour who has 2 adults and 3 children living in the house purely because theirs is a smaller house yet they would use more of the services. 28031	Theme 6- Have your say on Council Tax	6a - Council Tax	One way the council tax charge could work is based on the number of people living in a household! Not the property. You can have a couple living in a 3 bedroom house and then 5 people living in the same house next door. Charge the council tax based on the "users" that way it's fair and could increase the council's revenue.	Corporate Policy and Resources	8. 28039	Theme 6- Have your say on Council Tax	6a - Council Tax	I think if the other areas are worked on and the benefits are successful, there won't be a need to increase council tax. 28040	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax needs review in general. Huge houses don't pay the right rate and medium houses pay too much. Raising council tax is never a good option but what would be good is we started making the poorer people a little better off and the richer folk in big houses paying more than they are. The council tax set up is outdated and needs reviewed. To many wealthy people are getting away with a very nice lifestyle based on the current council tax set up	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

28042	Theme 6- Have your say on Council Tax	6a - Council Tax	Again, all this does is pass the burden on to the people of West Lothian, many of whom are already struggling in a cost of living crisis. The Council needs to lobby the government to bring back right to buy council houses, so that the money generated from sales can be used to build new homes	Corporate Policy and Resources	8. 28044	Theme 6- Have your say on Council Tax	6a - Council Tax	Do folks on benefits pay council tax? 28046	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase tax or council tax to the wealthy the poor man cant pay any more 20+ years of paying into these services and everything getting clawed back or non existing now	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28047	Theme 6- Have your say on Council Tax	6a - Council Tax	If council tax was fair for everyone then yes but it's not so why should I have to pay more when I already pay a lot in tax each month like lots of others.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28048	Theme 6- Have your say on Council Tax	6a - Council Tax	I live in a bungalow and my band is d. I think it is absolutely ridiculous that its as high as that. Council tax needs abolished unless house value is over 300k	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28049	Theme 6- Have your say on Council Tax	6a - Council Tax	Revisit the community charge and charge for all over 16s in household with perhaps a reduced rate for 16 to 18. More services are needed by a household of 5 than a household of 2 so why base it on a house value which has little relevance. House values are only realised when a house is sold. The current system continually hits older people who worked hard enough and they don't qualify for council tax reductions yet don't want to move out if family home once children have left. Very few bungalows to allow people to realistically move either.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28050	Theme 6- Have your say on Council Tax	6a - Council Tax	I live in my family home which I have lived in for over forty years. I live by myself in a Band E property, my council tax takes up a large part of my monthly income. I pay for brown bins and only put other bins out every 6 - 12 weeks. My council tax is significantly higher than the family of six who live in social housing opposite. It is not a fair tax and should not be increased.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28051	Theme 6- Have your say on Council Tax	6a - Council Tax	Paying more for less was never much of a convincing advertising slogan but still the Council persists. Please understand that people are tired and fed up with this relentless attack on their personal finances and it has to stop. There is a limit beyond which people will not / cannot go and a real danger of mass civil disobedience and non payment if this broken tax persists. Local government needs a new, fairer means of finance and it can't come soon enough.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. 28053	Theme 6- Have your say on Council Tax	6a - Council Tax	First of all, giving the council more money will just encourage further waste and we already pay ridiculous council tax compared to England. For example. A relatives house in leafy Hampshire, valued at £1. 8 million has less rateable value than my house valued at less than a fifth of that in Bathgate, then you have the cheek to want more for brown buckets. How about enforcing payment and repercussions on the non payers and make the cost dependent on the amount of adults at the dwelling?	Corporate Policy and Resources	8. 28054	Theme 6- Have your say on Council Tax	6a - Council Tax	We get practically nothing for our council tax as it stands. What am I even paying for? 28056	Theme 6- Have your say on Council Tax	6a - Council Tax	Take a look at houses that have had extensions but still remain on lower council tax bands. You have the detail from the planning applications that these houses have increased in size and therefore should be in a higher band but due to a process of only reviewing once they are sold you are losing out on funds.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28057	Theme 6- Have your say on Council Tax	6a - Council Tax	Another ridiculous thing your average working person has to pay for regardless of salary. Council tax should be treated in the same way as income tax. The head of WLC council could live 1 mile away from me & pay the same amount as me when I earn less than double their salary. 28058	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax is already too expensive for what we get. As an adult family with no kids in education or social care needs. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28059	Theme 6- Have your say on Council Tax	6a - Council Tax	You have mentioned other ways to save without crippling the community that's already struggling. 28061	Theme 6- Have your say on Council Tax	6a - Council Tax	I already pay £3300 in council tax, my neighbours pay a lot less. Households are similar, 2 adults. Why should I pay more? I don't use more services than neighbours, income probably less as I receive a state pension. Not had a holiday in over 20 years, my choice, but have spent money, which I already have paid tax on, on my home. Why should I be penalised for this? Council tax should be the same for every adult and more effort made to make sure that those who don't / won't pay..... pay!	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28062	Theme 6- Have your say on Council Tax	6a - Council Tax	I would focus on increasing income by reviewing council tax particularly for those living in houses valued above £1m	Corporate Policy and Resources	8. 28063	Theme 6- Have your say on Council Tax	6a - Council Tax	The council tax is a joke it's based on valuations made in the 70s bring things up to date then think about increasing things	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28064	Theme 6- Have your say on Council Tax	6a - Council Tax	I don't disagree with council tax and agree that it is needed to fund a variety of things which benefits our communities. However, I disagree with council tax being based on the size / value of a home rather than basing the cost on the number of people living in the home. A family of two pays the same as a family of six when a family of six will naturally use more water, will generate more household waste and will place a greater demand on local amenities and services.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28065	Theme 6- Have your say on Council Tax	6a - Council Tax	My Council Tax is already £332 a month. A lot to find from a pension. Instead I would suggest introducing charges or increasing charges for council services. That way you allow people more chance to make their own choices.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28066	Theme 6- Have your say on Council Tax	6a - Council Tax	Before supporting an increase in council tax, I would support a revision of the banding which is based on very out of date property values. If this was reconsidered in light of today's values and seemed fair and proportionate, it would be unlikely that anyone's council tax would need to rise outside of the revised boundaries to allow more substantial funding. 28067	Theme 6- Have your say on Council Tax	6a - Council Tax	Use the current council tax collection money better & more effectively as described in your document. 28069	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax should not be measured in the size of your house. It should be measured in how many people are in the house. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28070	Theme 6- Have your say on Council Tax	6a - Council Tax	No in fact if the council tax goes up any more I will be moving to another county. 28072	Theme 6- Have your say on Council Tax	6a - Council Tax	Council tax bands out of date, they aren't progressive and should be replaced. 28074	Theme 6- Have your say on Council Tax	6a - Council Tax	It's not necessarily saying no to increases but there needs to be a clear structure. Last year the proposal via SG was to raise bands E upwards considerably on the flawed assumption of the bigger the house the greater the ability to pay. It totally negated that the banding structure is no longer fit for purpose or that you'll generally be placing a greater burden on households with young families while older couples who downsized with often higher disposable income benefitted. A fixed inflationary rise across all bands is fairer and if tied to the current inflationary position is a reasonable	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28075	Theme 6- Have your say on Council Tax	6a - Council Tax	~~Council Tax is a regressive taxation method that unfairly targets low income property and newly built property. It should be scrapped and replaced with a wealth tax. 28076	Theme 6- Have your say on Council Tax	6a - Council Tax	Increase council tax will not generate enough money and will only affect the poorest households. 28080	Theme 6- Have your say on Council Tax	6a - Council Tax	Utilise the money better and review the council tax system based on people per household rather than value of house. 2 people living in a house worth £200, 000 shouldn't have to pay more council tax than 5 people living in a house worth £120, 000 but receive the same service. 28162	Theme 6- Have your say on Council Tax	General Comment	Other ways to make savings are to make sure that when we build a school for example, or any building for that matter, it will last for more than 20 years. 28163	Theme 6- Have your say on Council Tax	General Comment	Given there are budgetary constraints each year there needs to be better use of funds, and cuts to things that are 'nice to have' and have no risks of removal. There shouldn't be frivolous spending which results in more costs. Vandals, flytippers and offenders who are caught should be fined for damage than councils and taxpayers needing to pay for things. 28177	Theme 6- Have your say on Council Tax	General Comment	Instead of raising taxes, it may be worth reviewing how Council Tax benefits are distributed. A significant number of people receiving support are able to work but choose not to, often spending their benefits on non- essential things. It could be more effective to introduce programmes that encourage and support people to enter the workforce, rather than continuing to invest in their "freedom from work. "This approach could help reduce dependency, increase fairness, and ease the financial burden on those who are already contributing.	Corporate Policy and Resources	4. 28183	Theme 6- Have your say on Council Tax	General Comment	Arrears in rent and council tax should be chased up more intensely and recharges should be followed up New tenancies shouldnt be given to applicants if they have Council Tax arrears as this can sometimes run into thousands of pounds the arrears should be cleared or an arrangement in place before tenancy signed up	Corporate Policy and Resources	5b. 28185	Theme 6- Have your say on Council Tax	General Comment	If Council tax only makes up 19 % of the income, then attention should be on the other 81 % of income, however bins should only be collected when at least 3 / 4 full, neighbours should be encouraged to use any empty space within the bin of their neighbours therefore reducing some of the need for waste collections. Task force should be setup to claw back these funds and anonymous information welcomes offering incentives only payable when fraud has been detected and court action has been successful, far too much of a soft touch and believing of lies to get away with fraud especially benefit fraud which I know personally is rife in towns. 28198	Theme 6- Have your say on Council Tax	General Comment	Continually making savings is a race to the bottom and leads to a breakdown in communities, an Exodus of business and general dissatisfaction with life in West Lothian. I would prefer to see a per person charge and significantly more effort made to work in collaboration with some of the larger companies in West Lothian like Valeva and Mitsubishi to offer them regional benefits in return for their investment. This needs to be done with full transparency to the general public so that people understand that the council is backing these businesses because these businesses are providing funding for a wide range of community services or events.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
28199	Theme 6- Have your say on Council Tax	General Comment	Why not try maybe not taking an annual parish every year like those in the private sector that depend on companies actually making money to warrant a pay increase. 28202	Theme 6- Have your say on Council Tax	General Comment	we pay enough and you are talking about taking away so much and giving nothing in return for anyone why don't you stop the fancy meals and events for yourselves and why don't the big wigs take a pay cut the same as the workers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28203	Theme 6- Have your say on Council Tax	General Comment	Scrap final salary pensions, people in the real world don't get this perk, it's expensive and unnecessary in this day and age	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28204	Theme 6- Have your say on Council Tax	General Comment	There is a lack of effective governance on providing the services today. Perhaps the council can review the Pension provisions as this is a major cost that should align with the pension provision generally available to the people in the community. It is not fair to ask for a vote on items with the values to be defined.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28205	Theme 6- Have your say on Council Tax	General Comment	Reduce salaries of people at the top, why is the executive making the same as the Prime Minister?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28206	Theme 6- Have your say on Council Tax	General Comment	You have to federalise some of your services. Having 32 councils delivering HR, customer service, Legal etc. is massively wasteful. Partnerships have to be the way and go beyond politics which is just futile at this level. I really don't understand why we don't have professional officers over fairly average political people. We just don't have the talent.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28212	Theme 6- Have your say on Council Tax	General Comment	The council tax went up quite considerably for 25 / 26 but services are to be cut, which you wish the public consultation	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28213	Theme 6- Have your say on Council Tax	General Comment	Council tax is more than it's ever been (never mind the amount of Band E + houses that have been built) but all facilities are dwindling, especially for kids (wonder why there's a youth problem). The elderly have no place to go. Mental & general health is suffering but all the facilities have been closed. Customer service for the basics from council tax like the bins being emptied aren't customer driven any longer. Give the people back some value money and there won't be as many complaints	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28214	Theme 6- Have your say on Council Tax	General Comment	Council tax must generate more funds for the council.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28215	Theme 6- Have your say on Council Tax	General Comment	Council Tax - The key service to us is community learning and development Youth services, 101 unit is beautiful. We should protect this services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28216	Theme 6- Have your say on Council Tax	General Comment	There is a huge question around value for money. Taxes have only risen over the past 5 years and services cut. There is a serious question being asked if we are just paying for people who are not actually delivering any value back to tax payers.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28220	Theme 6- Have your say on Council Tax	General Comment	There are thousands of new houses in West Lothian and all of the council tax collected from these properties should generate a really good income	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28221	Theme 6- Have your say on Council Tax	General Comment	local council tax is again hitting those who work as those who don't don't pay, we all have access to the same services,	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28222	Theme 6- Have your say on Council Tax	General Comment	secondly I don't agree that our local taxes (council tax) should be paid into a fund outwith our local regional council, to then be dished out with caveats attached as to where the monies are spent!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28223	Theme 6- Have your say on Council Tax	General Comment	Council tax doesnt seem to mean anything the the public as yhey never see where this money is being spent. Charts provinding evidence may help show communities what the moenys spent on. Seeing changes, going back to bins being emptied without pay9mg for them to be emptied	Corporate Policy and Resources	7. 28230	Theme 6- Have your say on Council Tax	General Comment	When people feel proud of their area they are more inclined to give their time to looking after it, give them the facilities, listen to their concerns and act on them rather than, taking orders from external sources. Reward people for their positive behaviour rather punishing all by removing services. It's the people's hard work that pays the taxes and these are the people who it would seem are punished further with removal of facilities and further increases taxes	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28231	Theme 6- Have your say on Council Tax	General Comment	Council tax is a con. Your all just putting the money into [XXXX]. We need more amenities for old, children and disabled people. But you've taken it all away. We shouldn't be paying council tag for all these do in service	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28232	Theme 6- Have your say on Council Tax	General Comment	I don't trust that all funding would be spent on key services. The money would end up else where such as "officials pockets".	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28233	Theme 6- Have your say on Council Tax	General Comment	Council tax has already gone up significantly over the last few years, along with food costs etc. many are struggling as it is and putting up costs further along with a decrease in services is [XXXX]. 28240	Theme 6- Have your say on Council Tax	General Comment	Absolutely no further increases in council tax for homeowners. The amount we pay at the moment for the services we get is a disgrace. The bin men and and gritting teams in the winter are priceless, yet the grass remains long for large periods of the summer and the public areas are left to rot. The gritting of public paths is also a joke. Take the car and get a nice gritted road, walk and nearly break your neck. We've been paying too much for less and less every year for about the last 6 years. There is no faith in the community that you will actually use the increase wisely and most people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

28270	Theme 6- Have your say on Council Tax	General Comment	You say funding railed will be spent on more beneficial things.. ye right. You guys will only give yourself a pay rise. Nothing will be spent on the things we all need.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28271	Theme 6- Have your say on Council Tax	General Comment	I feel there is no transparency in west Lothians spending Where 's the money from the brown bins going not heard a word about that and grass is getting but less	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28272	Theme 6- Have your say on Council Tax	General Comment	I believe the council should first focus on delivering services council tax pays for. Currently this is not being delivered and this should first be addressed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28273	Theme 6- Have your say on Council Tax	General Comment	You cant just keep increasing council tax. Wages of most people dont increase to cover all the extra payments and most are struggling each month.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28274	Theme 6- Have your say on Council Tax	General Comment	You may have a lower per head charging however the rates West Lothian council charge far exceed other areas for some bandings putting the burden on a smaller group of people is discrimination and will drive people out of the area	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28275	Theme 6- Have your say on Council Tax	General Comment	Don't accept that non statutory is not a Council responsibility, why else do we pay Council Tax?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28276	Theme 6- Have your say on Council Tax	General Comment	a / Reduce waste, be more efficient, be better - services have deteriorated at a shocking rate over the last 5 years - stop blaming covid and employee better people and hold councillors to account. 28313	Theme 6- Have your say on Council Tax	General Comment	As previously stated, cut back on school meals. Families who are well off should be paying for school breakfast club and meals at lunchtime. Supporting and housing illegal immigrants also uses up a whole lot of council money, that should not be happening.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

28315	Theme 6- Have your say on Council Tax	General Comment	So much is spent by council on stupid things, get back to basics, dont overspend, heard of so many instances where council has spent so much for so little, even i could get a better deal!!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28316	Theme 6- Have your say on Council Tax	General Comment	Some essential services should not be met from the income from CT. 28321	Theme 6- Have your say on Council Tax	General Comment	The population of the WLC area has increased, and so has the number of people paying council tax. I barely use some of the services and pay almost £300 in council tax. Who do you use as builders for council houses? They take three times as long to build a house as private builders, so it will cost more over time. Why does a play park (howden) need updated when it was only installed a couple of years ago. Why did West Calder high get an extension when the school was only built a few years ago?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28322	Theme 6- Have your say on Council Tax	General Comment	I feel there is scope to save money but cutting or reducing money spent on things outlined in this questionnaire. It would be good to see an impact assessment alongside the proposed changes e. g. you outlined the largest portion of our money goes on schools and nurseries. Should users of these facilities be asked to pay more instead of everyone paying more?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28323	Theme 6- Have your say on Council Tax	General Comment	Again how can I say yes when I dont know what that would mean for me	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28324	Theme 6- Have your say on Council Tax	General Comment	To answer yes to this question the amount of monet raised by council tax should be shown year on year. There have been thousands of 4 / 5 bedroom homes built across West Lothian but seemingly the 19 % state stays the same. Currently the only thing the council does in my estate is empty 3 of the 4 bins, no other work at all. Also the services in the area have not changed at all despite the thousands of new houses in the area.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28325	Theme 6- Have your say on Council Tax	General Comment	Cut unnecessary services, employ less people and stop giving money to people who don't want to work	Corporate Policy and Resources	7. 28327	Theme 6- Have your say on Council Tax	General Comment	Reduce councillors extra claims, and lunches etc, no free buffets etc, that would save money	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28328	Theme 6- Have your say on Council Tax	General Comment	Encourage volunteering, build a sense of community so that residents take part in activities and initiatives to support the council. Example could be anti littering drives which have been done previously but could be expanded further. Graphical social media posts that are attractive and informative should be used for advertising. Children should be encouraged to volunteer to keep the community clean and safe. Safety and security is a big concern these days. It should be addressed.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

28331	Theme 6- Have your say on Council Tax	General Comment	As a single resident I already pay 75 % of the full fee rather than a more fair 50 %. It is very expensive as it is, the council needs better efficiency and competency, with 'dead wood' being mashed out.	Corporate Policy and Resources	7. 28333	Theme 6- Have your say on Council Tax	General Comment	why should the public suffer we are the working class, people on benefits should not be given free everything, stricter rules need to be put in place and no refugees should be priority over others	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28334	Theme 6- Have your say on Council Tax	General Comment	I think the government should look at an increase in corporation tax instead of increasing household spending further when rates are already lower than they were 25 / 20 years ago when viewed in line with inflation.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28335	Theme 6- Have your say on Council Tax	General Comment	Council services have vastly reduced with additional expenses (garden waste removals) being put onto local residents	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28336	Theme 6- Have your say on Council Tax	General Comment	6 council workers and 3 vans getting sent to do something. 3 workers stand chatting. 2 sit in vans eating a bacon roll. 1 empties the one bin. Same in most of these community based jobs - usually one guy doing the work and the others talking, eating or pointing. Waste of money. Putting together this sort of consultation is probably a waste of money - paying to come up with it, paying to analyse it, but the outcome won't be good for the working class, pensioners, young people anyway. The working class will be hit harder - paying to park to go to work (oh - or they could sacrifice their salaries & not pay bills or eat) or not have a job anymore, paying more council tax, paying increasing everything. You are asking people on the edge to make decisions on things that others up the ladder are paid a lot of money to think about and implement - causing stress - and will do what you've already decided anyway with the out clause - we consulted.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28337	Theme 6- Have your say on Council Tax	General Comment	Key services are not services which relate to me or are used by me	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28338	Theme 6- Have your say on Council Tax	General Comment	Non statutory services are important to society in line with growth of the population in the region. If we want a society the only covers the basics a significant proportion of the population would be left behind and would have to rely increasingly on health services. 28342	Theme 6- Have your say on Council Tax	General Comment	There are lot of empty council houses that need used. Left empty for months with so many homeless people. Why?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28343	Theme 6- Have your say on Council Tax	General Comment	I think the council needs to look at housing and provision. In my street there are 90 % of people who live in housing that is unemployed and have countless visits from the works department due to disrepair in their homes. (I am in a new build with enhanced rent). Consideration of tenants for housing would impact savings. Empty housing for sometimes over 12 months in areas such as Boghall. No tenants causing empty damage to buildings with dampness etc. Empty buildings which could be used for homeless eg. council buildings. Review of tenants rebates and visits of authentication. Improving Housing allocation would impact savings and revenue.	Corporate Policy and Resources	7. 28345	Theme 6- Have your say on Council Tax	General Comment	Stop taking people to court when they are struggling. Also actually use the money to maintain current housing and make people want to stay here because of the quality of the housing. Stop funding drug addict and the work shy by making them rehabilitate or lose their benefits which would increase revenue as they wouldn't be leaching from the district.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28346	Theme 6- Have your say on Council Tax	General Comment	stop giving freeloaders everything for nothing. I. 28348	Theme 6- Have your say on Council Tax	General Comment	As we don't get to see where the money is being spent novas a landlord it is the councils responsibility to maintain that all properties are safe and updated where does the rent money go. 28349	Theme 6- Have your say on Council Tax	General Comment	Increase social housing and review applications	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28350	Theme 6- Have your say on Council Tax	General Comment	Stop putting drug addicts in brand new homes I get they need to be housed however putting them in brand new homes is a waste of that home these will not be looked after or maintained meaning you need to pay higher amounts to repair reft / refurb these. There should be an exchange option for people already within that community to be moved to new homes.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28351	Theme 6- Have your say on Council Tax	General Comment	Again, I'd stop wasting money repairing things that are have been destroyed by someone. Make them pay to repair it. If that means sanctioning their benefits, so be it. Why should I be struggling to pay for things when other people pay nothing into the system & take out so so much. Replacing every window in the same flat multiple times a year when it 's the actual Tenant doing the damage is literally throwing money away. & you know fine well that it will be broken again in a few months. 28358	Theme 6- Have your say on Council Tax	General Comment	Giving residents smaller bins and reducing bins being emptied wont reduce the amount of waste they produce. 28359	Theme 6- Have your say on Council Tax	General Comment	Usually I would be in support of this but despite increases and this linking to maintaining vital infrastructure such as roads, the roads are unsafe given the state of them, potholes are not just damaging for vehicles they are dangerous, from cars swerving to miss them to blowouts because they have. This impacts on other vehicles in the vicinity, pedestrians nearby, affecting people's ability to attend work when vehicles are damaged and the cost of repairs, this also applies to damage to council vehicles. Uneven pavements are trip hazards, as are trees and shrubbery that are not cut back to ensure safe passage on a pavement or for road signs to be clearly seen. Asking for people to agree rises when there has even no improvement leaves the question why when nothing improves, if things were seen to be improved when we pay more, then that is different. What is concerning is that a number of areas suggested in this survey, for looking at for savings, are already being acted on or changed	Corporate Policy and Resources	7. 28363	Theme 6- Have your say on Council Tax	General Comment	Again, I'd stop wasting money on talking bins. Stop paying a fortune to clear up fly tipping & get rid of the booking system.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
28364	Theme 6- Have your say on Council Tax	General Comment	We have just had our council tax increased and this is by far the most I have ever spent in council tax and seen no change for it at all. Bins remain the same, parks not upheld, roads still an issue, paths an issue. Can't even have access to a nearby bin at the park, or dog poo bins. Seems all the good services by the council are in the older schemes in previously owned council houses rather than new homes costing a fortune with young families and the maintenance by council and lack of facilities making said young families look to moving elsewhere. 28376	Theme 6- Have your say on Council Tax	General Comment	I also read about the percentage of your budget that is used for 'care', and a proposal to impose an additional charge to people who fall into this category. If this is an idea, why not extend the scope to REDUCE the charge that we all pay for schooling. It is unfair in my opinion to charge an elderly person for care and schooling when it may not be applicable to them. Taking this line of thought one stage further, why not vary the Council tax charge based on the number of people in each household? Larger households are using more water, generating more waste, so why not charge them more for the increased level of services being provided?	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

28379	Theme 6- Have your say on Council Tax	General Comment	We really need to reduce benefits and get people working for themselves! Stop paying money into pointless schemes and only provide for people who really need it. 28381	Theme 6- Have your say on Council Tax	General Comment	I think the rent and council tax arrears are too high and you need to negotiate with Scotgov and UKgov to have some of the money paid to those claiming Housing Benefit to be paid directly to you to reduce this deficit. I was a Private Landlord in Edinburgh and Social Services paid the tenants rent directly to me. I did have to wait months for the application to be processed, but it was a guaranteed payment. 28392	Theme 6- Have your say on Council Tax	General Comment	Increasing council tax only put more burden on to working people who are already struggling. As a single mum to increase council tax would have a big impact and wouldn't actually make savings for the council just generate more income. Removing non essential services should be reviewed before increasing council tax. Also not associating size of house with council tax values. For Example, two people who live in a 4 bedroom house would have the same amount of rubbish to be collected as two people living in a 2 bedroom flat however the 4 bed house owners pay more but are receiving the same service. Council tax should be assessed on the no. of people living in property rather than size of the property.	Corporate Policy and Resources	8. 28393	Theme 6- Have your say on Council Tax	General Comment	we are taxed on our food, taxed on our fuel, taxed to drive on the roads that dont get repaired, taxed to go on holiday taxed on our wages. More people are struggling or falling behind paying council tax than 5 years ago they system punishing people for being in poverty that is compounded by government policies. Make the system fairer and the arrears will reduce	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. 28394	Theme 6- Have your say on Council Tax	General Comment	I think council tax needs to be looked at nationally as it hasn't been done for years. Single people only get a 25 % discount which doesn't really seem fair and just because someone has a newbuild house doesn't mean they should pay more for the same services as someone in a council house. 28395	Theme 6- Have your say on Council Tax	General Comment	I also think WLC needs to look at recovery of council tax more in depth after someone goes bankrupt. Currently if there council tax has gone to Adamsons and they go bankrupt, they don't have to pay any more council tax for that year. Say they went bankrupt in August, they don't have to pay anything until the following April. This doesn't encourage people to pay their ongoing liabilities which is a condition of their bankruptcy and WLC are missing out on potentially months worth of council tax income from these residents. 28396	Theme 6- Have your say on Council Tax	General Comment	Generally people on benefits do not pay council tax (not all but high majority) and again it is the working families that are penalised. Money should automatically come out of benefit's.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28397	Theme 6- Have your say on Council Tax	General Comment	Council tax should be proportionate based on the number of people living in a household. Why should a single occupant only receiving a 25 % discount subsidise education, bin collection, road repairs etc. some properties have 5 - 6 bins that are collected weekly with no surcharge for extra bins. Charge properties based on the amount of bins being emptied.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. 28398	Theme 6- Have your say on Council Tax	General Comment	Key services aren't necessary defined in this consultation and therefore difficult to quantify whether they should receive money. Taxpayers should be able to elect the percentage of their council tax that is directed to what services so that the taxpayers choose priorities rather than the council. As opposed to this consultation, financial decision - making through tax provision by its taxpayers would be binding. Some cities, like Toronto, have 25 councillors and manage a city of 5 million people. There is no rational reason why West Lothian council with a small fraction of the population needs 33 councillors. Reduce the number to a ratio of one councillor per 10, 000 electors. 28399	Theme 6- Have your say on Council Tax	General Comment	You by your own admission get very little from the current system. More funding needs to come from the Scottish government. 28400	Theme 6- Have your say on Council Tax	General Comment	Think we should look at people on benefits and pay small charge of council tax there money to go into tax system. As people working are struggling to pay this as well. People should manage their benefits like a wage this also may give incentive to working.	Corporate Policy and Resources	8. 28401	Theme 6- Have your say on Council Tax	General Comment	Instead of raising taxes for hard working people in the community go after the ones that aren't working. Get them to pay you more rent for their council houses. The amount of people that CHOOSE not to work because they get so many bloody benefits is infuriating (council houses being 1 of them) my council tax is already extortionate and we also pay factors for the maintenance of the area. 28410	Theme 6- Have your say on Council Tax	General Comment	Part of our Council Tax goes towards healthcare. I think non - U. K. residents should pay a fee for using our healthcare service. I think because healthcare is free in Scotland, it gives people the opportunity to take advantage of this which is costing the NHS significantly. If a charge is introduced for non U. K. residents, this will generate income which can be used towards the NHS and / or other important sectors such as police and fire services.	Corporate Policy and Resources	8. 28420	Theme 6- Have your say on Council Tax	General Comment	DO not make people's lives harder. Cuts should start at the TOP and trickle down, and get some county-wide info out there on why net zero is essential because pollution kills, and its gas use that's keeping bills high (including the electricity price) as far as many people don't have a clue and think the government's spending on those is the problem. Bring in a clean air act to ban logburners BBQ bonfires fireworks, private waste burns (rural properties, farms at night) get the college or 5/6th years to make solar CCTV that sends images to you or police for flytipping hotspots (low profile hard to spot / id as a cam design)	Corporate Policy and Resources	8. 28423	Theme 6- Have your say on Council Tax	General Comment	Tax West Lothian businesses that cause council to incur costs - eg West Lothian has a terrible litter problem - tax Deliveroo, Costa, McDonalds, Burger King, Starbucks etc to cover the costs of litter picking, also Amazon / Ebn / Deliveroo to pay towards costs of pothole repairs	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
28424	Theme 6- Have your say on Council Tax	General Comment	This is a trust issue. We pay more PAYE tax in Scotland than the rest of the UK. This was for and I quote Sturgeon, tax rises will deliver first class public services in Scotland. "We're already paying for this." The council should be meeting to formulate a way to get ring-fenced funds changed. This is a huge problem for you. An example, 20mph speed limits. If the money is not spent it goes back to the coffers. This is only one example and a complete waste of hard-earned taxpayer money. The money is just being spent for the sake of it. West Lothian constituents deserve better than this and its the structures that you guys are having to operate under that's the problem. The other issue is brown bin charging, non-statutory. Hear the blue and green are non-also. You gave us these bins for recycling you said. To start charging us down the line is sharp practice. We are already paying for these services, I think you really need to deal with ring-fenced funding from the SNP.	Corporate Policy and Resources	8. 28428	Theme 6- Have your say on Council Tax	General Comment	You have made many relevant points within this proposal but have lumped the good suggestions with really bad suggestions which makes it impossible to vote yes on many of these sections. Maybe if you spent time gathering real feedback on individual points you would have more specific suggestions	Corporate Policy and Resources	9. The respondent made a comment on the survey question
28429	Theme 6- Have your say on Council Tax	General Comment	This is a ridiculous survey. You have a long list some suggested things and then have one overall question. You've also worded it in a way in which most reasonable people will always agree with it in principle but are clearly likely to not agree with all the specific actions. No question to identify specific things to agree / disagree with. Overall a meaningless survey which, other than if you receive some useful alternative suggestions, will make no difference to what the council actually does.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
28430	Theme 6- Have your say on Council Tax	General Comment	The last question is extremely leading and if clicked yes green lights you to make yet more cuts.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
