13732	Theme 3- Reducing the Number of Council Facilities	General Comment	Thay are only council that west lothian is disgrace all councils have cuts but don't look nice eny were west Lothian needing sort here	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13733	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop giving money to refugees.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13734	Theme 3- Reducing the Number of Council Facilities	General Comment	[XXXX] Starmer [XXXX] Digital ID	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13735	Theme 3- Reducing the Number of Council Facilities	General Comment	The could cut cost on other stuff	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13736	Theme 3- Reducing the Number of Council Facilities	General Comment	These are all things that would impact everyone's lives	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13737	Theme 3- Reducing the Number of Council Facilities	General Comment	Can services be maintained if the number of facilities and buildings is reduced?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13738	Theme 3- Reducing the Number of Council Facilities	General Comment	Facilities are poor especially at the railway stations and closing them has a detrimental effect on the older generation and those with disabilities.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13739	Theme 3- Reducing the Number of Council Facilities	General Comment	Sorry can't suggest any better ideas,	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13740	Theme 3- Reducing the Number of Council Facilities	General Comment	why on earth would u reduce facilities it will up crime rates as there's nothing else to do your lowering skills and passion	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13741	Theme 3- Reducing the Number of Council Facilities	General Comment	Reviewing facilities to save £390k what so get rid of community centres or places where community can go with their children, to meet people. I've heard your looking at closing whitburn community centre which is disgusting! So many people benefit from the centre and community garden. £390k sounds like a salary or 2 of some of your heads that aren't needed. Or a few less council funded dinners for staff. Also have a look at school dinners what is the need for free school meals	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13742	Theme 3- Reducing the Number of Council Facilities	General Comment	Make better use of all the resources	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13743	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop spending on thing we don't need	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13744	Theme 3- Reducing the Number of Council Facilities	General Comment	Make savings elsewhere	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13745	Theme 3- Reducing the Number of Council Facilities	General Comment	Need to keep key buildings open	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13746	Theme 3- Reducing the Number of Council Facilities	General Comment	We're getting to the point that a local authority is no longer a community aren't we? I do have a huge amount of sympathy with regards to the reason we are all in this mess but how far do we go before there is literally nothing left of West Lothian? The impact on children and people in poverty is huge. Things we used to be able to take for granted, we no longer can. Why don't we just explain why taxes are going, then put up taxes, then have these services fully funded? If this requires pressure on the government, then put pressure on the government. Surely our councillors are ~~in a better position to discuss better options than just the facilities, right?~~	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13747	Theme 3- Reducing the Number of Council Facilities	General Comment	I think if you reduce facilities anymore then you are going to dissuade new growth in the town. Facilities have already been cut enough.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13748	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop targeting places that are used exclusively by poorer people and re - think council tax rates.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13749	Theme 3- Reducing the Number of Council Facilities	General Comment	You need more council places as kids are suffering as you keep closing places and its hard to get anywhere else.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13750	Theme 3- Reducing the Number of Council Facilities	General Comment	Make people work from home.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13751	Theme 3- Reducing the Number of Council Facilities	General Comment	This will have a significant impact on the community and one would question what's left in West Lothian if these things are removed.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13752	Theme 3- Reducing the Number of Council Facilities	General Comment	I feel that it is important to maintain council buildings but maybe reduce their sizes and have satellite staff manning them. I feel it is important that the community has facilities such as community spaces and libraries, these are valuable resources.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13753	Theme 3- Reducing the Number of Council Facilities	General Comment	I think you increase facilities	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13754	Theme 3- Reducing the Number of Council Facilities	General Comment	I think council run facilities and centres offers opportunity to areas of greater deprivation. If you shut these centres and facilities it is lower income areas and families who miss out and the gap widens.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13755	Theme 3- Reducing the Number of Council Facilities	General Comment	just stop wasting money	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13756	Theme 3- Reducing the Number of Council Facilities	General Comment	The council have already cut enough from closing swimming pools and closing vital services such as Family centres which is still felt today. It is always frontline staff and vulnerable people who are mostly affected by cuts and again looking at these proposed ideas again it's going to affect the most vulnerable in society.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13757	Theme 3- Reducing the Number of Council Facilities	General Comment	stop wasting money on new road speed rules.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13758	Theme 3- Reducing the Number of Council Facilities	General Comment	WLC has already sold all the unused buildings. If you loose buildings that provide services, communities loose that service.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13759	Theme 3- Reducing the Number of Council Facilities	General Comment	How does a public toilet cost £40, 000 to maintain (4 of them cost £160, 000). This goes back to the money management point. There needs to be a hard look at where all of this money is going.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13760	Theme 3- Reducing the Number of Council Facilities	General Comment	Like all councils and governments, go for the easy option and take away what is helping the community	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13761	Theme 3- Reducing the Number of Council Facilities	General Comment	Be more productive	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13762	Theme 3- Reducing the Number of Council Facilities	General Comment	Repair roads correctly to reduce digging up all the time.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13763	Theme 3- Reducing the Number of Council Facilities	General Comment	Review cost and expenses of councillors particularly any trips or fact finding visits	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13764	Theme 3- Reducing the Number of Council Facilities	General Comment	It is essential that community orientated and frontline staff (public facing) who generate positive experiences for the community are protected and prioritised. Cuts should come from the excessive bureaucracy behind these services which are neither streamlined nor efficient.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13765	Theme 3- Reducing the Number of Council Facilities	General Comment	Reduce the number of councillors. How much do they make. 6 people can make a decision as well as 10. Or is this asking the turkey to vote for Christmas.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13766	Theme 3- Reducing the Number of Council Facilities	General Comment	Depends exactly on what you mean, for example the bins situation really is absurd and costly and badly needs reformed and more importantly giving people the opportunity to get rid of their waste in a simple and easy manner and NOT be left to "fly tip" as they can 't get rid of all of their waste. I've no doubt there are plenty of areas that could be run better / more efficiently but without the facts and figures, staffing rates, numbers of facilities / costs of all such things etc... then surveys like this are futile as of course most people have no idea what the current situation is and therefore cannot make any real useful suggestions for change. Surveys need to focus on what the current situation is.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13767	Theme 3- Reducing the Number of Council Facilities	General Comment	YES BUT CANNOT PUT THEM IN PRINT	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13768	Theme 3- Reducing the Number of Council Facilities	General Comment	put up council tax	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13769	Theme 3- Reducing the Number of Council Facilities	General Comment	So basically you have said wlc have closed and sold off "for private housing "as many public amenities as possible to save a buck, leaving communities with a very lack luster if not nothing at all for communities to do! And yet again looking at closing down community hubs including the one at whitburn that cost a fortune to build? For the last 4 years the amount of services you have closed and either demolished or sold off has been exponential leaving nothing for the youth to do apparently from gather in teams causing issue after issue. Penny pinching and no forward thinking	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13770	Theme 3- Reducing the Number of Council Facilities	General Comment	Public toilet services should be maintained where they exist. Anyone could be most of the proposals are too broadly structured to understand the meaning. Please be more specific or introduce y / n answers for each question.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13771	Theme 3- Reducing the Number of Council Facilities	General Comment	Cause you 've already cancelled things already. I 've got no faith you can prioritise what is a priority	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13772	Theme 3- Reducing the Number of Council Facilities	General Comment	It's a quick fix that has the wrong optics.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13773	Theme 3- Reducing the Number of Council Facilities	General Comment	These are all loaded questions and vague statements making it impossible support	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13774	Theme 3- Reducing the Number of Council Facilities	General Comment	I've answered no not because I'm against the idea of saving money but you have provided no tangible information on exactly how you propose to make savings in arts and culture for example.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13775	Theme 3- Reducing the Number of Council Facilities	General Comment	Again... a dishonest question. Cutbacks, just cutbacks no matter how you frame them; and will you be reducing the amount of cronyism and self-serving tripe we see from Council officials? No... Noses will remain in the trough, the sectarian bias will continue as will cronyism!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13776	Theme 3- Reducing the Number of Council Facilities	General Comment	No, because not all people can get to these services. Not everyone lives in Livingston. Imagine living in Greenrigg and the service you need is in East Calder. Doesn 't make any sense. We need more services not less.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13777	Theme 3- Reducing the Number of Council Facilities	General Comment	You need to increase funding from SG.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13778	Theme 3- Reducing the Number of Council Facilities	General Comment	I would focus on increasing income by reviewing council tax particularly for those living in houses valued above £1m and consider introducing a road tax for residents driving SUVs or other private vehicles that are unnecessarily large.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

13779	Theme 3- Reducing the Number of Council Facilities	General Comment	Previous statement	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13780	Theme 3- Reducing the Number of Council Facilities	General Comment	Soon you will not have any	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13781	Theme 3- Reducing the Number of Council Facilities	General Comment	Complete cost cutting once again due to failed government policies and poor council planning and leadership	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13782	Theme 3- Reducing the Number of Council Facilities	General Comment	Deal with matters at hand West Lothian is becoming a dire place to stay now.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13783	Theme 3- Reducing the Number of Council Facilities	General Comment	It's a con	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13784	Theme 3- Reducing the Number of Council Facilities	General Comment	This leaves communities isolated and will costore in long run	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13785	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop cutting vital services and maybe let out some of your nearly 800 void properties!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13786	Theme 3- Reducing the Number of Council Facilities	General Comment	Again some of these are viable options but not all of them are. People visit libraries for more than just books. They go to clubs and to socialise and this can then positively impact their HWB. Many people love physical books and some do not own devices. You could potentially be impacting the poorest in society.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13787	Theme 3- Reducing the Number of Council Facilities	General Comment	As previous	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13788	Theme 3- Reducing the Number of Council Facilities	General Comment	Possibly look at this with proper consultation and by not trying to pull the wool over peoples eyes like Rosemount court cafe and other such schemes.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13789	Theme 3- Reducing the Number of Council Facilities	General Comment	I live in a small village and the amenities around us are all closing. All the new big hubs such as Winchburgh are getting brand new amenities such as leisure centres, schools etc whereas remote areas don't even have a reliable bus service that operates on time so that these facilities libraries leisure centres etc could be accessed. Villages also need to be looked after, roads maintained etc not just trunk roads.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13790	Theme 3- Reducing the Number of Council Facilities	General Comment	People need things to do other than shop.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13791	Theme 3- Reducing the Number of Council Facilities	General Comment	Why are you calling our budlings the Councils Property????? They do NOT belong to the council they belong to the people. THE COUNCIL OWN NOTHING IT IS ALL PUBLIC PROPERTY. THIS IS VERY DESEITFUL AND COHERSIVE	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13792	Theme 3- Reducing the Number of Council Facilities	General Comment	While looking at reducing building etc this will have an impact on communities who rely on these facilities such as libraries	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13793	Theme 3- Reducing the Number of Council Facilities	General Comment	People need to have the services to not become unhealthy	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13794	Theme 3- Reducing the Number of Council Facilities	General Comment	Some facilities are useless but most are use for their initial intention	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13795	Theme 3- Reducing the Number of Council Facilities	General Comment	Short sighted in my view and part shared with other groups would be better for future needs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13796	Theme 3- Reducing the Number of Council Facilities	General Comment	Build the necessary buildings	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13797	Theme 3- Reducing the Number of Council Facilities	General Comment	They should focus on other things, not facilities etc.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13798	Theme 3- Reducing the Number of Council Facilities	General Comment	West Lothian is unique with how much there is to do reducing this would probably make people angry at the council	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13799	Theme 3- Reducing the Number of Council Facilities	General Comment	People use facilities on a day to day basis so they should keep them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13800	Theme 3- Reducing the Number of Council Facilities	General Comment	where are people to go to access support / toilets etc	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13801	Theme 3- Reducing the Number of Council Facilities	General Comment	Reducing facilities may save money, but many clients I support rely on accessible, local buildings for social contact, structure and support. Losing these spaces could increase isolation and mental - health issues, especially for people with disabilities or limited digital access. Any reduction must ensure alternatives are genuinely accessible and inclusive, with face face options kept where needed. Savings shouldn't come at the expense of inclusion or wellbeing.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13802	Theme 3- Reducing the Number of Council Facilities	General Comment	Reduced access to essential services will have a negative impact on some residents, in particular older people, low - income families, and those without transport, they may struggle to access services that move further away, or change to online. This can widen inequalities and lead to greater social isolation particularly in rural parts of West Lothian. This will then have a detrimental impact on health and social care services.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13803	Theme 3- Reducing the Number of Council Facilities	General Comment	As a council, it is your responsibility to provide amenities for the people living in the area as a matter of promoting healthy lifestyles - including mental health. This should be one of your priorities as a council.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13804	Theme 3- Reducing the Number of Council Facilities	General Comment	West Lothian has lost so much. Swimming pools etc. my word it's not all about houses and the centre, people live here!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13805	Theme 3- Reducing the Number of Council Facilities	General Comment	unable to answer fully - neither yes or no new property owners should be made to do or be in the building within a specific timescale - buildings should not be sold and then nothing done. why selling assets at a low cost and not at full commercial costs?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13806	Theme 3- Reducing the Number of Council Facilities	General Comment	more local businesses less chain businesses	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13807	Theme 3- Reducing the Number of Council Facilities	General Comment	Only the unimportant ones	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13808	Theme 3- Reducing the Number of Council Facilities	General Comment	I don't think that the council should focus on shutting facilities as many facilities are used by a lot of people and are helpful to many people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13809	Theme 3- Reducing the Number of Council Facilities	General Comment	Council facilities such as day care centres are a lifeline for unpaid carers. My husband attends a day care centre 3 days a week and this is his reason to get up.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13810	Theme 3- Reducing the Number of Council Facilities	General Comment	By not building new housing areas and focusing on main parts of towns or villages that need it	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13811	Theme 3- Reducing the Number of Council Facilities	General Comment	The building are somewhere children can attend instead of the streets. Nit everyone has money for stuff like judo	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13812	Theme 3- Reducing the Number of Council Facilities	General Comment	Allow the old school in mid Calder to be used. We all know that the council has paid thousands maintaining it but there is no income from it.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13813	Theme 3- Reducing the Number of Council Facilities	General Comment	West Lothian residents are our customers we have a duty to have space for young and old ones to use socially and for mental health and education if we cut these it will lead to loneliness isolation problems with youths that then is not cost effective as it causes more problems for other services such as police social work	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13814	Theme 3- Reducing the Number of Council Facilities	General Comment	Residents should still have a level of services available	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13815	Theme 3- Reducing the Number of Council Facilities	General Comment	Partnership centres need to be available and accessible to all ages, the social aspect of society is already at an all time low	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13816	Theme 3- Reducing the Number of Council Facilities	General Comment	sell stuff you dont use anymore	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13817	Theme 3- Reducing the Number of Council Facilities	General Comment	stop funding hotels for illegal immigrants	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13818	Theme 3- Reducing the Number of Council Facilities	General Comment	Cutting facilities also means cutting revenue in some areas.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13819	Theme 3- Reducing the Number of Council Facilities	General Comment	Vulnerable adults eg elburn need a base.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13820	Theme 3- Reducing the Number of Council Facilities	General Comment	Good quality and less of.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13821	Theme 3- Reducing the Number of Council Facilities	General Comment	Services are important to maintain and the savings seem small	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13822	Theme 3- Reducing the Number of Council Facilities	General Comment	These are the major factors in building a community. I would encourage more community campaign rather than cutting them. The people makes the community.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13823	Theme 3- Reducing the Number of Council Facilities	General Comment	Whilst I do in part agree that rationalising facilities is a good option, I think if anything can be learned from the Community Centres is that this needs to been done with communities and not for communities.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13824	Theme 3- Reducing the Number of Council Facilities	General Comment	Facilsshould be managed in a way that can generate income	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13825	Theme 3- Reducing the Number of Council Facilities	General Comment	Keep / support com wings to help isolated people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13826	Theme 3- Reducing the Number of Council Facilities	General Comment	As a service user in community buildings I think the community needs this now more than ever	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13827	Theme 3- Reducing the Number of Council Facilities	General Comment	Save the community facilities working with the council. These venues are a lifeline	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13828	Theme 3- Reducing the Number of Council Facilities	General Comment	The council have closed enough facilities and should save as many as possible	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13829	Theme 3- Reducing the Number of Council Facilities	General Comment	even though it may be a small number of people using a facility there are still people using the facility who may not have access to another facility of the same needs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13830	Theme 3- Reducing the Number of Council Facilities	General Comment	West Lothian is boring enough taking away facilities just because they have a smaller usage would probably ruin it	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13831	Theme 3- Reducing the Number of Council Facilities	General Comment	everything shutting what is happening to West Lothian	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13832	Theme 3- Reducing the Number of Council Facilities	General Comment	Why do we get less service for the WLC team not being able to run the council right.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13833	Theme 3- Reducing the Number of Council Facilities	General Comment	Is financing those who choose to be unemployed one of the key services?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13834	Theme 3- Reducing the Number of Council Facilities	General Comment	Absolutely nothing for children anymore, pool closures, library's closed, can't even find a toilet for kids or elderly public anymore	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13835	Theme 3- Reducing the Number of Council Facilities	General Comment	As usual with the council all the chat is raise taxes and reduce services / buildings. Beyond a joke. Sooner or later everyone will be paying thousands and literally having to tar the road ourselves.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13836	Theme 3- Reducing the Number of Council Facilities	General Comment	Some people at the council can not do their work recently building were disposed of and it has actually costs the taxpayers more. Maybe get a better contracts manger in to oversee these jobs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13837	Theme 3- Reducing the Number of Council Facilities	General Comment	People need to go out and socialise	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13838	Theme 3- Reducing the Number of Council Facilities	General Comment	Hardley anything for young or old people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13839	Theme 3- Reducing the Number of Council Facilities	General Comment	hardly anything for People	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13840	Theme 3- Reducing the Number of Council Facilities	General Comment	I have no idea why WLC closed CIS offices and cash desks. A lot of people would regularly pay their rent if they could go into an office environment and do so	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13841	Theme 3- Reducing the Number of Council Facilities	General Comment	There are very few facilities as is.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13842	Theme 3- Reducing the Number of Council Facilities	General Comment	Encourage more people to use the services. Inform people that if services are not fully utilized, they will be shut down. Then provide transparent statistics about service usage before deciding if the services should be shut down	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13843	Theme 3- Reducing the Number of Council Facilities	General Comment	People need places to go West Lothian isn't the place it used to be where you couple go out and enjoy yourself socially	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13844	Theme 3- Reducing the Number of Council Facilities	General Comment	Utilise resources to either repair reuse or sub contract	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13845	Theme 3- Reducing the Number of Council Facilities	General Comment	Even if you do close anything down it doesn't make a difference and we just see houses build at closed and knocked down buildings. We're still seeing money wasted so much. West Lothian know it's the team running the council. Get them changed to younger / mature more community engaged folk.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13846	Theme 3- Reducing the Number of Council Facilities	General Comment	You've closed just about everything and made major cut backs yet you still can't balance the books talking more from your constituents won't help the lack of balancing the books. The amount of food banks should make you embarrassed but you still ask for more it's ridiculous	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13847	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop paying the managers the wages that you do.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13848	Theme 3- Reducing the Number of Council Facilities	General Comment	That is denying the people of privileges	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13849	Theme 3- Reducing the Number of Council Facilities	General Comment	dont agree with shutting all council buildings	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13850	Theme 3- Reducing the Number of Council Facilities	General Comment	So the council wants to reduce the amount of facilities, compromising those communities that are affected and rely on those facilities, yet the council expects to have the same level of output and help to the community, and expects us to pay more ... seriously!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13851	Theme 3- Reducing the Number of Council Facilities	General Comment	You are closing everything but charging us more. What are we actually paying for?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13852	Theme 3- Reducing the Number of Council Facilities	General Comment	Already took away loads!!! The place is the pits	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13853	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop bonus	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13854	Theme 3- Reducing the Number of Council Facilities	General Comment	Reduce council stock of housing requiring maintenance by offering tenants the chance to buy their property. .	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13855	Theme 3- Reducing the Number of Council Facilities	General Comment	Community centre are vital to village & towns	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13856	Theme 3- Reducing the Number of Council Facilities	General Comment	Council tenants still need drop ins to report issues, pay rent etc	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13857	Theme 3- Reducing the Number of Council Facilities	General Comment	The funding should be there to Maintain a Healthy Community, the Council Offices should have kept Rent Offices open, this was a required and needed function	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13858	Theme 3- Reducing the Number of Council Facilities	General Comment	Less waste	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13859	Theme 3- Reducing the Number of Council Facilities	General Comment	As before housing with care doesn't need to be staffed by council staff Also school car parks are locked at night but the lamposts remain on night, all weekends and over holidays. They are also not efficient led lamps. I brought this up a year ago and nothing has been done	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13860	Theme 3- Reducing the Number of Council Facilities	General Comment	Improve bus infrastructure to make seeking employment and staying in employment more attractive and available to non - car users.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13861	Theme 3- Reducing the Number of Council Facilities	General Comment	We have a small mobile gritter coming around blackridge he drives along the pavement on his phone and at the end of the path there is a big heap of salt / grit, nothing spread. He is out at around 6 in the morning and then having at sandwich at 7 outside the school	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13862	Theme 3- Reducing the Number of Council Facilities	General Comment	Why does the Council maintain football pitches ie in Whitburn, Blaeberry park and East Witburn, Redmill when there are no changing rooms and when the grass is mowed it cannot be played on due to cuttings being left on the pitches and the grass isn't cut to a standard which allows football to be played on them. The are probably similar situations like this in the rest of West Lothian. What Whitburn needs is a decent plastic pitch with floodlights which allows players to compete and train during the winter.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13863	Theme 3- Reducing the Number of Council Facilities	General Comment	Get rid off the talking bins, normal bins are more than suitable.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13864	Theme 3- Reducing the Number of Council Facilities	General Comment	Don't waste money on things like talking bins. A normal bin is sufficient.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13865	Theme 3- Reducing the Number of Council Facilities	General Comment	More bins so less litter pickers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13866	Theme 3- Reducing the Number of Council Facilities	General Comment	Get rid of all these stupid talking bind What's wrong with normal bins? Instead of the gimmick	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13867	Theme 3- Reducing the Number of Council Facilities	General Comment	Do away with those silly automated bins waste of money to start with.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13868	Theme 3- Reducing the Number of Council Facilities	General Comment	the way the local tip works is a disgrace.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13869	Theme 3- Reducing the Number of Council Facilities	General Comment	There has already been a number of services cut in West Lothian especially in relations to the presentation and looks of the areas. The roads side kerb appeal is overgrown and looks really untidy with bins laying full because people are putting the wrong stuff in bins	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13870	Theme 3- Reducing the Number of Council Facilities	General Comment	Shale of land to be increased for housing developers.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13871	Theme 3- Reducing the Number of Council Facilities	General Comment	Don't keep chopping down trees to make houses and small schools	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13872	Theme 3- Reducing the Number of Council Facilities	General Comment	Should consider where the buildings are being closed and where investment is being added. Recently it appears West Lothian council only really means facilities for specific areas, with Winchburgh seemingly extremely favoured.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13873	Theme 3- Reducing the Number of Council Facilities	General Comment	Your talking about a tourist levy for people to attend events. Where will they attend if there are no buildings left. You cant turn WL into a massive housing scheme without facilities. Crime & mental health will be on the up as no one has anything to, less jobs and boredom will kick in. You wanted City status not that long ago - complete embarrassment given theres nothing here.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13874	Theme 3- Reducing the Number of Council Facilities	General Comment	Same as previous question the facilities in some areas are shocking beyond belief and in other areas where the council has neglected its duties to residents by not holding builders to task the amount of new build areas that are sold with the promise of local amenities that are never build is a damning indictment on a poorly performing council that is way beyond not fit for purpose	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13875	Theme 3- Reducing the Number of Council Facilities	General Comment	A quick review with help but I doubt if great savings are possible here. Given the ageing population population, support for residential care and day care centres is critical. Do not consider cutting here as this would create greater pressures and costs on already stretched medical and social provision. It is highly cost - effective to keep older people at home for as long as it is safe and reasonable. Day care facilities are critical to enable this to happen.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13876	Theme 3- Reducing the Number of Council Facilities	General Comment	The council should help businesses like Braid House find a building that is not as large this would help in turn keep costs down.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13877	Theme 3- Reducing the Number of Council Facilities	General Comment	Braid House is a key services if the council could support this business by co - sharing the building to reduce rental costs.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13878	Theme 3- Reducing the Number of Council Facilities	General Comment	See previous answer about equipment stores.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13879	Theme 3- Reducing the Number of Council Facilities	General comment	We have nothing in bathgate for our service users no wheelchair friendly access for places. U shut Rosemount gardens cafe this was ideal for us.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13880	Theme 3- Reducing the Number of Council Facilities	General Comment	Support the disabled in the community with more day centres and teaching places especially after they graduate from their high school. Help them who will never work and their parents who deserve a break and who relied upon these places to sometimes allow them to work part time.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
13881	Theme 3- Reducing the Number of Council Facilities	General Comment	Make more shops and things more affordable so families can live Close down shops that no - one goes to Help so it's expensive but can't be that expensive so families can still live	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13882	Theme 3- Reducing the Number of Council Facilities	General Comment	Shut down non useful businesses that we don't really need. Shut down illegal substances shops that sell these but the ones that help your health	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13883	Theme 3- Reducing the Number of Council Facilities	General Comment	Look at what local councillors are being paid and what they do!	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

13884	Theme 3- Reducing the Number of Council Facilities	General Comment	Use people doing community service to help with basic building and outdoor space maintenance. Cleaning, basic DIY, road / pavement / parks - clearing rubbish, weeds, basic gardening.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13885	Theme 3- Reducing the Number of Council Facilities	General Comment	We hear every day about 'mental health'. By closing facilities you may be cutting out social lifelines to people who benefit from social interaction. What if private groups can offer these services where they pay for the use of the facilities, or possibly the council has to pay below the market rates for such groups. Young people are causing trouble in our towns, and the restrictions to the Police service is limited. Why not take free bus passes away from school children, and use the savings to create youth clubs? Maybe the Scottish Government needs to wake up!!	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13886	Theme 3- Reducing the Number of Council Facilities	General Comment	Pay off PFI	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13887	Theme 3- Reducing the Number of Council Facilities	General Comment	Tax the rich, cut bonuses for top earners	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13888	Theme 3- Reducing the Number of Council Facilities	General Comment	Definetely not, tax the rich!	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13889	Theme 3- Reducing the Number of Council Facilities	General Comment	Council should create more jobs and encourage people to work and pay tax rather than than government paying a lot of people benefits who are fit to work and has refused to go back to work.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13890	Theme 3- Reducing the Number of Council Facilities	General Comment	I think there's a lot of mismanagement in this area. Everytime I go to my local leisure centre there's always 3 people behind the desk, activities are cancelled and no one else is 'trained' to cover (with 3 stood behind the desk). Pool changing is dirty (with 3 stood behind desk) and pool always shut. I cancelled my membership and went private sadly.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13891	Theme 3- Reducing the Number of Council Facilities	General Comment	The services provided via Excite Leisure - Linlithgow. Booking of facilities could be made much simpler and easier online. Simple use explained, it's widely commented by people trying to hooks courts or halls that it's not easy.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13892	Theme 3- Reducing the Number of Council Facilities	General Comment	Charges for access to sports facilities Starting more clubs	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13893	Theme 3- Reducing the Number of Council Facilities	General Comment	Perhaps use Howden Centre more and invest in their building to bring revenue in for shows, pantomime and performances and try to divert attention to their rather than Edinburgh or Glasgow for some shows. I might be wondering off the subjects.? I don't know.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13894	Theme 3- Reducing the Number of Council Facilities	General Comment	to prevent people entering into the country illegally and the council having to fund accommodation for them to live in.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13895	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop using hotels for immigrants in West Lothian	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13896	Theme 3- Reducing the Number of Council Facilities	General Comment	The illegal migrants must be stretching all resources in west lothian	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13897	Theme 3- Reducing the Number of Council Facilities	General Comment	The old maintenance workshops in Bathgate is prime town centre land which could have been sold off for housing but has seat empty for years.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13898	Theme 3- Reducing the Number of Council Facilities	General Comment	Council tax why is there a single persons discount?	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13899	Theme 3- Reducing the Number of Council Facilities	General Comment	Implement a dog owner tax to cover the cost of dog bins being emptied. (Doesn't have to be a large amount).	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13900	Theme 3- Reducing the Number of Council Facilities	General Comment	Make more money, eg. Higher business rates for companies like the whiskey distillery.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13901	Theme 3- Reducing the Number of Council Facilities	General Comment	Look into the fact that privately owned former council houses are only charged Band A council tax rates rather than the rate that would be applied for an equivalent sizes private house.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13902	Theme 3- Reducing the Number of Council Facilities	General Comment	Takeaway abandoned buildings	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13903	Theme 3- Reducing the Number of Council Facilities	General Comment	Knock down abandoned buildings Knock them down The buildings that people don't use should shut down	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13904	Theme 3- Reducing the Number of Council Facilities	General Comment	How many (illegal) immigrants are you paying to put up in hotels?	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

13905	Theme 3- Reducing the Number of Council Facilities	General Comment	I think the main problem is that local councils aren't getting enough support from the government. Instead of closing more buildings, the government should be giving councils more funding so services can be kept local and accessible. Cutting facilities might save money in the short term, but it ends up hurting communities in the long run. Yes, I agree the Council needs to plan ahead and shape services around the changing population. It makes sense to make sure resources go where they're most needed. However, I think the government also needs to provide more funding to help councils cope with these changes, especially with the growing number of older	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13906	Theme 3- Reducing the Number of Council Facilities	General Comment	I think the main problem is that local councils aren't getting enough support from the government. Instead of closing more buildings, the government should be giving councils more funding so services can be kept local and accessible. Cutting facilities might save money in the short term, but it ends up hurting communities in the long run.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13907	Theme 3- Reducing the Number of Council Facilities	General Comment	Pay top councillors and MSPs lower annual salaries. Do not repeat behaviour, activities or actions that are overly expensive e. g. no more plans to build Scottish force buildings like The Scottish Parliament which was so expensive and went so over budget.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13908	Theme 3- Reducing the Number of Council Facilities	General Comment	You should get more funding from treasury and Westminster.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13909	Theme 3- Reducing the Number of Council Facilities	General Comment	Shut everything else. Shut down GPs people need to be responsible for their own health via exercise and clean diets.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13910	Theme 3- Reducing the Number of Council Facilities	General Comment	would reopening the 2 plant growing facilities closed some time ago be used for rewilding support?	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13911	Theme 3- Reducing the Number of Council Facilities	General Comment	Open new mega clinics for health and social care	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13912	Theme 3- Reducing the Number of Council Facilities	General Comment	why not allow local companies to for e. g. fit kitchen in centre for free and advertise their work as a showroom and generate money back.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13913	Theme 3- Reducing the Number of Council Facilities	General Comment	Reduce the private rent payments especially with those with multiple houses	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13914	Theme 3- Reducing the Number of Council Facilities	General Comment	Re introduce the Right to buy your council home	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13915	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop housing immigrants in hotels. Need a central place, unused army barracks etc to use to house them. Tougher penalties for flt tipping	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13916	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop allowing the Cairn hotel to be used by asylum seekers who are a drain on society and emergency services etc.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13917	Theme 3- Reducing the Number of Council Facilities	General Comment	Closing down so many xcite buildings and flattening them was a big mistake. Having premises becoming derelict or sites for vandalism is not the best use of these resources. Actually managing these more effectively would be much better. For example Winchburgh community center charges £12 per hour to hire the hall. The xcite in Winchburgh charges £60 per hour, last time I inquired. No wonder the community center is making a loss. These assets are not managed effectively.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13918	Theme 3- Reducing the Number of Council Facilities	General Comment	get rid of the councillors save the money from these useless people, XXXXXXXX alone would save 200k a year, get rid of that clown	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13919	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop taxis for various individuals! Stop mobility cars!	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13920	Theme 3- Reducing the Number of Council Facilities	General Comment	Prioritise essential buildings such as much needed doctors surgeries over non essential	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13921	Theme 3- Reducing the Number of Council Facilities	General Comment	agree with buildings but we ned to stop granting permission for the number of barbers nail salons charity shops way to many our high street is not visitor friendly not many small shops selling gifts general and reflecting linlithgow more parking	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13922	Theme 3- Reducing the Number of Council Facilities	General Comment	force Amazon and other delivery companies to use Royal Mail for the last mile and charge them more for their warehouse facilities	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13923	Theme 3- Reducing the Number of Council Facilities	General Comment	Stop allowing properties to be built and focus on the current residents we have here and stop allowing the Cairn hotel to be used for asylum seekers who cost us all money and ar3 a further drain on the Police, Ambulance and NHS	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
13924	Theme 3- Reducing the Number of Council Facilities	General Comment	Tax the Landowners who are being paid to put windmills up, they should be paying the government in Scotland for that privilege which creates millions in wealth to the energy companies and landowners and who only give a few thousand to local projects to help them function. the councils should not be closing things down but encouraging more local projects	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13925	Theme 3- Reducing the Number of Council Facilities	General Comment	Not sure about this. Don't know option not available!	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13926	Theme 3- Reducing the Number of Council Facilities	General Comment	Poor question and proposals lack detail	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13927	Theme 3- Reducing the Number of Council Facilities	General Comment	You should publish the breakdown of funding for public services when asking this - how much the council makes or loses from each service, because without that information we won't have a clue of how to answer this suggestion.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13928	Theme 3- Reducing the Number of Council Facilities	General Comment	Further information on costs of upkeep of buildings and services should be made public before any comments can be made. Leisure facilities? What ones.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13929	Theme 3- Reducing the Number of Council Facilities	General Comment	The way Rhys survey is put together is a joke, what down did it?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13930	Theme 3- Reducing the Number of Council Facilities	General Comment	*Key services *not the same criteria used by everyone.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13931	Theme 3- Reducing the Number of Council Facilities	General Comment	How do you expect people to answer these questions based on the information you are providing.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13932	Theme 3- Reducing the Number of Council Facilities	General Comment	Asking for yes or no answer on these questions isn't helpful. It's never as simple as that. The long term impact of any short term saving need to be considered. Staff and the public can only give superficial answers to these question because we don't have all the information available, and many people wouldn't have the skills to do it either. Everything needs to be looked at by people that are independent from that service and in detail. Income and the prosperity of the area need a long term plan that we can all work towards.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13933	Theme 3- Reducing the Number of Council Facilities	General Comment	I answered yes to this question but what about the items listed where you say saving to be determined?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13934	Theme 3- Reducing the Number of Council Facilities	General Comment	Not my job to suggest this. I haven't seen any detailed information regarding your accounts or spending	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13935	Theme 3- Reducing the Number of Council Facilities	General Comment	There are too many areas lumped into one section and it's not a yes or no to all as the survey is seeking. Additionally there is not enough detail given. This is a poorly designed survey, designed to get agreement by stealth. I would suggest redesigning this to be open and transparent, provide sufficient information for informed decisions to be made and enable responses to more aligned as opposed to clumping a heap of statements together. Toilet facilities out if hours??	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13936	Theme 3- Reducing the Number of Council Facilities	General Comment	This question is not valid as you should allow for voting on individual items as each one should stand on its own merit.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13937	Theme 3- Reducing the Number of Council Facilities	General Comment	Same as the last response it is a mixed bag and not a valid request for voting on.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13938	Theme 3- Reducing the Number of Council Facilities	General Comment	You are mixing good ideas and bad ideas with a question if I support. If you seriously consider input as part of a consultation you should be more granular with these options, letting me say yes or no to each of them instead of in bundles.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13939	Theme 3- Reducing the Number of Council Facilities	General Comment	Key services are what the individual needs and cutting any service will be someone's key	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13940	Theme 3- Reducing the Number of Council Facilities	General Comment	To many questions for a straight yes or no answer. As is the case for previous pages. The Scottish government is the problem with the way your funded. Should be upto each individual council to determine how money is spent in their community.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13941	Theme 3- Reducing the Number of Council Facilities	General Comment	A review of leisure and arts services will save no money. It will cost money. There is no information about what is being changed so how can I agree to it? Libraries offer more services than just books, job searching, access to the internet, hearing aid batteries. Also, children don't read digital books (and really shouldn't). Taking these facilities out of specific communities and not others will create uneven development across the council. Public toilets are an essential service and people should have to rely on grocery stores etc. Would you consider making the GPS allow people to use their	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13942	Theme 3- Reducing the Number of Council Facilities	General Comment	Again you have biased this poll. There is no mention about what you are proposing to do. It would be better to look at ways of maximising your income. Simply become more imaginative, and you should be looking outside of the box	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13943	Theme 3- Reducing the Number of Council Facilities	General Comment	is this really saving us money or just a short term income for long term loss	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13944	Theme 3- Reducing the Number of Council Facilities	General Comment	So you want to reduce arts and cultural activities but then have a tourist tax? What are they paying to see	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13945	Theme 3- Reducing the Number of Council Facilities	General Comment	Needs clarification on what it entails and it's impact on our lives	Corporate Policy and Resources	9. The respondent made a comment on the survey question

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13946	Theme 3- Reducing the Number of Council Facilities	General Comment	Make each option an individual point that can be surveyed on, having all the options as one yes or no answer is completely [XXXX] pointless	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13947	Theme 3- Reducing the Number of Council Facilities	General Comment	The danger is the savings will be made in the wrong areas. For example Broxburn swimming pool should never have been closed. It provided such a vital resource for the local community who are unable to travel to other facilities. It feels like West Lothian Council is cutting services to save money to the detriment of the local community.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13948	Theme 3- Reducing the Number of Council Facilities	General Comment	Though have reservations re automated toilet facilities.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13949	Theme 3- Reducing the Number of Council Facilities	General Comment	You have to be careful in reducing council buildings as some staff may have to move jobs if their commute suddenly increases or becomes untenable. Any reduction in council facilities should be coupled with a relaxation on working from home.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13950	Theme 3- Reducing the Number of Council Facilities	General Comment	But need to keep the important buildings in the community.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13951	Theme 3- Reducing the Number of Council Facilities	General Comment	I think this should only be done where building and assets are inefficient or are not being used. We need to be mindful of the positive impact of community spaces, particularly in some of our more deprived localities. The council should also	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13952	Theme 3- Reducing the Number of Council Facilities	General Comment	Not all staff need to be office based and the reduction in work places to save money is key as staff work well on either a hybrid or home working	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13953	Theme 3- Reducing the Number of Council Facilities	General Comment	Yes but not at the expense of being able to help people in person who really need it.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13954	Theme 3- Reducing the Number of Council Facilities	General Comment	Partly. Changes might be needed, but support for young people, care leavers, and families must stay local and accessible.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13955	Theme 3- Reducing the Number of Council Facilities	General Comment	How essential are the public toilets? Are they used by anyone?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13956	Theme 3- Reducing the Number of Council Facilities	General Comment	Ensure there are alternative toilets available and accessible please!	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13957	Theme 3- Reducing the Number of Council Facilities	General Comment	make use of empty council buildings	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13958	Theme 3- Reducing the Number of Council Facilities	General Comment	If you lose building it must then mean staff	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13959	Theme 3- Reducing the Number of Council Facilities	General Comment	You have closed down too many public buildings, where are people meant to go and too many buildings being sold off or left to rot.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13960	Theme 3- Reducing the Number of Council Facilities	General Comment	Reducing these 'services & facilities' makes the council an exercise in damage limitation and not contributing to a positive environment for its tax payers. This increases irrelevance of council ie taking but not giving where it should. Appropriately deployed funding leads to a declining problem, if problem is increasing with funding is not solvable by such means and should be discontinued. Results based and sustainable should be the watch words for intelligently deployed resourcing.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13961	Theme 3- Reducing the Number of Council Facilities	General Comment	Building and spaces offer connection, wellbeing and opportunity. Council services are already having to spend money to boom rooms for meetings / groups this is particularly challenging and financially inefficient.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13962	Theme 3- Reducing the Number of Council Facilities	General Comment	Seems to have already closed a number of key buildings.... what 's left & what 's next?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13963	Theme 3- Reducing the Number of Council Facilities	General Comment	What key services? all I 'm seeing is your plan to close useful facilities that are currently in use.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13964	Theme 3- Reducing the Number of Council Facilities	General Comment	Further closure of public buildings will result in the public wondering why they are paying more for less and less.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13965	Theme 3- Reducing the Number of Council Facilities	General Comment	Way too much already closed, there will be nothing left	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13966	Theme 3- Reducing the Number of Council Facilities	General Comment	Buildings for community services including those that support youth groups, children 's groups, aged groups etc need to remain open to assist with child development and to prevent isolation / mental health issues in other ages.	Corporate Policy and Resources	9. The respondent made a comment on the survey question

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13967	Theme 3- Reducing the Number of Council Facilities	General Comment	Only close buildings as a last resort & if the service isn't being used as much as before.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13968	Theme 3- Reducing the Number of Council Facilities	General Comment	Poor question design. It should be about optimising premises. Of course close old, inadequate buildings or unsafe areas but I would look at using existing buildings more. can they be used in evenings for other purposes, classes and clubs that you could charge let money for.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13969	Theme 3- Reducing the Number of Council Facilities	General Comment	This seems like very short term proposals as when these are sold off, what needs sold off the next time. What is the long term plan for sustainable solutions and savings?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13970	Theme 3- Reducing the Number of Council Facilities	General Comment	Show us exactly where the budget goes, or allow us to tick box where we want our money to go and then we will all get a say as this can be used to set budget limits such as libraries as there may be a lot of people use them but maybe it's just not important enough to have EVERYONE pay for	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13971	Theme 3- Reducing the Number of Council Facilities	General Comment	This needs to be dealt with sensitivity towards the community as it stands the community feels your not listening	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13972	Theme 3- Reducing the Number of Council Facilities	General Comment	Yes. Social services should always be protected	Corporate Policy and Resources	9. The respondent made a comment on the survey question
13973	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again this needs to be done with care as providing an excellent education service should be the number one priority.	Education	1. The respondent advised that they agree with the proposal.
13974	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	good idea	Education	1. The respondent advised that they agree with the proposal.
13975	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Whilst the closing of some primary and nursery schools is sensible, some of the current school buildings are well below the standards needed to provide a purposeful, engaging and appropriate learning environment whilst others are state of the art new builds supported by developer funding. Whilst I appreciate the different revenue streams, there must be a move to more equity across school buildings.	Education	1. The respondent advised that they agree with the proposal.
13976	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Definitely look at Education. Reduce schools or look at schools that are over subscribed, regardless of denomination.	Education	1. The respondent advised that they agree with the proposal.
13977	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Gone is the time when small schools with small rolls stay open. Eg Woodmuir school	Education	1. The respondent advised that they agree with the proposal.
13978	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There should definitely be a review and response in this area. Education gets far too much of a priority in budget at significant cost to other key services which benefit the community. If there is less demand then services need to change.	Education	1. The respondent advised that they agree with the proposal.
13979	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools need to be reviewed but sufficient transport options for those coming from further away need to be free of a local school has been removed. Or at least free for those not in upper tax band or similar etc	Education	1. The respondent advised that they agree with the proposal.
13980	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Implement IFS report on Scottish School Spending - "the fall in pupil numbers could offer councils a chance to make savings. If policymakers chose to freeze pupil-teacher ratios at 2024 levels, then teacher numbers could drop by 1, 000, which would generate in - year savings of about £65-120 million by 2027. "Why would any rational person continue to spend money on children who do not exist when the number of elderly people requiring services is increasing?	Education	1. The respondent advised that they agree with the proposal.
13981	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Services should also be reviewed were required and added. Eg schools in areas where there isn't	Education	1. The respondent advised that they agree with the proposal.
13982	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as children don't have to travel far, if their schools close.	Education	1. The respondent advised that they agree with the proposal.
13983	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as future places forecasting is done properly with the increase in homes being built	Education	1. The respondent advised that they agree with the proposal.
13984	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as reducing the amount of school buildings does not impact people's jobs.	Education	1. The respondent advised that they agree with the proposal.
13985	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This needs to be about more than simply closing schools. It should be repurposing the buildings into facilities that the demographic needs	Education	1. The respondent advised that they agree with the proposal.
13986	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as there is transport to accommodate the pupils who change schools then this should help. What would also help is taking a far tougher line with pupils who mis - behave in school or school transport. By being stricter with discipline this brings the focus of teachers back to teaching the vast majority of children who want to learn. Those children receive better education and will do much better in life.	Education	1. The respondent advised that they agree with the proposal.
13987	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I worked in small schools and there were 10 - 15 children in them. It would be probably more cost effective in applying transportation for those children to get them to other schools instead of keeping them in current one when taking overall cost of the facility.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
13988	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But people should not have to travel long distances to reach educational and other facilities. should be in easy walking / cycling distance for most people	Education	1. The respondent advised that they agree with the proposal.
13989	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with this if figures are accurate. However still believe that savings can be made at top table by reducing excessive salaries for executive and Senior management.	Education	1. The respondent advised that they agree with the proposal.
13990	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Responding to demographic changes is of course important, however the suggestions you have made would need very careful consideration. If adequate places are available in schools then potentially reducing the number of schools could work. However, in reality this will likely result in bigger class sizes and again create another problem elsewhere. If this were in conjunction with educational reform then it has the potential to work but otherwise not.	Education	1. The respondent advised that they agree with the proposal.
13991	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I'm sure the amount of schools could definitely be cut back, there are to many schools as it is, I do understand the need of people who are religious and want the kids to go to like a Catholic and Protestant but there is enough off these schools in Balthgate they could be given bus passes or like other parents to drop the kids off and go home, I agree again there are to many schools in the smaller towns in West Lothian.	Education	1. The respondent advised that they agree with the proposal.
13992	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would have thought the nursery and school reviews should be made anyway. I think thought should also be given to school transport when this review takes place.	Education	1. The respondent advised that they agree with the proposal.
13993	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It has to be done things change you have to cut costs	Education	1. The respondent advised that they agree with the proposal.
13994	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Sure	Education	1. The respondent advised that they agree with the proposal.
13995	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there is too many schools for the number of children in the areas then perhaps close some schools and change their use to health centres?	Education	1. The respondent advised that they agree with the proposal.
13996	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with this, particularly on merging schools where appropriate. I think a broader issue is government should put a bigger responsibility on older demographics to help fund what effectively is a larger proportion of working peoples taxes funding elderly demographic focused government service provision. Triple lock should be scrapped for example. And greater efforts made to encourage older people downsizing into smaller homes. Or taxing their wealth through fairer council tax bands / wealth taxes.	Education	1. The respondent advised that they agree with the proposal.
13997	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Makes sense to shape policy around changing demographics.	Education	1. The respondent advised that they agree with the proposal.
13998	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Although controversial the reduction in the number of school settings is an opportunity to make significant savings. As demographics change this will be a necessary step.	Education	1. The respondent advised that they agree with the proposal.
13999	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	agree reduce number of schools in areas where school role is falling. Concentrate resource on areas where there is more demand	Education	1. The respondent advised that they agree with the proposal.
14000	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agreed but hopefully plenty of notice and information is provided to schools / parents of any reviews / actions. Painful to see how some schools are so old and need repair and attention, but in the next town over there are new schools with new facilities etc.	Education	1. The respondent advised that they agree with the proposal.
14001	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school.	Education	1. The respondent advised that they agree with the proposal.
14002	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But improve support services within schools	Education	1. The respondent advised that they agree with the proposal.
14003	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This should be a GRADUAL, PHASED process rather than 'swinging an axe'. Due to budgetary pressures over the last decade that I have been a teacher, I have seen how the squeeze on staffing numbers has had a clearly detrimental effect on the quality of life for staff (stress levels are at record highs according to scientific data) and educational experience for pupils.	Education	1. The respondent advised that they agree with the proposal.
14004	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Absolutely understand with respect to the changes in services needed; and revisiting the requirement for schools seems sensible. I'd perhaps be cautious not to reduce the additional support services in some areas, particularly in the lower income (or highly benefit dependent) areas. I feel we still have a genuine problem with the cultures in some of our sub - communities like Knightsbridge, Ladywell, Craigshill, Blackburn etc. where not only do we need adequate social support but broader support in other community areas to try and encourage generational decrease in underachievement, substance - reliance, violence and mental health issues.	Education	1. The respondent advised that they agree with the proposal.
14005	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	for schools - yes look at the demographic but also look at the needs of the pupils, the council are letting down many pupils due to not having the correct support in place. The amount of ASN pupils who are not coping in mainstream schools is at a high level which causes the pupils stress but also puts extra stress and preparation time onto staff. The lower ability / high tariff needs of the pupils needs to be addressed. More support (PSWs) need to be available and specialist teachers need to be in main stream schools if that is the way the council are going. You are also letting the parents down as they know that their child isn't getting the correct education.	Education	1. The respondent advised that they agree with the proposal.
14006	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools that are not running at capacity should be closed	Education	1. The respondent advised that they agree with the proposal.
14007	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No every area will need the same level of support and this should be reviewed regularly.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14008	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	yes I do agree with closing smaller schools an moving to surrounding schools where possible.	Education	1. The respondent advised that they agree with the proposal.
14009	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools with hardly any pupils should be closed	Education	1. The respondent advised that they agree with the proposal.
14010	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think these are all viable options and should be considered carefully and cuts made where possible	Education	1. The respondent advised that they agree with the proposal.
14011	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The measures suggested are common sense, subject to consideration of future population growth. Class sizes of less than 25 in primary or 20 in high school should be discouraged.	Education	1. The respondent advised that they agree with the proposal.
14012	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Remove smaller schools and concentrate on larger hubs, but without transport costs.	Education	1. The respondent advised that they agree with the proposal.
14013	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Refer to previous response. By all means close schools that are not required.	Education	1. The respondent advised that they agree with the proposal.
14014	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shifting demographics is important. I wouldn't like the school property to be sold off though. I'd rather the council kept it. Interesting that there is nothing about older people in this section (Which is expanding).	Education	1. The respondent advised that they agree with the proposal.
14015	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This approach is needed - with such a large budget deficit there is a requirement to take a significant change such as school closures. Please don't take this off the table to appease the few rather than the greater good that the reduction in school buildings and rationalisation of resource can bring to the majority of learners particularly our learners with additional needs.	Education	1. The respondent advised that they agree with the proposal.
14016	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Possibly reducing buildings but demographics can change - no consideration was given to the capacity of Holy Family PS whilst it was small in the old building it has been open for 3yrs and is full to capacity - it has also not been designed to take into account of pupils needs - with the presumption of mainstream.	Education	1. The respondent advised that they agree with the proposal.
14017	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School places need to be sized for the children population, but places also need to be available so that every child receives an equitable education that enables the best learning for them. Closing schools and removing facilities for children and young people needs to be approached with much wisdom.	Education	1. The respondent advised that they agree with the proposal.
14018	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes — the Council should absolutely respond to demographic changes.	Education	1. The respondent advised that they agree with the proposal.
14019	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No point in schools without children or under subscribed.	Education	1. The respondent advised that they agree with the proposal.
14020	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But in reviewing schools, be careful no to increase the number of children per classroom (to save some money). Unfortunately, education in WL is quite deficient, and I am sure we all want well educated children and adolescents.	Education	1. The respondent advised that they agree with the proposal.
14021	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close smaller primary schools as long as the cost of pupil transport will not exceed the savings made.	Education	1. The respondent advised that they agree with the proposal.
14022	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Increase class sizes, reduce the number of teachers, close schools and sell off the buildings to property developers.	Education	1. The respondent advised that they agree with the proposal.
14023	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education must be protected. If you can still provide a good education but make substantial savings by moving children to different schools then consider it. But put a robust plan in place to minimise disruption for those children.	Education	1. The respondent advised that they agree with the proposal.
14024	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School buildings should be repurposed into 3rd spaces allowing for community to build upon services; but schools should be thinking about class sizes and strain on current service before closing as there will be people who rely on their local schools	Education	1. The respondent advised that they agree with the proposal.
14025	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, I agree the Council should respond to demographic change, but with careful planning. It's important to shape services around the needs of the local population, but decisions like reducing schools or nurseries should be made only after full consultation with families. Older people will need more care, but education and support for children should still remain a strong priority — both generations deserve equal focus and respect	Education	1. The respondent advised that they agree with the proposal.
14026	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The nurseries have already been hit this year so looking at the schools would save the biggest saving	Education	1. The respondent advised that they agree with the proposal.
14027	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes defo	Education	1. The respondent advised that they agree with the proposal.
14028	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Need to balance the books like any business. If there's more pensioners then provide vital services and if there's fewer children then reduce the number of schools.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14029	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a It would also mean that you 'll have to improve the transportation services in some areas.	Education	1. The respondent advised that they agree with the proposal.
14030	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think these points have been well thought out	Education	1. The respondent advised that they agree with the proposal.
14031	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree it is better to have fewer schools at capacity	Education	1. The respondent advised that they agree with the proposal.
14032	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There needs to be changes in schools and nursery's in areas. Some have too many for the needs but some do not have enough for the needs in the areas	Education	1. The respondent advised that they agree with the proposal.
14033	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We have four primary schools in armadale far too many, there should only be 2 schools like the academy all children in armadale would benefit from this.	Education	1. The respondent advised that they agree with the proposal.
14034	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools in rural areas of west lothian	Education	1. The respondent advised that they agree with the proposal.
14035	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that we should be looking demographics to identify where savings need to be made. especially 4a where there could be considerable savings if aligning demand with places needed.	Education	1. The respondent advised that they agree with the proposal.
14036	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education is needed for all and if they children can be safely managed in other schools then great Early intervention is key and necessary to prevent families reaching crisis. Pay for a cleaner or something that will benefit families rather than paying for residential and external resources. We need more opportunities to support families in the short term and learn from previous generations such as only intervening when children are teenagers and unable to make effective and necessary changes. The duty team need to be supported away from child protection and bring this back in to practice teams to allow them to complete long term pieces of work where crisis has happened, duty should've providing opportunities to upskill families and actually should be largely paraprofessionals mirroring how to implement routines, structure and work through adversity	Education	1. The respondent advised that they agree with the proposal.
14037	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think there are far too many schools and this could be condensed	Education	1. The respondent advised that they agree with the proposal.
14038	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Small schools with falling rolls should be mothballed. There are a number of schools in certain areas which are now more or less pointless. The cost taxing children to another more populated school is surely a more cost effective than running an almost empty school.	Education	1. The respondent advised that they agree with the proposal.
14039	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As before, close schools with falling roles and bus to next available town	Education	1. The respondent advised that they agree with the proposal.
14040	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close nurseries and primary schools that are not utilised or able to be maintained and invest in key schools	Education	1. The respondent advised that they agree with the proposal.
14041	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but with taking away schools also limits our children who have additional needs with attending appropriate ones	Education	1. The respondent advised that they agree with the proposal.
14042	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce spending on schools (buildings and staff) where numbers of children are falling. The report by the Institute for Fiscal Studies presents the argument well.	Education	1. The respondent advised that they agree with the proposal.
14043	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Could / would school buses be introduced to support families with Children who would live too far away from their catchment area, get to school if their parents / guardians didn't drive?	Education	1. The respondent advised that they agree with the proposal.
14044	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This seems an obvious efficiency.	Education	1. The respondent advised that they agree with the proposal.
14045	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Unfortunately this situation is what it is and needs to be reviewed.	Education	1. The respondent advised that they agree with the proposal.
14046	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The Council should not continue to spend the same amount of money on education (buildings and staff) where the number of children is falling.	Education	1. The respondent advised that they agree with the proposal.
14047	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but this doesn't mean just shutting services such as schools which parents rely on for affordable childcare which is already very limited in many areas.	Education	1. The respondent advised that they agree with the proposal.
14048	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Redo catchment lines to most nearest school to cut wasteful school transport. I. E kids in Linlithgow go to Linlithgow academy. Westfield go to Armadale etc if parents choose alternative they are responsible for transport. Linlithgow primary has kids from BoNESS and Livingston on their roll currently and they shouldn't have been allowed to do this	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14049	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agreed there needs to be planning but this shouldn't be redirecting kids to other schools in other areas. Plan needs to cover 10 - 30 years but be consistent with what has been promised to council tax payers.	Education	1. The respondent advised that they agree with the proposal.
14050	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think school mergers would help with freeing up space as long as it doesn't impact the education of the children with over populated classrooms.	Education	1. The respondent advised that they agree with the proposal.
14051	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Absolutely. This has been a massive failure by west Lothian council. New or expanding communities should have the required facilities. Not just taking the money from larger houses in higher council tax bands and spending all over west Lothian. Spend the money where it's generated.	Education	1. The respondent advised that they agree with the proposal.
14052	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce school buildings where the cost of repairs is high. If schools are undersubscribed, merge and use buildings in best condition	Education	1. The respondent advised that they agree with the proposal.
14053	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with reviewing the schools and the nursery, however the current social policy landscape in WLC is already a mess. Early intervention is an excuse to not allocate funding for children who should be moved onto residential schools and secure establishments. A small number of children are costing the authority, police and people of West Lothian far more than we are saving by not having them in the appropriate resource. The children's social policy landscape is a mess and needs an external review as it is costing more, for less impact, and at some point soon, a child from West Lothian will die, no left over money which would have been spent on these kids affected by the child care system failure. Family intervention isn't a cost.	Education	1. The respondent advised that they agree with the proposal.
14054	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce schools but improve quality of remaining ones and reinvest sky he savings into teaching standards and services. Also stop using taxes to ferry kids to school.	Education	1. The respondent advised that they agree with the proposal.
14055	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as this is not done at the detriment of the young people. Which seems to be the case unfortunately.	Education	1. The respondent advised that they agree with the proposal.
14056	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with most points here! Dechmont Primary has closed due to having very little children attending which I think was the correct decision.	Education	1. The respondent advised that they agree with the proposal.
14057	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We have no choice in this	Education	1. The respondent advised that they agree with the proposal.
14058	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	makes sense to close schools which are underpopulated. Winchburgh is obviously booming with an increasing population but surely we need to stop any more housing developments as Winchburgh has a lot of schools now, that is a lot of cost. Force housing developers to use land out with West Lothian.	Education	1. The respondent advised that they agree with the proposal.
14059	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Allocate places for pupils in alternative schools that are half empty	Education	1. The respondent advised that they agree with the proposal.
14060	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why are you even asking, should we shut a school if it's no longer required. Get on with it	Education	1. The respondent advised that they agree with the proposal.
14061	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	rationalising schools is a great way to save money.	Education	1. The respondent advised that they agree with the proposal.
14062	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why are the council not currently doing this?	Education	1. The respondent advised that they agree with the proposal.
14063	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Have the school classes merged for the years that there is low intake, but for future generations don't be closing schools That will be needed in the future, if the schools are in disrepair rebuild or offer busses to nearby schools that can take in intake of children, if it costs more to maintain a old building then seek alternative schools this would save money and would Only need to offer alternative transport to deal with the issue, extend schools that are local to areas that have a bigger intake and extend the catchment for the schools and offer transport	Education	1. The respondent advised that they agree with the proposal.
14064	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes close merge or move schools as necessary	Education	1. The respondent advised that they agree with the proposal.
14065	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close the smaller schools like bridgend ps as there are less children attending thus school and nursery could save money on teaching and cleaning and janitorial services	Education	1. The respondent advised that they agree with the proposal.
14066	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Coort closing the schools! the place will be in an uproar - even if no children are attending said schools. good luck with that option - but lots of money to be saved. Worth consideration	Education	1. The respondent advised that they agree with the proposal.
14067	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reallocating resources from areas of declining demand (like surplus school places) to areas of exploding demand (like adult social care) is the only logical course of action. It Maximises Educational Quality and Efficiency: Point 4a is a difficult but rational proposal. Maintaining half - empty school buildings is financially wasteful and can lead to a poorer educational experience with reduced resources per pupil. Consolidating pupils into the right number of schools allows the council to protect teaching quality, offer a broader curriculum, and achieve significant savings (£3.4 million) that can be reinvested into the education system itself.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14068	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I can see the need for demographic change but one size will not fit all. To ensure we attract young people to the county we need to ensure schools and nurseries exist and working parents do not need to travel outrageous distances to have their children educated. There is a balance between attracting new residents and cutting services. Make too many cuts and WL will not be a desirable destination. Early intervention and support of young people and their families does not seem fit for purpose at present. Maybe a service restructure and review, not a reduction in services would be beneficial.	Education	1. The respondent advised that they agree with the proposal.
14069	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I work in school and see the sense in reducing the excess school structure	Education	1. The respondent advised that they agree with the proposal.
14070	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I feel far too much money is flung into Education therefore a significant review is required.	Education	1. The respondent advised that they agree with the proposal.
14071	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again this has to be done sensibly and not to the detriment of the children and young people of these identified communities.	Education	1. The respondent advised that they agree with the proposal.
14072	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools that are half empty and where good alternative exist	Education	1. The respondent advised that they agree with the proposal.
14073	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should look at the number of buildings and amalgamate services where it is possible. Some smaller schools could be joined together or closed.	Education	1. The respondent advised that they agree with the proposal.
14074	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Some schools are very small and the savings could be made by closing them and moving them to another building. Some schools could share a building eg like St Thomas and Adziewell primary is a good example on how this can work well. Smaller schools cost a lot per pupil eg woodmuir primary, Bridgford primary etc. Some buildings are in need of huge repairs and the money could be better spent on new facilities for community use. Xcite facilities help many in the community and should be protected especially near areas which have already lost swimming pools.	Education	1. The respondent advised that they agree with the proposal.
14075	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Good idea to close schools with small rolls. Also old council buildings should then be sold on rather than sitting empty and having to pay for security.	Education	1. The respondent advised that they agree with the proposal.
14076	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close the under occupied schools if there are schools in the area that would have space for the children in these schools.	Education	1. The respondent advised that they agree with the proposal.
14077	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes I agree with these changes, almost every area in West Lothian I feel there are too many schools and nurseries, I'm sure moving some things around you could certainly save money, this could be used for some structural items.	Education	1. The respondent advised that they agree with the proposal.
14078	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a- agree	Education	1. The respondent advised that they agree with the proposal.
14079	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No alternative ways agree with the areas you are looking at	Education	1. The respondent advised that they agree with the proposal.
14080	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Smaller schools could be closed but not make primary schools massive as each primary school should be small enough to nurture and protect children. Support for families should develop an early intervention approach which would save the council money in the long term and increase the life chances of children and young people. AsN support should continue as presumption of mainstream can not work without it. ELC provision should be continued but make places more what parents need and not what the council wants them to offer.	Education	1. The respondent advised that they agree with the proposal.
14081	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Only if the money goes to help the people that need it and that the elderly are not the easy target to cut stuff from them. They have paid into the pot and deserve in their retirement to have the help they need.	Education	1. The respondent advised that they agree with the proposal.
14082	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with this in principle but planning permission for the thousands of new builds has to stop to enable schools, doctors etc to be built.	Education	1. The respondent advised that they agree with the proposal.
14083	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Consolidation of services are sometimes required	Education	1. The respondent advised that they agree with the proposal.
14084	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools where the number of children is falling and use the money to provide services for the parts of the population that continue to grow.	Education	1. The respondent advised that they agree with the proposal.
14085	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I am supportive of this, if there isn't going to be a need for them, then we would should consider merging schools and expanding catchment areas.	Education	1. The respondent advised that they agree with the proposal.
14086	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes less schools where not needed	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14087	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools where demand o slowed tos fine but class sizes should be maintained to prevent overcrowding.	Education	1. The respondent advised that they agree with the proposal.
14088	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children are adaptable. My child goes to school out with catchment area that's because the care inspector report is very poor for the school which is literally next to my school.	Education	1. The respondent advised that they agree with the proposal.
14089	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Services should be shaped to meet the demands of the population, but the buildings that close should be retained by the council and either put to public use or cleared (if they are end of life) to build more social housing	Education	1. The respondent advised that they agree with the proposal.
14090	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of schools allows pupils and people from different areas to mix, increasing friendships and awareness of other areas.	Education	1. The respondent advised that they agree with the proposal.
14091	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You should look at the changes but forecasting a fall in school age children? Houses being thrown up for families, and nobody can forecast the number of kids people choose to have	Education	1. The respondent advised that they agree with the proposal.
14092	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Consolidate properties and services in education	Education	1. The respondent advised that they agree with the proposal.
14093	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Whilst the savings and reduction within children and young people projects due to population change makes sense this increase in age and population over 65 whilst acknowledged in the question. There are no actual services being named, suggested or provided for these residents. With a lack of community groups and places to socialise this will have a drastic impact on the NHS as health and wellbeing is impacted.	Education	1. The respondent advised that they agree with the proposal.
14094	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a should happen.	Education	1. The respondent advised that they agree with the proposal.
14095	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Some schools are too small but you should not create huge schools eg Simpson where too many primary children are put in a school and it is very difficult for children with ASN due to the number of children in the lunch hall and playground etc Some smaller schools could be merged as it costs a lot per pupil to run them EIC provision should stay local not every family has a car and public transport is not very good in some areas. Expecting young children to walk far is not progress ASN services in West lothian should be protected and in particular ISS Education as they support many ASN children who struggle in mainstream	Education	1. The respondent advised that they agree with the proposal.
14096	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, the Council should plan and adapt services in response to demographic changes, but this must be done carefully to avoid disadvantaging communities. Reducing unused school capacity or reconfiguring nursery provision makes sense if decisions are based on accurate data and strong local consultation. However, closures should not lead to overcrowding or loss of community identity. As the population ages, investment in preventative health, social care, and accessible community spaces will be vital. A balanced, people - first approach will ensure efficiency without eroding local support networks.	Education	1. The respondent advised that they agree with the proposal.
14097	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	rationalise the school estate	Education	1. The respondent advised that they agree with the proposal.
14098	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Combine schools where the number of children is falling.	Education	1. The respondent advised that they agree with the proposal.
14099	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools such as Woodmuir that have hardly any pupils	Education	1. The respondent advised that they agree with the proposal.
14100	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If schools are small in terms of school roll and alternatives exist nearby - close the school. Especially if it is in a poor state.	Education	1. The respondent advised that they agree with the proposal.
14101	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need to cut our cloth accordingly and if savings can be made to make a more efficient use of our education infrastructure then that 's all well and good. However, there will inevitably be losers in all of this, people who will not get the same service as they currently do, and who will complain bitterly. The council must be able to robustly demonstrate how they have arrived at the solutions they have and ensure that service users are not significantly disadvantaged. Inconvenienced perhaps, but not so disadvantaged as to make them intolerable..	Education	1. The respondent advised that they agree with the proposal.
14102	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Necessary for services to suit actual population. Schools essential for community unless other possibilities nearby so no added transportrequired	Education	1. The respondent advised that they agree with the proposal.
14103	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree in principal but not at the expense of class sizes. There is always much debate about how to reduce the attainment gap and the majority of teachers would agree that the best way would be smaller class sizes and more psw 's to work alongside a teacher so whilst I am in favour of streamlining, this cannot be at the expense of class sizes.	Education	1. The respondent advised that they agree with the proposal.
14104	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Absolutely, though if some people end up having to travel further than they used to for school,then up front consultation is needed.	Education	1. The respondent advised that they agree with the proposal.
14105	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there are low numbers of pupils in any particular schools these may have to close and the children should be sent to a nearby school which could accommodate them. Once again why run a school if it is under its capacity. The old saying is very relevant today: If you don't use it you loose it.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14106	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is not ideal to get transport to school but isolated communities would need to realise the excessive cost of keeping a school open over the cost to transport their children to and from school.	Education	1. The respondent advised that they agree with the proposal.
14107	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Where number of kids is going down see where you can combine schools without increasing walking distances.	Education	1. The respondent advised that they agree with the proposal.
14108	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools where they are half empty	Education	1. The respondent advised that they agree with the proposal.
14109	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools in areas where population is falling.	Education	1. The respondent advised that they agree with the proposal.
14110	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that we need to be more attuned to service demands and plan for future demographic changes. But I also acknowledge we don't have a crystal ball so it will require services to become more fluid in their approach.	Education	1. The respondent advised that they agree with the proposal.
14111	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But in the correct context. Schools in heavily developments should not overrule already established schools. Detrimental to kids already settled.	Education	1. The respondent advised that they agree with the proposal.
14112	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If numbers are dropping for that building and would save costs to combine it is worth considering but only if the numbers are greatly dropping, need to think about people using the service and where they would have to go to - would this be beneficial to the individuals. If combining schools would that put more pressure on the pupils and staff to manage big numbers is a school, more social issues like bullying.	Education	1. The respondent advised that they agree with the proposal.
14113	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Enlarge existing school buildings in in population clusters, improve pathways and mothball smaller schools, using for activities, groups and local community promotions. Steady income achievable.	Education	1. The respondent advised that they agree with the proposal.
14114	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree a school undercapacity and one near makes sense	Education	1. The respondent advised that they agree with the proposal.
14115	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree there is no point having too many opportunities in the wrong area and too few in other areas. but this should this not already have been planned for?	Education	1. The respondent advised that they agree with the proposal.
14116	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Obviously need to change as the population changes	Education	1. The respondent advised that they agree with the proposal.
14117	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Another stupid question, of course a business should respond and react to demographics	Education	1. The respondent advised that they agree with the proposal.
14118	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A careful approach to the review is required, certain areas have increased housing without the availability of schools or medical centres. Also a review of the findings regarding people due to enter schools is needed	Education	1. The respondent advised that they agree with the proposal.
14119	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce schools and school buildings is a start look at alternative ways to deliver school education.	Education	1. The respondent advised that they agree with the proposal.
14120	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I have a 6yo but still wouldn't mind if my wee one's school closed, as long as there is an alternative. It sounds like the savings are substantial.	Education	1. The respondent advised that they agree with the proposal.
14121	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A small cut and let them work smarter with what they have.	Education	1. The respondent advised that they agree with the proposal.
14122	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	services and amenities should correctly reflect the needs of the community	Education	1. The respondent advised that they agree with the proposal.
14123	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is an over supply on schools in the area and looking at what schools are better quality may help with the issue of over quantity. However, there should ALWAYS be access to education available.	Education	1. The respondent advised that they agree with the proposal.
14124	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - Yes do this and young people can socialise in own / other areas in youth clubs as this may effect families / friendships / community	Education	1. The respondent advised that they agree with the proposal.
14125	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	deliver services where there is a demand and reduce or close services where there is limited demand	Education	1. The respondent advised that they agree with the proposal.
14126	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As I stated before while it might be appropriate to close schools where there are other schools nearby that could accommodate the children,	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14127	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to 4a	Education	1. The respondent advised that they agree with the proposal.
14128	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of school buildings seems appropriate if an alternative school is nearby, but this would depend on the alternative school continuing to meet the needs of all pupils eg those with additional support requirements.	Education	1. The respondent advised that they agree with the proposal.
14129	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	any savings should be made with schools	Education	1. The respondent advised that they agree with the proposal.
14130	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cutting expenditure on falling child services to subsidise over 65s and vulnerable people's services is a good way forward	Education	1. The respondent advised that they agree with the proposal.
14131	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cutting back on school facilities makes sense, with the money saved going directly in to services for the over 65s.	Education	1. The respondent advised that they agree with the proposal.
14132	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools with too few pupils need to close. It is totally unreasonable to think otherwise	Education	1. The respondent advised that they agree with the proposal.
14133	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, the Council should respond to demographic change, but it must do so in a balanced and transparent way. It makes sense to review underused schools where numbers are falling. But closures should only happen where neighbouring facilities can absorb pupils without long travel times or loss of community identity	Education	1. The respondent advised that they agree with the proposal.
14134	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again fully support reviews of existing services, no further suggestions at this time.	Education	1. The respondent advised that they agree with the proposal.
14135	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reviewing the placements sounds like the solution	Education	1. The respondent advised that they agree with the proposal.
14136	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Meeting the needs of an ever - changing demographic should be a given regardless of any savings to be made. More efficient and impactful work can be done to support communities / people in need if resource is appropriately allocated and not based upon age - old ways of operating.	Education	1. The respondent advised that they agree with the proposal.
14137	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools that are empty or nearly empty	Education	1. The respondent advised that they agree with the proposal.
14138	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools	Education	1. The respondent advised that they agree with the proposal.
14139	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools where the number of children is falling	Education	1. The respondent advised that they agree with the proposal.
14140	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This seems to be a logical step towards using the buildings appropriately	Education	1. The respondent advised that they agree with the proposal.
14141	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes I do agree with this as west lothian is getting bigger	Education	1. The respondent advised that they agree with the proposal.
14142	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education seems to be an area where savings can be made so this has to be looked into.	Education	1. The respondent advised that they agree with the proposal.
14143	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We have to face reality.	Education	1. The respondent advised that they agree with the proposal.
14144	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all of these	Education	1. The respondent advised that they agree with the proposal.
14145	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but again care must be taken in how this is done.	Education	1. The respondent advised that they agree with the proposal.
14146	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, I agree the Council needs to plan ahead and shape services around the changing population. It makes sense to make sure resources go where they're most needed.	Education	1. The respondent advised that they agree with the proposal.
14147	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No point in schools being empty - better to use the buildings better and reduce costs.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14148	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Follow up the the areas suggested in the survey	Education	1. The respondent advised that they agree with the proposal.
14149	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Realign school catchment areas.	Education	1. The respondent advised that they agree with the proposal.
14150	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with closing some schools but only if they are massively under subscribed, over the next 10 years, the population of school age kids is likely to increase.	Education	1. The respondent advised that they agree with the proposal.
14151	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there is genuine oversupply then this should be looked at, however forcing users to go to another building might negate any savings where it leads to increased bus / travel demand. Renewing the school estate would be great for long - term savings where buildings are in constant disrepair, however aware that that would take many years to complete & cost millions to demolish and rebuild where needed.	Education	1. The respondent advised that they agree with the proposal.
14152	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schooling should be reviewed so that it offers better value for money. For example, smaller schools require the same amount of non - teaching staff that larger schools.	Education	1. The respondent advised that they agree with the proposal.
14153	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with 4a, but not the rest.	Education	1. The respondent advised that they agree with the proposal.
14154	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	as long as transport can be provided	Education	1. The respondent advised that they agree with the proposal.
14155	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Looking at local populations and changing school placements accordingly is common sense. Unfortunately people will never be pleased at this.	Education	1. The respondent advised that they agree with the proposal.
14156	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	merge where possible schools sharing facilities such as swimming pools	Education	1. The respondent advised that they agree with the proposal.
14157	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Merging schools and closing unneeded buildings is a good idea, provided this does not impact negatively on the educational, social and emotional wellbeing and progress of children and young people. It also shouldn't adversely impact families	Education	1. The respondent advised that they agree with the proposal.
14158	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools and transport children in areas that have extremely small numbers and get rid of the buildings.	Education	1. The respondent advised that they agree with the proposal.
14159	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A review is badly needed in the Education space especially in respect to the number of schools and over supply.	Education	1. The respondent advised that they agree with the proposal.
14160	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools, employ fewer teachers, use the money where it is needed to support an aging population.	Education	1. The respondent advised that they agree with the proposal.
14161	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that merging very small schools with bigger ones in their community would be beneficial from a cost perspective but also to give pupils a better experience, access to a wider group of friends and different opportunities.	Education	1. The respondent advised that they agree with the proposal.
14162	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Combine schools where the number of children is falling.	Education	1. The respondent advised that they agree with the proposal.
14163	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I've answered "yes" to this but but only if the council can afford to do so.	Education	1. The respondent advised that they agree with the proposal.
14164	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree we do not need as many schools if we have less children. We also need fewer teachers.	Education	1. The respondent advised that they agree with the proposal.
14165	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If the figures and forecast is correct then yes as we need to put more money into Older Adults services as there is a huge need for this	Education	1. The respondent advised that they agree with the proposal.
14166	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Can smaller schools be merged with the closest school then bus pupils to these. Briech / Longridge primaries as an example - small schools close by. Merging would help with staff costs / facility & maintenance costs.	Education	1. The respondent advised that they agree with the proposal.
14167	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there is an oversupply of schools, then the council definitely needs to look at closing some down.	Education	1. The respondent advised that they agree with the proposal.
14168	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Running lots of small schools in small towns / villages is surely not sustainable. It would make more sense to close half - filled schools and accommodate the children nearby, thus creating one larger establishment. Transport could be provided to the nearest school and this would surely be cheaper than staffing / resourcing / maintaining half empty buildings. I understand that I'm not affected by this decision and maybe would think differently if I had a child attending a village school, but common - sense dictates that we can't afford to continue with the way things are at present.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14169	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Very small schools to not aid good attainment. They should be closed	Education	1. The respondent advised that they agree with the proposal.
14170	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close small schools and relocate pupils to nearest with capacity	Education	1. The respondent advised that they agree with the proposal.
14171	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools where not needed	Education	1. The respondent advised that they agree with the proposal.
14172	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Many of the schools are underused and many of these buildings are older and inefficient. it makes little sense to allocate funds to keep surplus buildings in use. Rationalization will also help improve the learning experience through concentrating teaching resources in fewer buildings.	Education	1. The respondent advised that they agree with the proposal.
14173	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Should respond to demographic change and makes cuts where possible.	Education	1. The respondent advised that they agree with the proposal.
14174	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce the number of smaller schools, make some schools 'hubs' with larger capacities that are in key areas	Education	1. The respondent advised that they agree with the proposal.
14175	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would be on board with less schools & less nurseries.	Education	1. The respondent advised that they agree with the proposal.
14176	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Please consider removal of denominational schools if they have a low school roll alongside merging / closing non denominational schools. There should be no specific provision for denominational schools if overall numbers are insufficient to support this specialist provision in an area	Education	1. The respondent advised that they agree with the proposal.
14177	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It should prioritise the elderly instead of just expecting them to pay for the younger generation. Remember, the people of pensionable age have likely contributed to the economy and should be rewarded, not expected to fund services those who haven't contributed.	Education	1. The respondent advised that they agree with the proposal.
14178	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A reduction in the number of schools should be carefully considered to ensure that the facilities that remain provide the best learning environment for children and continue to be sufficient to cater for those with special education needs, whilst reflecting demographic change. Developer contributions secured by planning obligations should be kept under review.	Education	1. The respondent advised that they agree with the proposal.
14179	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Changing population needs to be addressed. In Armadale there are proposed future newbuilds, where are these children going to get schooling.	Education	1. The respondent advised that they agree with the proposal.
14180	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think using school buildings for other purposes rather closing is preferable but £3.4 million is a substantial saving. I would argue that at primary level, the noise levels especially in the open plan schools, distracts a lot of learners.	Education	1. The respondent advised that they agree with the proposal.
14181	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Rationalising schools is a good idea even if unpopular in some areas.	Education	1. The respondent advised that they agree with the proposal.
14182	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree fully with points 4 A	Education	1. The respondent advised that they agree with the proposal.
14183	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As stated before in previous comments. Stop wasting money	Education	1. The respondent advised that they agree with the proposal.
14184	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Please ensure that public transport is available if you are closing down schools.	Education	1. The respondent advised that they agree with the proposal.
14185	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All items proposed make sense.	Education	1. The respondent advised that they agree with the proposal.
14186	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Review schools but only if kids able to reasonably attend another school close by	Education	1. The respondent advised that they agree with the proposal.
14187	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce the number of nurseries to around 50 each over a five year period. Council tax payers will understand this change due to the falling demand you have outlined. This could provide a significant part of your funding gap	Education	1. The respondent advised that they agree with the proposal.
14188	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce the number of primary schools to around 50 each over a five year period. Council tax payers will understand this change due to the falling demand you have outlined. This could provide a significant part of your funding gap	Education	1. The respondent advised that they agree with the proposal.
14189	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You have said that the demand for nursery and primary school places is expected to fall, particularly in areas with little new build homes - therefore, I suggest you reduce the number of nurseries and primary schools. I suggest you reduce the number of nurseries and primary schools to a target of 50 each, over a 5 year period. This will have significant savings and will be understood by council tax payers, by using the data you have.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14190	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing small schools	Education	1. The respondent advised that they agree with the proposal.
14191	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Since babies are being born at an all time low we might have to make less primary schools because what is the point of making lots of schools and stuff if it is not gonna be used when we can spend this money for more useful uses like helping people in poverty and helping the elderly.	Education	1. The respondent advised that they agree with the proposal.
14192	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Since babies in West Lothian are a coming in at an all time low the need for primary is not as needed then in the past so we should cut down some budget for schools in smaller area to save budget for other things such as helping people in poverty	Education	1. The respondent advised that they agree with the proposal.
14193	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduction in demand for primary school places as birth rate continues to fall plus amalgamation of primary schools where numbers are significantly below maximum capacity.	Education	1. The respondent advised that they agree with the proposal.
14194	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools that aren't used	Education	1. The respondent advised that they agree with the proposal.
14195	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, look into making savings as per the councils detailed suggestions.	Education	1. The respondent advised that they agree with the proposal.
14196	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree.	Education	1. The respondent advised that they agree with the proposal.
14197	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to all these suggestions.	Education	1. The respondent advised that they agree with the proposal.
14198	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, review all these services as you have suggested, and make savings where possible.	Education	1. The respondent advised that they agree with the proposal.
14199	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree to reducing schools where the number of children is going down.	Education	1. The respondent advised that they agree with the proposal.
14200	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Merge under occupied schools together if in same catchment area.	Education	1. The respondent advised that they agree with the proposal.
14201	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, if people are not suffering from it, e. g., school / nursery bus is provided, if any school or nursery is closed.	Education	1. The respondent advised that they agree with the proposal.
14202	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - Yes - same as review of other buildings. If under utilised and demographic isnt going to change then this would be an obvious approach.	Education	1. The respondent advised that they agree with the proposal.
14203	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there isn't enough pupils for a school then by all means close the school but the open schools need more support in all areas	Education	1. The respondent advised that they agree with the proposal.
14204	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand	Education	1. The respondent advised that they agree with the proposal.
14205	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there truly is a situation where the school estate is surplus to need then reducing the number of schools if it can save money if there is an absolute guarantee that children's education will not be affected, ok	Education	1. The respondent advised that they agree with the proposal.
14206	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative.	Education	1. The respondent advised that they agree with the proposal.
14207	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Partly agree with some of this, schools in areas that are not necessarily does not make sense however children need to be supported to get to schools that are maybe a bit farther away especially if they are living in low income households.	Education	1. The respondent advised that they agree with the proposal.
14208	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there is not enough demand for schools and there are appropriate alternatives.	Education	1. The respondent advised that they agree with the proposal.
14209	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Tailor the facilities to meet demand makes sense we should be responding to our communities.	Education	1. The respondent advised that they agree with the proposal.
14210	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools, if there is another close by, that can cope with the amount of children in the local area, should the number of children drop in West Lothian.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14211	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reviewing schools spaces makes complete sense, but would need careful planning and notification to parents / carers. It does not make sense for a setting to be running below capacity and overstaffed. However, the BENH means we need staff ratios to be clear and consistent. Placing requests mean schools have children from outwith catchment and are often in a position of refusing catchment spaces. Having clearly defined catchment schools where pupils are placed would mean strategic planning at whole council levels could be considered and reviewing which settings could be closed. This would be a benefit to the council and the community.	Education	1. The respondent advised that they agree with the proposal.
14212	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should be filled regardless of location. Children have free bus travel and many parents drive. So putting families to school out with catchment in order to fill up other schools should be done.	Education	1. The respondent advised that they agree with the proposal.
14213	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - as well as looking at closing existing schools where rolls are falling and there are alternative schools available, look at diverting residential development to areas where this is happening thereby maximising use of existing resources rather than continually building new.	Education	1. The respondent advised that they agree with the proposal.
14214	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with this, not sure why we need so many primary schools in Linlithgow with at least 2 running at 60 % capacity or less. Eiter build mor homes or cut	Education	1. The respondent advised that they agree with the proposal.
14215	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A reviews of the school estate and catchments to make sure it 's efficient would be welcomed. Money needs to be targeted towards supporting pupils to achieve their best, rather than keep schools open just for sake of it.	Education	1. The respondent advised that they agree with the proposal.
14216	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	yeah i agree.	Education	1. The respondent advised that they agree with the proposal.
14217	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Whilst it is always sad to shut schools, if there are a large number of small schools it makes more sense to consider centralising this provision as it would be much more efficient especially in terms of staffing ratios due to small classes, and SLT in small schools. It would prevent limited budgets being stretched across lots of schools and would hopefully mean those not closed would be able to provide better overall provision.	Education	1. The respondent advised that they agree with the proposal.
14218	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close the schools where there is an over supply. Saving of 3. 4million is not a drop in the ocean! Do not know how the teachers and staff would be redeployed though - opening up a voluntary redundancy books would no doubt attract a lot of applications.	Education	1. The respondent advised that they agree with the proposal.
14219	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	need to shut empty schools so you can spend money looking after the rest.	Education	1. The respondent advised that they agree with the proposal.
14220	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Within reason. Taking away a PS or HS due to lack of numbers is a great money saving idea but only if a replacement facility is added depending on town needs.	Education	1. The respondent advised that they agree with the proposal.
14221	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think reducing the number of school buildings where the school roll is falling makes sense	Education	1. The respondent advised that they agree with the proposal.
14222	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closure of smaller schools	Education	1. The respondent advised that they agree with the proposal.
14223	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close small schools with a very small school roll such as Bridgend.	Education	1. The respondent advised that they agree with the proposal.
14224	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree reviewing school accommodation if there is overcapacity	Education	1. The respondent advised that they agree with the proposal.
14225	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If the council / country is so strapped then it makes perfect sense to look at amalgamating schools where feasible. The rise in over 65s is alarming. my mother is in Holmes Gardens in Broxburn, it has been such a godsend knowing that she is safe and looked after by people who care. There should be more places like this, especially given the forecasted rise in older people.	Education	1. The respondent advised that they agree with the proposal.
14226	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Work quickly to achieve 4 (a) Don 't be saying one same thing in 36 months time.	Education	1. The respondent advised that they agree with the proposal.
14227	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with these points.	Education	1. The respondent advised that they agree with the proposal.
14228	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The school estate has to be reviewed to ensure schools are where they are needed. Questions have to be asked about the viability of schools in Winchburgh when you are considering sending children from East Calder there when there are schools that are closer. More housing is being built where there is insufficient capacity at primary schools but the primary schools are not being built in time for the population moving in. If the developers are at fault then it's time better legal agreements are put in place.	Education	1. The respondent advised that they agree with the proposal.
14229	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I understand school and nurseries may need to close but proper consultation etc of catchment areas is important and over subscribing schools must be avoided	Education	1. The respondent advised that they agree with the proposal.
14230	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographics shift slowly but predictably and inevitably, and it makes sense to adapt services and costs in line with those	Education	1. The respondent advised that they agree with the proposal.
14231	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing provision where population is dropping and increasing provision where population is growing makes sense. However, watch that cuts do not lead to increased costs later.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14232	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Definitely need to look at closing under utilised facilities	Education	1. The respondent advised that they agree with the proposal.
14233	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, look at the areas of demand and areas where demand is falling and restructure, but make sure to take into account that you will need to provide transportation for schools which are further away	Education	1. The respondent advised that they agree with the proposal.
14234	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is a difficult choice as closing certain schools and nurseries forces people to find the means to travel further making it difficult to attend on time and add cost but if the correct choices are made and fairly for all it is worthwhile.	Education	1. The respondent advised that they agree with the proposal.
14235	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The new built areas e. g. East Calder & Winchburgh have new schools, and if possible children from other close by areas could be integrated into tehse buildings letting go of old buildings where I am sure costs would be higher for upkeep of older buildings	Education	1. The respondent advised that they agree with the proposal.
14236	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with the principle that resources should be directed where demand is highest, especially as West Lothian's population continues to grow and age. It makes sense to reduce school buildings where there is clear evidence of oversupply, provided that pupils can still access quality education locally.	Education	1. The respondent advised that they agree with the proposal.
14237	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing a school makes sense. The problem, with a additional closure is that west lothian is significantly split by distance and geography. I would push for the closure of central facilities, replaced with buses to support child mobility.	Education	1. The respondent advised that they agree with the proposal.
14238	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If demographics reflect less need then I do agree with proposals	Education	1. The respondent advised that they agree with the proposal.
14239	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I am not sure if you are aware of this but in fort William due to a few reasons the joined three schools into one. Which created the opportunity to reuse old school areas for more community based activities and reconstruction for more houses. I am not necessarily saying that those are the things you should do but it could help the kids as well, the kids are able to create more friends and get to know each other before meeting in high school.	Education	1. The respondent advised that they agree with the proposal.
14240	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think this could be acceptable, if the council helps with the transport, e. g., school buses.	Education	1. The respondent advised that they agree with the proposal.
14241	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It's not an area I have involvement in professionally but it would seem logical to review and implement change if the financial consequences are meaningful.	Education	1. The respondent advised that they agree with the proposal.
14242	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The Council should use data - driven planning to match services with population trends — expanding support for older residents while right - sizing schools and nurseries where demand falls. Where closures are needed, buildings could be repurposed for community or care use rather than sold off. Investment in preventative health and social care would reduce long - term costs by supporting independence for older people.	Education	1. The respondent advised that they agree with the proposal.
14243	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes close schools that aren't needed. Bus kids to the next closest school	Education	1. The respondent advised that they agree with the proposal.
14244	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	What is the point in keeping a school / nurseury open for 12 kids all at different ages if there is another school less than 5 to 10 miles away?	Education	1. The respondent advised that they agree with the proposal.
14245	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reviewing capacity for school provisions is beneficial	Education	1. The respondent advised that they agree with the proposal.
14246	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	definitely reduce number of schools, massive saving easy to make	Education	1. The respondent advised that they agree with the proposal.
14247	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If you need to close schools though teachers should be located to other schools in the area.	Education	1. The respondent advised that they agree with the proposal.
14248	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing schools / other council buildings that are under used should be closed and sold off.	Education	1. The respondent advised that they agree with the proposal.
14249	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes many school catchment areas are ignored by parents and children are often sent to a school of choice rather than the one for the catchment area. This should stop. If families move house then they should accept part of the deal is the kids move school regardless of what stage they are at. All schools deliver the same curriculum so what's the problem.	Education	1. The respondent advised that they agree with the proposal.
14250	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - agree. why should be keep schools with hardly any pupils in them open	Education	1. The respondent advised that they agree with the proposal.
14251	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with all the savings in this section	Education	1. The respondent advised that they agree with the proposal.
14252	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree.	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14253	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but the more houses built will stagnate the situation and simply continue to add to the problems,	Education	1. The respondent advised that they agree with the proposal.
14254	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools	Education	1. The respondent advised that they agree with the proposal.
14255	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	if schools are not going to be full they should close some	Education	1. The respondent advised that they agree with the proposal.
14256	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	These are the areas where you should do some maths and adjust - schools where they are needed... and make sure they are well connected so kids can actually go to school.	Education	1. The respondent advised that they agree with the proposal.
14257	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think the ideas of schools is better. Old buildings should be sold off for revenue and make use of the new schools.	Education	1. The respondent advised that they agree with the proposal.
14258	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I feel with an ever increasing ageing population it makes sense to reduce expenditure in education facilities and transfer money into ensuring we help maintain older people in their own homes and in their own communities for as long as possible.	Education	1. The respondent advised that they agree with the proposal.
14259	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree in principle, but please consider where new housing will be built before closing or amalgamating schools	Education	1. The respondent advised that they agree with the proposal.
14260	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	looking at ways to combine schools, nurseries if they are not being fully utilised and costing the council unnecessary costs I can see why this is being considered but how far does customers need to travel to access these new combined facilities - is there transport to get there, is it safe to walk etc - I feel this needs very careful consideration.	Education	1. The respondent advised that they agree with the proposal.
14261	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to all these proposals.	Education	1. The respondent advised that they agree with the proposal.
14262	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as there is not overcrowding in schools this is fine	Education	1. The respondent advised that they agree with the proposal.
14263	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools running at half Capacity makes no sense.	Education	1. The respondent advised that they agree with the proposal.
14264	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This should be a given. Also need to look at reasons why population is increasing.	Education	1. The respondent advised that they agree with the proposal.
14265	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Definitely review school provision. There is too much of a bias towards children in West Lothian to the detriment of the elderly.	Education	1. The respondent advised that they agree with the proposal.
14266	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council quite simply has to flex with our change in demographic. What was required 20 years ago is vastly different from our current need. It ultimately and should not be forgotten is tax payers money no matter which pot it comes from	Education	1. The respondent advised that they agree with the proposal.
14267	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce number of schools.	Education	1. The respondent advised that they agree with the proposal.
14268	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think the number of schools could be reduced due to lack of demand in certain area 's, you could also create development opportunities by taking on volunteers to support some services in exchange for training	Education	1. The respondent advised that they agree with the proposal.
14269	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with council proposals.	Education	1. The respondent advised that they agree with the proposal.
14270	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closure of underused schools makes sense as long as the costs of transporting pupils elsewhere are reasonable	Education	1. The respondent advised that they agree with the proposal.
14271	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as it is easily accessible. You don't want to reduce number of schools whilst increasing the cost of transporting pupils to school.	Education	1. The respondent advised that they agree with the proposal.
14272	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close school 's which are old and too expensive to run. Children could travel to newer school 's which will benefit them and the school roll.	Education	1. The respondent advised that they agree with the proposal.
14273	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In saying yes, the council also needs to address shortages. In Blackridge we are seeing a large growth in homes and with it the need to increase the size of our primary school and health facilities, but I see no information that this is happening. It means therefore a shortage of primary school places and an increased demand for doctors appointments which already take days or weeks increasing.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14274	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The savings in reduced school buildings is to very welcomed as the costs cannot be justified. Savings should gr directed to keeping community centres and libraries ppen	Education	1. The respondent advised that they agree with the proposal.
14275	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a is the key @ 3. 4 million	Education	1. The respondent advised that they agree with the proposal.
14276	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Look at segregation within school particularly in more rural areas or shared campuses	Education	1. The respondent advised that they agree with the proposal.
14277	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Review school buildings to reduce under capacity	Education	1. The respondent advised that they agree with the proposal.
14278	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	1. As previously suggested reducing the number of nurseries and primary school to 50 each, this should provide a large saving in building cost. 2. Reduce the number of libraries, from the current 14 to 7. This should provide a significant saving on both staff and building costs.	Education	1. The respondent advised that they agree with the proposal.
14279	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Could schooling be amalgamated in some way?	Education	1. The respondent advised that they agree with the proposal.
14280	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Services should adapt to demographic change while protecting access, community identity, and vulnerable groups School rationalisation should only happen where capacity clearly exceeds demand Early family intervention is essential to prevent more costly crisis support in the future	Education	1. The respondent advised that they agree with the proposal.
14281	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Malgamate schools where appropriate.	Education	1. The respondent advised that they agree with the proposal.
14282	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes demographic changes should be considered but this should be appropriately costed before any school closures or other public buildings are closed. The recent community centre / village hall asset transfer exercise has shown that the council is unwilling to listen to the public nor properly cost out and budget for major projects.	Education	1. The respondent advised that they agree with the proposal.
14283	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Of course the demographic should be considered however this should be done very carefully as some areas of west lothian are not adequately serviced with schools etc.	Education	1. The respondent advised that they agree with the proposal.
14284	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If schools have to close ensure that the funds earmarked for these schools are given to the remaining schools.	Education	1. The respondent advised that they agree with the proposal.
14285	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But not at the expense of destroying communities by closing community centres, facilities and schools which will isolate people.	Education	1. The respondent advised that they agree with the proposal.
14286	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Streamline schools - keeping the same number of staff but reducing the number of buildings gives better outcomes for children and saves money. Old estate is falling apart and needs investment for long term. Review facilities management in schools - covering many schools means less maintenance is completed (e.g. minor repair work). Most schools are empty by 6pm due to restrictions on community groups / lets so why have FMA on until 9pm every night?!	Education	1. The respondent advised that they agree with the proposal.
14287	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Where schools could be amalgamated due to low population, could buildings be adapted to providing provision for elderly instead of buildings being left to vandalism and being under utilised	Education	1. The respondent advised that they agree with the proposal.
14288	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But only if properly researched and forecast. No closing buildings one year then having to reopen or rebuild them 2years later due to poor planning.	Education	1. The respondent advised that they agree with the proposal.
14289	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do agree that if the forecast shows a lower demand in places for primary schools in areas, that provisions should be considered, however i feel there must still be a provision within each community. Can building be repurposed to meet the gaps to support the 65 +. This would require an investment rather than buildings being left, get run down or vandalised	Education	1. The respondent advised that they agree with the proposal.
14290	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As already outlined - savings in reduction for nursery places and primary schools places, including a Malaga Marion of schools with falling numbers - savings diverted to meet the growing need for services to pensionable persons	Education	1. The respondent advised that they agree with the proposal.
14291	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Combine smaller schools. Eg In Addiewell and Stoneyburn there are 4 primary schools and 2 nursery classes. Is there really a need for this? If they were all in one campus or even 2, then there would be less energy being used, less staff needed (eg Principal Teachers, cleaners, dinner ladies)	Education	1. The respondent advised that they agree with the proposal.
14292	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School places where possible restricted to catchment pupils - pupils will all be within walking distance Nursery attendance times / day should be reviewed At present more like a drop in centre again lack of parent responsibility Nursery should start at 3 year old Nursery places should be removed when pupils are in non attendance Parents should provide all suitable clothing for pupils - nursery and school - ie waterproof clothing	Education	1. The respondent advised that they agree with the proposal.
14293	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All school services provided only where required and in line with the changing population including care services and vehicles.	Education	1. The respondent advised that they agree with the proposal.
14294	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14295	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Service design - If you can forecast demand. You have the data now to begin to design services to meet customer demand. If roadmap showing change in population age over time council actions to meet demands during change	Education	1. The respondent advised that they agree with the proposal.
14296	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, close smaller schools, we just can't afford them.	Education	1. The respondent advised that they agree with the proposal.
14297	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make sure they are in appropriate places and buildings are repurposed properly, don't just leave them to be destroyed by the public. Some will cost money to dismantle due to the historical use of asbestos	Education	1. The respondent advised that they agree with the proposal.
14298	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree all.	Education	1. The respondent advised that they agree with the proposal.
14299	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You should explore all of these options.	Education	1. The respondent advised that they agree with the proposal.
14300	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, agree to all these. Also a suggestion - cut number of teachers if number of children falls. Maintain quality and current ratios, but make a massive saving. Decisions should be made for residents not staff.	Education	1. The respondent advised that they agree with the proposal.
14301	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Definitely 4a	Education	1. The respondent advised that they agree with the proposal.
14302	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ensuring services are targeted at the changing demographics.	Education	1. The respondent advised that they agree with the proposal.
14303	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Look at the roll number forecast and mothball facilities as necessary	Education	1. The respondent advised that they agree with the proposal.
14304	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes it has to change, if the area is becoming older then those services need to be increased, maybe looks at the catchment areas for children schools	Education	1. The respondent advised that they agree with the proposal.
14305	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Explore all of these.	Education	1. The respondent advised that they agree with the proposal.
14306	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes close extra schools	Education	1. The respondent advised that they agree with the proposal.
14307	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with all.	Education	1. The respondent advised that they agree with the proposal.
14308	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with all of these as possible sources of savings.	Education	1. The respondent advised that they agree with the proposal.
14309	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there are not as many children being born then there is no point building massive schools if there is no body to fill them.	Education	1. The respondent advised that they agree with the proposal.
14310	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, the Council should absolutely respond to demographic change and shape services around the local population. As communities evolve—whether through aging populations, migration, or shifts in socioeconomic status—public services must adapt to remain relevant, inclusive, and effective. Tailoring services to reflect local needs ensures better resource allocation, improves outcomes, and fosters trust between the Council and its residents. Ignoring demographic shifts risks inefficiencies and unmet needs, while proactive planning supports long - term sustainability and positive community growth.	Education	1. The respondent advised that they agree with the proposal.
14311	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Clump pupils altogether would reduce teachers, buildings but increase transport as pupils would have to be transported to other schools if outwith distance.	Education	1. The respondent advised that they agree with the proposal.
14312	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, services should respond to demographic change, but any changes must consider the needs of vulnerable people, including those I support in employment services. Reducing facilities or services without ensuring accessible alternatives could increase isolation and mental - health risks. Planning should focus on maintaining quality, inclusive services, with targeted support for older people, families, and those with additional needs, so no one is left behind as population patterns change.	Education	1. The respondent advised that they agree with the proposal.
14313	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do think that looking at the structure of some school would be possible. But in order to facilitate this then school transport for the most rural children needs looked into.	Education	1. The respondent advised that they agree with the proposal.
14314	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There are loads of schools in Dedridge and this is not necessarily needed. Shutting down Dedridge PS but keeping the community wing, with those students going to Bankton and Williamson would give significant saves, provide a large space for more housing and reduce child danger on that stretch of road. This may allow you build schools elsewhere that need it.	Education	1. The respondent advised that they agree with the proposal.
14315	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Good idea to close some of the smaller schools where there are other schools close by, making sure to only close schools where the alternative isn't too far away.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14316	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that the Council needs to plan for changes in population, but it's important this is done carefully so that no community is left behind. Closing or merging schools should be a last resort and only considered where pupil numbers are genuinely too low to sustain quality education. Any changes should include full consultation with parents and local residents.	Education	1. The respondent advised that they agree with the proposal.
14317	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes all these things should be done as I'm sure they have been done reviewed and amended in the past. Facilities must change as the housing and population change, and where the population hot spots are.	Education	1. The respondent advised that they agree with the proposal.
14318	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with the recommendations suggested.	Education	1. The respondent advised that they agree with the proposal.
14319	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to 4a	Education	1. The respondent advised that they agree with the proposal.
14320	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to restructuring of school buildings as some school rolls are small and some buildings are not fit for purpose. Merging schools into one building where repairs would be costly.	Education	1. The respondent advised that they agree with the proposal.
14321	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Amalgamate schools where need be.	Education	1. The respondent advised that they agree with the proposal.
14322	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	look at matching school to the school roles and reduce buildings where there is no need. Kids would not want to learn in schools where they are getting very little interaction with other children.	Education	1. The respondent advised that they agree with the proposal.
14323	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as it's not detrimental to the community	Education	1. The respondent advised that they agree with the proposal.
14324	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You should stop building more schools like the new ones in winchburgh they are unneeded	Education	1. The respondent advised that they agree with the proposal.
14325	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The review of school buildings is sensible provided the provision of a safe transport service is provided for all pupils who may need to move to another school.	Education	1. The respondent advised that they agree with the proposal.
14326	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools that are empty. What kids want to attend an half empty schools?	Education	1. The respondent advised that they agree with the proposal.
14327	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools and education are always a difficult area but the demand needs to be realistic. Having multiple schools in one area or Primary and Secondary separated means you have multiple building costs and maintenance.	Education	1. The respondent advised that they agree with the proposal.
14328	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, I agree with this.	Education	1. The respondent advised that they agree with the proposal.
14329	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If less children less service need. More older people services got them	Education	1. The respondent advised that they agree with the proposal.
14330	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You've already reviewed nursery capacity with a number of closures. It is important to maintain a link between nursery and school. If schools are under filled then of course review whether this can be met differently but be sure to future proof that plan. Which areas are likely to experience increased housing or what is the prediction for future places to be filled. How do you support the ageing population? It seems this is where the need for community spaces will be key.	Education	1. The respondent advised that they agree with the proposal.
14331	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reviewing school provision is sensible but remember to take into account that parents may not have access to a car and therefore walking distances for the catchment area need to be considered.	Education	1. The respondent advised that they agree with the proposal.
14332	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree in principle that we need to respond to demographic change. however we need to think ahead and plan for the future (as opposed to making decisions based on the present)	Education	1. The respondent advised that they agree with the proposal.
14333	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School changes are inevitable	Education	1. The respondent advised that they agree with the proposal.
14334	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This will all be fine	Education	1. The respondent advised that they agree with the proposal.
14335	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there are suitable schools in a reasonable radius from home, and a safe way of getting to and from them, this is worth considering. Would the £3.4 million be spent on improving the remaining schools and young people's services? If yes, I'd be in favour.	Education	1. The respondent advised that they agree with the proposal.
14336	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes re reduction in schools and other proposals	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14337	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It sounds sad but I guess they have to do it.	Education	1. The respondent advised that they agree with the proposal.
14338	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as transport is provided for children	Education	1. The respondent advised that they agree with the proposal.
14339	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as there are enough school places I don't think this would be a problem. You need to factor in the costs of busing people to school though and work out any other impacts on vulnerable people with an impact assessment. I wonder if you did one of these for the swimming pools actually.	Education	1. The respondent advised that they agree with the proposal.
14340	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think this is already happening. I agree with this in general but I think the practicality could be difficult. i.e parents and carers with disabilities may have difficulty getting to schools further away.	Education	1. The respondent advised that they agree with the proposal.
14341	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	My answer to this question is 'yes' but I'm not enthralled by the proposed options. (4a) I don't know how much space is available in any particular school, but I suspect that it's at a premium. If Scots are seriously interested in co-operating with Europe, economically and culturally, we should encourage young people to learn at least one additional language, and this is only effective in small classes. To promote (Scottish) Gaelic also calls for this. Travel distances from schools is also a factor. Not only would transport costs increase, but also the administration cost, and also the potential stresses on pupils from not being able to attend their preferred school.	Education	1. The respondent advised that they agree with the proposal.
14342	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Everything needs to be cost effective. Hiring teachers for too few pupils is not efficient.	Education	1. The respondent advised that they agree with the proposal.
14343	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree reductions in areas where there is no requirements, however these demographics could constantly change with movements of people so not sure how achievable this would be	Education	1. The respondent advised that they agree with the proposal.
14344	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If schools are not running to capacity then can this not be addressed?	Education	1. The respondent advised that they agree with the proposal.
14345	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If buildings aren't getting used, no point in having them.	Education	1. The respondent advised that they agree with the proposal.
14346	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Okay with these.	Education	1. The respondent advised that they agree with the proposal.
14347	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As per 4a,	Education	1. The respondent advised that they agree with the proposal.
14348	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop building new schools nurseries	Education	1. The respondent advised that they agree with the proposal.
14349	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes Older adults need more services. Schools should double up.	Education	1. The respondent advised that they agree with the proposal.
14350	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing provision is OK as long as there's no one suffering or losing out.	Education	1. The respondent advised that they agree with the proposal.
14351	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Streamlining schools would be a good idea - less schools could mean better resources for the ones in use.	Education	1. The respondent advised that they agree with the proposal.
14352	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with points 4a, 4b and 4c. - Got to make sure older people are cared for. Services already cut to the bone. - Schools should be doubled up e.g. (Seafeld and Blackburn or Dechmont and Broxburn / Bathgate)	Education	1. The respondent advised that they agree with the proposal.
14353	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - Where community demand and community agreement is sought and obtained then rationalised of the school estate should be considered	Education	1. The respondent advised that they agree with the proposal.
14354	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Numbers have got to move with the population growth in different areas.	Education	1. The respondent advised that they agree with the proposal.
14355	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again, education counting for more than 50 % of council spend suggests it is the biggest player and has the potential for the biggest impact. I accept it is a statutory requirement and one that can be very political. That said, the bigger the operation the more likely efficiencies can be made.	Education	1. The respondent advised that they agree with the proposal.
14356	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that if there are too many schools in one area then reducing the number could make a significant saving but in areas where demand is high due to house building new schools need to be considered as part of the development when this is at the planning stage as there should be places available for each child within their area without the need to travel.	Education	1. The respondent advised that they agree with the proposal.
14357	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but carefully. Any change cannot come at a significant disadvantage to children and young people. We live in a society that already demonises young people and does not provide adequate support for young people. If we do not provide for young people then we will continue to face more difficulties. If we focus too much on the ageing population we run the risk of social services missing children who are at risk.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14358	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce number of empty places in particular schools by combining. Ensure vital pupils are allocated schools that are in bus rides or walking distance.	Education	1. The respondent advised that they agree with the proposal.
14359	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Good to look at the demands of the area and focus on prevention in those areas to ensure you can then save money	Education	1. The respondent advised that they agree with the proposal.
14360	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	So long as good quality education is provided - and transport for those pupils who lose access to the school that has been closed - it makes sense to make the best use of the space available, according to the actual and forecast demographics. Can developers be charged more for building, to help ease the pressures? Can the council ensure that planning agreements are actually enforceable?	Education	1. The respondent advised that they agree with the proposal.
14361	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to exploring all these options.	Education	1. The respondent advised that they agree with the proposal.
14362	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If any school is not running at full or nearly full capacity then the school should be considered for closure. Children having to travel a bit further to get to a school is not a barrier to parents responsibilities to getting their children to school.	Education	1. The respondent advised that they agree with the proposal.
14363	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools where they are empty	Education	1. The respondent advised that they agree with the proposal.
14364	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a) No Brainer, notwithstanding comments in section 1. ie the saving in 4a) could more travel support any incurred transport costs raised by catchment area increases.	Education	1. The respondent advised that they agree with the proposal.
14365	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes I agree that very small schools could be closed as long as children can get to a school close by.	Education	1. The respondent advised that they agree with the proposal.
14366	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, I agree with all of these. I think a better quality education could be provided, and children 's horizon 's broadened, by closing very small schools with only one or two classes.	Education	1. The respondent advised that they agree with the proposal.
14367	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council is overrun already. They need to adapt to capacity changes.	Education	1. The respondent advised that they agree with the proposal.
14368	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't know much about this specifically but you need to respond to demographic changes.	Education	1. The respondent advised that they agree with the proposal.
14369	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that there has to be a review of schools and services to respond the demographic change although if there are an oversubscribed in some places would it be better to transfer some kids to the under subscribed schools rather than closing them and then having to reopen them if demographics change in other areas. School buildings may also be a hub / meeting place for other activities and it could have a wider impact in these other communities.	Education	1. The respondent advised that they agree with the proposal.
14370	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shut down schools that are not needed Not build as many houses	Education	1. The respondent advised that they agree with the proposal.
14371	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shut down schools with not a lot of children and move them to schools with more space if they are close.	Education	1. The respondent advised that they agree with the proposal.
14372	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	To move children from some schools to sell the old school and make more money saving like half the money you would spend on the school	Education	1. The respondent advised that they agree with the proposal.
14373	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Getting rid of one small school and adding more onto another school Make good use of them by using a room for a type of facilities	Education	1. The respondent advised that they agree with the proposal.
14374	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Putting schools together that have small numbers The council could reduce the amount of smaller schools that don't have a lot of children in them	Education	1. The respondent advised that they agree with the proposal.
14375	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Two schools made into one if there is enough space for the children.	Education	1. The respondent advised that they agree with the proposal.
14376	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools that are half empty	Education	1. The respondent advised that they agree with the proposal.
14377	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think that some facilities would benefit from staying open but some would be better if they were to close which as nursery's or school should be lowered to a smaller amount as less children are being born in West Lothian anyways	Education	1. The respondent advised that they agree with the proposal.
14378	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, all these examples should be explored. As well as reducing the number of schools, can we also reduce the number of teachers to match pupil numbers, keeping the same ratio? Can we please call out the insane idea of building an unnecessary secondary school in East Calder for what it is - ignorance or opportunism, neither of which should have any place in our political leadership.	Education	1. The respondent advised that they agree with the proposal.

14379	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to: 4a - within reason	Education	1. The respondent advised that they agree with the proposal.
14380	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to: 4a - within reason	Education	1. The respondent advised that they agree with the proposal.
14381	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Instead of baby materials then make clubs for older people and more elderly homes Get rid of schools and nurseries if there are not needed. Spending less on community centres, nurseries and senior centre. Slowly add more facilities May you can make a club for old people with board games and books to help them to spend time with their new friends it can be only 2 pound to enter Council can look at nursery places in the most busy places and put nurseries sin the most busy places not the quiet	Education	1. The respondent advised that they agree with the proposal.
14382	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make sure all spaces in schools are taken Smaller schools to go Check families are using nursery spaces Close some nursery schools to meet the numbers needed. Join schools as long as transport is available with local buses and young scot card used. Making schools larger to fit more kids in it instead of making a new one.	Education	1. The respondent advised that they agree with the proposal.
14383	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to 4a within reason	Education	1. The respondent advised that they agree with the proposal.
14384	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes 4a.	Education	1. The respondent advised that they agree with the proposal.
14385	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is too many schools	Education	1. The respondent advised that they agree with the proposal.
14386	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	all of the above	Education	1. The respondent advised that they agree with the proposal.
14387	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All of the above	Education	1. The respondent advised that they agree with the proposal.
14388	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce number of school buildings	Education	1. The respondent advised that they agree with the proposal.
14389	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to 4a.	Education	1. The respondent advised that they agree with the proposal.
14390	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	a) Definitely agree, kids can integrate with kids from other nearby villages which will help them at high school. Merge Non - denominational schools into other schools. Similar to Adiewell PS.	Education	1. The respondent advised that they agree with the proposal.
14391	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Look at changing school catchment areas. In my local area of carmondean I have 5 primary school in walking distance. Deans south, meldrum, carmondean, st John oglieve and Knightsbridge.	Education	1. The respondent advised that they agree with the proposal.
14392	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	aThere could be a reduction of schools in some areas - We know Armadale primary schools are not all full, it needs to be done carefully as classes shouldn't be too big, some kids can't cope. Also in small villages like Westfield the school is vital as no other community facilities, make sure it is careful handled - include local people in decisions.	Education	1. The respondent advised that they agree with the proposal.
14393	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, most definitely to sadly having to close some schools as the numbers fall. Going by the figures shown, that could save the council a great deal of money.	Education	1. The respondent advised that they agree with the proposal.
14394	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	While the closure of schools and nurseries is always an emotive subject, there cannot be any justification for keeping them open where there is little or no demand for places. With a falling birth rate and therefore less demand for places this must be looked at.	Education	1. The respondent advised that they agree with the proposal.
14395	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools is always an emotive subject but with a falling birth rate and therefore subsequent school rolls there can be no justification for keeping under subscribed schools open.	Education	1. The respondent advised that they agree with the proposal.
14396	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree we should look at streamlining primary schools where we have low capacity in communities.	Education	1. The respondent advised that they agree with the proposal.
14397	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Review small schools - close if not viable Review 52 week settings	Education	1. The respondent advised that they agree with the proposal.
14398	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with all of these. As well as reducing the number of schools, I also suggest reducing the number of teachers. Massive savings can be made, maintaining or even increasing slightly on current ratios.	Education	1. The respondent advised that they agree with the proposal.
14399	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - Go to the school in your catchment this we agree with doing. Cut back on bus journeys, walk good for environment.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14400	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing services due to projected falls in birth rate seems sensible if managed properly and not instantly cut to the bone just to save money. If there is an aging population then any savings from falling birth rate will be needed to care for the elderly.	Education	1. The respondent advised that they agree with the proposal.
14401	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It makes sense to cut costs in schools if the population has reduced. This should include school transport costs.	Education	1. The respondent advised that they agree with the proposal.
14402	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, agree with all these examples. Massive savings could be made by employing fewer teachers, maintaining pupil / teacher ratios.	Education	1. The respondent advised that they agree with the proposal.
14403	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a. Reduce number of school buildings where the number of available school places is more than is needed.	Education	1. The respondent advised that they agree with the proposal.
14404	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do think so but to be fair I think the schools needs total revamp on teaching methods and look at learning away from school,	Education	1. The respondent advised that they agree with the proposal.
14405	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14406	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14407	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14408	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14409	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14410	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14411	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
14412	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You need to ensure that schools are large enough to cater for all the services you provide. I agree that smaller schools should be closed to save money and have pupils in "normal" sized classes.	Education	1. The respondent advised that they agree with the proposal.
14413	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with proposals	Education	1. The respondent advised that they agree with the proposal.
14414	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Join small schools together to make a bigger school.	Education	1. The respondent advised that they agree with the proposal.
14415	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Joining smaller schools together	Education	1. The respondent advised that they agree with the proposal.
14416	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close less used schools,	Education	1. The respondent advised that they agree with the proposal.
14417	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, explore all these options. Also look at cutting teacher numbers if number of children is falling.	Education	1. The respondent advised that they agree with the proposal.
14418	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Pupil numbers should be looked at closely and decisions made regarding staffing / pupil ratio	Education	1. The respondent advised that they agree with the proposal.
14419	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do agree that schools need to be looked at with a view to rationalisation of the estate given the likely fall in school numbers. I think that planning needs to be improved as there seems to be a number of necessary housing developments in areas where school facilities cannot support the demand. This is also the case for health and social care services. Education is the second largest area of council spend and rightly so as investment in this area is key to our future so great care must be taken to truly identify the waste and to be brave in the face of public pressure to avoid the loss of school buildings.	Education	1. The respondent advised that they agree with the proposal.
14420	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a could use the buildings for other things	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14421	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a) Merge classes if needed example - Primary 3 / 4, reduce the number of schools needed	Education	1. The respondent advised that they agree with the proposal.
14422	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close underpopulated schools as long as it's feasible	Education	1. The respondent advised that they agree with the proposal.
14423	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce number of school buildings.	Education	1. The respondent advised that they agree with the proposal.
14424	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close schools which are under populated.	Education	1. The respondent advised that they agree with the proposal.
14425	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Support reducing number of schools where there is substitute provision nearby.	Education	1. The respondent advised that they agree with the proposal.
14426	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Support reducing number of schools where there is suitable provision nearby.	Education	1. The respondent advised that they agree with the proposal.
14427	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close the large number of schools	Education	1. The respondent advised that they agree with the proposal.
14428	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is only sensible to look at the need for school buildings and to sell off the land otherwise	Education	1. The respondent advised that they agree with the proposal.
14429	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree to reducing the number of school buildings in communities where the number of available school places is more than is needed, but not to the detriment of there not being suitable transport provision.	Education	1. The respondent advised that they agree with the proposal.
14430	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This seems a good idea - explore all these options.	Education	1. The respondent advised that they agree with the proposal.
14431	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Forecasting the populations for use of school buildings is a good idea, as long as effective bus services can take children of these communities to school.	Education	1. The respondent advised that they agree with the proposal.
14432	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Absolutely close schools which are under utilised, but keep the staff you have to provide additional support in the remaining schools.	Education	1. The respondent advised that they agree with the proposal.
14433	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, particularly schools where there can be as little as 20 children.	Education	1. The respondent advised that they agree with the proposal.
14434	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with 4a seems to make sense if the building are not getting utilised properly. Can use these building for other things i.e housing, community hubs.	Education	1. The respondent advised that they agree with the proposal.
14435	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Completely agree - far too many primary schools in specific areas. For example - the small town of Linlithgow has 5 primary schools. Is this really necessary?	Education	1. The respondent advised that they agree with the proposal.
14436	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would agree with the suggestion to review the schools	Education	1. The respondent advised that they agree with the proposal.
14437	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	These systems should absolutely be looked at on a regular basis. As long as each child has easy and convenient access to schools then absolutely close down the non essential buildings. With justice services, the best way to help this area is to support the community. Keep the services that you want to cut open. If there is no opportunity to engage in things like arts etc, then children will turn to anti social behaviours	Education	1. The respondent advised that they agree with the proposal.
14438	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close schools where they are empty. Linlithgow is full of half empty schools	Education	1. The respondent advised that they agree with the proposal.
14439	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not sure where to make cuts, but schools that are not needed if there are other places.	Education	1. The respondent advised that they agree with the proposal.
14440	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as there are places available in other schools close those that are not needed.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14441	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, I agree the Council should adapt services to reflect demographic changes, ensuring resources are targeted where demand is highest. As the population ages, investment should focus on early intervention, prevention, and community - based care that supports people to live independently for longer. Where schools exceed need, rationalisation may be appropriate, but this must be managed sensitively to minimise disruption for families and communities. Service redesign should be data - driven, equitable across all age groups, and focus on maintaining quality rather than simply reducing costs. Engaging with residents early will ensure changes meet real local needs.	Education	1. The respondent advised that they agree with the proposal.
14442	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	amalgamate schools in certain areas	Education	1. The respondent advised that they agree with the proposal.
14443	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Totally agree with your proposals.	Education	1. The respondent advised that they agree with the proposal.
14444	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to all of the above.	Education	1. The respondent advised that they agree with the proposal.
14445	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Consolidating half empty schools	Education	1. The respondent advised that they agree with the proposal.
14446	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Areas with shrinking populations like Linlithgow should look at closing one of the primary schools. It's over provisioned as I understand	Education	1. The respondent advised that they agree with the proposal.
14447	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	create mergers between schools share headteachers for smaller schools, fewer better resourced schools, specialist teachers, AI teaching, strong safeguarding schools, vetting.	Education	1. The respondent advised that they agree with the proposal.
14448	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes. Close schools where there is persistent surplus capacity. Conditions: • Use verified roll forecasts and cost per pupil, not politics. • Cap travel times. Provide safe routes and free transport over set distances. • Protect local ASN provision and specialist support. • Keep nursery places where demand exists. • Repurpose closed sites for affordable and extra care housing or community use. • Ring fence receipts to improve remaining schools and visible basics in Livingston. • Publish rolls, utilisation, costs, and equality impacts. Review after three years.	Education	1. The respondent advised that they agree with the proposal.
14449	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As long as the changes aren't going to be drastic in the school facilities that will be available. Don't let in people that aren't contributing to society come from outside West Lothian straight into council houses in West Lothian. Let people know in advance if certain facilities aren't making money and encourage the use of it by saying if it continues to lose money then it may need to go. At least you are giving people a chance then to start attending.	Education	1. The respondent advised that they agree with the proposal.
14450	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It may have to be done but not in a way that denies council tax payers the services they have paid for and deserve.	Education	1. The respondent advised that they agree with the proposal.
14451	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Using the already suggested mechanisms - I agree with these.	Education	1. The respondent advised that they agree with the proposal.
14452	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Dont keep under occupied schools open	Education	1. The respondent advised that they agree with the proposal.
14453	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We should not keep school open where they are not required due to falling numbers. The school estate should be efficient - money should be spent where needed. The same goes for nurseries.	Education	1. The respondent advised that they agree with the proposal.
14454	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, but with full public consultation and input. Remembering bus services would almost certainly need to be examined alongside.	Education	1. The respondent advised that they agree with the proposal.
14455	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We must move with the changing demographic whilst still maintaining the correct values. More spaces in the correct locations makes much more sense than spread over a larger council area. Services may be required to change in order to collect / drop of pupils. This contribution should come from all households with children.	Education	1. The respondent advised that they agree with the proposal.
14456	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Of course schools should be closed if not being used and an alternative is available. Housing should not be passed if there is not availability of a local school that can be walked too to prevent further costs.	Education	1. The respondent advised that they agree with the proposal.
14457	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This should be an on - going task for the Council to ensure services are targeted at the right area.	Education	1. The respondent advised that they agree with the proposal.
14458	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	So long as children aren't detrimentally affected by these changes	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14459	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is a no brainer, of course not all education buildings should be kept functioning if there is a better way to resource education in the district.	Education	1. The respondent advised that they agree with the proposal.
14460	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Merging of classes and schools as needed and be able to supply the kids with transportation to and from the schools	Education	1. The respondent advised that they agree with the proposal.
14461	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree, where there is school capacity and under capacity they should be merged to allow school closures but keep the education for the children.	Education	1. The respondent advised that they agree with the proposal.
14462	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cut 4a	Education	1. The respondent advised that they agree with the proposal.
14463	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Keeping schools open in most highly populated and easier to access areas would be beneficial	Education	1. The respondent advised that they agree with the proposal.
14464	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools buildings are expensive to run. Keeping it open when children are able to attend else where it is not an option	Education	1. The respondent advised that they agree with the proposal.
14465	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce number of school buildings	Education	1. The respondent advised that they agree with the proposal.
14466	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing school buildings where demand is low makes sense but needs to be done carefully and with the use of population growth modelling to ensure that it is not shortsighted when a new housing development suddenly becomes created and education services for pupils cannot meet demand	Education	1. The respondent advised that they agree with the proposal.
14467	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Bigger single premises for schools / nursery drives more efficiency.	Education	1. The respondent advised that they agree with the proposal.
14468	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a sounds sensible in theory, but schools do need to be fit for purpose. Large, open plan classrooms are no good for learning, for example. Schools beside parks could work well, so schools use the pitches and open space within public parks in the daytime and they can be used by others outwith school time. This would be a more efficient use of space.	Education	1. The respondent advised that they agree with the proposal.
14469	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, but this needs to be handled carefully and based on strong local evidence. It's right to adapt services to demographic changes, but closures or mergers must not undermine access or community identity. I know how much schools and early years settings mean to families. They're not just buildings but local anchors of support and connection. Reducing school or nursery capacity should only happen where there's clear, consistent underuse and alternative provision nearby. Early intervention and whole - family support are smarter long - term investments, helping people stay well and independent. Change should be properly planned with communities, not imposed on them, so that services evolve fairly and sustainably.	Education	1. The respondent advised that they agree with the proposal.
14470	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Makes sense but be aware of where significant new builds are taking place and ensure schools, for example, are available in the locale.	Education	1. The respondent advised that they agree with the proposal.
14471	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, the Council absolutely must reshape services to meet local demographic change and secure long - term sustainability. I strongly support proposals that align provision with demand:1 4a (Reducing School Buildings - £3. 4m). If a clear, justifiable oversupply exists due to falling birth rates, consolidation is a responsible move to maintain quality in remaining schools rather than spreading limited funds too thinly. However, this must be a phased, well - consulted plan. Alternative Saving: Prioritize investment in technology and partnerships for elderly care. This area is seeing the largest growth; efficiency here (e. g., remote monitoring, community support) will yield the biggest long - term cost avoidance.	Education	1. The respondent advised that they agree with the proposal.
14472	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Strongly agree with planning for future demographic changes, which are inevitable and generally outside of the council 's control.	Education	1. The respondent advised that they agree with the proposal.
14473	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools with availability and not enough kids to fill the school then it should be closed and splitting the kids up in local schools that can have the space but would need extra support for the ASN	Education	1. The respondent advised that they agree with the proposal.
14474	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4 a b and c do all 3.	Education	1. The respondent advised that they agree with the proposal.
14475	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools can be consolidated, but the ones to remain open should be constantly upgraded and maintained.	Education	1. The respondent advised that they agree with the proposal.
14476	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This makes sense, but need to look at the costs of providing transport, and wraparound facilities for young people. And what would be provided for older people in return? Is there scope to multi - purpose the existing school estate to encourage stronger community endeavours, and share experiences across generations?	Education	1. The respondent advised that they agree with the proposal.
14477	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce number of nurseries and schools to balance with the number of children. Therefore close nurseries and schools which have low number of children.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14478	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There seem to be a number of very small schools operating in West Lothian. For example a Catholic primary has just over 30 pupils attending it. I agree schools should be amalgamated if appropriate or shared campuses. Equally, more money needs to be invested in community resources.	Education	1. The respondent advised that they agree with the proposal.
14479	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	makes sense	Education	1. The respondent advised that they agree with the proposal.
14480	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes to all.	Education	1. The respondent advised that they agree with the proposal.
14481	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that services should reflect changes in population and demand, but care must be taken to ensure that service reductions, school closures, or nursery adjustments do not unfairly impact families or communities. Any decisions should be transparent, evidence - based, and include meaningful consultation with affected residents.	Education	1. The respondent advised that they agree with the proposal.
14482	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ensure any changes are made with timings in mind - reducing schools could be very personal and emotive. Children and parents deserve to have peace of mind and stability	Education	1. The respondent advised that they agree with the proposal.
14483	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	agree with what is currently happening and shifting the catchments based on needs and demands	Education	1. The respondent advised that they agree with the proposal.
14484	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree smaller schools need to be looked at in terms of how feasible it is to keep them open or merging them with a school close by. Intervention of social work need to be quicker and they need to assess the houses in the best interests of the children and how safe and nurtured they are in their current living arrangements see so many times children being left in the care of their parents when this is not in the best interests of the child and I get that they want families to stay together but if this fails then they should act quicker to remove them from the care of the parents and give them a place to go to. The houses need to be assessed for safety and suitability for children.	Education	1. The respondent advised that they agree with the proposal.
14485	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	merging schools i think could work	Education	1. The respondent advised that they agree with the proposal.
14486	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Absolutely! Forward planning and efficient use of resources is fundamental.	Education	1. The respondent advised that they agree with the proposal.
14487	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Based on the need of the region, being more efficient is a good idea. But suitable travel arrangement for kids when they move to a new school must be there.	Education	1. The respondent advised that they agree with the proposal.
14488	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes	Education	1. The respondent advised that they agree with the proposal.
14489	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No issue with selling school buildings as long as class number rises are not significant rises. Each child deserves the best education possible	Education	1. The respondent advised that they agree with the proposal.
14490	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree but how much does this cost the council if kids cant go to schools near their homes? Sometimes parents choose the location depending on the reputation of schools in the area. This could mean that areas of deprivation suffer more than the areas with the big houses	Education	1. The respondent advised that they agree with the proposal.
14491	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that reducing school estate but do not agree with reducing nursery schools, many families will not send their young children to nursery schools which are too far away. This will reduce educational opportunities for preschool children in low income families	Education	1. The respondent advised that they agree with the proposal.
14492	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools - merge them?	Education	1. The respondent advised that they agree with the proposal.
14493	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would question your statement on the fastest growing pensionable age population given that I've heard exactly the same statistics recently quoted in Dumfries and Galloway! I have no objection to consolidating schools where there are genuinely local alternatives, but would stress that for primary schools, anything over 5mile away is NOT local when children are often expected to walk to school and back.	Education	1. The respondent advised that they agree with the proposal.
14494	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	While in some areas where demand is very low compared to capacity, feel free to close the school downs and sell the place. But at the same time there are areas like Calderwood CDA, east Calder where demand is over capacity and increasing. Here, council needs to spend money to build secondary school rather than bussing student 30mins away and paying million each year to do that. Overall, this would not save money from budget but it balances out the area which are projected to grow.	Education	1. The respondent advised that they agree with the proposal.
14495	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should only be closed if transport will be available for parents and pupils to get to other schools. Reducing council budgets for education should not be to the detriment of families in West Lothian.	Education	1. The respondent advised that they agree with the proposal.
14496	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	close buildings which are not needed, including schools and nurseries.	Education	1. The respondent advised that they agree with the proposal.
14497	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	reduce unnecessary schools where numbers of pupils is going down.	Education	1. The respondent advised that they agree with the proposal.
14498	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there is an over supply of schools then this could be a huge saving.	Education	1. The respondent advised that they agree with the proposal.

14499	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce services where demographic change allows ui. e. reduce number of schools and teachers.	Education	1. The respondent advised that they agree with the proposal.
14500	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce the number of Council buildings i. e. schools in areas where there are fewer children.	Education	1. The respondent advised that they agree with the proposal.
14501	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	respond to demographic change	Education	1. The respondent advised that they agree with the proposal.
14502	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close smaller schools.	Education	1. The respondent advised that they agree with the proposal.
14503	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Support 4a. It really is a no - brainer that if the number of children is going down we need less schools and nurseries, and less teachers.	Education	1. The respondent advised that they agree with the proposal.
14504	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shutting schools in smaller areas is a good idea but how are the children meant to get to school if parents don't drive?	Education	1. The respondent advised that they agree with the proposal.
14505	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Within areas for schools where the demand for spaces over the available buildings might be worth a review to save however, the infrastructure of GPs and schools are already at capacity, because in our area new houses are being built but no thought to GP or schools capacity and classes are at limit with poor support to the teachers.	Education	1. The respondent advised that they agree with the proposal.
14506	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is understandable if the children population is low, but not when there is a significant amount of staff and children attending nurseries and schools. Recent closures has affected staff, children and parents in the community.	Education	1. The respondent advised that they agree with the proposal.
14507	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shut small schools and get them to a bigger school.	Education	1. The respondent advised that they agree with the proposal.
14508	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there are two small schools you could put them together,	Education	1. The respondent advised that they agree with the proposal.
14509	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Four day week for schools Stop building schools in Winchburgh in fact stop building schools	Education	1. The respondent advised that they agree with the proposal.
14510	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - Yes Definitely start from 2025 and phase out this system into catchment strict school settings.	Education	1. The respondent advised that they agree with the proposal.
14511	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agreed with 4a you can reduce school facilities where demand is less but then those funds need to go towards areas where there is so much demand but not enough infrastructure like east Calder.	Education	1. The respondent advised that they agree with the proposal.
14512	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are clearly oversubscribed especially in Bathgate - Bathgate Academy has doubled in size in terms of pupil numbers over the last few years with no increase in school facilities. This had been fed by pupils moving to the Academy from Simpson primary which is greatly oversubscribed with four classes per year group with new houses still being planned.	Education	1. The respondent advised that they agree with the proposal.
14513	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reviewing school and nursery provision to ensure the resources are in the correct locations would appear to be sensible but the problems there are self inflicted. Planning permission for new build housing doesn't appear to take such infrastructure into account. Aware the construction companies do make some contribution but is it the right amount in the right way.	Education	1. The respondent advised that they agree with the proposal.
14514	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce the social burden. Assess school administration and ensure correct support in place. Close departments which have been created due to discipline needs in education and return authority to teachers and the impact of consequence to actions to students.	Education	1. The respondent advised that they agree with the proposal.
14515	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I feel that whilst this seems a good saving, I think the money saved doing this should be put straight back into helping schools deliver quality learning and teaching and in particular to support the current high number of children with additional support needs in our schools.	Education	1. The respondent advised that they agree with the proposal.
14516	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No increase public schools, nursery and doctors. But it should not matter the kind of people who live there.	Education	1. The respondent advised that they agree with the proposal.
14517	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are already cut to now minimal staffing. Closing school buildings should only happen if suitable alternatives are in place and its based on future population changes. Not to save money in the short term.	Education	1. The respondent advised that they agree with the proposal.
14518	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree with this statement providing schools are fully staffed. At the moment schools are not fit to withstand increased cohorts - some classes can have 33 pupils in them with 1 teacher, no pupil support and at the very least 50 % of the class requiring advanced additional support.	Education	1. The respondent advised that they agree with the proposal.
14519	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If schools are not needed, demolish and replace with a nursing home on the same site - before it is sold for housing!	Education	1. The respondent advised that they agree with the proposal.

14520	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Agree with all demographic changes suggested.	Education	1. The respondent advised that they agree with the proposal.
14521	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, the Council should absolutely respond to demographic change and shape services around the local population. As communities evolve—whether through aging populations, migration, or shifts in socioeconomic status—public services must adapt to remain relevant, inclusive, and effective. Tailoring services to reflect local needs ensures better resource allocation, improves outcomes, and fosters trust between the Council and its residents. Ignoring demographic shifts risks inefficiencies and unmet needs, while proactive planning supports long - term sustainability and	Education	1. The respondent advised that they agree with the proposal.
14522	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't close schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14523	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This question felt disingenuous. Anyone who has contact with schools or social care are aware that services are stretched to almost breaking point. Care needs to be taken that rash decisions for immediate savings such as closing a school does not then disadvantage the children in that community.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14524	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	agree with all	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14525	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't think savings should be made in the area of education. Space and decent facilities are needed in our communities for children to learn well and for staff to exceed in their roles.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14526	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't think savings should be made in the area of education. Space and decent facilities are needed in our communities for children to learn well and for staff to exceed in their roles.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14527	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	not now	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14528	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Once again concerned about the savings that are proposed in schools when school staff and children are in crisis over the inclusion agenda that is dramatically underfunded.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14529	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't over shoot pensioner demand like you did with schools. People choosing to retire in West Lothian likely have reasonable pensions. Avoid reducing child services as it's a false economy.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14530	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing schools will have an effect on class sizes. Teacher to pupil ratio has already increased this year, resulting in impact on pupils learning. Focus would be better placed in creating continuity of staff in primary schools through permanent contracts, thus allowing pupils to be better supported throughout their learning years by familiar adults who already know them.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14531	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You require to build more schools / extend to meet demand	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14532	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of schools would result in increased class sizes which will save money but will put a greater demand on teachers and staff in schools. The maximum class size is 33 for most primary stages, and this is already an almost impossible number of pupils to work with.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14533	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But you close nurseries, amenities, then proceed to authorise more houses to be built. Again false economy.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14534	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It's out of order that you are taking all the school	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14535	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing or repurposing schools and nurseries is not the answer because when the population rate reaches the need for more schools there won't be any	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14536	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The proposal of closing smaller, local schools also needs to take into account the impact this has on parents and their work commitments. What about families who don't have access to a car and will be reliant on public transport to pick up their children? How does this financially impact them and does it impact their employment opportunities? Could this potentially have an impact on attainment? How does this also impact schools - with already large class sizes? It feels like this is a short term solution that will have long term negative impacts on schools & parental employment.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14537	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would resist the urge to decrease nursery and school services as we have barely enough service coverage at the moment - SEN services in West Lothian is woefully inadequate.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14538	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All of the suggestions are poor especially 4a	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14539	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is 100 % necessary to ensure that facilities are available for children where they are needed. However, this does not mean that children should have to travel several miles to attend school, especially when there are clear difficulties with non - attendance. In new housing areas, can builders contribute or build the schools needed to go along with the areas as part of their agreement? Making massive open plan schools is not conducive to inclusive education. Children do better in smaller schools where relationships are stronger.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14540	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This may be short term thinking as further housing is proposed across west lothian and these will likely be taken up by families who need schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14541	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop looking at cutting schools building and focus on improvements, parents and pupils are suffering enough with closures or moving catchments Look at selling unused or under used buildings	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14542	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It's really important to focus on services for children & young people in order to support the future of our communities / workforce.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14543	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't like the sound of reducing school buildings even if this is a significant saving. There has to be full transparency on this option if taken up	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14544	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Regardless of how many schools are in one area to the next area does not make a difference on positive learning for the children. It's what's happening in the classes that are affecting the children's learning. So really don't agree with that. Close them down if you don't use them and it's costing a lot of money but that is definitely miss leading.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14545	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need to be careful here as increasing capacity is much harder than cutting it. What about the vast numbers of immigrants which will be allocated to use in future. First generation birth rates are high	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14546	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Some towns are under invested. Whitburn has grown at a rate of knots yet infrastructure hasn't changed since the 1960's. More and better facilities are required to cope with the increased population.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14547	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Services for people with learning disabilities need to be overhauled. Mental health is on the rise in this part of the population and having no opportunities for them does not help at all.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14548	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Purely looking at cost without understanding impact on the population, the disproportionate affects and benefits is a mistake.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14549	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are already over capacity, do not close any down / relocate pupils to nearby schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14550	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Armadale has had a large number of houses built so we need schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14551	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children in West Lothian are already living and experiencing poverty. Crime is huge, they need investment to show they are valued in the community. Cutting schools is not the way to go	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14552	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	More school better education	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14553	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't move to quick to close facilities at the heart of the community.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14554	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	would this mean closing schools and having larger class sizes? If so, I don't agree with this	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14555	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not sure about looking at combining primary or high school as this would be a huge move and in the middle of exams or work	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14556	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is beyond obvious that if there is no demand in an area you would not build something new. But also you can't reduce services to the point where people can't access basic services in their own community where their family may have lived for generations. Then forcing people to attend a school miles away but at the same time reducing the transport provision.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14557	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We are not footed - housing is an issue. Why if the schools are under subscribed are there houses being thrown up everywhere. So get the sums done. Keep schools open and provide proper teaching. The education system is deteriorating before our eyes.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14558	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes councils should change way things run when demographics change however closing schools so fewer isn't good. Children want to go to the school of the area they are in, reducing the places available mean higher class sizes, less support available and the education system is already stretched without these changes.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14559	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it is very important that rural communities have access to local primary schools and nursery provision or people will not be able to live in three areas	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14560	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If schools were closed then transport may be needed for children to attend another school so costs need to be effective. Closing too many schools not viable as WL continues to grow.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14561	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	don't really want to see any of the schools close - this could make other schools too big especially in class size	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14562	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a) concerned that this could lead to overcrowding	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14563	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a) concerned that this could lead to overcrowding	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14564	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a) concerned that this could lead to overcrowding	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14565	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it of importance to maintain and keep early intervention and services such as Elev8 as they are so important to help children and young people. Also, feel that bringing schools together would create more issues.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14566	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think its important for early intervention and for services to be available for young people. I don't agree in closing down schools and bringing more pupils together.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14567	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Continued investment in the upkeep and renovation of older school buildings will in the long term save money.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14568	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools is not the answer but maybe review opening times and services offers in each area to fit the needs	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14569	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools I don't think is the way to go, not completely. Mithballing possibly as we don't know when or if the schools are going to be needed again. New houses built within next 5 years in that area and can be used instead of a new one built. An influx of refugees with children. A population explosion in the area. Or can the building be rented out for Pop Up shops, or workshops, wee offices. 6 months, a year short term let's at a time. So that if school needed back as a school it can be turned back. Units would have contents insurance for themselves.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14570	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You should always prioritise children's services as they are the most vulnerable and need a good start in life.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14571	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but not to concentrate on nursery / school provision. As the council continues to approve large numbers of private house building, local facilities are either not adequately provided or ignored altogether so projections on numbers can change.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14572	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing schools when most are already struggling with resource for too many kids.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14573	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Maybe, but please don't close schools or support services. Changes should not make things harder for young people or people with learning difficulties. We still need local help and support.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14574	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is no option but to respond to the changing demographic. The solutions here are only one way of doing that though, and are somewhat short sighted based on immediate trends. Alternative solutions could be to consider alternative ways to fund the services required for the elderly, or to look at efficiencies in how those services are provided. And which of those services could and should be means tested.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14575	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No to closing schools and forcing kids to travel far to school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14576	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it is very early to be making amendments to the school system. Potentially putting the plans in place and then taking action in a few years.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14577	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools is never the answer when you have a school stock of very old and under maintained buildings.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14578	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This should not be detrimental to rural communities.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14579	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You do need to remember that this is the future of Scotland so we still need to have proper education and making sure the children can travel to school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14580	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The early years provision in our communities is vital and needs to be made priority number one.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14581	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't shut schools then have to pay a lot for transport to alternative school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14582	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A new nursery was opened in St Mary's PS Bathgate, yet Bathgate West was closed a few years later. This kind of bad planning doesn't make sense. If schools and nurseries close now, will new buildings need to be built a few years later because things change? We get such mixed messages about schools, and the numbers of pupils. Too many pupils don't attend school, too many ASN students don't get support, too many pupils falling through the cracks. More efficient teaching would help both pupils, teachers as well as utilise buildings. I work in schools and see the difficulties. Schools are bursting at the seams, there is not enough room. Schools need more space! Utilise buildings better! Some secondary teachers have to use libraries to teach in or use the dining area.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14583	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I am concerned that removing schools could backfire in 5 - 10 years time if more houses are built in West Lothian and more families move here.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14584	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There should be no savings in these areas as all are needed.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14585	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	- Schools shouldn't be closed in the communities that need them	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14586	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree we need to adapt however schools in rural communities are at the hearts of these communities. Closing schools should only be considered if an alternative school is within walking distance and still part of the same village / town.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14587	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't understand how schools can be over / under subscribed. The amount of house building in WL is huge and the new schools I know of are not big enough to cope why do they not build schools to accommodate the number of pupils they must have an idea of the numbers of pupils by the number of houses built money would then be saved as there would not be a need to hire portacabins etc	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14588	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Use sensible tools and ensure that the future for children is the main focus. Reducing all available resources will lead to having to re implement once numbers increase this will impact future budgets and in long term is robbing peter to pay Paul not sustainable.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14589	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Young people have already been impacted enough by public spending cuts and Covid. They need more support, not less.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14590	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	However, I don't necessarily agree with the ideas mentioned above. This requires thinking into impact on employment, transport, child safety and attainment.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14591	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	but not in the way as described in this question	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14592	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes for age specifically. More investment needs to be made for young people.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14593	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it's important to have services for people there. However, reducing services available will not encourage birth dates to increase. Travelling to childcare may be an added cost that potential partners can't afford. If you want to combat the aging population, you need to consider services that encourage people to start families.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14594	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Overall a good thing but unsure about schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14595	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes but I wouldn't like them to get rid of schools. Why should they travel further for education?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14596	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Changing of schools would impact transport.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14597	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools pupils benefit from small class sizes so don't agree in closing schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14598	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools is not the answer. While it may appear to create short - term financial savings, it risks long - term costs to children, families, and communities. Many schools are already under pressure to meet the diverse needs of pupils, particularly those with additional support needs (ASN). Rather than reducing school buildings, we should be expanding capacity and creating more flexible spaces — such as breakout areas, sensory rooms, and quiet zones — to support inclusion within mainstream education. Current mainstream provision is already stretched, with growing numbers of children requiring 1:1 support, regulated environments, and small - group learning spaces. Consolidating schools into fewer, larger sites may save on property costs but it would further strain staff and reduce the quality of education and wellbeing for pupils who need tailored environments to thrive. Investing in adaptable school spaces and community - based educational models helps prevent crisis intervention later	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14599	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In villages, there still needs to be provision of childcare and schools so that inter - generational living is still attractive in these places. You can't centralise everything - humans are social beings who need to interact with each other. If the world of work evolves as AI does more, having places to go and for people to have purpose in their lives will be vital for their mental health, so watch for false economies (as I've mentioned elsewhere).	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14600	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't reduce the number of schools - there's a mega problem with not having enough staff in schools as it is with resulting loss of learning due to discipline problems, not enough attention for the increasing numbers of kids with neurodivergent related behaviours, increased expectation on tracking statistics etc. All of these factors increase the stress on specifically teaching staff also support staff. Learning is not in a great place - already without further cuts.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14601	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Help families early Don't shut schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14602	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But still have to provide services for children they are the future and if you want to attract families need to provide attractions and things for young people to do as an old person we had my time so I don't matter	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14603	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree we need to look at future predictions to make decisions on the size of each resource and how they can be used best. I do fear the prediction of reducing school facilities will backfire in the future as this prediction could be wrong.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14604	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Should increase capacity in places that need it, on growing places	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14605	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I am especially concerned about suggestions of the following: • school closures	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14606	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not close anymore education facilities, it's small minded	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14607	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need to be wary with closing services now incase things change in the future and we may need to increase them again. It is costly when new schools need to be built.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14608	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is almost a rhetorical question to match services to forecast demand. It is counterintuitive to say the demand for education services to be reducing given the number of houses being built across West Lothian.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14609	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not agree. Altering services based solely on current forecasts risks backfiring when new housing developments attract young families with school - age children. Housing approvals should aim to rebalance demographics, ensuring sustainable service provision without overburdening specific areas. West Lothian's industrial estates and proximity to Edinburgh Airport should be leveraged to attract young families to areas experiencing demographic shifts.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14610	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	• I oppose the reduction in school buildings without a very detailed publicly available study of demographic change	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14611	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Only concern would be small localities where there is no alternative within that locality and already poor transport links to other nearby towns etc. Closure of school / nursery would increase rural isolation and poverty for families who are already struggling.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14612	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Having firmer approach to school catchments to ensure local schools are fully utilised - some areas within the council are very isolated, unique and need a more nurturing approach. If local school is closed it could impact children's attendance at school and for staff to build a relationship with parents and families. This could cause a greater cost in the social care side and interventions would be required as children got older. -ensure pupil: staff ratio is met and not having surplus staff because staff think they are under staffed. -continue to create shared leadership teams -offer 2 year old spaces at all nurseries.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14613	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If the services are altered based on current forecast, this can backfire with newer housing developments that spring up and bring in young families with school going children. Housing developments approvals can target bringing in balance of demography to ensure sustainable services and not cause strain on specific services provided by the council.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14614	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again a balance between class sizes and closing facilities needs to be sought. Better a village primary school with composite classes than closing completely and potentially increasing the council's transport costs.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14615	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cuts to education are already causing serious issues. Please do not cut further.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14616	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If the population is increasing things should be increased	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14617	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools aren't over supplied as housing are continuing to build home so therefore there will be no spaces if schools close.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14618	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	WLC keep allowing all these new builds & in areas (such as Kirkton Campus, Livingston) where the catchment schools just cannot take the increased numbers of pupils. You don't mention where these over - supply of schools actually are! If your plan is to reduce the number of school buildings within a community & have students access over schools - how do you expect these students to be transported to these schools when WLC have cut school transport.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14619	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Get rid of any mothballed schools (Dechmont) Ensure that any new builds, the builder is paying towards council facilities eg education or community hubs No schools should be closed but smaller classes enabling schools to run more efficiently and staff not stressed and taking time off. Stop the government paying money / voucher for private sector nurseries. Vouchers should only be valid to encourage use of council facilities. Council should be looking to sell more unused land as appropriate	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14620	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - there seems to be a lot of new schools built to now be saying there is an oversupply of schools? These things should be thought out much sooner, and catchment areas possibly adjusted. Lot of money to build new schools, to then reduce the number of schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14621	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree that if there is insufficient uptake for places within the schools system then school places should be reviewed. However, with the number of housing developments completed and those under proposal, I cannot see how there can be a reduction in school pupil numbers	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14622	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I am especially concerned about suggestions of the following: • school closures	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14623	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't understand how the numbers are predicted to fall for young families as so many new houses are being built which encourages families to move into WL. Council should be encouraging the growth of schools in these areas not looking at closing schools and nurseries - once closed never re - opened	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14624	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do agree that reducing schools if there is an over supply is a good solution, but at the moment the cost to have children and get child care is extortionate - we need kids to keep the world turning and parents need support to do this.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14625	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't make any changes to education services.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14626	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Equally, younger families still need local schools and nurseries to keep communities alive and attract new residents. Adapting to change should include redesigning spaces, sharing facilities, and investing in multi - purpose sites that evolve with the community. "Demographic change" should drive improvement, not decline — and any review must be backed by honest consultation, local data, and a real understanding of the impact on families, staff, and the wider community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14627	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If schools close then there will be an incurred cost of providing transport, however this will be significantly less than running and staffing emptier schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14628	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The issues will arise when the population shifts again and the school provisions being reduced now, will be required in the future, more property will be required and the cost to build new will be higher.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14629	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	True early intervention and prevention begins in early education and you are looking to close these and therefore this entire proposal is contradictory. The school system is broken particularly for those with additional needs and closure of schools will simply intensify the issues.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14630	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The ways you have suggested previously all sound terrible	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14631	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Whilst you can look at the overall demographic you must also keep in the mind the volume of new homes in areas which typically means more children. Similarly, where there is more children - the need for adequate parking and play is required which is not often supported. Additionally, closure of schools of facilities of a similar nature should be avoided as this causes major disruption to residents who find it difficult enough with working and travel arrangements for children in a difficult area.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14632	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There are many new houses being built in the West Lothian, and surrounding areas and many long term local people are finding it hard to get school placements for their families.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14633	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is not as straight forward as the questions asks. Closing schools and merging schools makes sense but that could cause problems with children being able to attend the new school and you are already looking at school transport as part of your budget.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14634	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do have concerns however, that class sizes are regularly higher than 30 in primary and secondary schools. Nursery places are difficult to get unless applying practically at birth or sooner for when your maternity leave ends. This does lead to concerns upon implication of closures of schools etc when it is already typical for these to be strained.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14635	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Need more not less	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14636	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Where there is an undersupply of schools in an area you should also be building new schools rather than sending children on long daily bus rides which break up school friend groups as children are sent here and there. Also the school busing system is not carbon efficient and works against the council and governments carbon neutral goals. Children should be able walk to a local primary and secondary school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14637	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing isn't always the answer back to square one	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14638	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again another poor question. You shouldn't close a school just because the roll is falling if it then causes an increase in parents driving to school so increased congestion and fewer kids walking or cycling to school or reduced public health. There is a general lack of joined up thinking in council decisions.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14639	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This could help but with population growing doesn't seem very practical	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14640	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The population is increasing due to the number of homes being built, a large number of these homes are aimed at families and yet the Council thinks closing schools and nurseries makes sense?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14641	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes we need more schools not less.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14642	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children should be accommodated in their nearest schools and get away from cat mental areas, reducing the need to bus children round the area ie bathgate children in bathgate schools. In the case of Blackburn either Blackburn or Deans	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14643	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I believe the council should always flex the availability of schools to the areas of need so that it reduces reliance on vehicle traffic.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14644	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	People should use their local school rather than take away places for others. Some schools are half empty whilst others can't keep up with demand	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14645	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	schools should be improved some new built schools way too fancy and older school buildings left to rot and expect to still function with more pupils, nurseries closed but available nurseries not extended for use to supply more children. too much getting spent on rebuilding when should have been built correctly in the first place. Schools are the key to learning in west Lothian these schools should be equipped for this and no budget cuts	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14646	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Responding to demographic changes by reducing the number of school buildings. How does the reducing younger population link in with the new schools just built in Winchburgh and the potential new school in East Calder. The council closed 9 nurseries in West Lothian this year which this PC strongly opposed at the time. It has led to bigger class sizes which does suit all children and their abilities to learn whilst also causing parents further to travel to and from these settings increasing traffic and child safety. We appreciate the reducing younger population but is the council looking at support the ambitious housing development targets and in particular more affordable housing to bring young families to the area?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14647	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All the opposite. Look for alternatives to being more YOUNG FAMILIES into these areas. Closing school and nurseries would be the last nail in the coffin for these towns.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14648	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	These services are vital and need to be kept	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14649	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools in smaller villages will be detrimental and will increase class sizes. Teachers will have less time to spend with pupils who need extra help. There would also be transport costs and an increase of traffic in school areas.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14650	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Terrible idea at the expense of the future generation. Do not do this	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14651	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Having access to a local school is a priority, pupils should not be getting buses to primary school	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14652	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Just no.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14653	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not cut education. Schools and nurseries are our future. It's hard enough working in a school / nursery just now with cuts Invest in the future	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14654	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	DO NOT CLOSE SCHOOLS	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14655	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't see why people would be happy sending their children to school that in other towns unless they are given safe public transport to get there. I also wouldn't like parents to have to travel out of their own town to drop their child off at nursery. Everyone is already stretched thin, and the roads are a nightmare during the school rush. Give parents that little bit of grace knowing they don't have to travel far to drop their child off.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14656	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	By reviewing numbers and trying to make bigger classes, this would put a strain on teachers whilst also not giving every child the opportunity to learn and be focused on. I do not think this is a good idea	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14657	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You need to keep the local schools provisions. Forcing kids to get busses to far away schools is not the answer	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14658	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How can you possibly close schools and nurseries when you are allowing multiple houses all over West Lothian to go up. All that will happen is the remaining schools will be overrun, further reducing good quality education for our children. If you want to close schools then also put a stop on building houses and allowing people to move into the area	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14659	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School and services of the like are stretched enough without closing more. Thinking of a solution for just now ie closures. is going to damage our future adults as the education will not be as great if they keep over stretching schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14660	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduction of pupil numbers is an opportunity to improve the level of support and provision to students through maintaining numbers, your proposal equates to a "race to the bottom" in terms of the quality of educational support offered.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14661	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Learning needs more money than any other aspect of a council. We need more support staff in schools as the number in children with additional needs is increasing more than the number of people above 65. More parents are withdrawing their kids to home educate them because the system has failed them. People eventually will move and find a better supported area. Please spend money to our kids.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14662	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Catering to the elderly at the expense of the younger generation is a shortsighted way to make savings. If anything, there should be a focus on the younger generations in order to promote West Lothian as a place to come and raise a family	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14663	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is not the answer! Teachers are being asked to do more with less funding and resources. Schools are already struggling as it is - with the high levels of ASN in every classroom, we need more support, more space to support these children. Not to be condensed further into larger school rolls. This of children's futures we are talking about. Schools are also at the heart of communities which will be further destroyed by closing. I am horrified to read these proposals.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14664	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would have said yes, but to suggest reducing the number of schools to save money is laughable. It's cartoon villain stuff really. Take away from children to save money for who? Why are the majority of these suggestions worded so as to make people believe the education department needs less money when, if anything, they need more? Honestly, local MP's must be glad that the majority of people won't read this or they'd never hear the end of it. What about the staff that all these suggestions affect, are they being consulted?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14665	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closure of schools will require many children to travel to school - potentially separating them from their home peers. Similarly, merging schools will increase class sizes for a system already working at the expense of teachers and school staff	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14666	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing schools offering seems like a very slippery slope. I am afraid we will end up with bad services like a big cities.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14667	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing nursery's and schools make the children's lives harder and parents. For all the houses your building we will need the schools and more doctors	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14668	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Unless it's absolutely a huge difference in demographic change schools and their services are a must.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14669	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You can't be impacting school and learnings further!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14670	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The education sector is on its knees. These proposals seem to work towards guaranteeing it stays this way even though chance may allow for smaller classes which are linked to better outcomes! Again, short-termism. Also our country's wealth is concentrated amongst the elderly. Yes, inequality exists there too but it's hardly the most hard-up sector. Except healthcare of course..	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14671	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do not agree with these statements at all as most West Lothian areas do not have enough school places.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14672	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do not agree with these statements at all as most West Lothian areas do not have enough school places.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14673	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	At this moment in time I don't maybe at a later date, Sorry for now	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14674	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You have a habit of making poor - short-term decisions regarding school places - I doubt West Lothian births are going to fall - it will probably continue to rise.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14675	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop going for children who cannot vote or have a say in these changes!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14676	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again children are the target. Children with underlying challenges do not need more changes. Doesn't help mentally health	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14677	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Already shut down various nurseries. Schools are on their knees with amount of high tariff children and children with ASN. The children and staff are already being stretched without adding more pressures of closed schools / nurseries.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14678	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It'll cost the public more to reach these facilities if you move them away from local areas	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14679	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools is a ridiculous idea.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14680	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	What you've suggested is a rotten way of dealing with it as things will ultimately change again and then we're a school down. You shift at a snail's pace but are suggesting this? By the time you do it we'll be back to what was. West Lothian has so many new houses being built and people moving in that I fail to see how these projections can possibly be right.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14681	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The amount of people coming into the country it doesn't make sense to close schools etc	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14682	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Please do not take away school facilities. We need more not less.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14683	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Putting further pressure on working parents and polarising housing stock around provision of services will only lead to further disparity and hardship, making West Lothian more dependent on WLC services, which you are in the process of removing.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14684	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it's very important to NOT to drive efficiency through closure of school buildings. There are already not enough school spaces in some catchments, where building of new homes is taking place - these communities should be invested in to ensure children can attend school together, particularly given the contributions made by local developers to expend and build schools in the right locations	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14685	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This turns into a postcode lottery to families. If there isn't a school / nursery in an area with less children, families will never move to this area. That's just stupid too. Again you are pulling funding from the children - who need early intervention and access to education. Children don't want to travel for miles for the sake of school. You also run the risk of families moving out of WL as there are no provisions	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14686	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I find it outrageous that you are considering closing schools and nurseries. You are stating the quality of learning will continue to be high by making this move. I would like to have evidence of this as I am certain that won't be the case. Children will be traumatised moving school, there save spaces, to start somewhere new. Class sizes will increase so the quality of education will reduce. Children's education should never have to suffer. Extra travel for parents will result in increased cost and inconvenience attending different schools. This is unacceptable.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14687	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Bigger school classes will make it harder for children who struggle, to learn efficiently!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14688	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education and schools should be at the top of your list for investment, not reduction.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14689	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Any more cuts to education is crippling our ability to meet the needs of ALL the children in west Lothian. We are already failing many children	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14690	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Sounds like yet more cuts to services, There is nothing as it is	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14691	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Self fulfilling activity. If you kill services for children then people will not move here, and therefore you will need to kill services for children due to lack of use. The waste you are likely to introduce by bussing kids to schools is going to be maddening.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14692	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The schools seem to be under severe pressure as it is without closing any. The only sensible alternative here would be kids who aren't suitable for mainstream to have an actual suitable school environment to go to, this would allow for reduced numbers to combine schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14693	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Definitely not. Why pour more funding into those older than 65 when it's the children who are most important. Only reason it's been declining is the state of things as it is, why then make it worse by removing even more focus from children and focusing more on the elderly?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14694	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I find the suggestion of closing schools appalling. West Lothian council forecast will be widely inaccurate at such a lengthy period. I suspect immigration could transform these forecasts.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14695	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't understand how there is less demand when the population is growing	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14696	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not if it means less school places and children have to travel further than necessary	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14697	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	More schools are needed not less	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14698	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How about increasing the quality of our children's education by providing them with a school that isn't jam packed to capacity. Let them learn with space and in smaller class sizes. Let our children attend local schools that they can walk to safely rather than parents travelling to drop them at a further away school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14699	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The education system is on its knees and not fit for purpose. Children are being failed throughout the county. Especially those with additional needs and the governments ridiculous presumption of mainstream. Stop reducing facilities further!!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14700	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School is very important for children, after so many nursery closures that have had a huge effect on children in these settings priority should be given to keeping and investing in school / early years	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14701	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	West Lothian benefits from small class sizes	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14702	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	"In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools. (Saving approximately £3.4 million) "You haven't learned a thing from your great idea many years ago to bus pupils to different schools that offered specific subjects. You seemed to think One place that money shouldn't be Cut is on education. The education system is disgrace as it is.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14703	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is not enough schools the amount of houses being build and the severe lack of infrastructure is very worrying what you have this view	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14704	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools and nurseries is a terrible idea.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14705	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Population changes vary and there is regular house building across West Lothian, so the needs for schools and facilities will change ongoing. Closing a school may save money short term, but be more costly if you need to build a new school due to infrastructure changes.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14706	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think you are not including the many large family houses and housing estates planned it needs future proofing decreasing school places in the short term won't help especially when you'll need to expand again.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14707	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	With so much present and future housing development it would be absurd to reduce these facilities	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14708	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The number of school children change every year, so there may be limited numbers one year but can change to the next so absolutely not closing schools, schools are staffed to suit the numbers.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14709	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The demographic will change, new build houses are being built which will bring in young couples and families. Reducing education buildings will lead to bigger issues in the future.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14710	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The demographics are inaccurate and lag behind development. So schools etc are mothballed and then a huge new development of houses is built. There is not a huge saving once staff transfer and travel expenses for 3 years are taken into account. Perhaps decrease school transport to a minimum and increase numbers of children using their free government transport. Stop doing things "the way they have always been done". Inflexibility is the hallmark of WLC and compared to many councils you're in the absolute ark for fear of offending unions, especially in cleaning and facilities services. Make housing an arm's length housing association. Increase council tax for the top bands who can well afford it.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14711	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think this is quite short sighted, if you look at the amount of immigrants being positioned around Scotland at this time and the possible significant increase in the short and long term, closing schools is the opposite to what you want to do. There is absolutely a change in demographic happening right now and I feel the family sizes are going to rise very quickly in the future if the immigrant dispersal continues or increases as is being speculated. I think this needs to be reviewed again taking into account the difference in family sizes that will be coming in the next 5 years and at that point the possible need to build more schools if the existing ones are closed. Same point with the nurseries.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14712	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't touch the schools, keep kids in education,, another imoral half baked idea, people, community, spirit, you get the jist,, don't touch.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14713	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Seriously!!!! You are proposing to close schools and amalgamate smaller ones or filter smaller schools into larger ones. That is ridiculous as it does not coincide with the ever increasing population of West Lothian. It also proves problematic for the more rural residents to commute their children to and from school. Closing schools is absolutely not a good decision.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14714	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Once services like this are reduced in areas it will be hard to increase them in the future. As change will once more happen in these areas in future years as people age and the communities become younger once more.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14715	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Better use of school buildings for unused spaces. Staff in schools are overworked and underpaid the council have messed up massively in forecasting for the future, more kicking the can down the road.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14716	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children should not be used due to councils lack of funding / budget etc. Upheaval of moving schools can be detrimental to the wellbeing of some or most children and therefore increase risk of antisocial behaviour etc.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14717	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Taking away services from our children is horrible. Reducing the buildings will increase class sizes which will increase an attainment gap which inevitably will lead to higher unemployment and therefore money NOT saved in the long run. Putting the health and well being of our children at risk is not at all appropriate.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14718	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	West Lothian population is increasing reducing these facilities would be detrimental to the community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14719	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not in the way suggested. In Linlithgow, where a e.g secondary school is better than some. This has been used for years as an excuse to not approve town expansion. Redraw boundaries and expand Linlithgow. Just look at Winchburgh. And they now have a proper motorway junction.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14720	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.			

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14721	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Forward plan better. If growth is too much stop the expansion of homes. Current residents shouldn't be penalised and having to explain to their children why they would have to go to separate schools from their siblings and friends. Why was an extension applied to calderwood primary and west Calder high school still not enough to deal with the growing demand? This again shows that they hadn't taken into account how many children they would have to be housing for education. A high school was promised 40 years ago in east calder and for a community that has 3 primary schools plus 2 close by surrounding schools, where are these children expected to go? You would save on coaches, doing your bit for the environment (green foot) plus securing safety for children / young adults.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14722	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Money needs to be invested in young people not cut back.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14723	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	ABSOLUTELY NOT! There are many many many impacts of this. Children are our future and we are supposed to always be doing what's best for them. Taking away local schools is NOT the answer. Smaller school settings are specifically chosen by some. The class limits are ridiculous as it is. Many schools are at capacity and children who need ASN specific placements are being forced in to mainstream schools. Even the suggestion of this alone is completely absurd. Spending any length of time in a school will show you the many faults. A voluntary choice to cause an issue in schools is never ok and will guarantee an uproar from parents who do actually put their child first, unlike this proposal. Maybe begin by looking at the bigger issues within the education system from an educated realistic stand point first	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14724	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools negatively impacts people's ability to work. Which isn't good for council either. Additionally if you close schools then people may have to travel further which can affect their ability to fit round work. The lack of after school care available in the deans area is already affecting my ability to manage work. If, for example, you closed deans primary, I'd really struggle to fit work around drop off and pick up at a school further away.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14725	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are the heart of local communities - close them and your community is gone.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14726	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Making children move schools and be separated from their friends is a terrible thing to do. Not to mention the impact it will have on working parents who's lives and routines you would disrupt.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14727	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The schools are struggling as it is with the amount of houses that are being thrown up. Kids are not getting the proper education due to the classes being too big! Leave the schools alone!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14728	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop closing rural nurseries, people need childcare in order to work. Kids need schools that are not a long bus journey away.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14729	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	These proposals prioritise short - term savings over long - term well - being. The council must engage meaningfully with communities, parents, and experts to develop solutions that protect education, support vulnerable families, and strengthen—rather than fracture—our social fabric.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14730	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This shouldn't be an area in which to make savings.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14731	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes / No. It depends what is being cut in which areas. The areas that have increased due to house building should be recovering costs of school increases from house builders (same for road infrastructure and medical practices) Don't take away schools in smaller communities, every child needs a school, no matter how small.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14732	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not take schools away parents need them to be able to work - don't make it harder and children need the support and schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14733	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I have no words you have built houses on houses and cutting the services for all these people and children	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14734	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	My child is on a composite class due to the amount of children in his year. We should be building more schools and doctors surgeries, not closing them.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14735	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Keep schools in local small communities	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14736	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	schools in rural areas should not be closed due to the amount of new houses being built	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14737	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No cause if you do they'll be a demand again! With all these so called immigrants coming in to the country we will need schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14738	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Leave education alone e	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14739	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In no way should any facility for children to be able to access effective learning and teaching should come into negotiation of the budget! Closing schools means bigger classes which, research has shown is a big factor to closing the attainment gap...not only putting people's jobs on the line. Especially right now with teachers out of jobs already and the education system in crisis	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

14740	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	less schools means overworked / underpaid teachers and undereducated children	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14741	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Your "savings" are not really savings unless you also consider the impact of removing these services. Removal tends to mean a lesser service eg combining primary schools = bigger classes = less time spent on each pupil = reduced learning experience for each child = more learning support required = increased costs to council.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14742	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need schools and these shouldn't change, stop throwing money at towns like Linlithgow and Winchburgh and treat all towns equally making sure education facilities are a priority	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14743	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children are your future. Making access to services harder will cut down on parents who are already disengaged taking part. This will store up issues of unemployed young people and disengaged and possibly troublesome	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14744	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In my opinion this is short sighted there are currently a number of developments with new housing that will surely increase the need for the use of more buildings.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14745	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	By moving Children that will potentially lead to having to more transport which is something youre trying to avoid.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14746	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When schools are maintained and well - funded, they don't just help individuals — they keep people in work, attract families to the area, and support local businesses.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14747	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. When schools are maintained and well - funded, they don't just help individuals — they keep people in work, attract families to the area, and support local businesses. The government needs to step up and give councils the proper funding to deal with these changes. It's not fair to expect local services to keep doing more with less, especially when the number of children are the future of West Lothian, we can't cut schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14748	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children are the future of West Lothian, we can't cut schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14749	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education is a right and should never be looked at for cutting costs. This could impact children and young people's mental health if having to travel too far to another outlying area	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14750	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You'd be penalising children, an awful action to consider.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14751	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographics only tell part of the story so I would challenge this on the basis of the house building Carte Blanche given by the council with little regard to schools and nursery provision	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14752	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School services are vital to produce the next generation of income earners. You need to invest heavily in schools and you need to prioritise kids with learning difficulties.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14753	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You have to offset any changes like this to what it would mean for families in the area, it could end up costing money if transport was needed to make the moves possible.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14754	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Class sizes are already too large. Reducing these services will mean more demand in other areas which will likely be more costly.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14755	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not agree with shutting schools. How are the people with access issues going to get children to school	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14756	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	schools are already overcrowded. The Scottish government pledged to reduce class sizes this would increase them and put further strains onto education settings	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14757	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This doesn't seem accurate, school buildings are being extended and pupils should be able to access local schools. The parking on the main road near where I live is not very environmentally friendly relating to school drop offs where as I'm lucky and can walk to our local school and want to do that for the environment.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14758	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No, this will further compound the demographic problem but disincentivising young families to move to West Lothian, especially areas where there is no school or the school is far away i. e. not within their local community. We need the council to actively promote family friendly policies to bring life and vibrancy into our communities.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14759	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I feel that closing the schools currently available would not be an appropriate measure. New housing developments continue to be built across West Lothian, many of which do not yet have schools nearby. I believe a more effective approach would be to review and adjust school catchment areas to ensure that capacity and resources are better aligned with the growing population.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14760	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Savings as mentioned before, stop taking money away from schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

14761	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should be left alone. Better staffed. Feel like should be better support within the education system like more pupil support and teachers	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14762	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't agree	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14763	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If it does this - it should be temporary only. Else you make the demographic changes a forgone conclusion / permanent. Families won't move to areas with no school!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14764	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again there would be commuting issues if schools were closed and pupils sent to other schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14765	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are struggling to cope with the amount of ASN pupils already and if you add more pupils to this and the schools are at capacity this would be disastrous.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14766	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	- Don't close schools in smaller communities as these are at the heart of it.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14767	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	with an expanding population and town I feel it would be folly to reduce capacity	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14768	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think that large schools and nurseries can be detrimental to children. Also, in smaller communities, schools are important for building / connecting families.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14769	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The pressure on remaining schools will be too great as the resources will be stretched - those schools will not receive larger budgets to accommodate.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14770	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The problem with closing buildings and facilities is that if the population increases instead of decreasing these buildings / facilities will never return. Also, keeping West Lothian with a non compulsory redundancy should be kept.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14771	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is code for closing schools which is absolutely a bad idea.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14772	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I'm saying no but I'm out my depth here regarding these services, if it's children suffering through closures or services I'm not a fan of that, again exercise caution!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14773	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Freeing up funding for keeping schools open is essential, you said in the beginning statement that the population has grown significantly in the last 10 years but stated that you're willing to close some schools. Education is essential for children.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14774	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There has already been so many cuts regarding children closing more schools and buildings is not going to save the council money in the long run but will cost more in the future. There are already so many children with additional support needs in mainstream education who are struggling to cope because they cannot manage because there isn't the staff or resources. This in turn affects all the children as everyone's education is being affected. What has happened to GIRFEC? how is closing schools, etc getting it right for every child? Social Policy is on it's knees and the council	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14775	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why would you choose to increase class sizes in other schools when a national statement has been made to reduce!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14776	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools absolutely should not be closing down, towns are increasing in population with so many new houses being built, schools closing would mean larger class sizes on the remaining schools which is not beneficial to meet learners needs.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14777	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How are school closures compatible with all the new housing that is appearing?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14778	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Still looking at cutting our youth and children there should be more money put into our young people as they are the ones that need places and our help to get a brighter future for us all and keep our legacy going	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14779	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would expect that this is should be an ongoing process. The danger of making it a priority would be that rural and less populous places would be disproportionately affected. It would need to be more than just a paper based exercise. Schools are the link that builds and keeps communities together. They are a hub. It shouldn't just be about numbers but the benefit to communities and therefore the savings generated by having cohesive and happy communities.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14780	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Our primary schools have 33 children in them, we need smaller class sizes not less schools. FFS.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14781	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	People are not going to have more children or move to WL with children if there are no school places or nurseries.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14782	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Building of new schools over recent years in West Lothian but yet the council is looking at reducing educational buildings - this is very wasteful! Please do not consider increasing class sizes as a result of cost savings where teachers are already struggling, education in Scotland has unfortunately massively declined with the current Scottish Government and schools can't keep taking the brunt of cuts... If class sizes increase then there would also need to be additional support for teachers which would increase costs. Making children travel further to school is to the detriment of any child affected as well as the impact to parents needing to juggle work commitments more difficult. Older council buildings which are no longer fit for purpose should be sold or let to private companies.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14783	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I'm sorry, but reacting to demographic change due to low birth rates by closing schools is like building hospitals for car crash injuries instead of installing seat belts into cars. How do you want to increase birth rates if you close facilities for parents?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14784	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The ever changing demographic of the area means that closing even one school now could cost more in the future. On a financial and a educational level.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14785	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools and nursery's are over stretched as it is and constant houses being built all over West Lothian this will just create a bigger problem	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14786	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We do not need less schools. Taking more away from kids and teenagers more family support	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14787	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	shutting buildings is the easy answer. once shut harder and way more costly to restart or build new. look for local sponsors for village halls, nurseries etc.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14788	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School roles are still expanding and some of the buildings are no longer fit for purpose. We've seen the reports of buildings needing maintenance and input to keep them safe for young people. This cannot take a cut when there's work to be done on the existing structures in place.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14789	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I have seen catastrophic changes in school demographic (we have had 100 + pupils join our very outdated school in the last 3 years). This has led to huge class sizes, lack of support staff and many other logistical difficulties.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14790	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I disagree with reshaping services predominantly based on demographic changes. The Council's focus is neglecting critical concerns like oversubscribed school classes and the needs of working families. Many older residents with substantial assets are not contributing fairly toward sustaining services, while younger people face worsening access and quality of education and care. A balanced, fair approach that supports all age groups equitably is essential.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14791	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is not my experience. There are many schools in my area which don't seem to have enough places for locals	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14792	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Access to schools close to home is extremely important for children and so is school transport.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14793	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Truly local primary provision is absolutely essential and should be protected.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14794	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This would just cause more misery and hardship.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14795	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Currently just build 3 new schools in Winchburgh which is counter what you are proposing. Why is it only savings within education you are looking. This is where we should be spending more money rather than less.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14796	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Targeting the youth to make the savings is a bit daft in my opinion seeing as they're less able to get to other places for school etc. So unless the closing of some schools is going to be accompanied by you supplying even more school transport, it's not as viable and will probably not save you as much as you are thinking it will.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14797	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Services should not be reduced based only on population changes. Closing schools risks harming vulnerable families, children with additional needs, and disabled parents. Demographic planning should improve accessibility and support, not remove local services that many people rely on for stability, routine, and wellbeing.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14798	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School should be left alone as there is little enough budget for them. More budget should be allocated not reduced	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14799	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think this could be short sighted. The building of new homes in West Lothian is attracting families and we should have the provisions to support them.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14800	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	do not agree with reducing or reshaping local services based on demographic changes if it means closing schools. Every community deserves access to quality education, childcare, and support services close to home. Closing facilities risks damaging community life and increasing inequality, especially in rural or low - income areas. Instead of cutting, the Council should look at how spaces can be shared or used for multiple purposes, and how better planning and investment can support both younger and older residents without losing essential local services.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14801	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education, Children and families should not be impacted by budget cuts, end of story.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14802	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Provide better schooling and nursery facilities. Invest in them not decess	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14803	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduction to any schools shouldn't even be considered.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14804	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I believe these are essential in our communities and should not be cut	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14805	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are overpopulated in many areas - West Calder as an example. The council continue to allow more building of housing, Mid Calder is set to have another 150 family homes built, if that school was to be closed where is the closest accessible school?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14806	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There isn't enough schools or GP practices anywhere in a larger towns of West Lothian, as well as smaller, for instance Armadale and Blackridge have ever growing new private housing schemes which you approve to be built, but schools are bursting to seams with amount of kids in them. Because these house are not bought by 65 + people, but people with young families	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14807	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is not on over - demand on schools, my daughter is in a mixed class as there are too many new builds (private when we need more social) not enough schools / GP's etc to keep up.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14808	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School places seem to be Harder to come by, so i can not agree to this,	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14809	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Putting students in to one school can lead to community based conflicts and unsafe environments.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14810	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Some of these smaller communities do not have the ability to transport their children further away.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14811	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This does not make sense. You do not solve the problem - problem is low birth rate if you cancel the schools why would people have babies anyway if they would have to drive extra miles daily? This is not a great idea. You are avoiding the core problem and try to do workaround. As a solution try to find more private investments into the schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14812	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are pushed past there limit as it is funding wise. With huge classes and unmet needs of children this should not even be a consideration	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14813	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I disagree ee with all these proposals. As more houses are constantly being built, demand for school places will only increase. The elderly population is increasing, you cannot wash your hands of your responsibilities to them. They have paid 40 plus years into the system and deserve to be respected with appropriate services and provisions.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14814	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Can we encourage more immigrants, new Scots, or new families from other Scottish cities to come to Livingston. It's been a long time since I've been told I could 'Make it in Livingston', for example. Reducing the facilities for children will kill any opportunity for revival - why would families choose here to live in future?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14815	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are always getting cut you have made a lot of efficiencies in this area over the past few years. Perhaps closing or repurposing smaller schools. Note that in the LGBF West Lothian have an almost non existent re referral rate to the reporter. Can you be confident to say that these services could function well with further cuts. It seems that there are failings in this area locally for social services and partners to protect our children.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14816	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographic changes will not be permanent and making decisions on closures or integration should only be made where there is historical need is not just about future expectations given the number house building decisions still in the pipeline	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14817	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	People need to make sure they have good learning facilities	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14818	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shaping services around locals will make them ask for more	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14819	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are part of a community. It needs to be carefully thought about as it could increase the cost of transport as some children might live too far from the alternative school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14820	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are part of a community and decisions to close schools and nurseries should take into account their position within the community rather than just financial incentives. Closing school could incur increased transport costs as children will have to travel further to attend if schools are closed. Children who do not live in West Lothian should not be allowed to attend WL schools or the council where they live should foot the bill.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14821	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Changes in these demographics will be short lived as folk are pushed out of cities by cost of living, the aging population unfortunately will age away and be replaced with younger families who will need and rely on children's services including educational provision.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

14822	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think given all the new builds going up we are going to need facilities for youngsters.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14823	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You should be addressing the cause why people don't have children (they don't because they can't afford childcare and rent), not closing the schools or reducing nursery places.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14824	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	the council and its predecessor have proven historically to be poor at managing school provisioning based on demographic changes - take the example of Blackburn academy closure, or building new schools that were overprovisioned at opening. I have no confidence in our councils ability to manage such a operation effectively, and fear larger long term costs due to the mistakes that would occur	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14825	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	children should have access to schools close to home, education is important	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14826	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't agree they should close schools. I think they forget Blackridge exists	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14827	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are already underfunded. Use the finances allocated for the children now appropriately.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14828	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Once again, instead of investing and concentrating on the on the younger people who are the future. This shouldn't come at the expense of them to cater for an older generation.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14829	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The population is going up and we need schools.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14830	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't shut down any schools. Children in mainstream schools need funding. It's frustrating when people who need support don't get it. Especially young people	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14831	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I have 4 kids (2x primary, 2 x nursery). There are not enough spaces in the bigger schools. Impact on being able to get there. Building more houses - what impact will this have on closed down schools? Plan ahead.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14832	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No to cutting children school	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14833	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should not be over subscribed, schools should have small class sizes and children should attend schools local to them.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14834	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education is very important and schools are already at capacity.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14835	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No don't agree - again stop taking away from the people most in need of services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14836	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do not agree as we should be investing in our young people	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14837	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education too important to tinker with	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14838	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again cuts should not be in education and should not even be considered if we want a successful future for our country. Children are the future.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14839	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education should never be cut. It is the future of the country. If we close things there will be no room if population changes.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14840	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	keep school and nursery's open as they have lots of jobs and nursery's and schools will become full if you shut any	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14841	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	- How will children be transported to fewer schools if the council reduces the size and numbers of school transport vehicles - You are tampering with young people's lives - Parents may have to give up jobs because nursery places are not there. - Reducing nursery and primary provision is wrong - it is important for socialisation - Reducing / closing these facilities will lead to problems with children alter in their lives that will cost more money to fix - If you need to reduce the school estate, use the buildings to relocate council staff from other councils functions to until a point where the educational demand increases in which case they can become a school again. You can always sell off other buildings that cannot be used for education.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

14842	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When I was at school I had to go to a school at the other side of town because, my local school was oversubscribed. It was not funny trudging through the snow for miles, in the winter, in a school blazer and thin pinafore, spending nearly an hour each way to get there and back, as the school bus was usually too full, or didn't turn up. So I can't agree to that one.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14843	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Find cuts in other areas, do not disadvantage children's education.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14844	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Find cuts in other areas, do not further disadvantage already disadvantaged young people.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14845	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Save our schools!!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14846	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Small schools in villages are often a lifeline to the community of the village. Schools should only be shut in towns where there are plenty of alternatives.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14847	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Accessing different schools will have a negative impact on learner wellbeing and impact the local community.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14848	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cutting on education services won't make savings but will put weight on somewhere else in the system.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14849	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of schools could have the same impact as is suspected from the nursery closures this year - reducing offerings which can offer support and services some children need. Like smaller setting with support for children with additional needs or support requirements.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14850	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	"At the same time the number of children being born and entering our schools in some parts of West Lothian is forecast to fall." is the plan for this demographic to continue to shrink when people realise they'd have to move to find a school for their children, as there will be less local schools and the others will become even more populated than they may already be.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14851	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again reducing schools, to me can't benefit anyone in the long term	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14852	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Definitely against cutting anything to do with the learning of our young people!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14853	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	At the moment the council are NOT meeting the needs of every child. By closing schools where there is more than a few schools the pressure put on the school staff will be absolutely awful. Get rid of teachers ancillary staff who don't cut it	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14854	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There are more houses being built and more children - there we need more schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14855	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	disagree with all	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14856	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	i think we need schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14857	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Nursery's and schools could be crowded if they start shutting more	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14858	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	i think that closing schools and primary's and nursery's could make schools fill up faster and then schools would need to get extensions therefore costing more money	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14859	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How can you cut schools when your building more houses.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14860	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't think there is an over supply of schools as there are constantly housing being constructed so therefore more children will be in the area.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14861	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't feel that the educational establishments should be reduced, teachers need manageable class sizes and enough support to be able to teach - they need more resources not less.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14862	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	DON'T CLOSE SCHOOLS HOW STUPID CAN YOU BE?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14863	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No changes	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14864	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools already are seeing larger classes which is lessening the support and opportunities available with an ever decreasing budget in schools as it is. It is an outrageous suggestion to look at closing some schools. The education budget has already been cut millions in recent years and councils need to go back to Scottish government to seek more education funding instead of any further cuts	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14865	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This seems very short sighted. I can imagine in the future number of children will rise again and then there will be a lack of facilities.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14866	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need these building for kids	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14867	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	people may not be able to access the right education they need	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14868	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	why would would you shut down school?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14869	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	leave the schools alone	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14870	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You are already closing these facilities in areas where lots of new houses are in the process of being built. There appears to be no forward planning by the team in this regard. You are setting up a potential education failure by not looking to the new families that will be in towns in the next 3 - 5 years who will need a nursery or school placement.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14871	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Get real, if you close the facilities, when you get the growth you require, you won't have the facilities and we'll waste more money on developers. money going to money again	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14872	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Feels like at the moment service is not enough. Infrastructure not in place to support current demand	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14873	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	dont close schools or nurseries there are limited places to get children where you want them to go just now this would just cause more problems	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14874	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing the number of schools and other buildings is not the way in my opinion. A school or nursery is a place of safety for many children. Using the space and sharing it with other departments to carry out valuable work with service users to reduce isolation, develop skills and confidence is one way of supporting our most vulnerable children. How many Play Therapist do we employ? How much specialist counselling and support do we offer to families who have experienced trauma? Why do we not support our colleagues in NHS with this vastly under resourced essential area that is exhausted, and has huge waiting lists in the NHS. Our community care and support could be life saving. Why does a safe space for our residents have to be shaved or factored out to community and charity groups. We have a responsibility to care for our most vulnerable.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14875	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cutting services such as youth justice / school provision is detrimental to the children and young people as well as families. This is where investment needs to be made to reduce poverty / offending etc in the future for families.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14876	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You're allowing thousands of homes to be built, those families will need schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14877	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School closures in some areas are not an option as with more housing being built more schools are being filled to capacity. Closure of some schools will force children to attend overpopulated schools causing not only distress for many children but also a decline in grades and management due to oversight in busy classrooms. Teachers are struggling as it is with larger classes, if the pressure of more children is going to be added to current schools then a demand for more support in individual classes will increase thus costing more.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14878	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education shouldn't be seen as a bottom line, quality education that meets the needs of students is more possible with smaller class sizes, especially for additional support needs children.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14879	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools and nurseries would mean an increase in transportation costs to get pupils to these different schools. Larger class sizes wont help to raise attainment and will make teachers and school staff work harder to try to bring together children from different schools with different needs.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14880	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	With the amount of incomers that are moving to bathgate you will need the school and nursery	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14881	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools would never be a positive for our local community. It can alienate communities, put pressure on families to transport their children to schools which are further away which can be financially worrying and may be unachievable due to working patterns. School is a safe space for many young people - closing these spaces can be extremely damaging to the social and emotional wellbeing of learners and also to staff who could be facing a loss of jobs	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14882	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	hitting education is not the answer schools are already understaffed and over pressured with the amount of pupils that need one to one attention	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14883	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I disagree with the proposals on the previous page, again, the poorest will be hardest hit by them.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14884	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The school placings are rising and so should the schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14885	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Villages blending into one and other we are a population that's reducing year on year excluding immigrants so no.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14886	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How can you say to reduce school buildings when we physically require more schools. This is proven by Calderwood children not having future access to West Calder High	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14887	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Easy conclusions that people sent to alternative schools should be avoided. Funds should be directed to their destined cause in first instance. Like money collected from new developments should be used to serve the areas and people the money comes from. For example Calderwood contributions should be destined to the originally planned school creations and extensions. No moves to other areas should be considered as this equals to unfair treatment and breach of promises.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14888	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't think we should be	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14889	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Again this question bulks many different areas together. Some are more viable. Closing schools and asking parents to go to another school that may be further away could have a negative impact on some children's education. Already many parents struggle to get children to school on time.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14890	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If the schools are not at capacity this might allow staff to better serve the children, with more time for planning and more one to one teaching. Education is the best way to invest in the future!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14891	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Leave the schools alone, you have already closed numerous nursery's	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14892	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	do not agree with this. You can not keep taken schools and services away and dress it up that you are doing it for the best. WLC has failed year on year and by removing and reducing services is not the answer. Other ways of saving money is by being more efficient with what you have. WLC can not and I believe do not know what the majority of its staff and costs are spent on. If you do then you clearly have been in the job too long and have no other experience of how to manage your resources and expenditure.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14893	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools and nurseries is an excellent way to get everyone angry. There's too much identity tied up in schools, people want to be connected to a place.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14894	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No need to act	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14895	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Although I answered no some of the ideas cannot be determined as good or not with no indication of the saving? As for closing schools that seems crazy when we have a severe lack of provision for special need children in the area could we not convert part of these under capacity schools to suit them?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14896	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The children should not be disproportionately targeted, the older population has benefited greatly in the last 5 years.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14897	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are overcrowded in areas as it is without closure of other surroundings schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14898	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	They need to keep the school the same and add more support in them for children that have a disability or health condition there is some that can help them with any kind of support. We need to have more support throughout the school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14899	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We are tax paying citizens who contribute a hefty amount of money per month and you are proposing our children may not even be able to go to their local school. Not somewhere you should be looking to save money in my opinion, education is important and this will have an increased pressure on both them and their parents.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14900	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Putting more children into bigger schools takes away choice for parents and young people - we need a variety of types of schools to meet children's needs. The council should be focusing on maximising opportunities for pupils / learning where the classes are smaller, not taking it away.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14901	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Upheaval of children in school is seriously detrimental to them.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14902	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should not close unless they are in unfit buildings. Cut opening hours of the extra buildings or at least sections as I doubt certain ones are busy all day	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14903	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Kids cannot be expected to travel big distances to schools	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14904	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It's no good cutting basic services which put more pressure on other services. School / nursery services are investing in future of our workforce.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14905	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	as the places in west lothian are grown and houses are being built more and more the demand for schools are needed	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14906	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In my opinion this is short sighted there are currently a number of developments with new housing that will surely increase the need for the use of more buildings.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14907	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Whilst savings are paramount it could be questioned at what cost. Concerned re the number of new housing developments however with this, the clear lack of NHS provisions / bus routes / schools to accommodate the influx of new builds	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14908	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All the opposite. Look for alternatives to being more YOUNG FAMILIES into these areas. Closing school and nurseries would be the last nail in the coffin for these towns.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
14909	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If they are closing schools these have been the heart of the community for a number of years.	Education	3. The respondent advised that they had no comment to make.
14910	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Partly. Changes might be needed, but support for young people, care leavers, and families must stay local and accessible.	Education	3. The respondent advised that they had no comment to make.
14911	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I am unsure what the answer is to this question. With the influx of new houses being built all services need to be looked at	Education	3. The respondent advised that they had no comment to make.
14912	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Idk	Education	3. The respondent advised that they had no comment to make.
14913	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't know sorry.	Education	3. The respondent advised that they had no comment to make.
14914	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No suggestion	Education	3. The respondent advised that they had no comment to make.
14915	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	no	Education	3. The respondent advised that they had no comment to make.
14916	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	unsure	Education	3. The respondent advised that they had no comment to make.
14917	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't know	Education	3. The respondent advised that they had no comment to make.
14918	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	N / A	Education	3. The respondent advised that they had no comment to make.
14919	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No	Education	3. The respondent advised that they had no comment to make.
14920	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't have any	Education	3. The respondent advised that they had no comment to make.
14921	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No	Education	3. The respondent advised that they had no comment to make.
14922	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	no	Education	3. The respondent advised that they had no comment to make.
14923	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No	Education	3. The respondent advised that they had no comment to make.
14924	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	doesn't relate to me again	Education	3. The respondent advised that they had no comment to make.

Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No	Education	3. The respondent advised that they had no comment to make.
14933	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Idk tth	Education	3. The respondent advised that they had no comment to make.
14934	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No, but I just find it hard to understand why you think there is going to be a shortage of birth going forward	Education	3. The respondent advised that they had no comment to make.
14935	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Unfortunately no I don't have the answer. But my issue is that if education facilities and schools suffer financially. While school numbers and population is in decline. However in our small village our schools roll goes up and down yearly. And we are waiting for new houses to be built in the village and hopefully provide us with a new generation of young people.	Education	3. The respondent advised that they had no comment to make.
14936	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	no	Education	3. The respondent advised that they had no comment to make.
14937	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	N / A	Education	3. The respondent advised that they had no comment to make.
14938	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No	Education	3. The respondent advised that they had no comment to make.
14939	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	No	Education	3. The respondent advised that they had no comment to make.
14940	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If we have excess school places, where are they? New build estates continue so is that included in the figures? All these new homes but not more children? If children then have to travel to school, is transportation provided & if so, at what cost? Same with Nursey places. Figures & more information would need supplied - to attract people to West Lothian, to fill all New Build estates, education is a priority, as it is for existing population.	Education	4. The council is already doing this.
14941	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You must emulate business / corporate. Be agile and continue to be agile with change ie be ready to change again with mibimof impact. So if you get rid of a building, be prepared for the next move, such as if a building is needed again eg nursery or school. Demographic realities may not always following the modelling.	Education	4. The council is already doing this.
14942	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Providing more schools in newly built up areas	Education	4. The council is already doing this.
14943	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ensure children can be educated local to where they live within reason of class / school size	Education	4. The council is already doing this.
14944	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This needs to be looked at but so does higher capacity in schools and nurseries where new housing development are. Eg heartlands and closure of st Joseph nursery. Makes no sense	Education	4. The council is already doing this.
14945	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Before any closures to schools is made consideration must be given to the community impact this could have.	Education	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14946	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not compromise children's education	Education	4. The council is already doing this.
14947	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think an important consideration in future would be to ensure any future planning takes all requirements into any plans not just building houses	Education	4. The council is already doing this.
14948	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need schools in the up and coming areas and not where it suits councillors!. Where they are building houses - you are duty bound to built the infrastructure such as schools, dental hospitals, doctors surgeries	Education	4. The council is already doing this.
14949	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Long term planning in Education must be used otherwise there will be more cases like East Calder where houses were built and pupils may need to bypass Broxburn Academy and go to Winchburgh. Closing school buildings may save in one way but could result in an increase in buses needed etc.	Education	4. The council is already doing this.
14950	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Scottish Government figures show that, due to ongoing migration and high levels of house building, the population in West Lothian is set to continue rising. It's essential that the council plans ahead to ensure there are enough schools and nurseries to meet this future growth. Without proper investment in education and childcare facilities, local services could become overstretched, affecting families and children across the community.	Education	4. The council is already doing this.
14951	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Build schools where you know there will be an influx of families - ie calderwood in east Calder.	Education	4. The council is already doing this.
14952	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	.Schools should be built close to new housing developments but they should perhaps also have more space for GP / Dental Surgeries Community Centres for social activities etc.	Education	4. The council is already doing this.
14953	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There are so many new houses being built the need for schools and nurseries has increased not decreased. Lots of schools bursting at the seams.	Education	4. The council is already doing this.
14954	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I live in Mid Calder and have seen a huge intake of kids over the years so as well as looking to merge schools, you should also consider building more where needed	Education	4. The council is already doing this.
14955	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Need to see how many people are in a certain area and for every amount of people there should be a school / shops and other local amenities	Education	4. The council is already doing this.
14956	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Involve the local communities in these discussions. Could the buildings be used for other things when not in use. For example, school halls could be rented out to those doing fitness classes at the weekend.	Education	4. The council is already doing this.
14957	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographics should be accounted for however, the council is there to provide a service irrespective of quantity of need. appreciate that there is a balance. The closure of facilities has impacted a lot of individuals to their detriment	Education	4. The council is already doing this.
14958	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cant understand why there are more and more houses getting built 3 4 5 bedroom houses so they are for families I Definitely see a need for more schools when the families move in some schools are bursting at the seams ie East Calder west Calder Armadale	Education	4. The council is already doing this.
14959	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cost of maintaining schools balanced against using buses to transport children from a larger catchment area should be assessed	Education	4. The council is already doing this.
14960	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Forecasts of demographic growth need to take into account the housing stock in the county - many of the new homes are in fact for families, and it is quite possible that current occupants will choose to sell these houses to downsize in another council area, selling on to incoming families.	Education	4. The council is already doing this.
14961	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education is the most important service and vital to increase school / accommodation where needed for the local area, the facility has to be fit for purpose and not throwing money at accommodation that isnt.	Education	4. The council is already doing this.
14962	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ask the community	Education	4. The council is already doing this.
14963	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Any future schools should be shared campus to maximise efficiency.	Education	4. The council is already doing this.
14964	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Consideration of cost of transporting children to other education facilities needs to be considered when looking at making changes.	Education	4. The council is already doing this.
14965	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When looking at school size, class size and making E3. 4M savings you're talking about closing multiple small schools. Has this been factored into transport savings mentioned in a previous strand?	Education	4. The council is already doing this.
14966	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education financial problems are legendary and financiers need to consult with the teaching profession	Education	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14967	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	For schools and children any change to the school estate must be supported with high - quality Safe transport and breakfast clubs and after school clubs.	Education	4. The council is already doing this.
14968	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Also, not specific to West Lothian of course, I think there could be costs savings if support payments for individual nursery places were to be paid directly to the nurseries rather than to the parents with the expectation of it being handed on to the nurseries.	Education	4. The council is already doing this.
14969	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The expenditure breakdown shows that "schools and nurseries "are by far the largest area of expenditure. Across Scotland there has been a focus over the past decade or more to replace private sector nurseries with an increased council run nursery capacity. It would be interesting to see the extent of cost savings if this trend were to be reversed.	Education	4. The council is already doing this.
14970	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There may be a requirement to increase the size of some schools to meet catchment demand. Wouldn't this increase transport costs?	Education	4. The council is already doing this.
14971	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You should have annual or two - yearly catchment reviews for Primary and Secondary schools (S1 intake and new arrivals). Think carefully about what any changes would mean for transport costs. You may save money in closing a school but have to pay more to subsidise travel.	Education	4. The council is already doing this.
14972	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	House building areas are obviously going to need schools etc so concentrate on building them where needed or build more houses near low school occupancy	Education	4. The council is already doing this.
14973	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You need to consider the different areas in West Lothian when making decisions, because although you say the population of youngsters is declining that seems the opposite in my area, East Calder, where parents struggle to get children a place in the nearest nursery / school and we've recently been told there is no capacity for children in secondary education.	Education	4. The council is already doing this.
14974	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools need to make sure class sizes are not too large or will not be too large	Education	4. The council is already doing this.
14975	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Are there enough school places for children with special needs or are they all being corralled into mainstream schools.	Education	4. The council is already doing this.
14976	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ensure correct number of schools and facilities available to cope with the excessive house building	Education	4. The council is already doing this.
14977	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Pupils would need to have transportation available to alternative schools	Education	4. The council is already doing this.
14978	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Take a long term view with school premises, to foresee future needs if new housing developments are proposed in the next 5 - 15 years.	Education	4. The council is already doing this.
14979	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	People should have school facilities in areas they can get by public transport so consider this before cancelling some schools. If you do that you might have to get buses going more often during the day.	Education	4. The council is already doing this.
14980	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Where the demand for mainstream school places may be falling, the demand for provision to support children with ASN is increasing. If buildings are of a high quality then consideration should be given to creating additional provision either in a school or ERB for children.	Education	4. The council is already doing this.
14981	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As Chair of the Parent Council representing one of the most deprived areas in West Lothian, we understand that population changes require planning. However, we believe any decisions must prioritise children's access to high - quality education and support services, even where overall demand is declining. School (4a): Reductions should only occur where children can still safely access education locally. Travel, accessibility, and the needs of disadvantaged pupils must be carefully considered.	Education	4. The council is already doing this.
14982	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Better maintenance of school buildings. Some new schools are in areas that make no sense whilst others in busy areas require a lot of upgrading they don't receive or have poorly done, resulting in additional costs.	Education	4. The council is already doing this.
14983	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes, agree to all these. Also a suggestion - cut number of teachers if number of children falls. Maintain quality and current ratios, but make a massive saving. Decisions should be made for residents not staff.	Education	4. The council is already doing this.
14984	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School catchment areas should be reviewed with all the new builds throughout West Lothian. The amount of school buses having to drive pupils past high schools to get to one, seems strange. For example, Calderwood pupils drive past James Young to get to West Calder High School.	Education	4. The council is already doing this.
14985	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Building newer more efficient school facilities that can double up as community spaces eg one larger school in Dedridge rather than 4 schools within such a short radius.	Education	4. The council is already doing this.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
14986	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographics should be used to ensure provision adapts to current circumstances. At the same time there is a concern regarding the amount of increased housing being created without similarly increased provision of infrastructure and amenities.	Education	4. The council is already doing this.
14987	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Robust analysis of the data to ensure the correct decisions are taken. If schools are closed the council will have to consider how the children will get to school? Will the council need to spend more on buses / taxis?	Education	4. The council is already doing this.
14988	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The Council should absolutely plan for demographic changes, but it must do so in a way that protects existing communities rather than simply cutting or merging services. Reducing schools or family support facilities to "match demand" often ends up leaving smaller or more deprived areas under-served — which only widens inequality. West Lothian needs investment in community - level services that support both young families and the growing older population, not just statistical reshuffling. The issue isn't just numbers — it's communication, accessibility, and fairness. Before ~~decisions are taken about facilities, the Council should consult with residents and ensure that any plans to take buildings as demand is increased~~ increase school sizes but due to the amount of new builds that will be causing stress on the current schools when a development for a new build is happening the developers should have to contribute money to help with the local schools / GPs etc that will need more resources.	Education	4. The council is already doing this.
14990	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	However, closing specialist schools and putting children into mainstream schools is not getting it right for those children, the other children they are in school with or the teaching staff. It is putting added pressure on the adults and children alike. There should be a more robust assessment process to get the support each child requires.	Education	4. The council is already doing this.
14991	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Bigger schools and more facilities due to growing housing etc	Education	4. The council is already doing this.
14992	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The huge demand for asn support in mainstream schools needs to be addressed. Whatever savings can be made to balance this underresourced area should be priority.	Education	4. The council is already doing this.
14993	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Get developers of new housing to fund the new schools / renovation work before they start building houses as many schools are at capacity or over but the developments are only 1 mile away and parents are expecting children to go these schools e. g West Calder	Education	4. The council is already doing this.
14994	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Be agile and react to the environment. All successfully companies have this mentality.	Education	4. The council is already doing this.
14995	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Need to take into account numbers of new houses and not only current picture	Education	4. The council is already doing this.
14996	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Builders should be given conditions as part of agreement to build, ie build bigger school, doctors etc	Education	4. The council is already doing this.
14997	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This could be done more efficiently if you have a computer program which gathers info about births and deaths to help with how many school places may be needed and also care home spaces.	Education	4. The council is already doing this.
14998	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	.Are are schools fit for purpose? The rise of children in need of additional support is in part down to the size of schools and the manner we teach and support children. If we did this better our SEN cost would reduce. As before, we need expert advice and long term plans.	Education	4. The council is already doing this.
14999	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Future demographics are a difficult area to determine. The amount of housing that is being put up is geared to families - which could predict that there would be more need for early years and schooling in the future than less. Reacting to demographics over a short period of time could be more costly in the longterm. Utilising better the use of educational building to support the growing community and meet the needs of children and families including our children who have additional learning needs would be more beneficial.	Education	4. The council is already doing this.
15000	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it would be better to wait a few years and see if the trend continues. I think we need more details on what schools you would propose to close. The catchment and school location and how families would access the alternative school would dictate if it is feasible.	Education	4. The council is already doing this.
15001	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If the council are planning to build houses then perhaps look at these areas that would make use of the facilities ie schools etc otherwise further down the line there will be short fall of facilities in these areas.	Education	4. The council is already doing this.
15002	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	An holistic approach to closing school buildings need to be used. Future housing development opportunities must be factored in so that situations where pupils from East Calder may have to bypass Broxburn Academy and go to Winchburgh can be avoided. Shutting school buildings may also increase the need for council funded transport.	Education	4. The council is already doing this.
15003	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographics are always prone change and must be prepared to react accordingly. Drastic and non - reversible actions must be carefully considered.	Education	4. The council is already doing this.
15004	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make sure schools are all up to a standard before closing any as not all schools are equal and it would put the kids moved at a potential disadvantage. We pay our taxes and our kids shouldn't be footing the bill for years of poor spending in this country.	Education	4. The council is already doing this.
15005	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Our 2 local primary schools are significantly overrated subscribed. More houses are being built so more schools are needed to ensure each child gets the right education and care.	Education	4. The council is already doing this.
15006	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Savings in schools should be reinvested to improve education services and also target those with more needs	Education	4. The council is already doing this.

15007	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	spend responsible	Education	4. The council is already doing this.
15008	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	as the places in west lothian are grown and houses are being built more and more the demand for schools are needed	Education	4. The council is already doing this.
15009	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We must provide adequate placement for the young	Education	4. The council is already doing this.
15010	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	With the demographic changing and housing increasing the school system will need the places currently available. New schools will need to be built to accommodate new housing area under construction.	Education	4. The council is already doing this.
15011	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A proper community impact statement needs looking at - it seems accountants are just scoring lives through areas with no thought on long term damage for minimal savings if any the policy is skewed	Education	4. The council is already doing this.
15012	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We are still developing and need access to facilities	Education	4. The council is already doing this.
15013	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Any change in education needs to be examined by education professionals and potentially voted for by people on West Lothian. Children should not have to travel far away to go to school. In addition, house prices etc. are tied to this. In response to a high number of 65, we need to be attractive to young families. Cutting waste disposal jobs doesn't support young people moving here and getting a job. Cutting social services, children's justice, and nursing in our community in our current political and economic climate is wild. These are essential first points of contact for many people facing	Education	4. The council is already doing this.
15014	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is alot of new house building in west Lothian, therefore before closing schools a study should be completed as to demand for school age children, so as schools are not over capacity now and in the future	Education	4. The council is already doing this.
15015	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographic change matters, but any decisions must include equality impact checks. Reducing schools and nurseries could limit access for children with additional support needs and parents who struggle travelling distances due to disability or mental health issues. Adapt services, but protect those who rely on local support most.	Education	4. The council is already doing this.
15016	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Investment in education especially early years should be gone more priority rather than closure of facilities	Education	4. The council is already doing this.
15017	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It's your duty to provide ample service to children	Education	4. The council is already doing this.
15018	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All children should be given free school meals and a good nursery and school education no matter the cost.	Education	4. The council is already doing this.
15019	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think schools and children 's services should be retained.	Education	4. The council is already doing this.
15020	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As far as schools are concerned, young children should be within walking distance to a local school.	Education	4. The council is already doing this.
15021	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	However new school needs to be built in Craigshill	Education	4. The council is already doing this.
15022	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Improve existing building properly instead of building new.	Education	4. The council is already doing this.
15023	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School buildings in areas where young people are falling could be reviewed for alternative use to deliver accommodation for council staff and services in the medium term, so they can then be brought back into school use when demand pattern changes, as I do not believe the of the fall in local population will be certain. As urban centres in Glasgow and Edinburgh continue to develop, and new housing is continually being built, then this potentially will bring in families moving out of Glasgow and Edinburgh as commuting to these places of work is possible from West Lothian would bring in younger people, as will migration into Scotland. Consolidation of primary school and nursery sites that are close to each other geographically could be considered if numbers are indeed falling.	Education	4. The council is already doing this.
15024	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	leave children in the schools where their brothers and sisters are	Education	4. The council is already doing this.
15025	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When saving school buildings the resource should not be saved this should be shared over the remaina schools and things in place for those kids who may not be good with change supported. s	Education	4. The council is already doing this.
15026	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Build more school in areas they built to many homes in, if parents send children to further away schools then they have to get them there not anyone else	Education	4. The council is already doing this.

15027	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Hire out school facilities to local groups or businesses, when we are not using them, eg for business seminars or conferences.	Education	4. The council is already doing this.
15028	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	House builders need to be held accountable for providing facilities for communities. No point putting up lots of housing when families can't get access to some local services. Health care etc.	Education	4. The council is already doing this.
15029	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Fix things right the first time stop patching stuff that then just becomes a bigger problem When building schools and homes think about the capacity that school would need U have rebuilt 2 special needs schools but the capacity for them does not cover the needs of the kids in the area so many are being failed and left to struggle in mainstream	Education	4. The council is already doing this.
15030	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There should be more medical practices, schools etc to compensate the amount of new houses being built in West Lothian	Education	4. The council is already doing this.
15031	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Enforce planning consent conditions on new developments and ensure that provision of schools and public services are delivered by developers.	Education	4. The council is already doing this.
15032	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	People pay enough already. How about the councillors hand over their payrise from the Scottish government which was a 34 % payrise. 3 to 7 k extra a year. I @ @!	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15033	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close all exclusively Faith based schools & facilities & consolidate the education estate.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15034	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In terms of schools - we currently still have non denominational and denominational schools. In this day and age, this doesn't feel necessary. Could this be a consideration for having only non denominational school where all can attend and apply for.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15035	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should provide education for all pupils within the catchment, religious education could either be flexible within the school or the duty of the family. It would be interesting to have a cost comparison. In effect this would also address part of the problem providing transport.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15036	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Faith schools and non - denominational schools should merge. Any division is not okay.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15037	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	vi personally don't understand why there are non dom and Catholic schools. Why can't children all attend one school religion should not come into it.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15038	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All school should be non - denominational and provision could be made for religious observation required by law for those of RC denomination.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15039	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't agree with non denominational / denominational schools - most towns have one of each at primary level yet you could already be saving millions by streamlining this - why has this not been addressed before.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15040	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do away with RC schools and make all schools public.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15041	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make education secular and do away with single faith schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15042	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	reduce the school estate by integrating denominational and non - denominational schools - follow the Northern Ireland model to allow for religious instruction where appropriate	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15043	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Get rid of all RC schools would save money. Elsewhere in Scotland there is no provision for separate religious schooling. This should be a private option for parents wishing to pay to educate their children in this segregated manner	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15044	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close all exclusively Faith based schools & consolidate the education estate as non - denominational.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15045	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	End all public funding for separate religion based schools and adopt wholly secular non religious schooling.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15046	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The biggest expense in the education budget is teachers and buildings and transport of pupils. Pupils can learn on - line from home, as they did during lockdown. Pupils need to learn good english and basic computer skills first. They have these skills by primary 5. All high schools are now totally unnecessary. Primary years 6 and 7 should be optional attendance, using a single room and cheap support worker running an internet cafe for primary 6 / 7, for pupils who do not wish to learn from home. During lockdown about 10 % of pupils decided to come to school. I expect a similar amount of year 6 / 7 would attend. High schools would no longer exist.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.

15047	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should only fund non - denominational education.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15048	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close denominational schools. They divide communities and I fundamentally feel there should be no place for any faith school.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15049	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close all religious schools on savings grounds and social barriers grounds.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15050	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Merge Catholic and non Catholic schools. No need to have both and integration would be good for society. Close schools with low rolls and merge	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15051	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should consider if providing denominational schools is appropriate in this day and age and consider the number of children in these schools who are actually practicing Catholics. Providing suitable Religious Education in non denominational schools would	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15052	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	but why have you built two new schools in Winchburgh... right next to each other???? we don't need religious schools! teaching children to respect others and then split them up?	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15053	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should move with the times and end apartheid schooling. Schools are for education, not indoctrination and eight digit savings could be made by West Lothian Council providing education independent of religious schools. Its a conversation that must be had.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15054	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop building religious ie Catholic schools & encourage non denominational schooling. Have departments within the schools to learn religion. This would solve alot of issues & keep kids inclusive.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15055	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There should be schools for everybody to attend instead of having religious schools causes devision and costs more than combined	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15056	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Having two schools side by side in same town but with different denominations is a huge cost. You have all the building and staff costs x 2. There is no need to continue with separate schools, so many issues around separate schools mainly sectarianism. Don't build any more new catholic schools. Other areas combined the two denominations in same building which cut costs of building and some staff.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15057	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop providing opportunities for segregating children according to religion.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15058	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop RC schools make all kids of all religious believes go to same school	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15059	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Abolish Denominational Schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15060	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All schools should be amalgamated for children's learning we should not have religious schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15061	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close the catholic schools and have everything non - denominational with a good mix of religious and moral studies. Catholic schools have lower class sizes but the same building sizes and in this day and age there shouldn't be any separation in what is a Christian country.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15062	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make schools completely inclusive and abolish segregated schools including solely Catholic schools.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15063	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The separate school system that exists in Scotland, ie, provision of catholic schools and non - denominational schools will inevitably cost more. Its a no brainer. Touchy subject though and no education authority in Scotland will even mention it. Solution is all children to one school and reduce the number of buildings required. This would also reduce the cost of bussing kids to schools from outlying areas. This probably looks over - simplified but there isn't enough room to expand. Not aware of the legislation governing this but as for nursery provision, is it really the council's responsibility to provide for pre - school childcare? People should be responsible for their own children, although that's saying something in this day and age? It appears to me that its everybody else's responsibility? Tough choices? Then make them.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15064	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	remove separate religious schools and remove the need to bus pupils if schools are funded by the council they should not be religious thats for churches not schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15065	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The historic rationale for the Catholic school system in Scotland no longer exists. Think radically and make major changes to this, then rationalise how the existing school estate meets needs as they currently stand.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.

15066	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Bring in the 40 % rule for kids so they go to school 3 days and do home school 2 days a week and then cutting down on heating Electrical Bills within the school also this would cut down on road traffic and the roads would have also have less repair requirements at the schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15067	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Integration of primary schools to non denomination school	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15068	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why do we still have catholic and non - denomination schools? Surely it would be more cost effective to combine both. May also reduce religious divide, etc. If parents wish to send children to schools based on religious preference they should pay for it.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15069	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	As stated earlier abolish sectarian schooling and parents to pay when kids choose not to go to school in their respective town	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15070	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Have non religious schools allowing pupils to concentrate on educational studies.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15071	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Remove dual education provision in favour of single non - denomination provision.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15072	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Fund schools properly Stop easing money on breakfast clubs and make parents be parents	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15073	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If there are too many schools then reduce them and consider integrating different religion only schools to tackle divisions in the community	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15074	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Charge parents extra for schools and nurseries that their kids attend. If they decide to have kids they should be willing to pay towards those costs.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15075	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Abolish Roman Catholic schools as Apartheid schooling must cost millions	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15076	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Maybe integration of all schools. This nonsense of separate religious schools is backwards. You would save a fortune. Broxburn alone has 3 primary schools. Build one big school	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15077	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make all schools non denominational. Schools should not have religion governing educational rights.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15078	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	And phase out or close schools with strong religious ties incl names. One Scotland!	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15079	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There should be one non denominational school for all pupils.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15080	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Please stop providing educational facilities on religious grounds. Although I do not know the exact impact in financial terms, I am sure that there must be savings to be made by having one larger facility, with attendant peripheral costs, than two of everything.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15081	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Building separate denominational schools is not feasible anymore and in actual fact just causes division. Save money by sending all kids to school together.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15082	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools could merge. Do we really need catholic / non denominational schools in this day and age. As the catholic church is struggling to get children to go every Sunday that would make even more savings	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15083	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council have a very stringent and robust "equality and diversity" policy, which is annually reviewed by all operatives by way of e - learning. Bearing this in mind - is now the time for children to be taught at their local school and stop squandering funds on denominational and non - denominational. (We have Friday's and Sundays for religious teaching in a place of worship.)	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15084	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If all the children were sent to the correct primary school as appropriate to their address Some children go to other primary schools outwith where they actually live	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15085	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not to have separate schools for pupils ie Roman Catholic schools.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15086	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Get catholic primaries paid for by the Catholic Church. There is no reason why we need 2 primaries in every town or that we should pay for it Combine roadworks. There are numerous examples where there temp lights and diversions in the same place in a short period of time	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.

15087	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	More people in the area will generate more income through council tax and money from Govt. Think how to enhance nit reduce, use housing development money better to improve infrastructure - why do we have religious schools for example.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15088	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why are there still catholic schools when most of the kids who attend them aren't catholic and they are so outdated and don't teach the modern curriculum and sex education. Why don't the council look at combining schools rather than segregation. Could save you money.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15089	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4b) Don't understand this it a travesty in this day and age that west lothian still has segregated schools. Merging schools to make them all non - denominational would bring about huge savings	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15090	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I was appalled to see two high schools built, side by side, in Winchburgh recently. One is Catholic, the other is not. What a waste of government funds! I think it is abhorrent that we continue to pay for schools that separate children rather than unite them. We should not be funding any denominational schools... anywhere! This could be a huge savings! Why is it still going on? And of course, it is simply good policy to continually review what educational services are necessary for the demographics in an area. Close down redundant and underused buildings... and stop providing any services that separate and divide children and young people.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15091	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a certainly, amalgamate schools where appropriate (Catholic and non - denominational)	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15092	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	a / Yes, close RC schools.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15093	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools should be merged where possible, as we are a "multi faith" society, there is no need to have separate schools according to religion.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15094	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Join catholic and non denominational schools. Why build 2 side by side	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15095	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Join the 21st century and have all children attend the the same school	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15096	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop having seperate Catholic Schools they should be non denomination if learning is so diffarent it should be provided by the churches	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15097	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There should be a divide in schools by religion - schools should be for all.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15098	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Abolish Denominational Schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15099	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Have schools for all religious people not separate schools, kids are at school to learn, religion can be done at home, at week mends	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15100	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think we could combine schools and take away the Catholic and protestant school and make it one school for all but I don't think larger class sizes will work	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15101	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	For starters we don't need separate catholic & Protestant schools. Religion has no place now. A fortune could be saved by having one kind of school. Children can go to their catchment school reducing need for taxis	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15102	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You need to be more stricter with boundaries off who gets into school	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15103	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children over 16 who are still in school could study part week at home. All pupils should be able to manage with just one break during the day for lunch. Schools would close earlier saving on energy costs. The school day is short enough with breaks.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15104	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop the ridiculous and continual refurb of st kentigerns	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15105	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think schooling and education is extremely important to allow our children receive decent academic qualifications to allow for more meaningful job opportunities plus with the ageing population is expected to rise then this also needs to be catered for so i feel in today's society in my opinion non denominational and denominational schools should be integrated plus looking into the use of community resources to maintain the ageing population maintaining their care needs / independence at home	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15106	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not build catholic schools	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.

15107	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Considering WLC have just built 2 separate secondary schools in winchburgh this is not a viable option for anyone - our schools have the collective capacity to accommodate all of the young people but due to localised pressures we don't do well at maximising the spaces. Catholic pupils are bussed to catholic schools and should really just attend their local school - the amount of money on transport must be enormous	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15108	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Provide denominational schools where these are well used by the community, but why do we pay to transport non - baptised pupils to denominational schools?	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15109	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Abolish sectarian schooling and save money on everyone going to the same school and massive transport savings.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15110	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	should be done by independant body not the council	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15111	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Add additional spaces to high schools for primary schools rather than build new or renovate old primary schools.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15112	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Provide a high school for Calderwood and east Calder	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15113	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Offer the option to pay parents to home school there children rather than send them to over populated schools.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15114	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools that aren't at vagial shouldn't be closed but either part or fully used for outside commercial purposes such as private individuals wishing to run classes who don't have facilities. They can be charged a fee to do so that will cover three costs of running the building and repairs. This would keep the building open so if there is a population spike the schools can be tempted up again without building. In the meantime groups would benefit from locally facilities this adhering to 20 minute neighbourhood rules.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15115	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We must have schools within West Lothian that are close to neighbouring Local Authorities Education facilities, it would be in everyone's interest to widen the scope of this exercise and start working with other local authorities to see if joint approach would save money.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15116	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Convert "unnneeded" schools into living quarters for elderly folks or other folks who need help with housing. Again, charge £10 or so a month or whatever seems logical. But make sure the buildings are safe and energy efficient.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15117	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I believe schools should be open seven till seven with a mixture of teachers and after school staff so that families can get to work and know their children are safe and supported. This can also mitigate the effects of poverty by providing support for homework and a meal. The service could be means tested for families who have money pay and those on benefits or with free school meals get it for free. Keeping the children together, also supports integration of communities.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15118	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Can the school buildings be diversified to provide other services, while the school's size reduces? Ensuring the kids have a school closely to go to, but also there are facilities like a warm space, a community cafe for older people - schools allow for different entrances and uses of different rooms. For example, I have been to a school to donate blood, while the kids were in another part of the school. This can generate income as well as keeping the schools open.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15119	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Some schools appear to be full, others not so much, consider larger school campuses for the full area from nursery through to secondary school would benefit the full community in the long run	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15120	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Another yes and no question. I agree with some aspects, but as the amount of family homes being built in all areas of West Lothian there is real concern that the schools, nurseries and C. P. practices will be overloaded. You could utilise some of the educational spaces for the most vulnerable people within our community - offering additional support for children and young people, as well as the elderly, without closing or mothballing sites. We need to think out of the box and work smarter to support our most vulnerable children, families and elderly.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15121	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Mothball schools not sell. Possibly do shower term lets to allow to be used by school at later date if needed quickly.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15122	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School buildings are under used, from approx 4pm daily / 12pm on Friday / school holidays etc the buildings are closed when they could be used for accommodation to community groups such as cadets / scouts / reading clubs / youth activities, a place to deliver such things as first aid classes / benefit advice surgeries. A peppercorn rent could be charged. This would encourage groups and charities to make use of the building, give youth groups a 'home' and offering other benefits such as keeping youngsters off the streets, bringing communities together for example. I understand that schools can be rented out presently but in general it's often for a one - off event. I've been involved with charitable youth groups who meet regularly (twice a week in some cases) and trying source accommodation within affordable means is a huge barrier.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15123	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think the Council should think more creatively about the use of buildings and the delivery of services. Buildings could be used for multiple uses involving better mixing of different age groups e.g. it has been shown that introducing young children into areas used for disabled elderly has benefits for both groups.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15124	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Instead of closing or reducing the number of school buildings, use spare classrooms and other areas for adult education, crèches, or educational facilities (life long learning) for the elderly. Retirees could also volunteer in those buildings to help out looking after toddlers / read stories / help them play instruments / work with plants or nature, etc., using their own skills and continuing to be involved in society on a voluntary basis.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15125	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Is there scope for combining primary and secondary onto one site saving building and costs. If not then is there scope to build new schools which cater for the need of all ages and communities.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15126	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Avoid closing schools - give them more capacity to be used as community areas aimed at over 65's or any other demographic as appropriate. Evening classes for over 65's	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15127	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Guess you have to adapt facilities in terms of local change. e.g. a small surplus primary schools could be sold or developed as a a multi - use centre for older people or persons with special needs.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15128	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why do we have as many primary schools? The ones that cost the most to maintain - the older ones, could be demolished and have one larger school for the area. For example have one primary school for Livingston North and one in Livingston South, rather than the 11 that we currently have. The land that these schools were on could be used for housing or sold off for private development.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15129	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If a school is no longer required the building could be repurposed. Not knocked down and used for growing grass. ie broxburn swimming pool	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15130	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Transfer the unused buildings such as nurseries and schools that are likely to close into another asset under building services to allow these empty properties to be utilised for homeless accommodation which would be a prevention for the need for hotel accommodation which would save alot of money and also generate money when it's put to better use.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15131	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are busy. Try opening another special needs school to help reduce class numbers to 6 again as 8 isn't manageable or safe	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15132	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Instead of closing schools we should be looking to reduce class sizes and make use of space. This would reduce the inability of school to meet the more complex needs of many young children. Smaller class sizes would massively benefit the increasing number of neurodiverse children and there forever reduce pressure and difficulties for families and services therefore saving massive amounts of money.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15133	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	However new school needs to be built in Craigshill	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15134	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education are no longer able to provide sole education. I believe that each school should have a social worker based within the school and is able to be the bridge between social work and education as a way of reducing demands. I believe the Children and Families Duty team should be reviewed and potentially disbanded to allow this workload and staff to be put back into practice teams to reduce the management structure.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15135	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Convert the schools no longer needed to places where older people can visit for friendship and support. BEFORE they need specialised daycare or other healthcare assistance. With friendly 'walk in 'places that older people can visit - provide GREAT transport links to all local areas - and run the facilities like a business, and not like an institutional facility'. Visitors should pay to be there - either by pay - as - you - go facilities or maybe as a monthly subscription - they should need to have further benefits as older people will probably need less	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15136	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It would be beneficial especially for overstretched teachers to remove disruptive and some pupils with extreme learning difficulties to a special school and thus allow class sizes to increase	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
15137	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should insure that in school cuts speciality schools like religious should not face them as they offer something different which is important to many people in the local community	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
15138	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Have schools focus on Maths, Science, English etc and stop spending resources on emotional well being, the government is not our mum.	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
15139	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ditch subsidies, ditch DEI roles, stop wasting money on rights respecting schools (it's box ticking if ever there was).	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
15140	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Instead of building non dom and Catholic schools build one school	Education	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.
15141	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council could try a new school timetable where the school day is slightly longer from Monday to Thursday. This would make sure children still get their full 25 hours of learning each week with coaches or specialist staff support with activities. For parents, less childcare would be needed Mon - Thu which could be u, children would stay at home and take part in remote learning activities, led by central education/creative and independent tasks that help them learn in different ways. While pupils are learning from home, teachers would use Fridays to work together, plan lessons, assess pupils' work, and share ideas. This change could save money by reducing the need to pay for extra staff to cover teachers' planning time during the week. It would also give teachers more time to prepare high - quality lessons, which could improve learning for pupils. Having protected time for planning could also help teachers feel less stressed, which might lead to fewer absences and less money spent on supply	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15142	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	looking at the likes of Breich school - low numbers and could potentially have its purpose changed to a medium risk / ASN school / behavioural needs school - the number of ASN kids within WL schools in this location could provide a better pathway for their education instead of main stream with multiple 1: 1 teachers	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15143	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Fully agree, I'd go further an share hard to recruit teachers across multiple areas using technology to deliver lessons	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15144	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Looking at the 1140 hours in early years. Do children need to be in nursery at 7. 47am until 6. 14pm where parents aren't working? Can there be a charge outwith school hours? After school clubs, etc. Nursery settings during the summer months are quieter too. Why not look at having a summer club basis set at one nursery within a cluster, instead of perhaps over three nurseries. Save money with staffing, opening of premises, electricity, etc.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15145	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You could stop spending money on brand new schools that are not fit for purpose. They may be architecturally pretty and give a 'Wow' factor but they certainly do not fit the 'Inclusive Practice' model which teachers are working so hard to establish. If you encouraged architects to consult with teaching staff, or even read the CIPCLE framework, then you may be able to save money. As you would not have to alter them at a later date e.g. add doors to classrooms, provide staff to support dysregulated learners. If the new schools were built with inclusion in mind, space could be devoted to rooms rather than the auditoriums of the Heller up design (Fantastic for acoustics - but not if you are working in the classroom above. The noise amplification is horrific when you are trying to teach, concentrate to learn). Learners would be able to cope with the reduced noise levels.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15146	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make ELC settings attached to schools term time	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15147	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	need to look at increasing the number of children that can attend additional needs schools	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15148	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Get rid of all school that have less than 50 or 100 pupils and amalgamate into larger school, however this may require additional School buses to be deployed to ensure safe travel to other areas for pupils.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15149	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children should attend their local school and where new housing developments are not close to schools then the developers / builders should pay for transport for a period of say 5 years if children require school transport.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15150	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When building or extending school buildings, get housing developers to contribute to any local changes required. Build in facilities for the local community in order for these school buildings to be multi - functional, i.e. gyms, community meeting rooms, function halls, evening classes.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15151	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But schools don't need to close and can be further used as further education part college or part of the school can be closed the other part is a social group for older people. Let's think out the box.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15152	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	For older populations, services need to be strengthened, especially social care, community support, and accessible transport. Rather than cutting buildings or services outright, the Council could look at sharing spaces between age groups — for example, using school facilities for community activities or adult learning in the evenings. This would make better use of existing spaces and encourage intergenerational connections while keeping costs under control.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15153	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools that aren't going to reach capacity why not rent out some rooms for meetings for the community at a reasonable price and have meeting rooms for bigger events where the charges are higher.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15154	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Smaller school to be shut and children bused to nearer schools	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15155	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	- Letting School Spaces Rent out halls, classrooms, or sports facilities to community groups during evenings or weekends. - Shared Specialist Spaces For example, one school in a cluster could host a sensory room or nurture base used by others.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15156	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School buildings should be far more multifaceted. See the new Currie High School as an example. As a general principle, the more functions a building performs the more cost efficient / income generating it becomes.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15157	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Children's education and social services should merge and updated to be more efficient	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15158	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Working in early years 52 settings, I feel that for the council saving money, going forward would be better a term time model across the board and also better for staff mental health and well being however there needs to be a balance with this, the staff need to maintain their high wage or receive slight increase Or some kind of benefit	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15159	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	if there was two small schools put them together	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15160	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	get rid of less used schools to save money, add extensions instead of building a whole new school.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15161	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If this statement is true - about an over supply of schools when compared to the demand for places. Show the public the numbers and let them be part of the consultation maybe speak to parents who would agree to move children to keep them all together rather than coming up with proposals that parents panic about	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15162	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shared Specialist Spaces For example, one school in a cluster could host a sensory room or nurture base used by others.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15163	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Areas with oversubscription of schools should be reduced and resources channelled into expanding areas with under provision.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15164	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Rent schools not currently used.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15165	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Look at the use of temporary classroom buildings on already existing sites. These can be removed if you need less teaching space, moved to a different site to accommodate changing demographics and added to if necessary. These buildings are easy maintained and offer a much more flexible approach for changing conditions. Can you also look at changing the council offices and accommodating staff in unused areas of other buildings. WFH options could be extended.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15166	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make sure schools that are closed that some teachers are moved to other schools to help with the increase of kids in classes now	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15167	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Smaller schools should be incorporated into the larger schools by transporting pupils from smaller villages.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15168	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Dormant buildings and buildings unfit for purpose should be closed, but not to the detriment of it's users. Service users must be accommodated elsewhere through consultation. Early years provision needs an intervention to maintain the quality of WLC provision. The current model is hemorrhaging money and not facilitated by working parents for the purpose it was created. We are in partnership with private providers, these settings should be utilised for out of school hour requirements. School buildings should be closed fully over the school holidays.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15169	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Cost of maintaining schools balanced against using buses to transport children from a larger catchment area should be assessed	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15170	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Running lots of small schools in small towns / villages is surely not sustainable. It would make more sense to close half - filled schools and accommodate the children nearby, thus creating one larger establishment. Transport could be provided to the nearest school and this would surely be cheaper than staffing / resourcing / maintaining half empty buildings. I understand that I'm not affected by this decision and maybe would think differently if I had a child attending a village school, but common - sense dictates that we can't afford to continue with the way things are at present.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15171	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing education facilities permanis not the answer. This only exacerbates the education issues which are already a serious problem in the area, creating a disconnect between communities. Again a rationalisation of property should be done carefully - in many cases older school buildings cost far more to run, are inflexible and could be sold to generate income. These should be replaced with modern sustainable community schools which could offer other chargeable services to the public such as swimming pools, sports classes etc; providing a way of cutting costs whilst improving the availability of services to the public	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15172	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should not sell of unwanted schools as these are an asset, instead they should be repurposed as offices or workshops and let out through a third party thus generating a source of revenue without losing the assets.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15173	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	More ASN provisions or new ASN school	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15174	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When you're talking about Schools closing have the impacts if children travelling 30 to 40 mins to and from school been looked at? What about the transport cost? Also how has the population increase, generally into larger houses not significantly benefited the council?	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15175	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If a family reside in close proximity to a particular school why should they have to attend another school which could be potentially a far greater distance away. The primary school closest to where I stay has already been extended twice in the past 15 years. Poor planning from the outset as the number of houses being built in the area concerned already should have highlighted clearly that the school was never going to be big enough!	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15176	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Contracts should be written for builders to build the buildings as services are needed. Not a contribution. I see calderwood kids are getting bussed out of town to west Calder currently but proposed to move to James young or winchburgh as the cash offered is no longer enough to build the school. Removing the gambling element from the contract is key to getting services in place rather than contributing to them	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15177	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ensure any cuts in local education provision aren't just meeting short term demographic trends. Encourage new build developments in areas where there is school capacity rather than build yet more schools and nurseries.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15178	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop allowing developers to develop when the council can not fund the services I. Get councillors with a back bone to stand up for residents instead of being in governments pockets	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15179	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Money saved should be reinvested in providing the services needed for the new demographic.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15180	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Waste of money building so many schools in Winchburgh when extensions could have been made to schools in surrounding areas. Likewise with the extension of west Calder high school to now not meet the needs of the east Calder capacity. A high should be built in east Calder as it was planned. Social work is a joke, they need more powers to intervene earlier.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15181	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I also disagree that communities should have schooling separated as is proposed for Calderwood / East Calder Primary. I believe these two schools should both feed to the same high school.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15182	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Instead of reducing the facilities, invest in intelligence of teachers as they don't have common knowledge about the world	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15183	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Increase support to existing schools / nursery etc	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15184	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The challenge of reducing schools is increasing class sizes which has its own issues, particularly with the assumptions of mainstream. The rising challenges around behaviour will make larger classes more problematic. I would also question whether staffing would also be re - distributed to reduce the impact of rising pupil numbers.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15185	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I don't have children, but I agree with the previous comment; however, you mustn't lose sight of Scottish ways of life in moving to meet the diversity.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15186	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools will be fought all the way even when it's obviously sensible - see how long it took Falkirk to close Blackness	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15187	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Also would change catchment and look at closing poor performing schools. Nurseries should be reviewed yearly and demand assessed for pending intake, if not required as a full class that year then you need to consider if it should remain or catchment should be adjusted	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15188	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Find it hard to believe given the number of houses being built in West Lothian that the projected number of school children here is to fall. What are the council doing to attract more families to come to West Lothian? The proposed possible moving the high school catchment area of Calderwood to Winchburgh is just plain crazy. The road structure between the two just isn't up to it. If that went ahead then it would be an accident waiting to happen. In Calderwood for example with every 300 houses built and bearing in mind the size and value of these new builds I reckon this would ~~create the need for a second high school in Calderwood to complete the second round of expansion with the effect of 2 new but double this due to more~~ ~~Yen close Winburn high school it's a disgusting place and the kids need to go to a different school.~~	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15189	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.		Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15190	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Calderwood requires the high school it was promised or the money spent developing West Calder to be returned for its own development of a high school if the pre - proposal progresses. The Council has a lot to be accountable for given the decisions taken to date and the community in Calderwood will flit against this pre - proposal.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15191	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council has a duty to encourage people to have children in my opinion. It is for the benefit of the entire community as it ensures that we do in fact have future. After all, there wouldn't be much point in a council existing if they had no one to tax or administer services for. Additionally I think closing schools is a little too dystopian for my tastes. I've read Children of Men.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15192	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Interesting how once again, schools impacted by choices of council.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15193	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Prioritise the east Calder high school that has been promised if you've taken money for this instead of using money to extend other schools as the growing population is going to need this	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15194	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	are you kidding? you build 2 schools in winchburgh - utterly pointless	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15195	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Over the past few years there seems to have been an emphasis on building and expanding schools. With one in particular being expanded after being built only 5 years ago. Do we really need to do this at the current scale. We have nice shiny new top class schools across the region now and then our roads, pavements and general infrastructure are anything but top class. Quite dismal in some of the towns and villages due to lack of maintenance and investment	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15196	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In today's world sadly you need to spend money to gain / save money. All the highlighted points are good validated ones but my main focus right now is the future of my daughter's education. The uncertainty of where my daughters will go for high school is appalling	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15197	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Unsure how to save money but there is a need for more places at schools such as Pinewood, Cedarbank etc. kids are put in mainstream schools who shouldn't be, this is interrupting both their learning and the learning of other kids within the class	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15198	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I wonder why the council does not adjust the catchment area of West Calder High school to eliminate the need to bus hundreds of young people from Mid Calder to West Calder every day. Surely this isn't an effective use of resources to hire all these buses, not to forget the environmental impact too.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15199	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Claiming to "maintain" the quality of learning is far short of what you should be looking at. The Education system is terrible, and I have taken my child out of the system as it cannot handle supporting any child that has even a sniff of additional support requirements.xxxxxxx. The majority of council tax I pay goes to educational services, I believe. This is a complete area of failure, on an "outstanding" level!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15200	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	They should respond but are seemingly too stupid to do so - schools are small and not fit for purpose, false promises again and again, staff more is rock bottom with an employer who clearly doesn't care about them, no facilities for young people let alone those with additional needs!!!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15201	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think it's a difficult balancing act between changes in demographic to the buildings you need. You might close a building tomorrow but need that same building in 1 - 2 years time The council can't afford to keep closing and selling buildings the building and buying them years later	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15202	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council should react to change but in ways to encourage young families to stay. Smaller class sizes equal better education and more support for individuals. Or better provision for those children who have difficulties accessing mainstream education or participating in a mainstream environment. Encourage families to be a part of council that supports needs as well as provides an excellent education so people want to live, work and pay to be in the authority.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15203	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Is stats available on school 's population in West Lothian? I've heard of many schools being oversubscribed so I would be very keen to see which schools are oversupplied	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15204	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Build a high school in East Calder. Stop shifting children around!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15205	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Difficult for a lay person to comment on this since we do not have access to demographic data.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15206	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	But not at the behest of older people services	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15207	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Shut the schools as this move might finally convince the spineless people of West Lothian to overthrow the council once and for all	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15208	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Assist, financially or by the provision of buildings, local private sector organisations / clubs / churches in providing social support activities.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15209	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Stop wasting money on transporting kids to other areas outside West Lothian. By reshaping services around changing demographics — focusing on prevention, smarter use of resources, and sustainable planning — the Council can ensure high - quality, responsive, and financially responsible services for all residents, both now and in the future.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15210	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Clear understanding required of area 's specific needs	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15211	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	For a start a High School to cope with all the new housing around East Calder and possibly shut others down elsewhere which have falling numbers. Save busing everyone around West Lothian	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15212	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Controversial, however closing schools where	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15213	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I think the idea that all kids can access a school within a reasonable walking distance is ok but unfortunately this is also being abused	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15214	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Make sure you get this right though!!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15215	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I stay in addwell and I know of people who live in livingston who bring tier children to the local primary school simply because their parents still live in addiewell and use thier address to facilitate this. Again with west calder high school people from other areas of west lothian sending their children here instead of the local high school to them. Also meaning increased traffic to areas to bring them to and from the school. With regards to my first point, the council should visit the given addresses instead of just accepting they live there.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15216	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Implement a minimum facility charter and work from there	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15217	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It would have to be borne in mind that children should have a safe walking route as a means to accessing school each day. Closing schools could not be feasible if children then had to be provided with transport to school which has it 's own financial cost.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15218	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Forecasts would need to be accurate to make such a bold step of closing schools and with continuous housebuilding in West Lothian getting the number of school places, Doctors, Dentists, infrastructure, public services right is crucial.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15219	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You really need to provide East Calder with a High School. It creates so much traffic. Private investment, link with Heriot - Watt perhaps. Make WL good at something related to skills for tomorrow...transform your schools into talent pipelines where some can focus on STEM, some Humanities and some on Arts. West Calder is a poorly run school, not sure why it is getting so much investment when population growth will likely be in east of the council. Be bold, instead of looking to SG for money...they can't borrow more. The private sector can, so be bold and try.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15220	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Especially accumulate schools into 'education villages '. This schools should also be used as partnership centres (e. g. - West Calder Academy).	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15221	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Do not have shared head teachers across two primary schools! It does not work! Every school needs their own full time head teacher.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15222	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The over 65 population is one of the wealthiest age groups in the UK, so WLC should utilise this growing population as a source of income. Do not allow families to put elder members into care then use their now - empty house for profit. Given the number of new schools that have opened in recent years, it seems wasteful to close any. Surely this demographic change could have been predicted before now? Perhaps save some money by sacking the person who approved the new schools?	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15223	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There is certainly NO oversupply of school on my area but there is continuous building new houses and less of green spaces. Stop building new houses and upgrade existing bulids	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15224	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce school overfilling, enhance elderly support and manage resources efficiently	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15225	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Must incorporate long term planning, not short - term cuts. An example of this is spending East Calder Developer funds on West Calder extension, then saying the school is at capacity and East Calder kids have to go to JYHS or Winchburgh. Criminal and ridiculous.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

15226	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	yes pls create high school in east calder	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15227	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Better and more improved extracurricular sources for schools	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15228	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Changing the geographical catchment zones is a step towards saving, however it still makes no sense that a child in Seafield would go to Bathgate academy without question yet a child in Windyknowe would be forced out to Armadale (with increasing pressure on the school there with so many new houses planned for that area) it makes no sense, the public transport to that school is not feasible for bus timings etc and children requiring private transport are then travelling through a whole town which is not their own. It makes no sense and doesn't give these children a sense of community spirit or belonging to either. So they go to Bathgate galaday from Windyknowe yet go to Armadale from Armadale Academy? Where do they really belong? A sense of not belonging is sure.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15229	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	When stating using transport and Taxi 's to take children to and from school, it would help if children / families were located near the school they attend rather than moving people to a different location then ferrying children to schools across West Lothian. I understand some people are in temporary accommodation but placing children in schools even in the short term near their home would provide massive savings. Children are resilient in most cases and it is not cost effective to be ferrying children in Taxi 's etc to another school outwith the area they are currently living.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15230	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	More support staff in schools	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15231	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Why are you building so many schools then if the birth rate is falling and expected to further reduce, especially when they are built with such a short life span.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15232	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools - even areas with low numbers in the school are sometimes areas where the school is most needed. Impact on vulnerable communities People sending their kids to private school (Calderwood) for bullying reasons / educational reasons.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15233	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Moving round people and keeping prices down will cause less chaos	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15234	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	but also no The council are turning more and more of the "green belt" over to developers all in the aid of making a quick 'buck' with a detrimental effect on the environment, public health etc.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15235	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Planning for new housing (& people moving into the area) can only be granted if the infrastructure will also be put in place / contributed to by the developer - healthcare provision, meeting places, schools, safe places for nature and recreation, e. g. East Calder needs a new health centre that is fit for purpose and increased population & patients can get there safely.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15236	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Save trips to West Calder High School from East Calder and Calderwood by providing a high school in East Calder / Calderwood.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15237	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Build the high school I. East Calder, this will allow for a reduction in bus contracts and reduce the carbon footprint. It's a huge requirement for the local area.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15238	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Although there might be an undersubscription for school places, those schools are severely underfunded for basic needs such as paper, books and technology. Where does the money that housing developers pay the council to improve things go? It doesn't seem to be used for the locality of the development. Perhaps that money should be ring - fenced for projects nearer to the developments.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15239	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I appreciate there may be space in current schools if so why would an extension on both Simpson Primary in Wester Inch and Southdale in Armadale be imminent. It has been the case on more than one occasion that a school building has been left to a state of disrepair only to realise it was needed. With the demand for both Social and Private housing it is evident that these spaced] will be needed	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15240	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	However the council need to do more to maintain quality provision meeting people's needs. It must avoid repeating the farce of closing quality ELC provision which was housed in poorly maintained buildings in favour of provision that nobody wanted to engage with. Why have so many parents chosen private provision, because council provision still does not meet their needs. All the last round of ELC closures achieved was to send more families to seek out private provision! Is this the plan for the council to make savings. Let's continue not to maintain our buildings and then close them because they are not up to standard.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15241	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It is obvious these examples should be pursued. Well, maybe not obvious enough - some councillors apparently believe it would be a good idea to spend £90m you don't have on a school you don't need! Can someone please give these dim - bulbs a lesson in basic financial management?	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15242	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Have the schools in the right areas, no point having kids travel 30 minutes to schools with low demographic population. Fight harder for the people in the area	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15243	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I agree they need to work with the times but taking away schools nurseries really isn't the answer when the education system in West Lothian is so poor as it is. West Lothian council ruined 2 out of my 3 children's childhoods through their abysmal education and the only reason you haven't ruined the 3rds is because she hasn't started school yet.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15244	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Catholic nurseries have already closed across West lothian. There needs to absolutely be a fullreview of all schools closing all where necessary.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15245	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Need to be wary of cutting our nose to spite our face e. g. closing facilities now when trend may reverse in future so require new schools to be built. We have all seen the massive expenditure required at St Kentigerns to build a new school so need to refrain from incurring costs like this in future.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15246	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Funding for schools is so important in helping shape the future of West Lothian. The newer larger schools are not being well received (look at the chaos that is Calderwood PS) and having smaller but well equipped schools will benefit the children of West Lothian, especially with the rising ASN in the area. With the rising population, WLC should improve transport links for the elderly to use and invest in cafes / spaces for them to go to. West Lothian has too many big bosses who are benefitting from large bonuses. There are so many people who have been seconded out of schools to be EOs etc and not all of these roles are necessary. That is where cutbacks can be made.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15247	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Non denominational schools are absolute priority on a number of fronts	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15248	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't send kids from calderwood to EWinchborough and renegeing the finacial input	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15249	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools need to be where the population is...to be frank the education system in Scotland is a shambles and we are letting down our young people...the curriculum for excellence is not working	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15250	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Living in the Calderwood our facilities are terrible. Local primary school is already at capacity and promised High School for our increased population has been stopped and money been spent to WCHs instead, a school we are being told our children will not even be allowed to go to.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15251	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	reducing teachers and staff. using remaining staff to fill all vacancies within the council.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15252	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yes they should HOWEVER this needs to be transparent. In East Calder there is already a debacle regarding the Housing Companies paying for a new Secondary school, this being used for West Calder High School but the kids of Calderwood Primary (where the houses have been built) being moved to Livi or Winchburgh. This is not transparent nor correct. There must be a focus on the changes to school needs and other demographic however there needs to be clear communication on the short, medium and Long terms plans and views so locals are informed. At the moment it's Chinese whispers and moving of goalposts.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15253	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Start thinking realistically where schools would be better placed. Freeing school places where needed & maybe also cutting the cost of providing transport to outdated & unrealistic catchment areas. A high school in East Calder would cover Mid / East Calder, Craigshill & Wilkeston. These can all be accessed easily by public transport. Cutting unnecessary school busses.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15254	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	though support for families moving to different schools will need to be provided. I also think school children and college students should have continous work experience as part of their education.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15255	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I do not understand why we always have 2 primaries (1 catholic and 1 other). If the catholics want their own school they should pay for it and not the council	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15256	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Close all schools! Then hospitals	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15257	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	However, I understand money was collected from developers of Calderwood for a new secondary school that was never built. Instead the money was invested to extend WCHS - now the pre consultation is to exclude Calderwood kids from WCHS. This is an outrage and the residents of Calderwood should not be made to pay for poor Council management and decisions in this regard.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15258	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	My thoughts are... why is numbers dropping in schools and new builds are going up which means more spaces in schools / nurseries are needed? Also why do teachers all have to buy resources and pencils to take to school as there is none available? Teachers have to buy resources on a weekly basis this is so wrong on every level! Why is there not enough money to provide these for our children in schools why is it coming out of teachers wages? This staggered me. I know this first hand too and it's been Happening for years... we need more support for our send children as this is not in place and has a detrimental effect on their wellbeing and outcomes going forward. school can be such a difficult place to navigate for them with not having the right trained staff to support them this majority needs looked at.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15259	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How this is just coming up now is mind blowing. It's blatant arrogance to just trundle along without constantly reviewing demographics and adjusting services to the current demands. This lack of forward thinking is costly and frankly just laziness. If repeat again, if any business acted the way you do then they'd have been bankrupt well before now. You need real leaders at the top of the council who can look at trends and data and use that to future proof your services. You have access to endless amounts of information that can allow you to protect the wellbeing of your residents while keeping ahead of any trends and curves and adjust services ahead of time to fit the needs. This lack of leadership is honestly astounding to someone who has run businesses successfully for many years.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15260	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Must be careful with the reduction of schools as they may impact housing costs / desirability.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15261	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Closing schools but building more a more houses in the area. No logic	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15262	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is a difficult one. WLC has allowed houses to be built in areas where schools are at bursting point but nothing seems to be offered for schools who are struggling with space. Parkhead Primary School is in the shadow of a brand new, newly extended high school and we struggle with leaking roofs, heating issues, flooding basement and as well as the issue of crowded classes. Nothing is done with our school. It is unacceptable to hear repeated calls for budget cuts while local infrastructure is allowed to crumble and critical services face an overwhelming demand. The issue is not a lack of funding, but a failure to strategically invest—a short - sighted approach that creates massive costs in the long run.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15263	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Anything mentioned in regards to school and children is the area west Lothian anyways is doing poorly. If you want to save money long term build school in East Calder as promised and similar new build areas.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15264	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Yet again - you are targeting the most vulnerable in our communities without proper consultation You need to get out of your offices - stop hiding & speak to people AND LISTEN	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15265	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a I thought school funding was ring fenced. So any savings would still be spent in the school budget?	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15266	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Scotland's quality of education has plummeted. DO NOT make it even worse. What you are currently teaching in fifth year maths WAS P7 maths 40 years ago. Shame on Scotland's government.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15267	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Brilliant let's cram all the kids into one school to then sell the other building for treble the price to then make houses to then not home our own on the street	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15268	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How about providing the promised schools to communities currently shipping the children 25 mins each way in a bus!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15269	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Everyone wants their children to go to A local school, but then your gross mismanagement of funds has led to this situation. Taking the money allocated for a High school in Calderwood and using it in West Calder instead is shocking. Manage your budget better!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15270	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This isn't relevant in the area I live in. There are many more kids than older residents. And schools are very full.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15271	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Unsure how you can justify the fall in number of children entering schools. The current school system, especially high school is diabolical. For example, west Calder high school	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15272	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You can still facilitate these changes without closing down Nurseries in small out of the way villages. Elderly need care too, stop being agist. Schools need upgraded in most towns	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15273	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reducing learning opportunities is not a solution.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15274	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The proposed changes are ludicrous Bought property in East Calder in basis high school or west Calder high school would be catchment	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15275	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	the amount of kids with ASN which require support is increasing and they will not get the correct support if schools shut and classes become bigger. Some of these kids actually fall under the radar and are only picked up at a later stage where it could possibly become an issue.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15276	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This would directly affect my child, his choices in next two school years for secondary education, which have already been made increasingly difficult due to the covid 19 pandemic in early primary and other children in the area. Whilst I understand this will be reviewed at some stage during the school years if a builder has advertised and taken part of a deposit with the promise a secondary school will be built in the area which then doesn't come to fruition this surely has complications related to the money which was paid and 'set aside' or should have been for this project. What happened and why was this money invested elsewhere?	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15277	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Ah, here we go... the let's bus kids miles away to shut a school idea.... Shambles... how many kids from Broxburn and Uphall all left to go to the new shiny shiny Winchburgh school??? All have to walk past the dump that is Broxburn Academy better parents think there child will be better educated in a newer building!!!! Get investing more of my money in the education in the area.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15278	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	School services are investing in future of our workforce.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

15279	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Dont mess with special needs children, they should be more invested in and not abandoned to the school system without support	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15280	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We are already seeing the negative impact of large class sizes and lack of social work support in schools. Social work plays such a vital role in supporting disadvantaged children that it should be a last resort to pull funding from them.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15281	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Education hit again	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15282	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographic change requires adaptable, forward - thinking policies—not reactive cuts that weaken communities and vital services. Rather than closing schools, the council should explore shared campuses, community use of spaces, or flexible learning models.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15283	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I'm concerned this is again short sighted. I've read plans to transport the growing number of families buying new builds in east Calder to winchburgh. Despite other schools been closer, the plan is for children (at the vast expense of the council) to be transported for 45 min each way on a bus through rural roads to winchburgh, who also has a growing population with houses been built every day. There needs to be a common sense approach; where children who face school closures / m no schools in local area are prioritise as at the nearest school for their well - being (and cheaper transport costs) - even if this means expansion	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15284	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a - You cannot take education spots away and simultaneously want to build more housing, the two are at odds with one another.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15285	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Should concentrate on discipline in schools rather than closing them. Far too many stories of bullying and teachers doing nothing.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15286	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	school should be as local as possible to stop parents having to rely on cars and therefore meet the council 's climate change targets	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15287	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	we must serve the whole community evenly and fairly, as it is West Lothian residents see places like Winchburgh, Linlithgow appearing to receive much better services and facilities from WLC. Other areas with a poorer demographic, seem to be getting left behind.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15288	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Also the decision to have less asn school provision by making the only choice mainstream but not properly training staff or giving those children hours to allow the schools to have appropriate 1 - 1 support where required puts tremendous pressure on Head teachers and staff to fill those gaps meaning children across the board don't get high quality care and support they need leading to teacher and no teaching staff burnout	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15289	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are already on their knees, moving ASN kids into mainstream has had a damaging effect with pupils and staff not being supported.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15290	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	because I think that the older population have access to groups should as the 50 + and those types of groups, and other like groups through out West Lothian, but due to the fact that the world we are living and the impact covid has had on our children it proves that we need things the noo. older people are already well serviced for in west lothian and the younger population are not.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15291	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	We need more schools with lower class sizes. My child is in a class of 32 of which at least 10 have ASN. My child's education is affected by this and the way education is handled in West Lothian is a disgrace. Lots of things brushed under the carpet so the council numbers look good	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15292	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	worst ideas yet. wtf.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15293	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I know a lot of young people who should be attending school but are not. The schools could be fuller if there was more early intervention to stop young people disengaging from education before the age of 16.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15294	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I strongly disagree with any cuts to children's services. Our children are the future, and they have the right to access high quality support and opportunities to thrive. These services are essential and must be protected. Family support services are essential for the health and wellbeing of both children and adults. Investing in early intervention not only improves outcomes for families but also saves money in the long run. These children are our future, and it is crucial to get it right now. I strongly disagree with any reduction in family support services, there are already too few available, and another 300m. Families would be financially disadvantaged as they are now. The council should consider a 300m increase in family support services. So we shut schools and then increase the cost of transporting the pupils to another school. Again the brightest ideas really coming from the council..	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15295	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.		Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15296	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The council record in this area is exceptionally poor. Armadale primary being massively oversubscribed in the past being a case in point	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15297	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If you close them you'll spend more on transport support services which is already a million. Revisit catchment policies or public transport routes	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

15298	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You need to review the catchment areas for schools and criteria. You could get rid of school buses if the catchment areas for schools was more sensible. I live in EH54 7GH and you want my child to walk almost 3 miles to a school, when we have Bellsquarry primary 0.6 miles away. Madness. I simply don't have the time to walk them there and back as I work a 9 hour day, but if it was only 10 / 15 mins I could alter my working week and make it work. If you remove school buses, you must review catchments. In this day and age it is not safe to allow young children to walk to and from school alone.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15299	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The population is growing because we have let in MANY immigrants, I hardly recognise the area anymore. Such a worry! And for the fact that the majority are older, well there is no encouragement for people to have kids as everything is so expensive and the lack of funding helping mothers to get back to work is nil. This should be looked into. I don't think services should be cut for schools. Education is important and preferably smaller class sizes are better. We need our younger generation. * people who are fit and able on benefits can do work too. Like clearing litter, helping in old folks homes, the lists are endless. Save on jobs.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15300	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Invest in education build east Calder high for example. Savings could be made in sharing subject areas between schools eg students have 1 teacher between 2 schools splitting their time and could teach half hybrid too.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15301	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Any school placement reduction should prioritise housing near the school for families with school - aged children, not pensioners or residents without children. Priority must be given to households with children of school age.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15302	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You keep building houses and how you can say theres more schools than demand is beyond me. Brand new Calderwood school, not built for purpose - needed an extension. Its already full. WCHS - brand new, not big enough, built an extension, now changing the catchment areas of the school as the schools are at capacity. In a typical school there are 3 P1 classes, and then two of each year group. In the 90s, it was P1, P2, P3 and so on... so you cant say the numbers in schools are falling or going to fall. Your starting to bus poor kids miles away fro. Friends and neighbours to schools opposite side of the county.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15303	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You need to make sure you have the right services in the right area. East Calder's population is booming and only set to continue to grow with the amount of new planning applications. The demographic is young families, put a secondary school where the people are rather than bussing people all over the local authority.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15304	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This is becoming hypocritical. How many communities are expanding? Yet you want to cut schools back? East Calder pupils to Winchburgh new schools but you want to save money on school transport. Make it make sense! Invest in such things as schools.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15305	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	With the current high needs of children with additional support needs, low attainment and poverty. The legal ratio is no longer comparable. Teachers' today feel they are unable to teach effectively as they are under resourced, over worked with little to no support staff.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15306	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a. It is too difficult to predict what will happen in the local area in terms of refugees from the Ukraine / Russia and Israel / Palestine conflicts. In addition with asylum seekers on the rise it is likely that West Lothian will be asked to provide more support to these families and other such displaced persons. Also, with advances in medicine there is a growing population of children who require specialist provision as more are surviving infancy with significant needs. This will mean that those with less significant needs who would have ordinarily been offered a place in a specialist school will now have to attend a mainstream school. This will also mean that some of the children that have an even more complex need will be asked to attend a specialist school.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15307	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This sounds as though the young are going to be inconvenienced for the older. The amount of new builds would indicate the number of young people will pick up and then there will be not enough places in some areas	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15308	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Wholeheartedly disagree. The children of Calderwood should be going to west Calder as per the funding that was received to fund the extension of the school!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15309	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I feel that as a parent with nursery and primary aged children, the schools and capacity are already tight enough to provide a good education. We picked the area we are in due to the low class sizes being more beneficial for our children. Being in a large class size can be overwhelming and daunting for some children who can be lost in the system. With a 141 week wait list for neurodivergent assessment class numbers and school capacity shouldn't be increased unless the school buildings and teaching staff can cope with that number.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15310	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Instead of providing school buses surely a high school in East Calder would be better than the cost of busses to West Calder High School or Winchburgh especially with the number of houses being built in mid calder, east calder, calderwood, Linburn / wilkieston and Kirknewton could afford rather than bus to balerno	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15311	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This demographic is fluid nothing should be changed that can't be quickly reversed	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15312	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would love to see the figures for this as a parent to an oversubscribed class. Classes are being made into composite classes because there are too many children for some years. You are approving the continual building of 4 and 5 bed homes in the area and the nursery and schools are breaching at the seams with the council only providing under qualified staff on temporary contracts. Have a word please. You are delusional.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15313	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Reduce the waste in most schools and give to special needs children	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15314	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	While the council should be matching services to population needs. Families need support, raising families is hard. It feels like the council has been poor at planning capacity in schools in growing areas, many schools have needed to be extends due to poor planning and I recently saw that there are questions over if a new school is needed in East Calder. As such I am not sure if this is a realistic aim?	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15315	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Schools are relevant if thought the right things. Education is the key	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15316	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Im not aware of any areas where school places out weigh the need for school places.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

15317	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Demographic to shift around availability of services. We cannot be open handed. Do less but do it well. At the moment. Nothing is being done well a score card would be red across the board	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15318	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Limiting the offering and school availability is encouraging younger generations to look elsewhere. Building on what we have will bring different demographics into the area, and these are the generations that hold up the environment and bring life into the community	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15319	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	How can the number of children in the area diminish when you do nothing other than take money from house builders who fire up a million houses a year covering every bit of green space we have?	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15320	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The High School that was supposed to be provided to service the Calderwood development is a case in point, although I believe the cancellation of this project was another daft Council decision rather than the fault of the developer. Also, ensure that every department, office and service is scrutinised and small savings are made wherever possible... they all add up!! Its the little things that get overlooked so many times in a business, and they can make a huge difference. The mindset of "its not worth the effort of changing things "perpetuates waste throughout.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15321	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	All schools should be designed so that additional class rooms can readily be added and removed as the population fluctuates. A minimum school population should be agreed and schools falling below that level should be closed without further consultation.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15322	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It appears that the biggest area of savings seems to lie within the education sector. The problem with this is that we stop giving children the correct support we need. There are more children than ever with complex needs and the cost of helping these children will only increase. I think there needs to be more assessments for people who currently receive services for free when a means tested assessment would show they need to contribute to services. e. g. Children carers support - all children receive support to employ someone who can provide respite and support and it is free. Maybe it is time to say to parents in higher earning brackets you needs to help support this as well.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15323	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I would be bold and also look to federalise education. It is very poor for what gets spent on it. We have had to take our son out of West Calder High, West Lothian Council as there are NO teachers to teach advanced higher mechanics or statistics.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15324	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Removing schools is a tough one as I would worry it would result in just longer commutes for families to schools further away and the added pressure to infrastructure as a result. Perhaps apply a part private model to some schools? Effectively subsidised private schools. These fees effectively pay for the upkeep of schools selected and reduce class sizes across the board as the buildings remain open. Gives parents a choice if they wish to pay an extra fee and provides extra revenue.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15325	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You say to many schools so why do you keep building them we could do with a bigger East Calder medical centre its long overdue especially when the amount of new build homes being built in West Lothian that is something that is needed	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15326	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Regarding nursery and school places, we could take inspiration from other countries where schooling begins at age three, and the school day runs from 8:00 a.m. to 4:00 p.m., with after - school care organised on - site until 6:00 p.m. This approach would help optimise the use of nursery and school facilities while supporting working parents and improving overall productivity during the day.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15327	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The issue here is national policy needs to change to encourage and support family life, not remove because we have a falling birth rate.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15328	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Areas have outgrown there current services for example Armadale has out grown its doctors and there is nothing in armadale they expanded gyms in bathgate and surrounding cutting off Armadale to anything and the same for other areas	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15329	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There has been an increase in the elderly population however there are several very large housing estates built which encourages young families into the area - East Calder, Mid Calder, West Calder, Bathgate and Winchburgh. When building are closed they are never re opened. Another huge loss was the closures of Social Policy Family Centres which was an early intervention for the most vulnerable	Education	9. The respondent made a comment on the survey question
15330	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Query on schools. Is there a surplus of places? Often is posted that majority of high schools in the area are full such as west Calder high school despite just being extended	Education	9. The respondent made a comment on the survey question
15331	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	You say that the number of school age children is projected to decrease, yet the number of homes being built in West Lothian appears to be increasing. You are already having to expand newly built primary and secondary schools due to increased demand.	Education	9. The respondent made a comment on the survey question
15332	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	There are too many questions under the one option.	Education	9. The respondent made a comment on the survey question
15333	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	It's not clear whether the savings noted here for reduction in school places (£3.4m, 4a) are in addition to the savings listed earlier in 1c. I think there should be an overall assessment of the proposed savings and their impact on children.	Education	9. The respondent made a comment on the survey question
15334	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In my local area I am unaware of an excess of schools and school places for pupils. The statement that schools could be closed should be notably sense checked.	Education	9. The respondent made a comment on the survey question
15335	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	With the amount of new builds happening across West Lothian I am surprised to hear that numbers of school age children will fall given that the vast majority of these houses are family homes	Education	9. The respondent made a comment on the survey question
15336	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	People think schools are overcrowded - maybe be more open and show evidence on this. So people are better informed and less basing ideas on lies	Education	9. The respondent made a comment on the survey question

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15337	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Isn't capacity planning of school spaces a statutory requirement anyway? And should be a business as usual work stream every year. The census costs a lot of tax payers money to!	Education	9. The respondent made a comment on the survey question
15338	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	4a. I don't understand the comment about over supply of schools when you have just built 2 new high schools without closing any others down.	Education	9. The respondent made a comment on the survey question
15339	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	In the news in West Lothian I have seen headline that there's both too many places and not enough. Also the state school rankings a very low. Could be better	Education	9. The respondent made a comment on the survey question
15340	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Teaching and support staff in schools are already struggling with the demands of school life. With lack of resources and proper training to implement the many changes over recent years ie reduction in SEND placements, introduction of mainstream, violence in the workplace, etc. If closure of schools is a serious consideration then thought needs to be given to those that staff and educate the children. Training and suitable resources are needed to provided the growing school population and the education they require, need and have the right to. Adding further stress on a system that already under pressure will do further to increase the budget in education.	Education	9. The respondent made a comment on the survey question
15341	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	That means increasing the public transportation	Education	9. The respondent made a comment on the survey question
15342	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not sure how closing nurseries and schools helps if you leave the building empty. Also, surely at some point, the demand will increase.	Education	9. The respondent made a comment on the survey question
15343	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Although I feel that some schools are at capacity and others far below their capacity, there are a lot that require additional pupil support workers. I recently volunteered at a school to help pupils who have fallen behind on their work, extra support staff is vital as teachers cannot teach one lesson to others and simultaneously assist the rest who need a bit of extra help. Funding to schools to employ more support workers is needed.	Education	9. The respondent made a comment on the survey question
15344	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Surely this impacts on teacher jobs. Bigger class sizes etc?	Education	9. The respondent made a comment on the survey question
15345	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	show transparency in the figures for demographics	Education	9. The respondent made a comment on the survey question
15346	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Is stats available on school's population in West Lothian? I've heard of many schools being oversubscribed so I would be very keen to see which schools are oversupplied	Education	9. The respondent made a comment on the survey question
15347	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I can't comment to much on these services but again look at things as a business an example is if you have to use a number of taxes to collect children then make sure the parents don't have a car if so they run there own children to school	Education	9. The respondent made a comment on the survey question
15348	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If you close some schools would you then not have to supply buses to take pupils if they have to travel further?	Education	9. The respondent made a comment on the survey question
15349	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	If we decrease the use of some school buildings, what will happen to those? will they just become derelict?	Education	9. The respondent made a comment on the survey question
15350	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Surely the changes suggested throughout this "consultation" would be better discussed in Community Council forums where at least people would have the opportunity to compare the pros / cons & put forward local solutions.	Education	9. The respondent made a comment on the survey question
15351	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	A lot of reviewing appears to be planned with little explanation of what the impact will be for families & communities. Similarly the review of delivery of Children & Justice Services social work deserves more consideration than agreeing to an unknown process, with unknown consequences which would provide unknown savings! Surely the changes suggested throughout this "consultation" would be better discussed in Community Council forums where at least people would have the opportunity to compare the pros / cons & put forward local solutions.	Education	9. The respondent made a comment on the survey question
15352	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Where exactly are these places where there is an over provision of schools? I'm a primary teacher, and the schools are almost at bursting point - yet houses are flying up all over the place. The fact these questions are as vague as possible is a clear attempt at manipulating the answers you get.	Education	9. The respondent made a comment on the survey question
15353	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Proposals 4a are difficult to assess as presented as in previous responses. Making best use of school buildings is sensible if based on clear detail e.g. older buildings too costly to maintain and pupils moved to better facilities but this is not provided.	Education	9. The respondent made a comment on the survey question
15354	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I totally understand the need to save money. However it appears the most vulnerable will be affected by the introduction of school and nursery closures.	Education	9. The respondent made a comment on the survey question
15355	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	That is a misleading question. Village schools, rural schools, whatever you want to call them, keep the numbers in the larger schools down. This seems to be a very narrow minded idea, and not projected for the long term. It leads to disaster in schooling, the over extension of schools such as Calderwood show this. We should have learned our lesson from Simpsons. We need small schools, we need big schools. We do not need two schools closing to make one big one just to save money. This is draining for education staff and terrible for pupil development, at all ages.	Education	9. The respondent made a comment on the survey question
15356	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Severe lack of data on this to support the changes. Projections seem out of step and are far too general.	Education	9. The respondent made a comment on the survey question
15357	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	I'm sure you could cut some of the managers jobs rather than asking pupils to travel miles to another school.	Education	9. The respondent made a comment on the survey question

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15358	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	This would only be viable if the schools being kept were well - resourced and in a state to facilitate high - quality learning. As it stands, there are building broken and in disrepair, not conducive to creating a positive learning environment or compliance with CIRCLE. Similarly, the IT provision available to pupils is at odds with other nearby local authorities where pupils have individual devices e. g. Edinburgh, East, and Midlothian.	Education	9. The respondent made a comment on the survey question
15359	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Not sure any of these suggestions actually address demographic changes and support he aging population need.	Education	9. The respondent made a comment on the survey question
15360	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	The survey questions are quite problematic. They are asking agreement with a premise but then proposing very unsustainable solutions or unclear "reviews". To the average person reading this survey, this is not meaningful consultation and does not provide any clarity around what these proposals actually mean. How can a person provide meaningful consent or agreement with a process that lacks any clarity.	Education	9. The respondent made a comment on the survey question
15361	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Don't believe a word of this in regards to the schools.	Education	9. The respondent made a comment on the survey question
15362	Theme 4- Responding to Demographic Change	4a - In many areas, there is an over supply of schools when compared to the demand for places. Reducing the number of school buildings in communities where the number of available school places is more than is needed to meet future demand, and where pupils can access an alternative school, would allow the council to maintain the quality of learning in the remaining schools.	Would the closing of schools mean more costs for buses if having to transport pupils	Education	9. The respondent made a comment on the survey question
15363	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This approach is needed	Social Work and Health	1. The respondent advised that they agree with the proposal.
15364	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Every point in this should be carried out. It is common sense to deliver this	Social Work and Health	1. The respondent advised that they agree with the proposal.
15365	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	P5 - P7 Pupils at Croftmalloch Primary discussed these options and stated: - School / Nursery buildings "Schools where not many children go could close and they go to another school nearby.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15366	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Good to look at the demands of the area and focus on prevention in those areas to ensure you can then save money	Social Work and Health	1. The respondent advised that they agree with the proposal.
15367	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	good idea	Social Work and Health	1. The respondent advised that they agree with the proposal.
15368	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	agree with all	Social Work and Health	1. The respondent advised that they agree with the proposal.
15369	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree with this if figures are accurate. However still believe that savings can be made at top table by reducing excessive salaries for executive and Senior management.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15370	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	It has to be done things change you have to cut costs	Social Work and Health	1. The respondent advised that they agree with the proposal.
15371	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Sure	Social Work and Health	1. The respondent advised that they agree with the proposal.
15372	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I work in children 's services and would welcome a whole scale review of all services. I would view this as an opportunity as opposed to a threat and we can definitely work more efficiently and effective than we are currently doing.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15373	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I think these are all viable options and should be considered carefully and cuts made where possible	Social Work and Health	1. The respondent advised that they agree with the proposal.
15374	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	However the care and staff in these facilities need to be up 'd	Social Work and Health	1. The respondent advised that they agree with the proposal.
15375	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes defo	Social Work and Health	1. The respondent advised that they agree with the proposal.
15376	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I think these points have been well thought out	Social Work and Health	1. The respondent advised that they agree with the proposal.
15377	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Every point in this should be carried out. It is common sense to deliver this	Social Work and Health	1. The respondent advised that they agree with the proposal.
15378	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This seems an obvious efficiency.	Social Work and Health	1. The respondent advised that they agree with the proposal.

15379	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with reviewing the schools and the nursery, however the current social policy landscape in WLC is already a mess. Early intervention is an excuse to not allocate funding for children who should be moved onto residential schools and secure establishments. A small number of children are costing the authority, police and people of West Lothian far more than we are saving by not having them in the appropriate resource.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15380	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Why are the council not currently doing this?	Social Work and Health	1. The respondent advised that they agree with the proposal.
15381	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Enhance digital appointments with clients and reduce paperwork within Child Care Services.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15382	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I think we need to consider more ways of early intervention which should reduce accommodation of children and permanence work, where appropriate. Supporting families before they get to crisis situations is more person centred and child friendly, in line with the promise. The difference in thresholds between teams is significant to the point of a duty and child protection team recommends child protection and the practice team are unclear of the role of social work. This shouldn't be taking place and also deskilling workers who are not involved in short term pieces of work. I think a duty team should be exactly that, dealing with the referrals coming in for a period of time and working alongside the practice team to ensure thresholds are similar and working in conjunction with families. Families are annoyed about the volume of different workers which increase the timing of engaging with families and that's against the whole ethos of duty and early intervention	Social Work and Health	1. The respondent advised that they agree with the proposal.
15383	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Where safe for staff and young people use empty houses in the community as residential homes with smaller staff teams staff teams instead of outsourcing care when residential houses are full.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15384	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Get more community work done by young offenders as part of their punishment for their crimes where the council have cut back on labour, ie cleaning parks, rubbish etc	Social Work and Health	1. The respondent advised that they agree with the proposal.
15385	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Forms of communication - having needed to use the social work service last year leaving a voicemail and not being informed of any information as to when my query would likely be answered is very unhelpful. Missing call backs as these are at unknown day / times feels like a very unproductive way to run this service. This service would greatly benefit from being digitalised. I would much rather have an estimated timeframe rather than no info	Social Work and Health	1. The respondent advised that they agree with the proposal.
15386	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Stop using agency in the care sector.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15387	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review of family support and helping to keep families and children together where possible and safe.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15388	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	It's really important to focus on services for children & young people in order to support the future of our communities / workforce.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15389	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	No alternative ways agree with the areas you are looking at	Social Work and Health	1. The respondent advised that they agree with the proposal.
15390	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with this in principle but planning permission for the thousands of new builds has to stop to enable schools, Doctors etc to be built	Social Work and Health	1. The respondent advised that they agree with the proposal.
15391	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree that we need to be more attuned to service demands and plan for future demographic changes. But I also acknowledge we don't have a crystal ball so it will require services to become more fluid in their approach. Children and Families social work should sit fully within education and be based in schools.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15392	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Obviously need to change as the population changes	Social Work and Health	1. The respondent advised that they agree with the proposal.
15393	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	A small cut and let them work smarter with what they have.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15394	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Again fully support reviews of existing services, no further suggestions at this time.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15395	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree to all of these	Social Work and Health	1. The respondent advised that they agree with the proposal.
15396	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes but again care must be taken in how this is done.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15397	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, I agree the Council needs to plan ahead and shape services around the changing population. It makes sense to make sure resources go where they're most needed.	Social Work and Health	1. The respondent advised that they agree with the proposal.

15398	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I've answered "Yes" to this but only if the council can afford to do so.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15399	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree fully with points 4 A - C.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15400	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	All items proposed make sense.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15401	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Similarly, reviewing how resources are allocated in justice and rehabilitation services could ensure public funds are used efficiently and proportionately. Targeted accountability would reduce preventable pressures on services, protect limited resources, and ensure funding prioritises those who genuinely need support.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15402	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Concentrate on services that keep vulnerable children within their families wherever possible to avoid them being accommodated. Some services are not needed such as Assess and Connect Resources and spending within residential childcare need to be scrutinised	Social Work and Health	1. The respondent advised that they agree with the proposal.
15403	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	DIGITALLY: Making use of AI technology for case notes.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15404	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, look into making savings as per the councils detailed suggestions.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15405	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15406	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to all these suggestions.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15407	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, review all these services as you have suggested, and make savings where possible.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15408	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	yeah i agree.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15409	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review of Children and Justice services is a must?	Social Work and Health	1. The respondent advised that they agree with the proposal.
15410	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree with other points re delivery of Children 's and Justice Service social work	Social Work and Health	1. The respondent advised that they agree with the proposal.
15411	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with these points.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15412	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	if demographics reflect less need then i do agree with proposals	Social Work and Health	1. The respondent advised that they agree with the proposal.
15413	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree with all the savings in this section	Social Work and Health	1. The respondent advised that they agree with the proposal.
15414	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15415	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to all these proposals.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15416	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with council proposals.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15417	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b - Yes in principle. Needs a lot of work to determine how funding can be redirected down - stream to ensure prevention and then how can it deliver a saving.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15418	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children and family support services (4b): Early intervention, social work, and family support should be maintained and targeted effectively; these services are critical for children in our community. In summary, we support planning around demographics, but changes must protect access, equity, and the wellbeing of vulnerable children.	Social Work and Health	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

15419	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children 's services I feel reviewed and ensuring these are high tariff and a more focussed and strict threshold. I think in my experience some of our families create dependency without necessity and have almost used emergency financial support as a guarantee, we need to enable families and where we can create robust support plans within their families	Social Work and Health	1. The respondent advised that they agree with the proposal.
15420	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Many of my ideas are more long term solutions that won't see a quick fall in expenses however strategically may positively impact the LA as a whole and contribute to reducing costs. Social services is a high costs area I would encourage many early intervention projects to avoid reliance on these services particularly for those groups experiencing generational engagement with services eg child services. Early investment in the key areas costing the most will see a reduction in costs after a longer period of time.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15421	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	criminal justice team could oversee litterpick freeing up current staff to tackle other area such as roundabout obstruction	Social Work and Health	1. The respondent advised that they agree with the proposal.
15422	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	more focus on early intervention would prevent children from needing alternative care	Social Work and Health	1. The respondent advised that they agree with the proposal.
15423	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b	Social Work and Health	1. The respondent advised that they agree with the proposal.
15424	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree all.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15425	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You should explore all of these options.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15426	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, agree to all these. Also a suggestion - cut number of teachers if number of children falls. Maintain quality and current ratios, but make a massive saving. Decisions should be made for residents not staff.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15427	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Ensuring services are targeted at the changing demographics.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15428	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Explore all of these.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15429	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree with all.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15430	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with all of these as possible sources of savings.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15431	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	earlier intervention and intensive whole family support, is the only way to safe money into the future, this is completely missing at present, all the family centre are closed is is a massive loss, and was a positive way of seeing lot of CP child in one place.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15432	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, services should respond to demographic change, but any changes must consider the needs of vulnerable people, including those I support in employment services. Reducing facilities or services without ensuring accessible alternatives could increase isolation and mental - health risks. Planning should focus on maintaining quality, inclusive services, with targeted support for older people, families, and those with additional needs, so no one is left behind as population patterns change.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15433	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Some services within children and families are low level and more from dependency than necessity and some services can duplicate. There needs to be time limited where we can and robust referral processes to ensure the services offered are essential.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15434	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes all these things should be done as I'm sure they have been done reviewed and amended in the past. Facilities must change as the housing and population change, and where the population hot spots are.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15435	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children and Justice Services social work and family support services are valuable if they can be properly funded in order to really make a difference. It may be time to seriously look at whether we are offering services in name only where staffing and resources are so low the quality of provision is very poor. If we cant do it properly then its probably a luxury we cannot afford.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15436	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with the recommendations suggested.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15437	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review social care to include early intervention and whole family support earlier so that families know where to turn if they are struggling or need help.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15438	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	As long as it 's not detrimental to the community	Social Work and Health	1. The respondent advised that they agree with the proposal.
15439	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	As long as it meets the demographic and does not negatively impact children or older peoples social care.	Social Work and Health	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

15440	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, I agree with all these examples. Can someone please give elected members a briefing on this most basic concept. I've just been treated to the unedifying spectacle of politicians arguing that the Council should spend £90 million pounds it doesn't have on a school it doesn't need. Do they really think we're so stupid to believe they would do it if they were responsible and in power? Pure political opportunism. At least I hope that's what it is - even more worrying if they actually believe creating another £90 million of debt is an acceptable course of action. God help us all if this is what passes for political leadership.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15441	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This will all be fine	Social Work and Health	1. The respondent advised that they agree with the proposal.
15442	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes re reduction in schools and other proposals	Social Work and Health	1. The respondent advised that they agree with the proposal.
15443	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	It sounds sad but I guess they have to do it.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15444	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Okay with these.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15445	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	As per 4b	Social Work and Health	1. The respondent advised that they agree with the proposal.
15446	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Reducing provision is OK as long as there's no one suffering or losing out.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15447	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with points 4a, 4b and 4c. - Got to make sure older people are cared for. Services already cut to the bone. - Schools should be doubled up e.g. (Seaford and Blackburn or Dechmont and Broxburn / Bathgate)	Social Work and Health	1. The respondent advised that they agree with the proposal.
15448	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b - agree	Social Work and Health	1. The respondent advised that they agree with the proposal.
15449	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Numbers have got to move with the population growth in different areas.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15450	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to exploring all these options.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15451	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b) It needs a review but not cuts	Social Work and Health	1. The respondent advised that they agree with the proposal.
15452	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, I agree with all of these. I think a better quality education could be provided, and children's horizon's broadened, by closing very small schools with only one or two classes.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15453	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	childrens care service is very important but as a member of staff I do agree that some of the processes can be looked at and changed - take money from the criminals and give it to the children	Social Work and Health	1. The respondent advised that they agree with the proposal.
15454	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children's residential houses - Torcroft / Whitting appear to spend significant sums of money on items that are frivolous and often go unused / are used once. There are also a lot of takeaway spends and food that goes wasted due to the young people not being fond of the cook. Staff often cook other food once the cook has left as the kids will not eat this. This means double the amount of food is being used for meals. It doesn't appear to myself that a cook is necessary when staff are often doing this anyway.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15455	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Provide more appropriate spaces for court ordered family time, too many families are being taken out for expensive activities and meals by staff who are of the opinion that they're not spending their own money so it's ok. There should always be a cash system when dealing with family time as workers are handing out money and reclaiming it or families are being sent pay out vouchers when no receipts or change are provided. Council buildings should be able to provide a room suitable for family time free of charge all over West Lothian instead of charging SW per hour. Local provision would also cut down on parents being given travel expenses. There should be a very clear budget for family time per hour as some workers are very frugal when they try to arrange but others aren't, taking a family to Starbucks on a weekly basis isn't cheap. An initial spend to set up rooms would pay for itself in the long run	Social Work and Health	1. The respondent advised that they agree with the proposal.
15456	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Cuts on Foster carers pay. This could be looked at as an assessment to what is spent on the child, to ensure the money is used effectively. Working also on a means tested system.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15457	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Consideration should be given to the way in which we currently use the facilities that we have i.e. Letham YPC is a 9 bedded facility that is currently being utilised by 2 - 3 individuals. With soaring costs within our housing department surely we could sell / lease the facility therefore generating an income or at very least remove around 6 people from a Hotel, B & B or temp tenancy and house them within Letham YPC?	Social Work and Health	1. The respondent advised that they agree with the proposal.

15479	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This seems a good idea - explore all these options.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15480	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	With regards to Children 's SW early intervention services, too much time is taken up now by lower level referrals like behaviour issues, anxiety, ASD etc and this is distracting from the children and young people who really need support due to traumatic events or family circumstances. I think SDS funding should also be looked at as there are items being bought which parents should be buying!	Social Work and Health	1. The respondent advised that they agree with the proposal.
15481	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15482	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to: 4b Open surgery would be beneficial to hear the public.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15483	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review of entitlements by social policy - why should we pay for the criminals	Social Work and Health	1. The respondent advised that they agree with the proposal.
15484	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15485	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review the provision of services for people who use social policy - why do we pay for criminals to get mobile phones to stay in touch with workers and if someone attends court pay for taxis to take them home?	Social Work and Health	1. The respondent advised that they agree with the proposal.
15486	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Agree with all demographic changes suggested.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15487	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Totally agree with your proposals.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15488	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to all of the above.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15489	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Look at earlier intervention	Social Work and Health	1. The respondent advised that they agree with the proposal.
15490	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Cut these services where you need, but as previously stated let 's not hinder the next generation from being the best they can be. In short please take care here.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15491	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	The need for early intervention is paramount. Investment into whole family support is required now to ensure the issues and concerns of the future are both identified now and plans are developed and implemented to reduce such events in the future. As many of the cases that lie within family support are education related, it is vital that both social policy and education can work seamlessly to provide a more structured approach to support!	Social Work and Health	1. The respondent advised that they agree with the proposal.
15492	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, the Council absolutely must reshape services to meet local demographic change and secure long - term sustainability. I strongly support proposals that align provision with demand: 4b (Social Work Review): Essential. Targeted earlier intervention (as proposed) is not a cut but a long - term cost - avoidance measure that improves outcomes.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15493	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4 a b and c do all 3.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15494	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do think the idea to better support families is crucial with education for parents through health visitors, grants for struggling families and mental health support where required so we reduce as far as possible the very tragic situation of young people being taken into care.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15495	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes, definitely. Working in frontline services with adults with learning disabilities, I can see first - hand how important it is for the Council to respond to changes in our local population. Needs are shifting — we're supporting more people with complex health issues, ageing carers, and younger adults who want meaningful opportunities to be part of their community. Services should be shaped around these real, local needs rather than using a "one size fits all" model. Listening to staff, families, and service users who live these experiences every day would help the Council plan better and use resources more wisely — focusing on prevention, inclusion, and long - term wellbeing instead of crisis response.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15496	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to all.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15497	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	although I support this, as you know, there is now no 16 - 21 year olds incarcerated in prisons. These young people need criminal justice and social work services to ensure that the wider community is safe as well as the young people!	Social Work and Health	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

15498	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support. " If families receive support earlier there is hopefully less of a need and burden placed on statutory services. However I feel that we need to clearly identify how we plan to meet the needs of families who do require early intervention, through care planning. "I do wonder if targeted group work is an effective way of engaging with families who are on the edge of statutory social work services. Do we need to consider take up and retention for these groups? Do we know if this prevents the need for statutory services later. Is this a cost effective use of staff time and meeting the needs of families who are already marginalised.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15499	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes	Social Work and Health	1. The respondent advised that they agree with the proposal.
15500	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Early intervention via children and justice services, e. g. ISS and Assess & Connect are vital in supporting a wide variety of needs, reducing families requiring future services, offering practical support & solutions for families, rather than only monitoring, are much more effective in building resilience and empowering families. Money spent in early intervention areas saves money in the long term for families, getting them the right service at the right time, reducing the strain on services within the practice teams, as families tend to be reluctant to engage with statutory SW services. Services such as ROOTS, Listen and Link and SOL have been implemented recently which duplicate existing services and are not used appropriately by clients or referrers and as such the efficacy of these are unclear. Meetings involving multiple agencies should be reviewed, to consider contributions and attendance of partners, if they are good use of time and produce good outcomes.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15501	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Combining buildings also makes economic sense - again so long as children and families are not negatively impacted by these closures.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15502	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes — but responding to demographic change should mean planning smarter, not just cutting schools or merging services. West Lothian's population is ageing, but that doesn't mean children's services should be weakened or schools closed the minute rolls dip. The Council must balance long - term needs, not chase short - term savings. Older residents will need better local access to health, transport, and social care — not centralised hubs miles away.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15503	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	respond to demographic change	Social Work and Health	1. The respondent advised that they agree with the proposal.
15504	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	social workers need to review there practice as i didnt have a good experience with them when going through things when i was younger, and do not want that for any future children in a bad home that needs there help.	Social Work and Health	1. The respondent advised that they agree with the proposal.
15505	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	If the services are altered based on current forecast, this can backfire with newer housing developments that spring up and bring in young families with school going children. Approvals to new housing development projects should target bringing back balance of demography. This will ensure sustainable services and not cause strain on specific services provided by the council. The presence of multiple industrial estates within the council remit as well as close proximity to Edinburgh airport should be used to attract young families to areas where the demographic changes were noted in this section.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15506	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	They have already been reduced enough! This would put more pressure on already stretched services.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15507	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	These proposals would save money only on a spreadsheet. In reality, they would cost far more through increased demand for statutory crisis services in social work, health, and justice; through economic decline from a less skilled, less connected, and less supported populace; and through the irreversible loss of community assets and trust. A council's duty is not merely to provide the legal minimum but to champion the well - being of its entire community. These services are the essence of that duty, and cutting them would be an abject failure of vision and responsibility. The council must reject this approach and seek efficiencies that do not catastrophically diminish the quality of life for its residents.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15508	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Need to spend more on child support service not reduce.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15509	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	That may mean increasing expenditure so that homelessness can be prevented and so that needy children and families can be catered for. Social Services is a real challenge. It seems to me that the services will need to expand.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15510	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Responding to demographic changes is of course important, however the suggestions you have made would need very careful consideration. Children and family services are already under pressure with case loads all falling into high risk categories. I cannot visualise how reducing this service will resolve a problem, ratger push it elsewhere.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15511	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do not agree with reducing child services down. You are not doing enough within Social services so to reduce it further will be putting a lot of children at risk / danger. Community nurses and health care visitors can not cope with the volume of work given to them due to reduction in social services. It is a disgrace you would put at risk children's safety and security to save money.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15512	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	While I agree, I feel social work is not an area that should be impacted by less funds, if anything this area needs more funds	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15513	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	But against cuts to family and justice services. Early intervention should already be happening	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15514	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	There are more and more developments being built which is bringing more families into the region. These areas need facilities such as schools, doctors, dentists. The two latter ones are also needed more for the elderly. You cutting these services is making things worse. We also need to keep justice services on top of the increasing delinquent youths who roam the streets because you have taken away facilities for youth clubs etc.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

15515	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Although any review on the social work services should be to increase availability of support and staff not reduce.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15516	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This should be high priority services And looking last 10 years services are dying on there feet - social care are providing service and paying private care companies to provide service (this is not a good service that they are providing unfortunately. Bring it back in house and provide quality service and would save money in long Run. Provide a good quality service would save the council / nhs going in behind some private company as they are not. Education also as it's on its feet to,	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15517	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Caution is required around cutting services for our vulnerable groups, support services to these groups is already under resourced.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15518	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social work is again essential for fighting social issues and ensuring child safety. Possibly some of this could be outsourced to charities but only if properly funded so they can actually do the job well.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15519	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	In relation to social work, early intervention is a good idea, however, it should always be taken into account the well - being of those affected and decisions should very carefully analysed before definite action.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15520	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b - Protect this area, most vulnerable.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15521	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	not social work, lack of social services in west Lothian is disgraceful and waiting times should be improved significantly, families should not have to wait months and months for a care package and your social care direct telephone first port of contact is a disgrace with nobody taking your call and waiting sometimes weeks to get a response, spend money wisely to improve services that mean the most to people	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15522	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do not agree	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15523	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Difficult to agree when you cannot come up with a figure for savings	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15524	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Do not remove truly important local facilities to tax payers such as social care for those truly in need, Things which make life better for those who pay tax must be protected as that is what we are funding towards our community.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15525	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	P5 - P7 Pupils at Croftmalloch Primary discussed these options and stated: - ". Families support "Families struggling should get help, more help early means they might not need bigger supports later on	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15526	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	*4b Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support. (Saving to be determined) *Absolutely no to the above. I work in education and have done for 36 years. With the increasing levels of families in crisis and the increase in youth crime, this service needs to be increased to support the demand.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15527	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I think more should be done in child and families services, as someone who uses this service it is vital for all of the family to be involved where appropriate and sometimes even more than just once a week to help facilitate to their needs. Council nurseries need to provide more spaces for nursery age children but also for eligible 2's places where necessary for families that are eligible and require the support	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15528	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Family support services is a needed service in West Lothian, the early years are the most important and working with the families will have positive bearing on the future years. This area is a must keep for the council.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15529	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I think the council should be looking to save money in all areas however I would be worried that the criteria for a social work service will be so high that it will place vulnerable groups at risk and could potentially lead to negative outcomes for families.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15530	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Justice services should be increased	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15531	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	but Children and Justice service is a much more careful consideration and should not be progressed where this could be a disadvantage to local children	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15532	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Investing in early start you would hope would prevent young people coming into care, foster care is expensive and cost is not only in carers fees but transporting those in care to their schools which are often far away from where they stay. Hopefully something the government could support all councils to do	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15533	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	There is no option but to respond to the changing demographic. The solutions here are only one way of doing that though, and are somewhat short sighted based on immediate trends. Alternative solutions could be to consider alternative ways to fund the services required for the elderly, or to look at efficiencies in how those services are provided. And which of those services could and should be means tested.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15534	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	But not in the area of Children and Justice Services. This is a vulnerable part of our society that needs the greatest protection	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15535	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yes to a certain extent but more funds need to be allocated to housing / social work and children's justice / services. A vulnerable 16 year old girl homeless and the answer was there is nowhere available and to go to a police station.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

15536	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree savings should be made but I do not think any reductions in Children and Justice services or social work provision should be planned. As costs continue to increase in all our daily lives, families and young people are going to need more help, not less. Social disengagement is a big problem already. School attendance is at an all time low. These services should be given increased investment, not reduced.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15537	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children are still being failed, the children 's justice system needs a huge shake up and a redevelopment of this is long overdue. The care system is failing our older generation and boring but government funding can aid this.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15538	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You should not decrease the services of social work and children's services	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15539	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	In general I don't support removing facilities from children and young people to give them to the elderly (even although I am over 65).	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15540	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	There should be no savings in these areas as all are needed.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15541	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b should not be reviewed social work and justice are already stretched as it is	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15542	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	(4b) The quality of service should not be impaired, to save money.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15543	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do not agree with a review Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support. Such early intervention services are vital to prevent later (more costly) expenditure, when individual or family concerns require statutory interventions.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15544	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I agree with savings above however I think statutory youth work should be protected.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15545	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	b Early Intervention for children and families is really important, we have had support from YAP and some Families Together but there is not enough of this work for everyone that needs it. It would be good if people are helped early on in life to stop prison sentences etc.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15546	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social work and family support services should absolutely not be cut back. More support is already needed than currently available.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15547	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	But need to invest significantly in social care as this has suffered the most with austerity and causes real distress for families.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15548	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b no I have had support workers all my life, would be lost without them.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15549	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Although I see the sense in reviewing children 's services - I would be concerned that this would impact on the vulnerable families that are supported by these services.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15550	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Help families earlier especially with support from social workers.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15551	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social care should not be reduced for children and families.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15552	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do not think social services can cope with the funding that they receive far less if cuts are made. Savings can be made much more safely in other areas.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15553	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Stop being so short sighted. Whole family approach takes skill and time, it is not a quick fix and needs an eco system of support to work. This contradicts other suggestions earlier in this question set.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15554	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social services are already under strain due to high demand and under funding. The only review for this area should be to increase funding. Early intervention is key in reducing long term impact of trauma. Reducing socioeconomic determinants of health for our most vulnerable populations should be a priority for our council. And any discussion of reducing these services is shameful. Any cuts should be seriously considered for the long term damage it can cause. Reducing social services also puts more strain on health services such as CAHMS and addiction services. Funding for these services is essential and should not be cut. It is a long term investment and should be protected. It is a long term investment and should be protected. It is a long term investment and should be protected.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15555	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Caution is required around cutting services for our vulnerable groups, support services to these groups is already under resourced.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15556	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Essential services such as social care are already struggling to meet demand. Please stand up for the people you represent and make clear that continued cuts are unacceptable and unsustainable.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

15557	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	These reductions are disadvantaging residents and eroding vital support networks. Essential services such as social care are already struggling to meet demand. Please stand up for the people you represent and make clear that continued cuts are unacceptable and unsustainable.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15558	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	These services are vital and need to be kept	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15559	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Terrible idea at the expense of the future generation. Do not do this	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15560	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Yet again - you are targeting the most vulnerable in our communities without proper consultation You need to get out of your offices - stop hiding & speak to people AND LISTEN	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15561	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	More children than ever live in poverty - families request support to ensure poverty, trauma, additional support needs are given the highest priority. These children are West Lothians future - we need to stop taking money from the most vulnerable	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15562	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	there has already been a massive reduction in social policy workers and job freeze has meant so much more work with less staff to manage the workload. Reduce the management structure and bring all family support in to social work teams to meet ongoing need.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15563	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b is pie in the sky.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15564	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Just no.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15565	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	At this moment in time I don't maybe at a later date, Sorry for now	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15566	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Stop going for children who cannot vote or have a say in these changes!	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15567	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Demographics are always prone change and must be prepared to react accordingly. Drastic and non - reversible actions must be carefully considered.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15568	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Again children are the target. Children with underlying challenges do not need more changes. Doesn't help mentally health	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15569	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	It'll cost the public more to reach these facilities if you move them away from local areas	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15570	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Sounds like yet more cuts to services, There is nothing as it is	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15571	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Definitely not. Why pour more funding into those older than 65 when its the children who are most important. Only reason its been declining is the state of things as it is, why then make it worse by removing even more focus from children and focusing more on the elderly?	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15572	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	With so much present and future housing development it would be absurd to reduce these facilities	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15573	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	social care is already been cut to starvation	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15574	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	The justice and children services are already stretched to over capacity. Taking away any early intervention service is going to place more demand on social work and ultimately end in more children needing looked after away from home with foster carers or in residential houses (resources the council do not have). We need our family support workers to support families to manage children at home as this will save the council money.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15575	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Reducing non statutory services will simply result in those people who access these services being unable to do so and without this support will fall into crisis thus needing crisis support, with the resulting higher costs of delivery of crisis interventions - we must continue to enable families to be resilient and help them to help themselves - this is what non statutory services do	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15576	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	They have already been reduced enough! This would put more pressure on already stretched services.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15577	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Once services like this are reduced in areas it will be hard to increase them in the future. As change will once more happen in these areas in future years as people age and the communities become younger once more.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15578	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	West Lothian population is increasing reducing these facilities would be detrimental to the community	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15579	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I don't think justice services should be cut until the early intervention measures are outlined clearly and demonstrated to be successful in practice. This is not an area which should be experimented with.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15580	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	under no circumstances reduce any early intervention or family support as the volume of need in this area has hugely increased due to massive increase in Autism and ADJD identification. These services need to increase as do quicker access to CSNHS and diagnosis, mental health facilities.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15581	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Instead of reducing family support, it should invest in prevention to avoid greater costs later.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15582	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This shouldn't be an area in which to make savings.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15583	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I have no words you have built houses on houses and cutting the services for all these people and children	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15584	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children are your future. Making access to services harder will cut down on parents who are already disengaged taking part. This will store up issues of unemployable young people and disengaged and possibly troublesome	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15585	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b - There is a high number of troubled kids needing support in West Lothian, and the thought of cutting funding to this area would do serious long - term harm to these kids and their communities.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15586	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b. Social work is stretched as it is. What does reviewing services mean. And how will there be savings unless it means redundancies and closures.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15587	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Family support services are an important role to engage with Vulnerable families in area	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15588	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Fearful of the cuts especially in children services	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15589	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	When care services are maintained and well - funded, they don't just help individuals — they keep people in work, attract families to the area, and support local businesses.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15590	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. When care services are maintained and well - funded, they don't just help individuals — they keep people in work, attract families to the area, and support local businesses. The government needs to step up and give councils the proper funding to deal with these changes. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15591	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You'd be penalising children, an awful action to consider.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15592	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Demand for family support is probably at its highest. Reducing these services will mean more demand in other areas which will likely be more costly.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15593	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	worst ideas yet. wtf.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15594	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I'm saying no but I'm out my depth here regarding these services, if it's children suffering through closures or services I'm not a fan of that, again exercise caution!	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15595	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Again without affecting the public, social work services and support already seem to be at breaking point in the area. I had no awareness that supported employment existed and I have been alot of positive support with them, since joining I have been able to go to a doctor and get an adhd assessment as a man in my 40s I wasn't aware of what this was but explaining my struggles to my key worker she helped me have this conversation with the gp - I have also started work again and currently looking for a career job now that im in work with the help of my key worker. she also got my ~~helped me secure a job and my mental health is better than ever~~	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15596	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	~~let's reduce the children justice service for the most vulnerable kids, wow council on fire here.~~	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15597	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I disagree with reshaping services predominantly based on demographic changes. The Council's focus is neglecting critical concerns like oversubscribed school classes and the needs of working families. Many older residents with substantial assets are not contributing fairly toward sustaining services, while younger people face worsening access and quality of education and care. A balanced, fair approach that supports all age groups equitably is essential.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15598	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Services should not be reduced based only on population changes. Reducing family support risks harming vulnerable families, children with additional needs, and disabled parents. Demographic planning should improve accessibility and support, not remove local services that many people rely on for stability, routine, and wellbeing.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15599	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Education, Children and families should not be impacted by budget cuts, end of story.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15600	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I believe these are essential in our communities and should not be cut	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15601	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	If the children and justice services are reviewed and deemed as with low demand then there's a fear that families will slip through the loop and be missed causing greater suffering or catastrophic outcomes when interventions could have been implemented.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15602	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I disagree ee with all these proposals. As more houses are constantly being built, demand for school places will only increase. The elderly population is increasing, you cannot wash your hands of your responsibilities to them. They have paid 40 plus years into the system and deserve to be respected with appropriate services and provisions.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15603	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Shaping services around locals will make them ask for more	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15604	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	social work services are also very important as there are vulnerable children in our communities who rely on these services	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15605	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	No don't agree - again stop taking away from the people most in need of services	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15606	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I Do not agree as we should be investing in our young people	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15607	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	No, but I just find it hard to understand why you think there is going to be a shortage of birth going forward	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15608	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	As far as children and justice services is concerned they are woefully underfunded at the moment and any reduction would be a false economy resulting in increased costs further down the line as these children reach adulthood without the tools to be a successful member of society.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15609	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	disagree with all	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15610	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Reviews that have been carried out especially within social work services have had a negative impact on partner agencies who struggle to have quality engagement from social work services.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15611	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	West Lothian's young people rely on a network of early - intervention and preventative support that goes far beyond statutory services alone. Community programmes and children's support services play a critical role in keeping young people safe, connected and on a positive path — especially when social work or youth justice may need to be involved. These services often act as the first point of support, helping to prevent issues from escalating and reducing pressure on already overstretched statutory teams. Cutting funding here would remove vital lifelines, increase demand on crisis services, and ultimately cost the community more in the long run. Maintaining investment in non - statutory youth and children's services is essential for protecting the wellbeing of our young people and sustaining a safer, healthier West Lothian for everyone.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15612	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children services are becoming less and there is more a demand for this level of service so to take away this is putting more pressure on society.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15613	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Don't cut funding to children / family services	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15614	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You are looking to reduce family support services???? How is this a positive in the long term. All generations should be catered for in West Lothian, our partnership centres should be used more effectively, mother and baby groups, sessions for the elderly community, and god forbid we provide youth clubs for the young ones, disabled access groups all of these clubs should be run by the council in council buildings by council staff and volunteers. Cut your senior management wage bill and bring services and facilities back to West Lothian, make it an attractive place to come and live	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15615	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do not think you should take any money from social work or support for families as people do not get enough support just now.	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15616	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	We need our support services, social care and support for families. Early intervention is the key priority when it comes to children and families We need library's open as this aids the community for elderly and children	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15617	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b will create and cost more problems. Lack of support for children and justice systems is a false economy. It will cost more in the long run when dealing with criminals offices and crisis situations	Social Work and Health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

15641	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	i dont have anything to say about it	Social Work and Health	3. The respondent advised that they had no comment to make.
15642	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	tdk	Social Work and Health	3. The respondent advised that they had no comment to make.
15643	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	.	Social Work and Health	3. The respondent advised that they had no comment to make.
15644	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	No	Social Work and Health	3. The respondent advised that they had no comment to make.
15645	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	tdk tth	Social Work and Health	3. The respondent advised that they had no comment to make.
15646	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b The students and their parents should also be sanctioned in the case of antisocial behaviour (bullying, physical threats, constant disruptions during classes and poor attendance)	Social Work and Health	4. The council is already doing this.
15647	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	The children's social policy landscape is a mess and needs an external review as it is costing more, for less impact, and at some point soon, a child from West Lothian will die, or kill someone, which could have been prevented by them being allocated the right resource earlier. Early intervention isn't just getting the kids before things become that level, it is also ensuring the kids who get to that level get the correct intervention to keep them, and the community safe. West Lothian Council is failing in that just now.	Social Work and Health	4. The council is already doing this.
15648	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	definitely quicker response to working with families and social work as sometimes these children need to be staying elsewhere until their family life has improved and help them to maintain their household so the children are safe and nurtured the way they should be	Social Work and Health	4. The council is already doing this.
15649	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Increase the amount foster carers receive. May make the role a viable career for more people and cheaper than astronomical residential costs. Pay kinship carers, more family members might come on board and again far cheaper than residential costs.	Social Work and Health	4. The council is already doing this.
15650	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Staff credit cards within the children's houses may also be being overused can expenses be monitored better if spending is done differently maybe less be spent if it's not as easily accessible.	Social Work and Health	4. The council is already doing this.
15651	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Increase salary that foster carers receive. This may make fostering a viable career for more people. Would be a saving on astronomical residential care costs.	Social Work and Health	4. The council is already doing this.
15652	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Pay kinship carers, more might come on board and again would be an overall saving on residential costs.	Social Work and Health	4. The council is already doing this.
15653	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Increase money Foster carers receive. It may attract more people to foster as a viable career option. This will reduce costs of children in care, the costs of which are astronomical.	Social Work and Health	4. The council is already doing this.
15654	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Ask the community	Social Work and Health	4. The council is already doing this.
15655	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Ensure that, due to the ageing population, social care services will be available to them	Social Work and Health	4. The council is already doing this.
15656	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Reduce support for non engaging families	Social Work and Health	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15657	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do think care should be provided to all service users in westlothian who come from and live in westlothian.	Social Work and Health	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
15658	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I have to send my child to private nursery with longer hours to accommodate me and my husband's working patterns. We need more public nurseries with longer working hours.	Social Work and Health	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
15659	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Stop spending money on disruptive children taking them on many days out and giving their families funding and concentrate more on children with life threatening conditions and real disabilities.	Social Work and Health	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15660	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Nursery's to go back to 38 weeks to match schools. A lot of the parents have nursery kids in nursery all summer but at home with their schoolchild. Keep a few as 50 weeks if it's needed for child protection or those that insist on 59 weeks but advised at time of enrolment where the 50weeks nurseries are so they can make the choice.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15661	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	This should not be done in isolation. It needs to be done in conjunction with community services and buildings being available to provide these community groups being houses	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15662	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	yes like I have said earlier in this review, put in a more robust lengthy at home service to families with high intensive support from family workers, reducing the amount of children access care. Currently short term, but for some families this needs to be much longer and more intensive to make it sustainable	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15663	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Its not just about being efficient it also means being able to provide an invaluable service. Provide longer term support at home to children and young people on the edge of care. Currently there is short term solutions the services withdraw and initially families do ok, but a high percentage eventually fall back into bad practice. If there is a team - family support worker working with a family and circumstances improve where health and school appointments are kept, school attendance improves, home conditions are acceptable and sustained, less police involvement then the family support worker should remain with family and keep this continuity. Children can remain at home with family and support from role model as an alternative to coming in to care. Family support worker would have a max of 3 families sharing time equally throughout week. The cost of support worker's salary is a lot less than 2 - 3 4 or more children being admitted to care	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15664	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	1. Stop using private agencies for Fostering & instead divert some of the saving to an in house therapist team to oversee behaviour management and improve support to in house carers	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15665	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Youth Justice could become a Youth Strategy service encompassing a number of existing services and widening its remit making better use of existing staff.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15666	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	If you hired more family support workers in the children and families social work team I think we could delgate a lot of work that I get bogged down in that stops me from holding a higher case load, this way you could justify less social workers who you have to pay more than family support workers. Majority of stuff I end up doing that doesn't need to be a qualified social worker is a stupid waste of me, as your primary resource.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15667	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Amalgamate Families Together Teams with Residential Houses to provide an outreach service to children on the edge of care. This could involve using Whittrig House as a respite base to support early intervention and keeping families together.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15668	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Better use of our pool car service. A more efficient way in which services visit / support clients i. e. a social worker and a support worker completing a joint visit to a client with the social worker accessing a pool car from one locality and the support worker accessing a pool car from another locality and meeting at the family home. With better communications we could be sharing the pool cars to offer our service. This would surely reduce costs and emissions which would be in line with the green policy?	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15669	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	More support to the family's that have children with health issues / disability.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15670	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Justice services. Consolidate functions to one unitary team with a mixed generic caseload - including Prison based social work - No need for separate PBSW team. Only one senior manager. Existing group manager tasks can be split around existing managers reporting to the senior manager - they can take turns of supervision - doesn't need to be all can be shared. One team providing all justice functions equally. currently employee gaps depend on new employees due to existing employees not having experience in other functions. One unitary team delivering all functions in a mixed generic caseload. Justice services specific currently separate designated teams to operate Justice Services including Prison based social work. Why not move to a mixed, generic caseload and only Consolidation of workers so that skills can be utilised across the different functions of Justice social work delivery. Right now when there are gaps in service this demands new workers. However a one singular team where work is mixed comprising all functions of justice social work including Prison based social mea	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15671	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Justice services specific currently separate designated teams to operate Justice Services including Prison based social work. Why not move to a mixed, generic caseload and only Consolidation of workers so that skills can be utilised across the different functions of Justice social work delivery. Right now when there are gaps in service this demands new workers. However a one singular team where work is mixed comprising all functions of justice social work including Prison based social mea	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15672	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Justice to consider the out sourcing of services and the benefits vs cost of this. For example paying for DASAT additional justice service, review if this is beneficial. Review bringing groups into West Lothian and if this is going to be cost effective.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15673	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Better use should be made of the Community Payback Scheme and have those on it litter picking, cleaning up beside the Almond, removing graffiti, helping to repair homes and gardens.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15674	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	If you are looking at early intervention then you need to invest and design a social work and education service which is more community based.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15675	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Regarding Children and Justice Services, I believe this is a vital area of support, but it's important that financial management is robust and transparent. A thorough review could help ensure that funding is being used effectively and that services are reaching those who need them most.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15676	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Savings could also come from shared service hubs, partnerships with third - sector organisations, and digital transformation in areas like social work administration and family support. Ultimately, the focus should be on targeted, flexible, and sustainable service delivery rather than across - the - board reductions.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15677	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social care / care in the community has to be carefully planned, monitored, all necessary agencies have to work together, none of the usual passing the buck " not our department ". Residents looking for help don't want to be passed from pillar to post. No duplicating of services, get it right first time. We are an aging population do something constructive.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.

15678	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Enalagate services - Families Together - ISS teams - 8 manager across these services where 4 would be suffice. Cut back on number of staff doing the same jobs.... not cost efficient. Move all into one building would save a fortune. TOO many group managers above team managers too. Too many differing teams from early intervention to high criteria crisis work. These are not meeting need nor being used to full potential. Too much work is being repeated just under different names, customers get upset at having to retell their story over and over to numerous workers. Close buildings where single teams are based, move to one building. Get rid of staff credit cards. Use Team managers to manage more then one small team, all sitting in same places.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15679	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Assess the efficacy of some services, for example DASAT, who are routinely difficult to get a hold of & do not provide adequate support to clients (specifically justice workers) & whether third sector providers would offer better alternatives.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15680	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	should be a review of the delivery of social work services, (may not be a council level decision) but could look at some of the societal root causes of some of the cases / families in the justice system. This may also be impacted by some of the proposed cuts and reviews in section 5 of the non statutory services.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15681	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Within Justice Services, there was recently a decision to move away from working with CISO in relation to interventions for those who commit sexual offences. The plan is to make our own internal team which, if done as it should be, will cost significantly more money than the £80, 000 to receive the service from CISO. We should revert back to working with them in order to save money.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15682	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Limiting funds for family time in Social Work, this would also help with assessments.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15683	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Ensure any community service carried out is saving WLC money and possibly training offenders for the labour market.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15684	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I do think that bringing together all family support workers from the practice team, duty, ISS, families together and having a pull of family support workers who support social workers. Do not believe the duty team is working. They hold cases until allocated. This can be for weeks / months but do not conduct work needed done in that time until the case is allocated to the practice team. It is then a change of worker and honestly minimal work has been done in that time.	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15685	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	I think it would be necessary to measure success of Children / Justice Depts to determine if it is worthwhile	Social Work and Health	6. The respondent suggested an improvement. Officers will consider how this could be developed.
15686	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Centralize these services making use of spaces created by moving provisions, all children in Scotland have access to free travel thanks to our eijt leaders why not make use of it??? I would not have any problem sending my children to well funded well run schools and nursery's via public transport rather than have underfunded schools falling to bits understaffed etc or split the costs head teachers run multiple schools. In these time due to Thatcher both parents now have to work so in my case school is simply a state funded care for my children that provides education as a by product so a reduction in days or hours of schooling will impact productivity as working hours will have to be reduced. Schools need to increase class sizes and back to basics stripping out costs unfortunately	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15687	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Social policy waste money, they seem to think their service is untouchable.	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15688	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	But not at the behest of older people services	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15689	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Remember that the elderly needs good provision of services too, that can access easily not just onlinr	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15690	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Look at what supports are already there to support vulnerable people within our community and ensure these services are kept.	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15691	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Youth justice and social work services are already falling far far short of the Scottish governments whole system approach programme	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15692	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Many individuals received disability benefit and do not wish to use this for the purpose of enhancing their lives, i e. purchasing aids and adaptations for the home, home care etc. We should be more strict in this area and ask for people to contribute to their package of care if they receive payments to help with disabilities.	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15693	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	B didn't appear to have a full understanding of the impact this may have on children and said they could just stay at home when asked where they would go.	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15694	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	-As for people getting older, most of them may have lived here a long time and have the right to services as they have paid their council tax and national insurance. Getting older is not something that someone should be punished for and lose out on services that should be available to them. If there is a demand for them then they should stay and other avenues explored.	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15695	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b is a separate issue from schools and should be dealt with independently	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15696	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	So you are saying close schools sell off land for care homes for the growing pension aged oap 's?	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
15697	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You should be running parenting classes so parents can parent and it is not left to teachers and the council services.	Social Work and Health	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15698	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Children who are living with a family member through kinship care should only receive the basic child benefits payment. Looking after a family member is a chosen responsibility and should not be a financial incentive.	Social Work and Health	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
15699	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Utilise community payback orders where limited skills required to allow, at limited cost, maintain services. Landscaping, grass cutting etc. where these services are in jeopardy of being axed.	Social Work and Health	9. The respondent made a comment on the survey question
15700	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	The savings from 4b should not be "to be determined" in a public consultation. A best estimate can, and should, be provided.	Social Work and Health	9. The respondent made a comment on the survey question
15701	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Make sure you get this right though!!	Social Work and Health	9. The respondent made a comment on the survey question
15702	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Work quickly to achieve 4 (a) 4 (b) and 4 (c) Don't be saying one same thing in 36 months time.	Social Work and Health	9. The respondent made a comment on the survey question
15703	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You can't even determine if some of this will generate the budgets cuts you need.	Social Work and Health	9. The respondent made a comment on the survey question
15704	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	There are too many "savings to be determined" which could mean no savings. There is nothing to evaluate if the projected savings are ever achievable.	Social Work and Health	9. The respondent made a comment on the survey question
15705	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Too many "savings to be determined" in this question which brings into question the thinking and intellect behind the delivery of these savings and this public consultation.	Social Work and Health	9. The respondent made a comment on the survey question
15706	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	You are proposing a chance to children and justice services without any suggestions as to what this may involve. It is not reasonable to state this and suggest that you have consulted on it. This is not a consultation. There are changes that could be made but it appears that no one has even thought about these.	Social Work and Health	9. The respondent made a comment on the survey question
15707	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	A lot of reviewing appears to be planned with little explanation of what the impact will be for families & communities. Similarly the review of delivery of Children & Justice Services social work deserves more consideration than agreeing to an unknown process, with unknown consequences which would provide unknown savings!	Social Work and Health	9. The respondent made a comment on the survey question
15708	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	Proposal 4b lacks detail and primarily supports cuts to the most disadvantaged; any reduction could worsen challenges for children, young people, adults, and families who are most in need of the support that they get. More services could be outsourced to the Third Sector. As previously commented the removal of local services does not sit within the community wealth building and 20 minute neighbourhood context and my view is that nursery provision should be considered in line with this policy to ensure low - income families retain local access. Without this clarity, informed support is not possible. Would an equality impact assessment be carried out for these kind of cuts?	Social Work and Health	9. The respondent made a comment on the survey question
15709	Theme 4- Responding to Demographic Change	4b - Review of the delivery of Children and Justice Services social work and family support services to inform future provision of targeted earlier intervention and intensive whole family support.	4b needs more clarification, as to work effectively will require more resources, not less.	Social Work and Health	9. The respondent made a comment on the survey question
15710	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	good idea	Education	1. The respondent advised that they agree with the proposal.
15711	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce nursery facilities in Council properties and increase charges.	Education	1. The respondent advised that they agree with the proposal.
15712	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with this if figures are accurate. However still believe that savings can be made at top table by reducing excessive salaries for executive and Senior management.	Education	1. The respondent advised that they agree with the proposal.
15713	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I would have thought the nursery and school reviews should be made anyway. I think thought should also be given to school transport when this review takes place.	Education	1. The respondent advised that they agree with the proposal.
15714	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It has to be done things change you have to cut costs	Education	1. The respondent advised that they agree with the proposal.
15715	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Sure	Education	1. The respondent advised that they agree with the proposal.
15716	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Makes sense to shape policy around changing demographics.	Education	1. The respondent advised that they agree with the proposal.
15717	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Although controversial the reduction in the number of nursery settings is an opportunity to make significant savings. As demographics change this will be a necessary step.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15718	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I don't have children, but I agree with the previous comment; however, you mustn't lose sight of Scottish ways of life in moving to meet the diversity.	Education	1. The respondent advised that they agree with the proposal.
15719	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think these are all viable options and should be considered carefully and cuts made where possible	Education	1. The respondent advised that they agree with the proposal.
15720	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	If nursery is not affordable it should not be offered.	Education	1. The respondent advised that they agree with the proposal.
15721	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This approach is needed - with such a large budget deficit there is a requirement to take a significant change such as school closures. Please don't take this off the table to appease the few rather than the greater good that the reduction in school buildings and rationalisation of resource can bring to the majority of learners particularly our learners with additional needs.	Education	1. The respondent advised that they agree with the proposal.
15722	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes —	Education	1. The respondent advised that they agree with the proposal.
15723	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes 100 % but nurseries and schools need to be expanded or more teachers added. I do but understand where the numbers come from for falling children ages. The parents are having to go to private nurseries and childminders due to the lack of any help for working families. My child's nursery is full of eligible 2s and for example I have to watch a mum drop her 2 year old off at nursery who wears a snuggle bag and a full sports branded tracksuit for nursery. She is also kitted out in brands and jumps into her 2 year old Mercedes. So her partner is either highly disabled and she drives his disability car around without him or she stretches her £850 a month wage very far. She is not alone there are multiple the same. Me and my husband work and I am struggling to find any childcare for my kids so I can go back to work after maternity leave! It's a joke. The playgroups should be extended the times they can work and the ages they can take on to help working families out and not "eligible 2s"	Education	1. The respondent advised that they agree with the proposal.
15724	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, I agree the Council should respond to demographic change, but with careful planning. It's important to shape services around the needs of the local population, but decisions like reducing schools or nurseries should be made only after full consultation with families. Older people will need more care, but education and support for children should still remain a strong priority — both generations deserve equal focus and respect	Education	1. The respondent advised that they agree with the proposal.
15725	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes defo	Education	1. The respondent advised that they agree with the proposal.
15726	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c The nurseries opening times should also be more suited for working parents (i. e. 0800 to 1800)	Education	1. The respondent advised that they agree with the proposal.
15727	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think these points have been well thought out	Education	1. The respondent advised that they agree with the proposal.
15728	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Every point in this should be carried out. It is common sense to deliver this	Education	1. The respondent advised that they agree with the proposal.
15729	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There needs to be changes in schools and nursery's in areas. Some have too many for the needs but some do not have enough for the needs in the areas	Education	1. The respondent advised that they agree with the proposal.
15730	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Close nurseries and primary schools that are not utilised or able to be maintained and invest in key schools	Education	1. The respondent advised that they agree with the proposal.
15731	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This seems an obvious efficiency.	Education	1. The respondent advised that they agree with the proposal.
15732	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes but this doesn't mean just shutting services such as nurseries which parents rely on for affordable childcare which is already very limited in many areas.	Education	1. The respondent advised that they agree with the proposal.
15733	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Absolutely. This has been a massive failure by west Lothian council. New or expanding communities should have the required facilities. Not just taking the money from larger houses in higher council tax bands and spending all over west Lothian. Spend the money where it's generated.	Education	1. The respondent advised that they agree with the proposal.
15734	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Maybe some nursery places need to move location as there is a lot of housebuilding going in in Livingston and surrounding areas. Maybe seek additional funds, as part of the planning application process, from housebuilders to build nursery and schools.	Education	1. The respondent advised that they agree with the proposal.
15735	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with most points here! Dechmont Primary has closed due to having very little children attending which I think was the correct decision.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15736	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	focusing on nurseries is sensible	Education	1. The respondent advised that they agree with the proposal.
15737	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Why are the council not currently doing this?	Education	1. The respondent advised that they agree with the proposal.
15738	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Staff sensibly and appropriately! My child is in a nursery and for a Thursday afternoon only 2 children attend and 3 staff are in.	Education	1. The respondent advised that they agree with the proposal.
15739	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Re introduce term time places at ELC across the network - and in turn, giving staff the opportunity to go term time.	Education	1. The respondent advised that they agree with the proposal.
15740	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes I agree with these changes, almost every area in West Lothian I feel there are to many schools and nurseries, I'm sure moving some things around you could certainly save money, this could be used for some structural items.	Education	1. The respondent advised that they agree with the proposal.
15741	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	No alternative ways agree with the areas you are looking at	Education	1. The respondent advised that they agree with the proposal.
15742	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with this in principle but planning permission for the thousands of new builds has to stop to enable schools, Doctors etc to be built	Education	1. The respondent advised that they agree with the proposal.
15743	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c should happen.	Education	1. The respondent advised that they agree with the proposal.
15744	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We need to cut our cloth accordingly and if savings can be made to make a more efficient use of our education infrastructure then that 's all well and good. However, there will inevitably be losers in all of this, people who will not get the same service as they currently do, and who will complain bitterly. The council must be able to robustly demonstrate how they have arrived at the solutions they have and ensure that service users are not significantly disadvantaged. Inconvenienced perhaps, but not so disadvantaged as to make them intolerable..	Education	1. The respondent advised that they agree with the proposal.
15745	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Necessary for services to suit actual population. Nurseries essential for community unless other possibilities nearby so no added transportrequired	Education	1. The respondent advised that they agree with the proposal.
15746	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Absolutely, though if some people end up having to travel further than they used to for nursery etc then up front consultation is needed.	Education	1. The respondent advised that they agree with the proposal.
15747	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Where number of kids is going down see where you can combine nurseries without increasing walking distances.	Education	1. The respondent advised that they agree with the proposal.
15748	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	why would you have nursery open when they are empty, cut the numbers and make the ones left better and offer more choice	Education	1. The respondent advised that they agree with the proposal.
15749	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Close nurseries in areas where population is falling.	Education	1. The respondent advised that they agree with the proposal.
15750	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree that we need to be more attuned to service demands and plan for future demographic changes. But I also acknowledge we don't have a crystal ball so it will require services to become more fluid in their approach.	Education	1. The respondent advised that they agree with the proposal.
15751	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree there is no point having too many opportunities in the wrong area and too few in other areas. but this should this not already have been planned for?	Education	1. The respondent advised that they agree with the proposal.
15752	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Obviously need to change as the population changes	Education	1. The respondent advised that they agree with the proposal.
15753	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Another stupid question, of course a business should respond and react to demographics	Education	1. The respondent advised that they agree with the proposal.
15754	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	A small cut and let them work smarter with what they have.	Education	1. The respondent advised that they agree with the proposal.
15755	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	services and amenities should correctly reflect the needs of the community	Education	1. The respondent advised that they agree with the proposal.
15756	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There is an over supply nurseries in the area and looking at what nurseries are better quality may help with the issue of over quantity. However, there should ALWAYS be access to appropriate childcare available.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15757	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c - yes do this.	Education	1. The respondent advised that they agree with the proposal.
15758	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	deliver services where there is a demand and reduce or close services where there is limited demand	Education	1. The respondent advised that they agree with the proposal.
15759	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to 4c	Education	1. The respondent advised that they agree with the proposal.
15760	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Cutting expenditure on falling child services to subsidise over 65s and vulnerable people's services is a good way forward	Education	1. The respondent advised that they agree with the proposal.
15761	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Cutting back on early years provision makes sense, with the money saved going directly in to services for the over 65s.	Education	1. The respondent advised that they agree with the proposal.
15762	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, the Council should respond to demographic change, but it must do so in a balanced and transparent way. It makes sense to review underused nurseries where numbers are falling. But closures should only happen where neighbouring facilities can absorb pupils without long travel times or loss of community identity	Education	1. The respondent advised that they agree with the proposal.
15763	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Again fully support reviews of existing services, no further suggestions at this time.	Education	1. The respondent advised that they agree with the proposal.
15764	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reviewing the placements sounds like the solution	Education	1. The respondent advised that they agree with the proposal.
15765	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Meeting the needs of an ever - changing demographic should be a given regardless of any savings to be made. More efficient and impactful work can be done to support communities / people in need if resource is appropriately allocated and not based upon age - old ways of operating.	Education	1. The respondent advised that they agree with the proposal.
15766	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This seems to be a logical step towards using the buildings appropriately	Education	1. The respondent advised that they agree with the proposal.
15767	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes i do agree with this as west lothian is getting bigger	Education	1. The respondent advised that they agree with the proposal.
15768	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery spaces - if the numbers are dropping and it is more financially realistic to still provide a service but pull some places together to be in a different building but still offer a great service - this would save money. I think they should extend the hours to support parents etc who are working access childcare..	Education	1. The respondent advised that they agree with the proposal.
15769	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We have to face reality.	Education	1. The respondent advised that they agree with the proposal.
15770	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all of these	Education	1. The respondent advised that they agree with the proposal.
15771	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes but again care must be taken in how this is done.	Education	1. The respondent advised that they agree with the proposal.
15772	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, I agree the Council needs to plan ahead and shape services around the changing population. It makes sense to make sure resources go where they're most needed.	Education	1. The respondent advised that they agree with the proposal.
15773	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Follow up the the areas suggested in the survey	Education	1. The respondent advised that they agree with the proposal.
15774	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Fully agree, I'd also support nurseries to become community interest companies on a not for profit basis	Education	1. The respondent advised that they agree with the proposal.
15775	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Looking at local populations and changing nursery placements accordingly is common sense. Unfortunately people will never be pleased at this.	Education	1. The respondent advised that they agree with the proposal.
15776	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	merge where possible nursery classes	Education	1. The respondent advised that they agree with the proposal.
15777	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Combine nurseries where the number of children is falling.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15778	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I've answered "Yes" to this but but only if the council can afford to do so.	Education	1. The respondent advised that they agree with the proposal.
15779	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	If the figures and forecast is correct then yes as we need to put more money into Older Adults services as there is a huge need for this	Education	1. The respondent advised that they agree with the proposal.
15780	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Should respond to demographic change and makes cuts where possible.	Education	1. The respondent advised that they agree with the proposal.
15781	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It should prioritise the elderly instead of just expecting them to pay for the younger generation. Remember, the people of pensionable age have likely contributed to the economy and should be rewarded, not expected to fund services those who haven't contributed.	Education	1. The respondent advised that they agree with the proposal.
15782	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree fully with points 4 A - C.	Education	1. The respondent advised that they agree with the proposal.
15783	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As stated before in previous comments. Stop wasting money	Education	1. The respondent advised that they agree with the proposal.
15784	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	All items proposed make sense.	Education	1. The respondent advised that they agree with the proposal.
15785	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	yeah i agree.	Education	1. The respondent advised that they agree with the proposal.
15786	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Since babies are being born at an all time low we might have to make less nurseries because what is the point of making lots of schools and stuff if it is not gonna be used when we can spend this money for more useful uses like helping people in poverty and helping the elderly.	Education	1. The respondent advised that they agree with the proposal.
15787	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Since babies in West Lothian are a coming in at an all time low the need for nursery education is not as needed then in the past so we should cut down some budget for schools in smaller area to save budget for other things such as helping people in poverty	Education	1. The respondent advised that they agree with the proposal.
15788	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduction in demand for nursery places as birth rate continues to fall plus amalgamation of primary schools where numbers are significantly below maximum capacity.	Education	1. The respondent advised that they agree with the proposal.
15789	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Look at nurseries / ELC with low numbers and merge these or reduce number of hours offered as believe number of hours have increased.	Education	1. The respondent advised that they agree with the proposal.
15790	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, look into making savings as per the councils detailed suggestions.	Education	1. The respondent advised that they agree with the proposal.
15791	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree.	Education	1. The respondent advised that they agree with the proposal.
15792	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to all these suggestions.	Education	1. The respondent advised that they agree with the proposal.
15793	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, review all these services as you have suggested, and make savings where possible.	Education	1. The respondent advised that they agree with the proposal.
15794	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree to reducing nurseries where the number of children is going down.	Education	1. The respondent advised that they agree with the proposal.
15795	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, if people are not suffering from it, e. g., school / nursery bus is provided, if any school or nursery is closed.	Education	1. The respondent advised that they agree with the proposal.
15796	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	P5 - P7 Pupils at Croftmalloch Primary discussed these options and stated: - "Nurseries with less children should be put together to fill spaces"	Education	1. The respondent advised that they agree with the proposal.
15797	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Shut down nursery's	Education	1. The respondent advised that they agree with the proposal.
15798	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Shut down some Nurseray schools	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15799	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c - Yes	Education	1. The respondent advised that they agree with the proposal.
15800	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Local nurseries with a few kids in them over the holiday periods doesn't make financial sense, staff, heating, lights and school meals, fuel cost to deliver said meals ect	Education	1. The respondent advised that they agree with the proposal.
15801	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reviewing ELC spaces makes complete sense, but would need careful planning and notification to parents / carers. It does not make sense for a setting to be running below capacity and overstaffed. However, the BENH means we need staff ratios to be clear and consistent.	Education	1. The respondent advised that they agree with the proposal.
15802	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Cut some nurseries as less children are being born	Education	1. The respondent advised that they agree with the proposal.
15803	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with other points re nursery capacity in West Lothian	Education	1. The respondent advised that they agree with the proposal.
15804	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Work quickly to achieve 4 (a) 4 (b) and 4 (c) Don't be saying one same thing in 36 months time.	Education	1. The respondent advised that they agree with the proposal.
15805	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with these points.	Education	1. The respondent advised that they agree with the proposal.
15806	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery capacity should also be reviewed to reflect actual demand, but any changes must maintain high standards of care and accessibility for families.	Education	1. The respondent advised that they agree with the proposal.
15807	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	If demographics reflect less need then I do agree with proposals	Education	1. The respondent advised that they agree with the proposal.
15808	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reviewing capacity for nursery provisions is beneficial	Education	1. The respondent advised that they agree with the proposal.
15809	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	While it is disappointing for parents to lose a nursery school near them it is necessary to close them if the numbers become too small. Parents now have the choice of using private nurseries so it is obvious that cuts here will follow.	Education	1. The respondent advised that they agree with the proposal.
15810	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with all the savings in this section	Education	1. The respondent advised that they agree with the proposal.
15811	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree.	Education	1. The respondent advised that they agree with the proposal.
15812	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to all these proposals.	Education	1. The respondent advised that they agree with the proposal.
15813	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think the number of nurseries could be reduced due to lack of demand in certain area's, you could also create development opportunities by taking on volunteers to support some services in exchange for training	Education	1. The respondent advised that they agree with the proposal.
15814	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with council proposals.	Education	1. The respondent advised that they agree with the proposal.
15815	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Review nursery capacity	Education	1. The respondent advised that they agree with the proposal.
15816	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Review nursery capacity and ratios as well as full day option (too long) Review early intervention and whole family approach Eligible 2s - some facilities not adequate for these children	Education	1. The respondent advised that they agree with the proposal.
15817	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There is no option but to respond to the changing demographic. The solutions here are only one way of doing that though, and are somewhat short sighted based on immediate trends. Alternative solutions could be to consider alternative ways to fund the services required for the elderly, or to look at efficiencies in how those services are provided. And which of those services could and should be means tested.	Education	1. The respondent advised that they agree with the proposal.
15818	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	More private nurseries if parents are both working and can pay for them and not so many Council nurseries	Education	1. The respondent advised that they agree with the proposal.
15819	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I do agree that if the forecast shows a lower demand in places for nurseries in areas, that provisions should be considered, however I feel there must still be a provision within each community. Can building be repurposed to meet the gaps to support the 65 +. This would require an investment rather than buildings being left, get run down or vandalised	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15820	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I feel the councils schooling and early years system is a shambles the 1140 hours and expanding out til 6 is making a lot of money in unused hours as lots of families are being allocated places that don't actually suit their needs	Education	1. The respondent advised that they agree with the proposal.
15821	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce spending on early years	Education	1. The respondent advised that they agree with the proposal.
15822	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c	Education	1. The respondent advised that they agree with the proposal.
15823	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree all.	Education	1. The respondent advised that they agree with the proposal.
15824	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You should explore all of these options.	Education	1. The respondent advised that they agree with the proposal.
15825	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, agree to all these. Also a suggestion - cut number of teachers if number of children falls. Maintain quality and current ratios, but make a massive saving. Decisions should be made for residents not staff.	Education	1. The respondent advised that they agree with the proposal.
15826	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Definitely 4c	Education	1. The respondent advised that they agree with the proposal.
15827	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Ensuring services are targeted at the changing demographics.	Education	1. The respondent advised that they agree with the proposal.
15828	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Explore all of these.	Education	1. The respondent advised that they agree with the proposal.
15829	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with all.	Education	1. The respondent advised that they agree with the proposal.
15830	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with all of these as possible sources of savings.	Education	1. The respondent advised that they agree with the proposal.
15831	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	but also I think it's important that children can still make it to the nursery.	Education	1. The respondent advised that they agree with the proposal.
15832	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, the Council should absolutely respond to demographic change and shape services around the local population. As communities evolve—whether through aging populations, migration, or shifts in socioeconomic status—public services must adapt to remain relevant, inclusive, and effective. Tailoring services to reflect local needs ensures better resource allocation, improves outcomes, and fosters trust between the Council and its residents. Ignoring demographic shifts risks inefficiencies and unmet needs, while proactive planning supports long - term sustainability and community wellbeing.	Education	1. The respondent advised that they agree with the proposal.
15833	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, services should respond to demographic change, but any changes must consider the needs of vulnerable people, including those I support in employment services. Reducing facilities or services without ensuring accessible alternatives could increase isolation and mental - health risks. Planning should focus on maintaining quality, inclusive services, with targeted support for older people, families, and those with additional needs, so no one is left behind as population patterns change.	Education	1. The respondent advised that they agree with the proposal.
15834	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes all these things should be done as I'm sure they have been done reviewed and amended in the past. Facilities must change as the housing and population change, and where the population hot spots are.	Education	1. The respondent advised that they agree with the proposal.
15835	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Why are WLC paying nursery fees for non West Lothian children?? Where ever these kids are coming from their council should pay for the service and vice versa - that would save £700K!	Education	1. The respondent advised that they agree with the proposal.
15836	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We seem to keep spending money reviewing nursery provision only to change it all again a few years later. This cant be cost effective. Sit down and decide what we can offer every child and standardise it.	Education	1. The respondent advised that they agree with the proposal.
15837	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with the recommendations suggested.	Education	1. The respondent advised that they agree with the proposal.
15838	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As long as it 's not detrimental to the community	Education	1. The respondent advised that they agree with the proposal.
15839	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reviewing nursery provision is sensible but remember to take into account that parents may not have access to a car and therefore walking distances for the catchment area need to be considered.	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15840	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This will all be fine	Education	1. The respondent advised that they agree with the proposal.
15841	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	the nursery should be in the school building. if it is not going to effect children by reducing numbers then they should reduce them	Education	1. The respondent advised that they agree with the proposal.
15842	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes re reduction in schools and other proposals	Education	1. The respondent advised that they agree with the proposal.
15843	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It sounds sad but I guess they have to do it.	Education	1. The respondent advised that they agree with the proposal.
15844	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Lots of the nurseries don't have many children I hear	Education	1. The respondent advised that they agree with the proposal.
15845	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Okay with these.	Education	1. The respondent advised that they agree with the proposal.
15846	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As per 4c	Education	1. The respondent advised that they agree with the proposal.
15847	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reducing provision is OK as long as there's noone suffering or losing out.	Education	1. The respondent advised that they agree with the proposal.
15848	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with points 4a, 4b and 4c. - Got to make sure older people are cared for. Services already cut to the bone. - Schools should be doubled up e.g. (Seafield and Blackburn or Dechmont and Broxburn / Bathgate)	Education	1. The respondent advised that they agree with the proposal.
15849	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Older people are living longer and requiring increased services, if no young people coming through shut nurseries	Education	1. The respondent advised that they agree with the proposal.
15850	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c - agree	Education	1. The respondent advised that they agree with the proposal.
15851	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Numbers have got to move with the population growth in different areas.	Education	1. The respondent advised that they agree with the proposal.
15852	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	CJ should be ongoing review	Education	1. The respondent advised that they agree with the proposal.
15853	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	So long as good quality nursery care is provided - and transport for those pupils who lose access to the school that has been closed - it makes sense to make the best use of the space available, according to the actual and forecast demographics. Can developers be charged more for building, to help ease the pressures? Can the council ensure that planning agreements are actually enforceable?	Education	1. The respondent advised that they agree with the proposal.
15854	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to exploring all these options.	Education	1. The respondent advised that they agree with the proposal.
15855	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I also agree that nursery provisions should be looked at.	Education	1. The respondent advised that they agree with the proposal.
15856	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, I agree with all of these. I think a better quality education could be provided, and children's horizon's broadened, by closing very small schools with only one or two classes.	Education	1. The respondent advised that they agree with the proposal.
15857	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I would agree with the suggestion to review the nursery	Education	1. The respondent advised that they agree with the proposal.
15858	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Look at one big nursery rather than smaller ones	Education	1. The respondent advised that they agree with the proposal.
15859	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	If it's a small town and there's not many kids they can not make a lot of nurseries and primaries	Education	1. The respondent advised that they agree with the proposal.
15860	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	They could get rid of a nursery and add more onto another nursery	Education	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15861	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Keeping an eye on demand on nurseries	Education	1. The respondent advised that they agree with the proposal.
15862	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Coming from early years background I think the whole set up has been dealt with in the wrong way. Before we went to the 52 weeks contract myself and 3 of my colleagues spoke about having the children in 4 days (Monday - Thursday) keeping it to term time (Maybe staff in the settings should have had more of a say to come up with suggestions). This would still have covered the 1140 hours entitlement. Keeping the Fridays for practitioners to do training and paperwork.	Education	1. The respondent advised that they agree with the proposal.
15863	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Because there are less children being born in West Lothian you should close more nursery's because there won't be a lot of people attending	Education	1. The respondent advised that they agree with the proposal.
15864	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce the number of nursery schools	Education	1. The respondent advised that they agree with the proposal.
15865	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Getting rid of one nursery and adding more onto another nursery.	Education	1. The respondent advised that they agree with the proposal.
15866	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	shut down nursery's and improve other one to add all the other kids	Education	1. The respondent advised that they agree with the proposal.
15867	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to: 4c - within reason	Education	1. The respondent advised that they agree with the proposal.
15868	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to: 4c	Education	1. The respondent advised that they agree with the proposal.
15869	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Instead of baby materials then make clubs for older people and more elderly homes Get rid of schools and nursery's if there are not needed. Spending less on community centres, nurseries and senior centre. Slowly add more facilities May you can make a club for old people with board games and books to help them to spend time with their new friends it can be only 2 pound to enter Council can look at nursery places in the most busy places and put nurseries sin the most busy places not the quiet	Education	1. The respondent advised that they agree with the proposal.
15870	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	while reducing number of nursery's Checking nursery spaces Encourage more people to use private nurseries instead of council nursery Less school buildings if there is already so many of them Combine same nursery's then make more care homes so that they would have places for the elderly Make sure all spaces in schools are filled.	Education	1. The respondent advised that they agree with the proposal.
15871	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make nurseries that are only open at school terms Helping family's is very important because we all have different lives we aren't the space so council could try give equal opportunities to all families in need and the rest we are all important. Close empty nurseries and open more care homes. You can add nursery's in certain areas near schools and only make the nursery open at that schools time so if they have an older brother or sister it's not a far journey. Get rid of one nursery and adding more onto the another nursery. Checking nursery spaces are full Spending les on extra stiff	Education	1. The respondent advised that they agree with the proposal.
15872	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c withing reason.	Education	1. The respondent advised that they agree with the proposal.
15873	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes 4c	Education	1. The respondent advised that they agree with the proposal.
15874	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	all of the above	Education	1. The respondent advised that they agree with the proposal.
15875	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	All of the above	Education	1. The respondent advised that they agree with the proposal.
15876	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c certainly	Education	1. The respondent advised that they agree with the proposal.
15877	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to 4c	Education	1. The respondent advised that they agree with the proposal.
15878	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce nursery places for children outside West Lothian Send emails instead of emails Raise money by paying to watch sports	Education	1. The respondent advised that they agree with the proposal.
15879	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with all of these.	Education	1. The respondent advised that they agree with the proposal.
15880	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, agree with all these examples.	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15881	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15882	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15883	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15884	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15885	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15886	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15887	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree to all	Education	1. The respondent advised that they agree with the proposal.
15888	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with proposals	Education	1. The respondent advised that they agree with the proposal.
15889	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	If there 's less young kids closing more nursery and things would help	Education	1. The respondent advised that they agree with the proposal.
15890	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Close less used nurseries	Education	1. The respondent advised that they agree with the proposal.
15891	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, explore all these options.	Education	1. The respondent advised that they agree with the proposal.
15892	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery provision needs to be looked at in areas of no new family incoming to the area.	Education	1. The respondent advised that they agree with the proposal.
15893	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c - Does this mean nurseries are underused. Local authority nurseries should be utilised fully but not overcrowded - environments need to be safe and staffed. If council contributes to costs of private nurseries, I don 't think this should be the case. If a parent wants private, then that is their choice to pay for it.	Education	1. The respondent advised that they agree with the proposal.
15894	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This seems a good idea - explore all these options.	Education	1. The respondent advised that they agree with the proposal.
15895	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree with 4c seems to make sense if the building are not getting utilised properly. Can use these building for other things i. e housing, community hubs.	Education	1. The respondent advised that they agree with the proposal.
15896	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Review 50 week nursery provision - perhaps amalgamation of settings over holidays - so much wastage on practically empty school buildings.	Education	1. The respondent advised that they agree with the proposal.
15897	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to: 4c Open surgery would be beneficial to hear the public.	Education	1. The respondent advised that they agree with the proposal.
15898	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	smaller classes could easily make use of rooms in community centres i. e Nurseries	Education	1. The respondent advised that they agree with the proposal.
15899	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, I agree the Council should adapt services to reflect demographic changes, ensuring resources are targeted where demand is highest. As the population ages, investment should focus on early intervention, prevention, and community - based care that supports people to live independently for longer. Where nursery capacity exceeds need, rationalisation may be appropriate, but this must be managed sensitively to minimise disruption for families and communities. Service redesign should be data - driven, equitable across all age groups, and focus on maintaining quality rather than ~~provision of services~~ .	Education	1. The respondent advised that they agree with the proposal.
15900	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Agree with all demographic changes suggested.	Education	1. The respondent advised that they agree with the proposal.
15901	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Demographic change is a huge issue. Supporting the older population to live productive lives with targeted initiatives. Again ensure no inefficiency, over provision and duplication in education and nursery places due to changing / falling population.	Education	1. The respondent advised that they agree with the proposal.

15902	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Totally agree with your proposals.	Education	1. The respondent advised that they agree with the proposal.
15903	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to all of the above.	Education	1. The respondent advised that they agree with the proposal.
15904	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	All good ideas. Children have a right to attend a nursery, there is no catchment so as long as offered a place, that is adequate.	Education	1. The respondent advised that they agree with the proposal.
15905	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Fully support the reduction of school buildings and a review of nursery provision is required. Too many half empty 50 week establishments running over school holiday periods.	Education	1. The respondent advised that they agree with the proposal.
15906	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, the Council absolutely must reshape services to meet local demographic change and secure long - term sustainability. I strongly support proposals that align provision with demand:4c (Nursery Review - £260k). Sensible alignment of council capacity with falling demand. I conditionally support	Education	1. The respondent advised that they agree with the proposal.
15907	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4 a b and c do all 3.	Education	1. The respondent advised that they agree with the proposal.
15908	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Adjusting nursery and being able to focus on area where it's needed the most would help	Education	1. The respondent advised that they agree with the proposal.
15909	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes to all.	Education	1. The respondent advised that they agree with the proposal.
15910	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Its a no brainer to reduce services at the areas that are not required. There is a fine balance here as there are other areas which need it. For example, I have a 4 years old who attend Parkhead Nursery at West Calder. He gets the free hours and we are happy to pay for him to be there full time but there are no place so we have to pay a private nursery for remaining days. This is a golden opportunity for the council to cash in.	Education	1. The respondent advised that they agree with the proposal.
15911	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes	Education	1. The respondent advised that they agree with the proposal.
15912	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It is obvious these examples should be pursued.	Education	1. The respondent advised that they agree with the proposal.
15913	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Focus on West Lothian nursery places only	Education	1. The respondent advised that they agree with the proposal.
15914	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries should be open only Term time	Education	1. The respondent advised that they agree with the proposal.
15915	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Should reconsider having the nursery open during holidays as they aren't fully utilised thus money is being wasted.	Education	1. The respondent advised that they agree with the proposal.
15916	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	get rid of less used nursery's to save money, add extensions instead of building a whole new school.	Education	1. The respondent advised that they agree with the proposal.
15917	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As detailed before have a local nursery be the central hub for summer holidays. This would reduce staffing costs.	Education	1. The respondent advised that they agree with the proposal.
15918	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	cut out year round nursery opening. you have the child you look after child not the councils job	Education	1. The respondent advised that they agree with the proposal.
15919	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Put nursery times back to term time places, paying nursery staff wages when there's no children there after 4pm!!	Education	1. The respondent advised that they agree with the proposal.
15920	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Similarly, reviewing nursery capacity seems sensible. I refuse to answer "yes" to a question on fundamentally altering children's and family services if you aren't able / willing to fully cost that out and disclose your figures	Education	1. The respondent advised that they agree with the proposal.
15921	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	close buildings which are not needed, including nurseries.	Education	1. The respondent advised that they agree with the proposal.
15922	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	respond to demographic change	Education	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15923	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The council nursery services i would quite happily support the closure of - if they aren't linked to a school. They are no use to working parents because of their limited hours so let the private nurseries take their place.	Education	1. The respondent advised that they agree with the proposal.
15924	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Support 4c. It really is a no - brainer that if the number of children is going down we need less schools and nurseries, and less teachers.	Education	1. The respondent advised that they agree with the proposal.
15925	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	With the slight decline in children being born I think review on the nursery capacity in council buildings are worth review however I don't think closing nurseries would benefit the communities either or force parents to travel further for their child to attend nursery which may not be possible.	Education	1. The respondent advised that they agree with the proposal.
15926	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c - Yes at core but needed good solid support.	Education	1. The respondent advised that they agree with the proposal.
15927	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery capacity should be reviewed however the council need to ensure that they are not closing anymore nurseries, they are a stable place for many families to ensure parents can work. Within West Lothian travel services are very very poor, nursery closures could lead to parents having to stop work to look after their children thus receiving benefits. Nursery's need to be expanding and inclusive for all areas of west lothian.	Education	1. The respondent advised that they agree with the proposal.
15928	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Scrap 50 week etc.	Education	1. The respondent advised that they agree with the proposal.
15929	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Return all the ELC to 39 weeks	Education	1. The respondent advised that they agree with the proposal.
15930	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Good to look at the demands of the area and focus on prevention in those areas to ensure you can then save money	Education	1. The respondent advised that they agree with the proposal.
15931	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There are so many items on this list that will deliver short - term savings but long term damage. We need nursery provision	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15932	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	agree with all	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15933	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Don't over shoot pensioner demand like you did with schools. People choosing to retire in West Lothian likely have reasonable pensions. Avoid reducing child services as it's a false economy.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15934	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You speak of early intervention and support but for ASN children and families in need there is very little to offer them - a lot of low income families don't drive and public transport links are also being cut back. No family centres any more either. Children with extreme ASN needs being offered mainstream placements and not enough support or reduced support hours - they are entitled to the same hours as children with no needs, yet are being let down. An eligible 2's placement being offered 14 hours 1 - 2 - 1 support per week is not good enough - these are the children that NEED early intervention support and they aren't getting it	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15935	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We have already closed nurseries so not sure how many more can be closed. Worried about rural communities losing their wee schools...and wouldn't that just increase bus costs!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15936	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	But you close nurseries, amenities, then proceed to authorise more houses to be built. Again false economy.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15937	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It's out of order that you are taking all the nursery	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15938	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	No more nursery cuts the standard of care is already so low.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15939	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Closing or repurposing schools and nurseries is not the answer because when the population rate reaches the need for more schools there won't be any	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15940	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I would resist the urge to decrease nursery and school services as we have barely enough service coverage at the moment - SEN services in West Lothian is woefully inadequate.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15941	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Stop looking at cutting Nursery placements and building and focus on improvements, parents and pupils are suffering enough with closures or moving catchments Look at selling unused or under used buildings	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15942	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It's really important to focus on services for children & young people in order to support the future of our communities / workforce.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15943	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Please do not cut nursery places as it is important that parents can get back to work and contribute to society.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15944	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We had a nursery close locally this year and it's has a detrimental impact on my family and my ability to work. Parents need more 50 week, flexible places to be able to work, pay council tax and keep the whole system moving. Don't cut more nurseries. Please	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15945	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Keep all nursery's open and improve child facilities and to provide childcare to help parents work	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15946	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Don't move to quick to close facilities at the heart of the community.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15947	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We should not be closing Nurseries unless primary schools have space to take a Nursery class.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15948	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I do not agree	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15949	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think it is very important that rural communities have access to local primary schools and nursery provision or people will not be able to live in three areas	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15950	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery capacity has recently been reviewed and a few have been closed. Is there a need for another cull?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15951	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Expand nursery schools, keep the facilities for elderly and disabled.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15952	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Education should be protected and children should be able to attend a school nursery in their local community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15953	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I don't think nursery school children's education should be compromised whatsoever as they are our future workforce.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15954	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Don't reduce nursery provision. Not if you want women to have the chance to work and retain their careers.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15955	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There should be no savings in these areas as all are needed.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15956	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reviewing nurseries are ok but not taking away places. I know lots of cuts have been made. Women can't go out to work without this support - especially single parents.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15957	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Kids need a nursery place to go to though..	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15958	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery provision is vital for working families - reduce this capacity and you make it harder to access it, leading families being forced to use more expensive, private alternatives or forcing parents out of employment (predominantly women).	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15959	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	(4c) The quality of service should not be impaired, to save money.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15960	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Help families early Don't shut nurseries	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15961	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4c) Difficult balls to juggle. Parents need to work, they need nursery facilities. Working - tax paid, not working - social funded parents. Costs need to be accuracy ased to max gain	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15962	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	But do not cut nursery places	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15963	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It's all well and good reviewing nursery capacity in council facilities to better meet demand, but you could end up creating a society whereby only certain areas of west lothian will be suitable for families with nursery age children and there wont be the interaction of all ages coming together in their local area.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15964	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think nursery provision is essential to ensure that working families can continue to contribute towards the areas economy	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15965	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This is very large list and it would have been helpful to ask about each of these areas individually. In respect of cutting non - west Lothian children getting early years funding, this is against the National Policy of the 'Funding following the Child'. As a parent of a child in a West Lothian private nursery (but we reside in Falkirk Council), I am relying on this funding in the coming years to enable me to maintain my employment as a Statutory front line worker for West Lothian Council (12 years service). I require my child to be in a WL nursery to enable me to do drop offs and pick ups on	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15966	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Do not close outlying nurseries in low demand. These are key community locations / networks	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15967	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I do agree that reducing nurseries if there is an over supply is a good solution, but at the moment the cost to have children and get child care is extortionate - we need kids to keep the world turning and parents need support to do this.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15968	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Don't make any changes to education services.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15969	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Not cramming more children in though and putting more strain on teaching and nursery staff	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15970	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Do not agree with closing some nursery schools as the demand remains high. Do not agree reduction in funding for specialist schools and nurseries for children with additional needs. Demand is very high and the notion that they will all fit into main stream schools is ridiculous	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15971	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes we need nursery's not less.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15972	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Whilst you're claiming that there's a decrease in the number of school places needed, parents are struggling to find nursery spaces for their children.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15973	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Not closing nurseries and services when the communities are increasing. Having more social housing instead of selling off land for private homes. Putting a cap on private let homes	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15974	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I agree that reducing school estate but do not agree with reducing nursery schools, many families will not send their young children to nursery schools which are too far away. This will reduce educational opportunities for preschool children in low income families	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15975	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	All the opposite. Look for alternatives to being more YOUNG FAMILIES into these areas. Closing school and nurseries would be the last nail in the coffin for these towns.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15976	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	These services are vital and need to be kept	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15977	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Terrible idea at the expense of the future generation. Do not do this	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15978	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	4cThis would increase travel for young children and cost people more to get there....	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15979	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Just no.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15980	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Do not cut education. Schools and nurseries are our future. It's hard enough working in a school / nursery just now with cuts Invest in the future	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15981	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	DO NOT OVER CROWD NURSERIES	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15982	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The nurseries have already been drastically affected. Closing more nurseries and schools will only result in bigger class sizes where the quality of education is lost.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15983	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Closing nursery's and schools make the children's lives harder and parents. For all the houses your building we will need the schools and more doctors	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15984	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Closing nine nurseries already which has caused others to be full to capacity already should not have happened!! Closing more and or schools is not helpful for anyone	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
15985	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This is an important area which needs community buy - in. Young people, particularly those who are disadvantaged or live in deprivation need more support in challenging times. Taking away Council nursery places would be wrong for example.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15986	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	At this moment in time I don't maybe at a later date, Sorry for now	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15987	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Stop going for children who cannot vote or have a say in these changes!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15988	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Again children are the target. Children with underlying challenges do not need more changes. Doesn't help mentally health	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15989	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Already shut down various nurseries. Schools are on their knees with amount of high tariff children and children with ASN. The children and staff are already being stretched without adding more pressures of closed schools / nurseries.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15990	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It'll cost the public more to reach these facilities if you move them away from local areas	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15991	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Closing Nurseries is a ridiculous idea.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15992	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	How can a review save approximately £260, 000. What will the actions cost. again this data is misleading and confusing	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15993	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This turns into a postcode lottery to families. If there isn't a school / nursery in an area with less children, families will never move to this area. That's just stupid too. Again you are pulling funding from the children - who need early intervention and access to education. Children don't want to travel for miles for the sake of school. You also run the risk of families moving out of WL as there are no provisions	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15994	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I find it outrageous that you are considering closing schools and nurseries. You are stating the quality of learning will continue to be high by making this move. I would like to have evidence of this as I am certain that won't be the case. Children will be traumatised moving school, there save spaces, to start somewhere new. Class sizes will increase so the quality of education will reduce. Children's education should never have to suffer. Extra travel for parents will result in increased cost and inconvenience attending different schools. This is unacceptable.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15995	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It's such a disappointing proposal. We have already seen 2 nurseries close in our neighbourhood this year, schools that aren't fit for purpose at the moment due to RAAC and currently like building sites. This has such an impact on our children's learning. I don't agree with any proposals in cuts to education or schools or numbers of buildings	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15996	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Sounds like yet more cuts to services, There is nothing as it is	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15997	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Definitely not. Why pour more funding into those older than 65 when it's the children who are most important. Only reason it's been declining is the state of things as it is, why then make it worse by removing even more focus from children and focusing more on the elderly?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15998	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Not if it means less nursery places and children have to travel further than necessary	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
15999	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Closing schools and nurseries is a terrible idea.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16000	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	With so much present and future housing development it would be absurd to reduce these facilities	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16001	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Once services like this are reduced in areas it will be hard to increase them in the future. As change will once more happen in these areas in future years as people age and the communities become younger once more.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16002	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	They have already been reduced enough! This would put more pressure on already stretched services.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16003	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	West Lothian population is increasing reducing these facilities would be detrimental to the community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16004	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	reducing nursery availability negatively impacts people's ability to work. Which isn't good for council either. The change to term time only to deans primary nursery meant I couldn't put my child in and had to use private nursery which cost me and the council more. Other people may be unable to enter work force which can't be good for council.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16005	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This shouldn't be an area in which to make savings.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16006	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Do not reduce nursery places. Mothers and fathers need affordable childcare so they can work, contribute to society and sustain reasonable lifestyles.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16007	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Do not take nurseries away parents need them to be able to work - don't make it harder and children need the support	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16008	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I have no words you have built houses on houses and cutting the services for all these people and children	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16009	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Leave education alone e	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16010	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	less nursery's means less opportunities for parents to get back into work.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16011	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I honestly do not know where you are getting these figures The 6 nurseries that were already shut has resulted in people having to travel further, not get the provision / days required and ultimately makes it harder for people to then work. Children greatly benefit from nursery and it should be quality education.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16012	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We need nurseries and these shouldn't change, stop throwing money at towns like Linlithgow and Winchburgh and treat all towns equally making sure education facilities are a priority	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16013	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Children are your future. Making access to services harder will cut down on parents who are already disengaged taking part. This will store up issues of unemployable young people and disengaged and possibly troublesome	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16014	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I couldn't get the nursery space we needed and only just with the school, you can't take more places away	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16015	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	In my opinion this is short sighted there are currently a number of developments with new housing that will surely increase the need for the use of more buildings.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16016	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	When nurseries are maintained and well - funded, they don't just help individuals — they keep people in work, attract families to the area, and support local businesses.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16017	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. When nurseries are maintained and well - funded, they don't just help individuals — they keep people in work, attract families to the area, and support local businesses. The government needs to step up and give councils the proper funding to deal with these changes. It's not fair to expect local services to keep doing more with less, especially when the number of children in need of care is increasing.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16018	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You'd be penalising children, an awful action to consider.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16019	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Demographics only tell part of the story so I would challenge this on the basis of the house building Carte Blanche given by the council with little regard to schools and nursery provision	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16020	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	My family have been impacted on the nursery closures, this has caused great stress and anxiety to my child who has had to change nurseries and to myself as a parent.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16021	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You've already closed perfectly good nurseries, despite what you say there IS need for them. Leave the children alone!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16022	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I'm saying no but I'm out my depth here regarding these services, if it's children suffering through closures or services I'm not a fan of that, again exercise caution!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16023	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As a new mum, closing nurseries is not popular with me.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16024	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Savings as mentioned before, stop taking money away from nurseries	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16025	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	worst ideas yet.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16026	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery closures have already happened, we do not want anymore closed	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16027	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I strongly disagree with any cuts to children's services. Our children are the future, and they have the right to access high quality support and opportunities to thrive. These services are essential and must be protected. Family support services are essential for the health and wellbeing of both children and adults. Investing in early intervention not only improves outcomes for families but also saves money in the long run. These children are our future, and it is crucial to get it right now. I strongly disagree with any reduction in family support services, there are already too few available, and reducing them further would be extremely detrimental to the community. Nurseries and early years settings cannot be stretched any further. They have already undergone major changes and faced numerous closures. Expecting all children to attend mainstream settings does not meet the needs of every child and fails to provide the right support for those who require additional help.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16028	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I disagree with reshaping services predominantly based on demographic changes. The Council's focus is neglecting critical concerns like oversubscribed school classes and the needs of working families. Many older residents with substantial assets are not contributing fairly toward sustaining services, while younger people face worsening access and quality of education and care. A balanced, fair approach that supports all age groups equitably is essential.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16029	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Truly local nursery provision is absolutely essential and should be protected.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16030	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Answering no because I don't agree most communities growing with no additional resources ie schools and having parents spending a lot on private nursery care as limited council options or funded places. Pressures on local gp practices. Look at benefits, housing, migration hotels	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16031	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	do not agree with reducing or reshaping local services based on demographic changes if it means closing nurseries. Every community deserves access to quality education, childcare, and support services close to home. Closing facilities risks damaging community life and increasing inequality, especially in rural or low - income areas. Instead of cutting, the Council should look at how spaces can be shared or used for multiple purposes, and how better planning and investment can support both younger and older residents without losing essential local services.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16032	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Education, Children and families should not be impacted by budget cuts, end of story.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16033	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Provide better schooling and nursery facilities. Invest in them not decess	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16034	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduction to any nurseries shouldn't even be considered.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16035	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I believe these are essential in our communities and should not be cut	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16036	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I disagree ee with all these proposals. As more houses are constantly being built, demand for school places will only increase. The elderly population is increasing, you cannot wash your hands of your responsibilities to them. They have paid 40 plus years into the system and deserve to be respected with appropriate services and provisions.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16037	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Shaping services around locals will make them ask for more	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16038	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Schools are part of a community and decisions to close schools and nurseries should take into account their position within the community rather than just financial incentives. Closing school could incur increased transport costs as children will have to travel further to attend if schools are closed. Children who do not live in West Lothian should not be allowed to attend WL schools or the council where they live should foot the bill.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16039	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You should be addressing the cause why people don't have children (they don't because they can't afford childcare and rent), not closing the schools or reducing nursery places.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16040	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You might need to re open nurseries again if more babies are born so it won't actually save you money in the long run	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16041	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	No don't agree - again stop taking away from the people most in need of services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16042	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I Do not agree as we should be investing in our young people	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16043	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The special nursery and playgroups are essential	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16044	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	- How will children be transported to fewer schools if the council reduces the size and numbers of school transport vehicles - You are tampering with young people's lives - Parents may have to give up jobs because nursery places are not there. - Reducing nursery and primary provision is wrong - It is important for socialisation - Reducing / closing these facilities will lead to problems with children alter in their lives that will cost more money to fix. - If you need to reduce the school estate, use the buildings to relocate council staff from other councils functions to until a point where the educational demand increases in which case they can become a school again. You can always sell off other buildings that cannot be used for education.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16045	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	It was shocking the closure of nursery facilities, the Council has their priorities wrong here.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16046	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Unless I'm mistaken, there is a lot of house building going on in west lothian. So I would assume these young professionals will have families and the children will attend private nursery subsidised by WLC. You are looking to close council nurseries to line the pockets of the private market with public finances - what is going on with this approach?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16047	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	disagree with all	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16048	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery's and schools could be crowded if they start shutting more	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16049	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Across the county we have already experienced the closure of local authority nurseries. Resulting in children attending a nursery attached to a school they will not be attending. Schools are already operating on reduced budget at the detriment to pupil support services	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16050	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Council nurseries have already closed across the county resulting in children attending a nursery of a school that they will not attend. Resulting in harder transitions from pre - school to primary.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16051	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	should focus on youths - give them something to do. nurseries should not cut as the council has already closed these despite it not being wanted. it was a joke closing them in the first place, the council did not listen to the parents, staff or the community	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16052	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I totally understand the need to save money. However it appears the most vulnerable will be affected by the introduction of school and nursery closures.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16053	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Not trust in your ability to do so	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16054	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I'm answering no to this question as I believe the options on offer are a bit of a knee jerk reaction and / or insufficiently researched about current use. I've seen a couple of notices about over subscribed nurseries being closed in favour of longer transport times to save on building costs. Remember the intention is to serve the communities you represent, not fund anyone else's pockets. If there's a case for continued support you better make it!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16055	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You're allowing thousands of homes to be built, those families will need nurseries	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16056	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Shutting council nurseries STOP IT!	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16057	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Children do better in smaller class and nursery spaces. Just because you think getting rid of spaces to pack children into another setting doesn't mean that is what is best for the children	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16058	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I don't agree with you reducing the nursery services available, not everyone can afford private nurseries	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16059	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	nursery's as places are limited as it is. More budget towards helping working parents as most nursery's now are 50 weeks which means pre school children are only at nursery 2 and a half days a week which doesn't help with childcare costs and no budget to even buy extra days	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16060	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries are hard to get into already and I need to travel out of the way for my daughter's nursery spot never mind having to go further. Especially with talk of removing the school buses some kids in some areas will struggle to get to school.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16061	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Responding to demographic changes by reducing the number of nursery facilities. How does the reducing younger population link in with the new schools just built in Winburngh and the potential new school in East Calder. The council closed 9 nurseries in West Lothian this year which this PC strongly opposed at the time. It has led to bigger class sizes which does suit all children and their abilities to learn whilst also causing parents further to travel to and from these settings increasing traffic and child safety. We appreciate the reducing younger population but is the council looking at support the ambitious housing development targets and in particular more affordable housing to bring young families to the area?	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16062	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I don't think nursery children's education should be compromised whatsoever as they are our future workforce.	Education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16063	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Put money into areas of poverty	Education	3. The respondent advised that they had no comment to make.
16064	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Idk	Education	3. The respondent advised that they had no comment to make.
16065	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Don't know sorry.	Education	3. The respondent advised that they had no comment to make.

16086	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I don't	Education	3. The respondent advised that they had no comment to make.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16087	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Before any closures to nurseries is made consideration must be given to the community impact this could have.	Education	4. The council is already doing this.
16088	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Council nursery places should still be available to all children as they are invaluable for preparing children for starting school particularly when they are on the same grounds as the school they will be attending.	Education	4. The council is already doing this.
16089	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You should plan ahead but how you do this I have no idea. What I do know is investment needs to be made to nursery places. Grandparents picking up the slack so parents can continue to work.	Education	4. The council is already doing this.
16090	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You are trying to get more parents working but the council nurseries do not cater for working parents or those on shifts - this needs to be looked at.	Education	4. The council is already doing this.
16091	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We need to sell council nursery places to parents as an alternative to private nurseries rather than closing council nurseries.	Education	4. The council is already doing this.
16092	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery places should be available in every local area. This helps young children socialise with their peers and make lifelong friendships. Any reduction in service provision needs to be very carefully and sympathetically managed	Education	4. The council is already doing this.
16093	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Increase the use of volunteers, parents, Grandparents etc within schools, nurseries.	Education	4. The council is already doing this.
16094	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes I think you need to look at nursery recruitment there are more children starting nurseries and maybe not enough teachers to teach them	Education	4. The council is already doing this.
16095	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	On 4C - reviewing nursery capacity, in some areas working parents have to go to other towns for nursery provision because there isn't enough provision in their own location. The current system of not allowing parents to buy extra nursery hours in council run nurseries means that the only alternative to parents is to send children to private nurseries. The council in its review of nurseries for those towns where there is a lack of private nursery provision such as Winchburgh, should look at offering full time places to children by allowing to pay for extra days which would encourage	Education	4. The council is already doing this.
16096	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Tread carefully when considering reducing nursery places	Education	4. The council is already doing this.
16097	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Ask the community	Education	4. The council is already doing this.
16098	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery provision must continue to support working families effectively As the older population grows, preventative community services and accessible environments must remain key priorities	Education	4. The council is already doing this.
16099	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You provide more free nursery places and you will get more mums going back to work thus having more money to spend.	Education	4. The council is already doing this.
16100	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	West Lothian is home to a significant volume of new builds with more in planning stage. As someone who is currently pregnant with my first child and keen to have more, I question if the council has taken into consideration the number of children that are likely to be born to the population of younger people moving in? There are lots of pregnant couples and those with very young children in our development who are concerned about a lack of nursery spaces with closure announcements. I am yet to find a nursery close to me that has space available for my baby for when I go back to work in 2027!	Education	4. The council is already doing this.
16101	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Have nurseries attached to schools not separate buildings.	Education	4. The council is already doing this.
16102	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There should be ongoing research to demographics, Nursery placements are a good indicator of future requirements	Education	4. The council is already doing this.
16103	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Allow parents to purchase additional childcare hours at Council nurseries rather than having to use private providers, delivering an additional revenue stream as well as providing consistency of care and learning for children.	Education	4. The council is already doing this.
16104	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Mothball facilities where required	Education	4. The council is already doing this.
16105	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As Chair of the Parent Council representing one of the most deprived areas in West Lothian, we understand that population changes require planning. However, we believe any decisions must prioritise children's access to high - quality education and support services, even where overall demand is declining. nursery provision (4c):	Education	4. The council is already doing this.
16106	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Deliver promises already made by the gov, provide the free child hours in current nurseries!	Education	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16107	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	If you stay in the town you should get a nursery place or a school placement.	Education	4. The council is already doing this.
16108	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Show you are there for everyone and not just focus on changing numbers. More people would use service if could rely on this and it was more cost effective	Education	4. The council is already doing this.
16109	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	allow nurseries to charge for additional hours over the funding to help working parents.	Education	4. The council is already doing this.
16110	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Offer extra hours as a chargeable service is nurseries and more wrap around care at all schools inc high schools to allow parents to work	Education	4. The council is already doing this.
16111	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Demographics are always prone change and must be prepared to react accordingly. Drastic and non - reversible actions must be carefully considered.	Education	4. The council is already doing this.
16112	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	And rather than cutting nursery spaces, it should ensure early years provision is equitable and sustainable.	Education	4. The council is already doing this.
16113	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	spend responsible	Education	4. The council is already doing this.
16114	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We must provide adequate placement for the young	Education	4. The council is already doing this.
16115	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Children's services are vital to the community. Keeping people able to attend jobs and get their children to school and childcare without barriers. Nurseries should be able to bolster attendance by offering flexible paid for places and longer term planning for parents. Private nurseries "steal" the places by offering forward planning and flexibility. This could easily be added to council run areas increasing utilisation while not causing children and working parents upheaval and difficulties which will in turn increase additional support needs as they attend council run schools.	Education	4. The council is already doing this.
16116	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	A proper community impact statement needs looking at - it seems accountants are just scoring lives through areas with no thought on long term damage for minimal savings if any the policy is skewed	Education	4. The council is already doing this.
16117	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	These points need to be carried out without compromising vulnerable groups, it sounds as though they might disadvantage families making them travel distance to nursery provision increasing demand for transport which the council is trying to decrease.	Education	4. The council is already doing this.
16118	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Housebuilders have a role to play here - if we allow houses to be built we should also force housebuilders to create these assets	Education	4. The council is already doing this.
16119	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Stop nursery funding at private nurseries and focus on improving the facilities offered by council nurseries. Where did the government funding for every child to get an iPad for learning disappear to? We didn't get that while other councils did?	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16120	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	don't understand why we are closing council nurseries and subsidising private nurseries. Seems very	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16121	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Increase the nursery age unless the child is attending a private nursery where they are being paid by the parent. A young child could learn as much about life with being at home and being involved with the day to day living of life.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16122	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Services should only be offered to residents from West Lothian, housing schooling and medical services should only be given to residents from West Lothian, the benefits given to prioritise people who aren't from West Lothian and have never paid into cover these costs should be cut. People from West Lothian should be prioritised before any outside west lothian	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16123	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Get rid of partnership nursery arrangements altogether. Streamline schooling so that resources are better aligned.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16124	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The use of private nurseries is a good help, but the money is going to private businesses, put it back to school nursery and this will help with the transition to school	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16125	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Rather than mainlining demographics to look at budget cuts for these exercises we should be constantly reviewing and adapting so changes to budgets are ongoing and change doesn't have as big an impact and negative response. Nursery places should not be free for any children under pre school as this is a huge cost which is not required and providing inequality in early learning.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16126	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery placements should be one year before you attend school and that is it. Parents that have children should provide for them!!	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16127	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Paid nursery places instead of free facilities.	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16128	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The council should be looking at opening an additional needs nursery for children who can't cope in mainstream	Education	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16129	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Open council nurseries for ages 2 + privately (where registered) to bolster efficiency for spaces and care ratios while generating income.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16130	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	View an increasingly older demographic as the asset it can be. Intergenerational approaches to the use of / conversion of existing educational facilities for instance. Combine the inter - play and support needed at both ends of the age spectrum in the facilities to address the changing demographics. Daycare for nursey and pensioners, as a basic idea. Bring them together at suitable times (e. g. break times or meal times to interact and benefit each other. Reduce the need for new facilities by harnessing the existing, using what works and building on good practice while trialing new models in a culture of improvement and learning.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16131	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	offer 2 year old spaces at all nurseries.	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16132	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery provision for 0 - 3 could be offered as this is a key area for families, if costs are covered 'privately' this can maintain services through these short term demographic adjustments	Education	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16133	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Use public baby sitting instead of Nursery	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16134	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reserving paid places at nurseries / playgroups or wrap around care that are not mandatory for the most in need would start. Often families who don't work access the service for free while lazing about. If you don't work you don't need childcare unless for medical reason.	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16135	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Stop paying for unemployed people's childcare pre school, its a joke that this is funded.	Education	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16136	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce ELC hours back to term time. To save money on staff and building / utilities Reduce schooling hours to 4 days excluding Fridays. Studies shown that children attain the same over 4 days instead of 4 and 1 / 2.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16137	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Currently the nursery provisions on offer do not meet the needs of working parents, a lot of nursery's are term time and this does not work. A solution to this could be charging for the summer and holiday months, which I am sure most parents would be willing to pay for this service. Personally I have had to turn to a private setting as the nursery in my area didn't offer the childcare I required. And I know this to be the case for most parents with children at the same nursery.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16138	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I really want a term time only place at my nursery ans currently cant get it even though its quiet	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16139	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Term time. Allowing more unpaid leave for staff.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16140	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery has become childcare. Shorten the nursery day would allow savings. Children can access 1140 hours without being there until 6pm.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16141	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Move more nursery term time with an option of purchasing additional hours in elc centres	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16142	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Remove the nursery initiative of full time. It isn't working, it isn't benefitting the children and staff are miserable. Nursery used to be fun and short hours to allow children to be children. Now it is a dumping ground for people who don't want to entertain their own children. Put the onus back on parents and if they fail refer them to parenting groups and re open children and family centres.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16143	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Put all nursery's back term time. Save on electricity wages and food with not having to make lunches during holiday period	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16144	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	instead of all the extra staff used to run childrens nurseries and extending the day to 6pm, go back to how it was, with the school day finishing at 4pm and have paid for after school clubs - that would save money and benefit parents as the extended primary hours only applies to nursery age kids. You also need to find a way to tidy the place up - weeds everywhere, dead trees everywhere, safety barriers at junctions not being repaired, pot holes and poor road surfaces - the whole place looks a mess.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16145	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Put nursery's back term time. Save electricity wages and food money as not having to make lunches	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16146	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As an early years employee, huge savings could be made by looking at bringing back the old model prior to 1140 hours. I understand this is SG initiative, however it is not working. Children were happier and much more settled (the whole point of ELC), staff were not nearly so stressed, overworked, overwhelmed and frankly miserable (resulting in huge levels of long and short term absence), and nursery was focused on setting the earliest foundations in academic learning and socialising rather than essentially being a babysitting service full of overstimulated, anxious, miserable children who spend a disproportionately large amount of their waking time in ELC, refusing to eat the massively overly complex food prescribed by policy (massive amounts of food waste = burning money!), playing with resources bought and paid for by staff (as there is no budget to buy resources!), trying to bond with the stream of supply staff covering mental health related absence amongst staff.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16147	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As previously stated in my suggestions changing the model of what is provided within nurseries is a key part of possible savings. Why open a school based nursery during the summer holidays when only a handful of children might attend and then have to pay all the staff their full wages (this can be as many as 12 people) plus kitchen staff / janitorial staff. Making nursery provision inline with primary school holidays would make sense. Please consider this idea as a possible way to help with the cost cutting measures needed.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16148	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I believe that having a set arrangement for nursery provision would help reduce costs. At present different areas offer a variety of hours / days when children can attend. On many occasions all staff are in their work place for a reduced number of pupils due to parents keeping their youngest off together with their siblings during set school holidays. If we adopted a set timetable for all nurseries in West Lothian: e. g opening hours from 8 a. m till 3 p. m term time only this would help to save money. This in turn still offers children their set 1 1. No staff would be needed during the summer holiday period. 2. No kitchen staff would be employed to make meals during the same period. 3. Janitorial staff would not have to be there for opening and closures of school buildings. 4. Monies saved from providing foods and snack during the	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16149	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make all nursery provision the same in West Lothian. There are too many variations on what is available. Having a standard 8	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16150	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Close all 52 week nurseries to bring in line with school term	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16151	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make nurseries term time again or offering more term time contracts The nurseries are over staffed in the holidays.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16152	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery 's hours are too long for staff cut hours this would save on wages.. parents need to commit for full hours.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16153	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Look at nursery settings and how the hours are delivered. Is some cases ELC settings are open to 6pm for very little children and throughout the school holidays the demand is even less yet buildings are open and staff are paid.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16154	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	More Nurseries could become term time and use a Hub for the holidays instead of so many buildings open through school holidays.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16155	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Close all 52 week nurseries bring in line with school term	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16156	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Having nursery hubs during the holidays for parents who work all year and have term time for parents who dont work and dont use the service for child care while working. Having key staff who can work in the hubs to ensure children have a familiar adult.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16157	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Making more nurseries term time and introducing a hub model to cover holiday periods instead of so many buildings being opened.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16158	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The elc buildings will be costing a fortune to run for one or two children after normal hours. This was never well thought out from the start. Either start charging parents again for hours outside of 9 - 3 like the old wraparound or get rid. Back to the old ways of morning or afternoon sessions for etc.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16159	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Bring nursery provision in line with the school day (Mon - Thu) to align childcare for families.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16160	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Having a look at the 1140 hours in early years. Do 2 year old children need to be in a nursery setting with preschool children? Do they need to be in at 7. 47am until 6. 14pm, especially when parents aren't working. Could there be a charge for this service outwith school hours. Some like the after school clubs. Nurseries are usually quieter during summer holidays. Could one nursery be open within a cluster than perhaps three, reducing staffing costs, etc.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16161	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Some nurseries are open all year but during holiday season only few parent bring their children u are paying more for staff wedges then it is worth	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16162	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Save money by turning nurseries back to term time, would save so much money	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16163	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Have school nursery 's work term time and only work during school hours. reducing costs.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16164	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reducing need of so many Early Learning Centre Area Support Managers (ELCASM) for ELC during term time. ELCASMs given more schools each with responsibility delegated between them and the Senior Management Team and EYO of the school. Using the full day model for childcare at all ELC 's so that they are not open on a Friday, saves money on cleaning, fuel and staffing. Longer days at school so that they are closed on a Friday to save money on cleaning, fuel and staffing.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16165	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Simply savings for schools and nurseries, ensuring lights are switched off in rooms not being used, radiator thermostats turned back in rooms used infrequently. Resources, particularly furniture, offered online to other schools etc rather than being put in skips. Hand towel dispensers replaced by hand dryers in schools and nurseries, saving in the long term. Local hub nursery over summer holidays rather than having maybe 4 nurseries running on low attendance.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16166	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	100 % positive if you put back nursery hours to how it used to run. AM or PM and school holidays. The cost of heating and staffing alone would bring down costs. It was to encourage to go back to work but 2 years later the children go to school with the school hours and holidays so the parents still have that problem of childcare. Never really understood about these changes years ago.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16167	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Switching more nurseries to term time only, would save on running costs of the buildings, food costs, material costs etc for some reason the nurseries offering this seem to have been closed recently.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16168	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	nursery back to term time	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16169	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	All West Lothian nurseries back to term time would save money and also the children and parents ready for school	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16170	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As an education employee: - making all nursery's term time (massive savings on staff wages, building costs, food costs, janitor costs) all for the matter of a tiny amount of children - ELCASM job roles (aren't needed) we have so many go tos (EYOS, head teachers, over seeing principle)	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16171	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Return ELC settings to term - time only. It makes no sense to have 5 or 6 staff employed over a Summer break for 10 or so children.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16172	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery being term time. Having hubs open during holidays and staff who want to work could work.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16173	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As mentioned before, nurseries could move back to 39 week contrscts - n meaning school buildings would need limited FM staff during school holidays. Overhead costs will be reduced during this period too.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16174	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Closing nurseries is not the answer but maybe review opening times and services offers in each area to fit the needs	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16175	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Term time nursery settings as a lot sit with overstaffed in the afternoons after school pick up and the buildings need to be open and staff in	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16176	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Looking at nursery education as well as primary education could help save more money if some nurseries are out back to 39 weeks a year and not full - time. I work in education and see a large number of nursery staff compared to children during the school holidays. Keep the FT option in some areas but this facility is nit fully used during school holidays. Thus will cause issues with childcare for parents but this is something they can plan fir in advance and thousands of parents have had to deal with before.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16177	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries can go to a hub or 1 place during holidays	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16178	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries all open in term time only (massive saving).	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16179	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Have nurseries change back to 39wks, allowing children to attend mon - Thu which reduces number of practitioners drastically, cost of snacks, shopping, electricity, gas, lunches, janitors, cleaners etc. far better model for both children and practitioners, learning is limitless. Numbers of attending children during holidays is telling us this is not needed or used, it's a complete waste of money.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16180	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make all nursery settings term time and only open Monday to Thursday as some nurseries are at the moment.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16181	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Revert nursery 's back to the old timetable. I don 't keep taking my grandson to nursery when his brother is off school. I know nursery 's offering the new hours are nearly empty during school holidays.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16182	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries should back to 39 weeks in line with schools	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16183	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make nurseries term time.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16184	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	"4c Reviewing nursery capacity in council facilities to better meet demand. (Saving approximately £260, 000) "Move all nursery establishments to term time only. Parents can use private facilities over school holidays (use their vouchers). I work in early education and the current system in my opinion, is not fit for purpose. Children should not be in a setting from 8 - 6. They are exhausted. Staff are also exhausted. The delivery of an excellent early years curriculum would be met by moving to term time, and saving the council money at the same time.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16185	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Why are nursery 's running during summer when the schools are off. Why don 't they go back in line with schools and their hours. Its delaying it by 1 - 2 years but there are mums at home sending nursery kids to nursery and. School age kids off. If it 's child protection a few nurseries open that kids can attend a nursery that 's 39 hours in one of the chosen few nurseries. Less hours and longer holidays for nursery staff. Saving made.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16186	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	While the number of children are forecast to fall I think we need to make sure we account for the number of houses being built will likely produce families. I think more term time settings could be helpful for making savings as some nurseries are underused. Could generate more childminders and could potentially allow more people to increase their hours at work.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16187	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries being term time. Having hubs open during holidays and staff who would like to work could work.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16188	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Lots of nurseries are at capacity, where I agree it is not viable to keep nurses open 50 week if there is little demand, consideration could be given to having hubs similar to the provision in Covid times in school holiday periods as often there are more staff than children. This would then save on cleaning and kitchen costs, lighting and heating, janitorial work and potentially offer the staff the option to work 38 weeks or even 45 weeks rather than 50, also reducing burnout and sick pay costs.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16189	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Cut the 50wk nurseries, this is not working, children not attending and the additional costs or staffing makes no sense! A 38 wk nursery offers more opportunities, sustains a high level of working ethic, attendance is higher for both children and staff with a huge saving on practitioners, janitors, cleaners, managers, kitchen staff, snacks, lunch etc etc	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16190	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I work in a nursery and I do think that the opening hours should also decrease from 6 at night to no later than school hours which would save money as very little children use this service	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16191	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries open during holidays is ridiculous, the settings are not being used and more often than not there are more staff than children with additional costs of cleaners, janitors, kitchen staff, electricity, gas and food costs but more importantly the standards of care drop significantly.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16192	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries should be on a 39 weeks this would save on salaries, electricity FSM costs	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16193	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery should be term time, not open through the holidays	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16194	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce nursery hours and make it par with school term! The biggest waste of money so far!	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16195	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery buildings could be closed for part of the year but we re - introduce term time sessions and not 50 weeks. FM staff hours could be adjusted for this too.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16196	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery should be 39 weeks same as the school Nursery attendance varies and can be over	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16197	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	In early years go back to term time working. During school holidays have hubs set up for childcare and early years practitioners who want to work could work. Charge parents for childcare outwith school time.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16198	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	More council early years settings to be reduced to term - time and perhaps have hub nurseries open 50 weeks in each town.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16199	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Review the provision of foods aligned to dietary requests from parents for early years rather than medical needs. These items should be paid for by parents	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16200	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	More Nurseries could become term time and use a Hub for the holidays instead of so many buildings open through school holidays.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16201	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Supporting parents to be the best they can be is vital to children and communities so continue to keep the Inclusion Support Services (ISS) but amalgamate the teams involved thus needing fewer managers. Use the staff from ISS to better support nursery staff to have better understanding and relations with parents	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16202	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Rent hire out areas of nursery not currently used.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16203	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think maybe look at the reduction on private providers in the nursery sector, also during school holidays merging nurseries this will reduce the cost of opening buildings, staffing these buildings i.e. FMAs, lightening, heating nursery staff, these staff could be used in other settings reducing the cost of supply.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16204	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Making more nurseries term time and introducing a hub model to cover holiday periods instead of so many buildings being opened.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16205	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Renting existing council nursery spaces to private nurseries or other business interested in order to generate income.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16206	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	One thing I've noticed with my children attending nursery is the increase of hours that I don't use and use the model that the school uses term time. This would definitely save money along with all the snack and lunches provided during these hours. Or even a Monday to Thursday model. As other local authorities do. I know this information by talking to other parents and we are all in agreement this would work for both families who work and who don't. I have sent previous emails regarding this and just been panned off even though other nurseries have these models	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16207	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery capacity needs looked at, term time nurseries are fit to bursting and 50 weeks are overstaffed with high ratios purely because of the unnecessary long opening hours. Children of 3 and 4 do not need to be in nursery to 6.15 at night while parents sit at home. Working parents may need more support but perhaps there is some kind of wraparound that could be developed within unused spaces in council buildings.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16208	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Or charge for wrap around childcare and put nurseries back term time and use staff on supply systems to cover wrap around. Charge a late fee to parents who pick up children late from nursery.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16209	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reduce the money given to expensive suppliers for the equipment in nurseries and schools and be allowed to use mainstream and cheaper suppliers. Reduce nursery hours to a maximum of school hours and days. Unfair to give such long provisions to parents in just two years of their child's life and then school days and hours for the many years to come after. This would also reduce the waste of building costs and staff during non school days as many nursery children don't use their allocated hours.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16210	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	All nurseries should be term time only and this would save a fortune.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16211	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Focus on offering more flexibility and additional hours at council nurseries and raising revenue rather than outsourcing to private entities.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16212	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	There needs to be better programmes to attract younger families and more nursery places to allow residents childcare options to support and attract working families. More initiatives that are inter - generational could help.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16213	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think nursery places would be taken up if people knew what's available and also the opening and closing times are more in line with a working day.	Education	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16214	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Again, stop paying high wages for those up the ladder.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16215	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nurseries and schools have increasingly higher ratios and welcome a larger number of children with complex needs. At the same time the funding for education is reduced, with less PSW available to support these children one - to - one or opportunities for nurture groups for those children who need them. As a result the quality of the learning and teaching suffers, with teachers facing unattainable educational aims in very complex classrooms and ultimately this not beneficial for the children.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16216	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Increase support to existing schools / nursery etc	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16217	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Provide better services for elderly people and spaces for nursery children.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16218	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Stop funding nursery s, time parents took responsibility for themselves. Sure have means tested support but limited. Stop paying mothers to have kids	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16219	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I think care should be taken over closing the only pre - school facility for children with special needs.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16220	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	As you say everything is growing and you are closing it all down. Local nurseries closing, so then families do not work as there is no nurseries apartment from private. Logical or what. You have so much property in the area, again young men and woman I would love to know how many people leaving school in this area actually go out to work	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16221	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	But not at the behest of older people services	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16222	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Clear understanding required of area's specific needs	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16223	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make sure you get this right though!!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16224	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Implement a minimum facility charter and work from there	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16225	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The provision of so much free nursery school time (outwith statutory) should be addressed, if parents want their babies and toddlers to be in a nursery provision for extended hours, full days 5 days a week, etc this should come from the parents own pocket. The increase in free nursery hours is a huge financial burden to the Council / Government and is out of sync with other services that people would have to pay for should they want to partake.....	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16226	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Can elder care and child care facilities be joined somehow. This would bring synergistic benefits in terms of costs etc but also in terms of building communities.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16227	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Of course you should be aware of demographic change. However up until now the evidence suggests that isn't happening. Why are you allowing new houses to be built when there isn't adequate provision for things such as doctors surgeries. An example is Whitburn where all of the new housing has been built at Heartlands but yet no change was made to the medical centre which can't accommodate new patients, and isn't fit for purpose in terms of providing parking facilities. I also saw that you have allowed all of the development at East Calder and are now considering bussing pupils to Winchburgh for school. That is ludicrous, along with the amount of investment in Winchburgh while other towns and villages in West Lothian get very little. Winchburgh got 2 brand new high schools whilst place's like Whitburn are left with something built in the 60s with PE changing rooms that haven't changed since I attended in the 90s.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16228	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Early intervention always - so invest in pre-nursery and nursery care. consider the elderly by keeping open local community centres and work with partners to deliver lunch clubs etc. Continue to fund partners like First Steps Playgroup, Acredale house these partnerships give so much value and pre - empt money and social work crisis	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16229	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	We do seem to be incapable to use demographic data and projections to shape services based on supply and demand. The Scottish Government sold a vision of smaller class sizes with more time and focus on pupils. We filled universities with people aiming to be primary school teachers and now they cannot get jobs or the Council issues short term contracts with no stability. A basic spreadsheet and data on population trends (and immigration) should paint a picture of supply and demand in future. Instead, we plan to close schools / reduce classes / teachers, to keep class sizes high.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16230	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	WL should be supporting families with children and doing everything for people could actually afford having children. My nursery fee is bigger than my mortgage payments, it's impossible!	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16231	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yes, I agree with all these examples. Can someone please give elected members a briefing on this most basic concept. I've just been treated to the unedifying spectacle of politicians arguing that the Council should spend £90 million pounds it doesn't have on a school it doesn't need. Do they really think we're so stupid to believe they would do it if they were responsible and in power? Pure political opportunism. At least I hope that's what it is - even more worrying if they actually believe creating another £90 million of debt is an acceptable course of action. God help us all if this is what passes for political leadership.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16232	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	but closing the amount of nurseries put a massive strain on families and childcare needs and was thoughtless and vindictive	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16233	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Nursery places are so hard to come by for everyone. We applied in March 24 and only this week been given a space in July 2026!! The other 6 we're on a waiting list for still haven't got back to us yet! Nursery places are so hard to come by and then are so expensive.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16234	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Yet again - you are targeting the most vulnerable in our communities without proper consultation You need to get out of your offices - stop hiding & speak to people AND LISTEN	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16235	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	This isn't relevant in the area I live in. There are many more kids than older residents. And nurseries are very full.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16236	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You can still facilitate these changes without closing down Nurseries in small out of the way villages. Elderly need care too, stop being agist. Schools need upgraded in most towns	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16237	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	nursery services are investing in future of our workforce.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16238	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The closure of St Anthony's nursery school, the feeder nursery to the only Catholic school in the town, has greatly impacted Amadale. Not only has it left the school with a large unused empty space but it has taken choice away from parents and left kids squeezed into the remaining nurseries. A very poor decision	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16239	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Although the birth rate is looking to reduce over the coming years, have you considered that amount of new housing around West Lothian. This could change this demographic. Early Years is still very important and we need to ensure that these services remain a high priority going forward	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16240	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Competitive pricing of nurseries where possible in competition with private nurseries	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16241	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	You need to be careful here. Provision for children with additional support needs required to be increased not reduced. Early intervention before the age of 3 will have cost benefits later, in addition to improving the child's development and wellbeing.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16242	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	nurseries should be as local as possible to stop parents having to rely on cars and therefore meet the council's climate change targets	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16243	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	we must serve the whole community evenly and fairly, as it is West Lothian residents see places like Winchburgh, Linlithgow appearing to receive much better services and facilities from WLC. Other areas with a poorer demographic, seem to be getting left behind.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16244	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Unsure what you mean nursery capacity.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16245	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The recent closures of nurseries has caused pressure on staff	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16246	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The population is growing because we have let in MANY immigrants, i hardly recognise the area anymore. Such a worry! And for the fact that the majority are older, well there is no encouragement for people to have kids as everything is so expensive and the lack of funding helping mothers to get back to work is nil. This should be looked into. I don't think services should be cut for nurseries. Education is important and preferably smaller class sizes are better. We need our younger generation. * people who are fit and able on benefits can do work too. Like clearing litter, helping in old	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16247	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I dont understand this, due to a short - sightedness the council have suddenly realised that people are living longer and will need taken care of, to support this you are considering removing children's services, this disgusts me. This is the wrong way forward and I dont think you have begun thinking about the amount of international refugees and their families coming into the county. Typical family units in Scotland at the moment have up to 2 children on average, unless on benefits, international families are encouraged to have many more, there is a substantial amount of refugees just	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16248	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Early years.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16249	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Make the most of what you have most people don't know what's in there area, times prices ect	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16250	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Give communities what they actually want.	Education	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16251	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	I Bring back retirement age to 60 for women 64 for men, frees up grandparents to child mind, no need for nurseries	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16252	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Stop eligible 2 placements children should be with their parents	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16253	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Government is driving demographic change. If it weren't for the fact that people feel they can't afford to have children and still live at a good level there would be less of an issue. You should be thinking of how you can fix that.	Education	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16254	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Surely this is a core function and responsibility of any council, to be planning services to ensure they are efficient and effective and based where they are needed! Some of the questions and high level suggestions (they're not proposals as there is no detail to tell people exactly what the proposal is) seem to be basic good management that you should be doing anyway	Education	9. The respondent made a comment on the survey question
16255	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	The main demographic change is the increase in households and local businesses. These bring in additional income to the council. This question seems to suggest that this increase is not sufficient to meet the additional cost of providing services for more people. Which in turn demonstrates that no change in population size resolves the budget shortfall.. This a redundant question.	Education	9. The respondent made a comment on the survey question
16256	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	yes, but they have cut nurseries already, does this mean more closing?	Education	9. The respondent made a comment on the survey question
16257	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Reviewing nursery capacity in council facilities to better meet demand. (Saving approximately £260, 000) - this is extremely vague any reduction of nursery places should be heavily scrutinised	Education	9. The respondent made a comment on the survey question
16258	Theme 4- Responding to Demographic Change	4c - Reviewing nursery capacity in council facilities to better meet demand.	Proposals 4c are difficult to assess as presented as in previous responses. Making best use of school buildings is sensible if based on clear detail e. g. older buildings too costly to maintain and pupils moved to better facilities but this is not provided.	Education	9. The respondent made a comment on the survey question
16259	Theme 4- Responding to Demographic Change	General Comment	Yes change to meet needs of all not all Services should only be for the few. But do not do this through cuts.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16260	Theme 4- Responding to Demographic Change	General Comment	Yes demographic changes should be considered I would be interested in seeing your data for this as all I have read is that the secondary schools are expected to reach capacity within the next 12 - 24 months The aging population statement.. If that is due to the influx of new people to the area then this will be through ppl that have bought properties and are likely to have private pensions - they surely pay for themselves and are less of a financial burden to the council in respect of housing / benefits etc?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16261	Theme 4- Responding to Demographic Change	General Comment	Yes go with community trends but dont close the services altogether build them around the trends and communicate these trends and how the flow of these trends will be changing our communities. Where trends and growth are seen invest and grow it even at the expense of other areas but promote to those other areas where funds are being shifted to. Communities have got to accept that new communities and demographics will be changing Scotland and our government need to scale and descale around these.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16262	Theme 4- Responding to Demographic Change	General Comment	I would say the changing demographic is essential to be responded too	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16263	Theme 4- Responding to Demographic Change	General Comment	To make a savings with the council like if the council want to make a savings they should check themselves which facilities are people using more and which facilities are people are not using that much and by checking that you can make savings from those things	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16264	Theme 4- Responding to Demographic Change	General Comment	Get rid of under used buildings.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16265	Theme 4- Responding to Demographic Change	General comment	Makes sense to shape policy around changing demographics.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16266	Theme 4- Responding to Demographic Change	General comment	Yes — the Council should absolutely respond to demographic changes. Fewer couples are deciding to have children due to the constantly rising cost of living. Many people need to work two jobs just to maintain a decent standard of life, which often leads to the difficult decision not to have children. Creating more attractive and stable employment opportunities might not directly increase savings, but it could positively influence families' decisions about having children in the future. It is also noticeable that even the interest in owning pets has decreased because of rising living costs. These trends clearly show how strongly the economy and demographics are connected, and why services must be adapted to reflect these real changes in society.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16267	Theme 4- Responding to Demographic Change	General Comment	Another stupid question, of course a business should respond and react to demographics	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16268	Theme 4- Responding to Demographic Change	General Comment	services and amenities should correctly reflect the needs of the community	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16269	Theme 4- Responding to Demographic Change	General Comment	deliver services where there is a demand and reduce or close services where there is limited demand	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16270	Theme 4- Responding to Demographic Change	General Comment	Meeting the needs of an ever - changing demographic should be a given regardless of any savings to be made. More efficient and impactful work can be done to support communities / people in need if resource is appropriately allocated and not based upon age - old ways of operating.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16271	Theme 4- Responding to Demographic Change	General Comment	This seems to be a logical step towards using the buildings appropriately	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16272	Theme 4- Responding to Demographic Change	General Comment	Yes i do agree with this as west lothian is getting bigger	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16273	Theme 4- Responding to Demographic Change	General Comment	Follow up the the areas suggested in the survey	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16274	Theme 4- Responding to Demographic Change	General Comment	Should respond to demographic change and makes cuts where possible.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16275	Theme 4- Responding to Demographic Change	General Comment	As stated before in previous comments. Stop wasting money	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
16276	Theme 4- Responding to Demographic Change	General Comment	This is about reducing access and support to families when there is very little already	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16277	Theme 4- Responding to Demographic Change	General Comment	You do not solve a problem through the removal of the very services you require to attract young families and working age people to the area, particularly given the scale of current and planned house building, and the impact of being within commuting distance to Edinburgh. You need to stop looking for short - term, easy options and start developing a long term strategy to address the demographic issues.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16278	Theme 4- Responding to Demographic Change	General Comment	The pressure on all education establishments / social care facilities / support are vast & complex - we cannot afford to cut these areas at all.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16279	Theme 4- Responding to Demographic Change	General Comment	A much needed new high school in east Calder using the money from the house builders. The house builders should be paying more to fund schools and other community services such as shops and gps etc.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16280	Theme 4- Responding to Demographic Change	General Comment	4b - need to retain this	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16281	Theme 4- Responding to Demographic Change	General Comment	but services need to be increased fir our ageing population. since the covid pandemic service provision for the elderly have been decimated. no SW infrastructure of services to refer on to in order to support our redeploy growing population	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16282	Theme 4- Responding to Demographic Change	General Comment	There is increased need to support children of all ages	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
16283	Theme 4- Responding to Demographic Change	General Comment	spend responsible	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

16403	Theme 4- Responding to Demographic Change	General Comment	dont know	Corporate Policy and Resources	3. The respondent advised that they had no comment to make.
16404	Theme 4- Responding to Demographic Change	General Comment	Make changes inside, staffing at all levels, needs to be addressed far to many management staff, its so obvious, the savings would make a difference.	Corporate Policy and Resources	4. The council is already doing this.
16405	Theme 4- Responding to Demographic Change	General Comment	The council should have had the forethought of realising in the 1970's that there would at some point be many over 65's. I moved here in the early 80's and it was a young population. Of course they would get older.	Corporate Policy and Resources	4. The council is already doing this.
16406	Theme 4- Responding to Demographic Change	General Comment	Continue to monitor requirements per area.	Corporate Policy and Resources	4. The council is already doing this.
16407	Theme 4- Responding to Demographic Change	General Comment	Almost these suggestions seem reasonable if planning / consultation is done fairly and openly not to suit specific agendas.	Corporate Policy and Resources	4. The council is already doing this.
16408	Theme 4- Responding to Demographic Change	General Comment	Be brave and make the difficult decisions. Work with service users to explain and be clear on decisions made	Corporate Policy and Resources	4. The council is already doing this.
16409	Theme 4- Responding to Demographic Change	General Comment	Ensure the plans are as accurate as possible and where wrong be prepared to make further changes.	Corporate Policy and Resources	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16410	Theme 4- Responding to Demographic Change	General Comment	Use more contractors for seasonal jobs	Corporate Policy and Resources	4. The council is already doing this.
16411	Theme 4- Responding to Demographic Change	General Comment	use transparency to cut waste,	Corporate Policy and Resources	4. The council is already doing this.
16412	Theme 4- Responding to Demographic Change	General Comment	Stop handing big contracts to multi national corporations and use local contractors and keep the money within the community and not in offshore banks accounts and shareholders	Corporate Policy and Resources	4. The council is already doing this.
16413	Theme 4- Responding to Demographic Change	General Comment	Use council facilities to incorporate parts of education such as games halls libraries as extensions of schools. Use community club facilities to enhance learning and teaching for additional or bespoke teaching opportunities.	Corporate Policy and Resources	4. The council is already doing this.
16414	Theme 4- Responding to Demographic Change	General Comment	Ensure school budgets are spent on resources for young people and not on elaborate coffee machines.	Corporate Policy and Resources	4. The council is already doing this.
16415	Theme 4- Responding to Demographic Change	General Comment	Look more closely at areas of high new build housing to ensure schools and nurseries aren't overwhelmed. Perhaps redraw boundaries for school catchment areas	Corporate Policy and Resources	4. The council is already doing this.
16416	Theme 4- Responding to Demographic Change	General Comment	I think reviewing the condition of buildings in the schools estate might identify where repairs are costing the building a lot of money. Some school buildings are no longer fit for purpose. Looking at ASN provision could help reduce costs too; presumption of mainstream is not working for many ASN children so schools are having to employ more PSWs to support these children. Increased provision of small group settings with developmentally appropriate learning, would reduce the number of PSWs required.	Corporate Policy and Resources	4. The council is already doing this.
16417	Theme 4- Responding to Demographic Change	General Comment	Revise schools and policies to make more diverse schools more accessible to everyone and facilitate all where possible.	Corporate Policy and Resources	4. The council is already doing this.
16418	Theme 4- Responding to Demographic Change	General Comment	Pool education admin	Corporate Policy and Resources	4. The council is already doing this.
16419	Theme 4- Responding to Demographic Change	General Comment	Wraparound provision for working parents.	Corporate Policy and Resources	4. The council is already doing this.
16420	Theme 4- Responding to Demographic Change	General Comment	Adjust the budget to reflect the demographic changes.	Corporate Policy and Resources	4. The council is already doing this.
16421	Theme 4- Responding to Demographic Change	General Comment	Wherever possible children should be able to walk to school near their home not be picked up and dropped off. They have been sitting all day and more than likely sit all evening as well	Corporate Policy and Resources	4. The council is already doing this.
16422	Theme 4- Responding to Demographic Change	General Comment	b. Focus on Practical Facility Improvements • Repair or remove non - functioning water fountains in schools. --> Eliminates ongoing maintenance issues, improves hygiene, and prevents complaints. • Prioritise simple, high - impact maintenance work before larger, less essential refurbishments. c. Invest in Digital Infrastructure • Increase investment in ICT hardware and systems to reduce paper use and streamline communication. --> Encourages digital learning, efficient admin, and aligns	Corporate Policy and Resources	4. The council is already doing this.
16423	Theme 4- Responding to Demographic Change	General Comment	Utilise the buildings and stop making cuts that affect the most vulnerable in our society. Gym halls for hire for evening sports or fitness classes. St Kent's a prime example had a pool but public had to travel else where.	Corporate Policy and Resources	4. The council is already doing this.
16424	Theme 4- Responding to Demographic Change	General Comment	Where you mention the reduction in schools, why not set up specialist schools for those with a more severe level of autism, so they don't distract those who are capable of learning.	Corporate Policy and Resources	4. The council is already doing this.
16425	Theme 4- Responding to Demographic Change	General Comment	Home builders should financially contribute to infrastructure of the area	Corporate Policy and Resources	4. The council is already doing this.
16426	Theme 4- Responding to Demographic Change	General Comment	Need to levy Scottish government and UK government for more funds for those given right to remain council shouldn't have to fund temp accommodation, translators etc	Corporate Policy and Resources	4. The council is already doing this.
16427	Theme 4- Responding to Demographic Change	General Comment	P5 - P7 Pupils at Croftmalloch Primary discussed these options and stated: - Buildings "Abandoned building should be sold for scrap and make money."	Corporate Policy and Resources	4. The council is already doing this.
16428	Theme 4- Responding to Demographic Change	General Comment	cut spending on consultants and agency staff,	Corporate Policy and Resources	4. The council is already doing this.
16429	Theme 4- Responding to Demographic Change	General Comment	review and reduce absenteeism,	Corporate Policy and Resources	4. The council is already doing this.
16430	Theme 4- Responding to Demographic Change	General Comment	video conference instead of travel,	Corporate Policy and Resources	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16431	Theme 4- Responding to Demographic Change	General Comment	And finally... ask your staff for more sensible savings ideas! Your staff will be the most informed and actually the most enthusiastic about cutting waste. Give a prize for best staff ideas for efficiencies. Allow staff to submit anonymous ideas too. For example, at Surrey County Council, over 300 employee suggestions have saved approximately £500, 000. Please view: https://assets.publishing.service.gov.uk/media/5a797bbb40fb642860d8710/50_ways_2.pdf	Corporate Policy and Resources	4. The council is already doing this.
16432	Theme 4- Responding to Demographic Change	General Comment	encourage direct debit and e - billing for council tax,	Corporate Policy and Resources	4. The council is already doing this.
16433	Theme 4- Responding to Demographic Change	General Comment	improve council tax collection rates,	Corporate Policy and Resources	4. The council is already doing this.
16434	Theme 4- Responding to Demographic Change	General Comment	hot - desking, estate rationalisation and sub - letting,	Corporate Policy and Resources	4. The council is already doing this.
16435	Theme 4- Responding to Demographic Change	General Comment	I urge the council to address the root cause of the ongoing issues — the government's poor handling of public finances. As a local authority, you are in a stronger position than individual residents to push back and make clear to central government that the services you provide are essential, not optional. Constant budget cuts are damaging our community. My own child's education is suffering — some high schools in West Lothian no longer have computing departments, and those that do can't teach effectively due to the recent hack and lack of functional systems. These reductions are ~~also reducing academic and sporting and support services. The current expense such as social care are already struggling to meet demand. Please~~	Corporate Policy and Resources	4. The council is already doing this.
16436	Theme 4- Responding to Demographic Change	General Comment	We should be looking at ways of getting homeless out of hotels and into houses	Corporate Policy and Resources	4. The council is already doing this.
16437	Theme 4- Responding to Demographic Change	General Comment	They need to build more council houses. I am disabled and can't get a 1 or 2 bedroom house all in the flat	Corporate Policy and Resources	4. The council is already doing this.
16438	Theme 4- Responding to Demographic Change	General Comment	Get a move on putting new tenants in to vacant houses and you will get income from their rents.	Corporate Policy and Resources	4. The council is already doing this.
16439	Theme 4- Responding to Demographic Change	General Comment	Collect arrears before they increase to silly figures that will never get recovered.	Corporate Policy and Resources	4. The council is already doing this.
16440	Theme 4- Responding to Demographic Change	General Comment	offer training for local apprenticeship, regeneration programs f low demand housing, re use empty housing, , hatteract younger families with affordable housing,	Corporate Policy and Resources	4. The council is already doing this.
16441	Theme 4- Responding to Demographic Change	General Comment	People in the account who should stop wasting the taxpayers money the rent money specially when the rent money is supposed to be for repair repairs in the property and it's going on other things that the council wanna waste it or no building house is it full apart or so on and so forth	Corporate Policy and Resources	4. The council is already doing this.
16442	Theme 4- Responding to Demographic Change	General Comment	Stop cutting vital services and maybe let out some of your nearly 800 void properties!	Corporate Policy and Resources	4. The council is already doing this.
16443	Theme 4- Responding to Demographic Change	General Comment	Fix the pot holes	Corporate Policy and Resources	4. The council is already doing this.
16444	Theme 4- Responding to Demographic Change	General Comment	it is not possible to make savings in this area without reducing the level of service to residents. An aging population will cost more. In the roads area we should be investing more in basic maintenance to ensure the footways are safe for elderly residents.	Corporate Policy and Resources	4. The council is already doing this.
16445	Theme 4- Responding to Demographic Change	General Comment	Reduce number of vehicles	Corporate Policy and Resources	4. The council is already doing this.
16446	Theme 4- Responding to Demographic Change	General Comment	In areas where schools and other facilities / services are to close, it will be integral that people are still able physically to access these. One way is to make sure we have good quality, inviting (tying in with green corridors and openspaces) active travel routes which will help people to move around and access facilities and services even if they are not directly on their doorstep. This needs to go hand in hand with better bus and train services. Opening up and increasing pedestrianised routes, improves health and wellbeing, reduces the need for travel by car, enhances safety, can foster ~~community spirit, the wider active and healthy culture, the ability to walk, cycle and use public transport.~~	Corporate Policy and Resources	4. The council is already doing this.
16447	Theme 4- Responding to Demographic Change	General Comment	Stop paying for taxis to parents who "CHOOSE" to send their children to schools outside their area.	Corporate Policy and Resources	4. The council is already doing this.
16448	Theme 4- Responding to Demographic Change	General Comment	Make the most of 3rd party organisation collaboration to improve services	Corporate Policy and Resources	4. The council is already doing this.
16449	Theme 4- Responding to Demographic Change	General Comment	Planning of housing development to maximise affordable properties is crucial: Pensioners have nowhere to downsize to, and first - timers have no affordable properties to buy. The current process of development applications being put in packages not quite big enough to object to (or not absolutely requiring infrastructure investment quite yet...) must be treated with extreme caution. Society has to live with the sum of these decisions, not just the individual application.	Corporate Policy and Resources	4. The council is already doing this.
16450	Theme 4- Responding to Demographic Change	General Comment	I would suggest thinking about housing estates. One issue with current housing supply is that types of housing are not well mixed. It means that large family houses are nowhere near smaller houses and bungalows suitable for older people. This means that extended families can't live near each other, so older folks end up needing to leave their houses sooner than they might have done with closer family support. Alternatively, it means that older folks end up in houses bigger than their needs, making it harder for younger families to move into the area. Developers should be ~~encouraged to build a mix of housing types, not just large detached houses.~~	Corporate Policy and Resources	4. The council is already doing this.
16451	Theme 4- Responding to Demographic Change	General Comment	Start holding house builders to account for building and maintaining community requirements as part of their approvals. Eg huge amount of houses built in east Calder without the infrastructure including schools and nurseries to support them! I am so disappointed that the council allowed this to happen.	Corporate Policy and Resources	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16452	Theme 4- Responding to Demographic Change	General Comment	Ensure housebuilders pay the council a decent amount per new estate to ensure that the increased infrastructure can be accommodated for.	Corporate Policy and Resources	4. The council is already doing this.
16453	Theme 4- Responding to Demographic Change	General Comment	When selling land to house builders, they should also stump up costs to support what is likely to come from extra homes.	Corporate Policy and Resources	4. The council is already doing this.
16454	Theme 4- Responding to Demographic Change	General Comment	Planners should look more closely at planning applications enabling increased development of more affordable housing in certain areas of West Lothian. Young families across the economic spectrum find it increasingly difficult to buy suitable housing in the areas in which they would like to live. This results in reduced demand for school places in towns such as Linlithgow and a growing ageing population instead.	Corporate Policy and Resources	4. The council is already doing this.
16455	Theme 4- Responding to Demographic Change	General Comment	Encourage more private investment in area. Pressure government more to increase funds for increased population	Corporate Policy and Resources	4. The council is already doing this.
16456	Theme 4- Responding to Demographic Change	General Comment	West Lothian has far too many new housing projects where little thought seems to have been given to the need for and cost of supporting public services, including roads and transport. There needs to be a limit on housing developments.	Corporate Policy and Resources	4. The council is already doing this.
16457	Theme 4- Responding to Demographic Change	General Comment	Sensible planning is a good idea	Corporate Policy and Resources	4. The council is already doing this.
16458	Theme 4- Responding to Demographic Change	General Comment	Local people should be top of the demand list. House builders held more accountable and build services at same time as houses rather than afterwards.	Corporate Policy and Resources	4. The council is already doing this.
16459	Theme 4- Responding to Demographic Change	General Comment	Also be mindful when planning applications are submitted for new housing schemes that health and school services can only matter forward certain capacity.	Corporate Policy and Resources	4. The council is already doing this.
16460	Theme 4- Responding to Demographic Change	General Comment	To fully make private house builders and contractors contribute to the infrastructure and facilities that are required for the increase in population	Corporate Policy and Resources	4. The council is already doing this.
16461	Theme 4- Responding to Demographic Change	General Comment	Motre electric charge points please?	Corporate Policy and Resources	4. The council is already doing this.
16462	Theme 4- Responding to Demographic Change	General Comment	Stop allowing developers to build houses sold at huge profit without providing the schools and other facilities needed to service the growing population. It really is time to hold them to account and ensure that they are providing what they have been contracted to provide.	Corporate Policy and Resources	4. The council is already doing this.
16463	Theme 4- Responding to Demographic Change	General Comment	Recoup all revenue 's from house builders fully for the services you provide then like lighting and roads etc. And I mean.... recoup ALL money! Make sure your finance people are chasing up all BIG debts from these builders instead of forgetting them in the next financial year!	Corporate Policy and Resources	4. The council is already doing this.
16464	Theme 4- Responding to Demographic Change	General Comment	When a developer says they will build schools or health centres they should build them first before they break ground on any house building. Affordable housing does not always mean social housing. People can afford rent but can not afford £250k + houses Houses can be built cheaper and the council can control building developments	Corporate Policy and Resources	4. The council is already doing this.
16465	Theme 4- Responding to Demographic Change	General Comment	When granting permission to build more houses it stands to reason that the schools in they areas are going to be impacted. Stop giving the building company's the money back that they needed to give to improve these facilities as part of the planning permission. These facilities need improvement once the house building finishes so they should not be recalling it after 5 years (if the improvements haven't yet been completed). On that basis the planning permission granted should then be declined as you are refunding part of the agreement.	Corporate Policy and Resources	4. The council is already doing this.
16466	Theme 4- Responding to Demographic Change	General Comment	Building up the town with new privately owned houses with no provision of schools is wrong, you should not allow this if the builders don't build the school requirements or help to extend schools already I. The area	Corporate Policy and Resources	4. The council is already doing this.
16467	Theme 4- Responding to Demographic Change	General Comment	Stop allowing the build of houses when services cant keep up.	Corporate Policy and Resources	4. The council is already doing this.
16468	Theme 4- Responding to Demographic Change	General Comment	Closing schools and moving services is a shocking idea when you are reaping all the benefits building these private houses. Tell them no then you wouldn't have to cover the costs of the extra services	Corporate Policy and Resources	4. The council is already doing this.
16469	Theme 4- Responding to Demographic Change	General Comment	When new houses are built get the developers to fulfill there promises of schools health centres whatever else is in there plans for building and concentrating less on envelopes	Corporate Policy and Resources	4. The council is already doing this.
16470	Theme 4- Responding to Demographic Change	General Comment	Maintaining and extending collaborative relationships with NHS, 3rd sector organisations and volunteering is essential to retain existing facilities to support aging population. This will help with funding.	Corporate Policy and Resources	4. The council is already doing this.
16471	Theme 4- Responding to Demographic Change	General Comment	aging population should have facilities	Corporate Policy and Resources	4. The council is already doing this.
16472	Theme 4- Responding to Demographic Change	General Comment	Focus on prevention and early support to reduce long - term service costs.	Corporate Policy and Resources	4. The council is already doing this.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16473	Theme 4- Responding to Demographic Change	General comment	you don't become more efficient by reducing staff or services, this does not lead to improved services just less staff with more to do. Rather than reacting to increasing levels of need the council needs to seriously consider investing in prevention activities and enabling people at an earlier stage to address issues / mitigate health needs before they reach crisis point. Cutting services particularly non-statutory ones are the ones which currently do that prevention and support work. without these all you will end up with is more people falling into crisis and needing greater levels of support.	Corporate Policy and Resources	4. The council is already doing this.
16474	Theme 4- Responding to Demographic Change	General Comment	cut senior pay, share senior staff,	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16475	Theme 4- Responding to Demographic Change	General Comment	Reviewing holidays in which teachers and so on get paid.	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16476	Theme 4- Responding to Demographic Change	General Comment	means tested council tax for over 65s. 25 % discount shouldn't apply to all if some are moving to area and using services	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16477	Theme 4- Responding to Demographic Change	General Comment	I agree with this in principle but planning permission for the thousands of new builds has to stop to enable schools, Doctors etc to be built	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16478	Theme 4- Responding to Demographic Change	General Comment	I think specific time limits should be applied to council housing. There is no reason someone should expect to occupy a property for a long period of time without the expectation of rehousing. Adding value should be a priority.	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16479	Theme 4- Responding to Demographic Change	General Comment	Take what the public suggests into account. People who are in under-occupied houses should be contacted to move to a house that meets their needs. Same with disabled people who need bungalow houses and it free's up larger properties for bigger families	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16480	Theme 4- Responding to Demographic Change	General Comment	Older people struggling with accommodation. Could homes or areas be set up for older people and encourage them to give up larger houses and return them to council stock	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16481	Theme 4- Responding to Demographic Change	General Comment	Save money by reducing the use of buses for school pupils. Or, like the taxi transfer, make the parents pay for the service. Having to send pupils by bus from, say, East Calder to Winchburgh is stupid. I thought the secondary school in West Calder was being extended to provide more than enough school places for East Calder; now I hear that the extension isn't big enough. I call it joined up thinking, and planning ahead.	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16482	Theme 4- Responding to Demographic Change	General Comment	You are causing the problem of overcrowding in giving permissions for building houses in any green area that is left! I saw in a post that you are not responsible for there not being enough medical practices, but you are causing the problem!!!!	Corporate Policy and Resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.
16483	Theme 4- Responding to Demographic Change	General Comment	Build a secondary school in East Calder. Developer funds should be ringfenced for the population that generated it. A local school would reduce traffic pollution and congestion.	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16484	Theme 4- Responding to Demographic Change	General Comment	Should be increasing pre and after school care for working parents. Charging appropriately allows competition with private childcare	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16485	Theme 4- Responding to Demographic Change	General Comment	Stop spending on school supplies	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16486	Theme 4- Responding to Demographic Change	General Comment	With all the extra housing being developed just now I do think that we have a need to look at expanding services not cutting them	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16487	Theme 4- Responding to Demographic Change	General Comment	I would build specialist housing and let it at market rate for older people who need it.	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16488	Theme 4- Responding to Demographic Change	General Comment	May elderly people / Disabled single people are living require subsidised flats / accommodation with independent living support. I have mentioned this before to the WLC council and I know some new private and social homes have been planned, but more needs to be planned and built. Planning Officers need to ensure if the elderly population is rising new provisions need to be made and large housing development scheme should cover the cost of these new homes. Private Care Homes are very expensive and so is Home Care Visits, by Private Companies.	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16489	Theme 4- Responding to Demographic Change	General Comment	Stop building houses, or allowing houses to be built. We're clearly over our capacity for public services	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16490	Theme 4- Responding to Demographic Change	General Comment	Stop building houses no infrastructure and having a severe impact on schools nhs dentists education.	Corporate Policy and Resources	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit.
16491	Theme 4- Responding to Demographic Change	General Comment	Cut the funding for literature about diversity, equality programs, unnecessary pride parades (they can fund themselves), cut funding for unwanted flu vaccines	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16492	Theme 4- Responding to Demographic Change	General Comment	Yes reduce the climate change budget, with more and more evidence coming out that electric cars are worse for the environment than diesel, the change to infra structure in the name of the climate hoax and 20 minute cities. Why are services being cut when £40 million on climate change could fund the short fall. I think this consultation is pointless you do not give the public the full story and you have cuts to services and no other option to consult on	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16493	Theme 4- Responding to Demographic Change	General Comment	Reduce rubbish on the streets by introducing a scheme where unemployed people clean the streets to get council benefits. Also, remove the booking system at skips and reintroduce free large pickups of waste for unemployed or pensioners to reduce fly tipping	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16494	Theme 4- Responding to Demographic Change	General Comment	Stop wasting money on things like more bins.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16495	Theme 4- Responding to Demographic Change	General Comment	Put a temp hold on new housing developments - council services are struggling to keep up with higher demand these developments put on services plus only a minority can afford these houses without taking on huge long term debt If new developments continue make it mandatory of these companies to subsidise council to help cover the costs of increased demand in local infrastructure ie schools, doctors	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16496	Theme 4- Responding to Demographic Change	General Comment	Stop building in Livingston. It's over crowded, there 's no leisure facilities as it is.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16497	Theme 4- Responding to Demographic Change	General Comment	Start mini businesses	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16498	Theme 4- Responding to Demographic Change	General Comment	Stop building all over the county. It used to be a lovely place e to live with countryside around the corner. A haven for wildlife too. Now it is a concrete jungle. You keep allowing greedy builder permission to build hundreds of houses to the deprivation of our communities.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16499	Theme 4- Responding to Demographic Change	General Comment	Stop developers building more houses. It's a disgrace that there is no school placements. No GP's. Medical centres falling to pieces. No infrastructure.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16500	Theme 4- Responding to Demographic Change	General Comment	Stop building more houses without having the proper infrastructure, do better quality control checks	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16501	Theme 4- Responding to Demographic Change	General Comment	Stop building houses	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16502	Theme 4- Responding to Demographic Change	General Comment	Make the contractors pay more to move in when you are giving permission so you can future plan around the numbers moving into area around their needs. If the area needs a surgery or school spaces make sure its available before allowing them planning permission.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16503	Theme 4- Responding to Demographic Change	General Comment	Instead of just building houses put in relevant services per so many houses built. Doctors appointments are difficult to get. Also impossible to get a dentist due to population growth	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16504	Theme 4- Responding to Demographic Change	General Comment	There are many houses being built with no infrastructure changes, additional GP surgeries or schools.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16505	Theme 4- Responding to Demographic Change	General Comment	It also need to increase provision in growing areas where substantial building new homes are taking place with little or no infrastructure in place. Roads are being used that where farm roads have become main routes and rat runs. More and more green space is disappearing when there is substantial space for housing to be more spread out with green space left with more than a grassy strip of land. Why does every last inch of land have to have a house on it?	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16506	Theme 4- Responding to Demographic Change	General Comment	Stop building housing.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16507	Theme 4- Responding to Demographic Change	General Comment	Stop building more houses. The area is already so busy now.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16508	Theme 4- Responding to Demographic Change	General Comment	West Lothian council is the ones that are granting the permission for the new houses to be built even though there is a lack of facilities available in the areas. The infrastructure is not there for the amount of new houses being built.	Corporate Policy and Resources	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.
16509	Theme 4- Responding to Demographic Change	General Comment	Turn off lamposts in school car parks which are locked up anyway overnight and holidays. Replaced them with energy efficient lights	Corporate Policy and Resources	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.
16510	Theme 4- Responding to Demographic Change	General Comment	Too late now, but if projections for child population are lower, then why have so many new schools been built at great expense rather than investing in initiatives to support the elderly? These could include day centres or other social initiatives. I don't understand why so many day centres have been closed when they provide social contact and presumably reduce the need for individual care packages for some people. This will benefit their health and well being, but also save money for WLC and NHS services. However, seeing and health and social care still doesn't have a joint budget	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16511	Theme 4- Responding to Demographic Change	General Comment	Keep the public in the loop with decisions prior to them being made and getting their opinion. I know it's not an easy thing to do. But just making cuts can cause people their jobs and their safe spaces especially those with additional needs. disappear and have to go through a whole new resettlement period which for some can be extremely difficult	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16512	Theme 4- Responding to Demographic Change	General Comment	Share facilities	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16513	Theme 4- Responding to Demographic Change	General Comment	According to the information provided the population of West Lothian is getting older. I think there has to be a careful balance between providing for the older generation (who have contributed their monies into the council over the last 20 / 30 years and helped it flourish and providing for the younger generation who are going to provide their monies in the future. You can't cut services because someone is getting older. Many reps from the council will be in that position.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16514	Theme 4- Responding to Demographic Change	General Comment	14 % shift allowance should be removed from teams who works weekends etc. They are not providing an emergency service - that is was SCET and the Police are for. Do not offer shift allowances to team managers and above. They are on a good wage as it is without shift allowances for doing nothing.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16515	Theme 4- Responding to Demographic Change	General Comment	I think a focus group should be set up as this is very complex	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16516	Theme 4- Responding to Demographic Change	General Comment	Petition central government to allow insolvent councils to offload historic pension liabilities. Perhaps a public sector equivalent of the pptf with 10 % benefit haircut and capping of annual pension escalation at LPI.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16517	Theme 4- Responding to Demographic Change	General Comment	get more for less by improving procurement, buy together,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16518	Theme 4- Responding to Demographic Change	General Comment	get more for less by improving procurement, buy together,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16519	Theme 4- Responding to Demographic Change	General Comment	save money on computer software.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16520	Theme 4- Responding to Demographic Change	General Comment	Council need to challenge government for more realistic budgets. Cutting these services increases chance of adults or children being hurt or killed which can be avoided with proper budgets	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16521	Theme 4- Responding to Demographic Change	General Comment	Indirect staff overheads need to be looked at, an inefficient structure	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16522	Theme 4- Responding to Demographic Change	General Comment	Reduce council management & staff salaries & their pension entitlement	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16523	Theme 4- Responding to Demographic Change	General Comment	Stop councillors going on jaunts buy petrol / diesel cars and vans instead of expensive electric vehicles.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16524	Theme 4- Responding to Demographic Change	General Comment	Look to remove digital assets in schools. It 's been proven that children do better with paper and pencils and this will improve their learning. My son goes to Cargilfield and apart from the computers in the IT room, they don't have tablets or suchlike. Cargilfield has just been voted best school in the UK. This suggestion would save in buying the hardware, the IT support for the hardware and would actually be better for the children! Also look to remove the apps for homework and just task the children with paper and pen.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16525	Theme 4- Responding to Demographic Change	General Comment	Reduce elc to term time and have schools drop a Friday session. These are non essential. School day should be 9 - 4 instead universally. Nursery should be closed as capacity is so low during school holidays staff are often over ratio, have this closed	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16526	Theme 4- Responding to Demographic Change	General Comment	Can the current oversupply of schools be used to improve the local services available within the community, for example to those over 65, family support services, people with additional needs, and / or support charities to provide their services within these communities.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16527	Theme 4- Responding to Demographic Change	General Comment	Find ways to benefit economically from a growing population, even if it is predominantly over 65s. Get involved in services that cater to this population which can also generate income for the council. Can some services that are currently delivered by the private sector be delivered by the council?	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16528	Theme 4- Responding to Demographic Change	General Comment	Can the council find ways to attract a younger demographic to the area? Again, investment in communities would be key. Or taking advantage of West Lothian 's geographical position in terms of its access to Glasgow and Edinburgh - If investment in WL is not possible, how about increasing or promoting access to other areas where there are additional amenities for younger people?	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16529	Theme 4- Responding to Demographic Change	General Comment	Allowing house builders to build new schools should be stopped. Yes we get a nice new school for free but the staffing and running costs are left to the council to pay forever more. Stop house builders building more new housing estates. We cannot afford the infrastructure that is needed to go alongside them which leads to stretched existing facilities. Towns like Winchburgh have doubled and got 2 new schools with a very small pupil roll. The people living here are often commuters, who earn higher salaries in Edinburgh, abroad, offshore etc are they spending their money in West Lothian? There are the benefits of education Councils spend less and other services become available for the council to provide the only thing I would think it should be there own education board	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16530	Theme 4- Responding to Demographic Change	General Comment	Nurseries, schools and children 's services should be merged to make more effective and to reduce costs	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16531	Theme 4- Responding to Demographic Change	General Comment	Also reduce staff numbers in areas where the population is falling like Education. Reduce teachers, support staff and managers pro - rata like any business would do.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16532	Theme 4- Responding to Demographic Change	General Comment	We need more ASN schools / facilities, inclusion in mainstream schools is not working for these children, they are not coping, it 's so unfair .	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16533	Theme 4- Responding to Demographic Change	General Comment	We absolutely should be working on a needs basis for a better society. I don't think over - whelming schools is in any way a good idea just that same as I don't think trying to maintain nearly empty nurseries is a good idea. There needs to be better partnership working in the area with Public Health Scotland, NHS and other big public bodies to make sure that we aren't duplicating services. Shared facility models are definitely the way forward to split overheads and responsibilities.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16534	Theme 4- Responding to Demographic Change	General Comment	a. Restructure Central Education Staffing • Reduce or repurpose Quality Improvement (QI) staff roles to focus directly on supporting schools, rather than central monitoring or reporting. • End or limit secondments for curriculum development that remove experienced teachers from classrooms. → This ensures resources stay closer to learners, reducing overhead costs while maintaining classroom impact. • Reinroduce short - term project groups or teacher - led development networks instead of long - term secondments.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16535	Theme 4- Responding to Demographic Change	General Comment	The education system is failing as is. The ratio of child to staff is too high. Inclusion has gone to an extreme where you are placing children within mainstream classes who should be in a ASN or ERB base where they would receive a better education helping them to succeed to the best of their ability but instead insist on putting them in mainstream where there is not enough support staff wise for them & they are struggling to cope ultimately failing them but also failing all the neurotypical children within those classes as the staff & teachers can not spread themselves between all the different needs & levels day to day, therefore failing all children & none of them reaching their full potential.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16536	Theme 4- Responding to Demographic Change	General Comment	letting out school gym halls to local people or community groups to generate funding and increase the health of the community. his could also help prevent antisocial behaviour by encouraging clubs to inspire youths to be more active.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16537	Theme 4- Responding to Demographic Change	General Comment	Bring services back "in - house". This allows efficiency to be monitored and prevents funding diversion into privateer pockets, while they make cuts to quantify and demand payment for services they don't carry out to the standard that is expected.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16538	Theme 4- Responding to Demographic Change	General Comment	Share services and resources with neighbouring councils or community groups.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16539	Theme 4- Responding to Demographic Change	General Comment	repurpose buildings for other groups	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16540	Theme 4- Responding to Demographic Change	General Comment	Share back office services,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16541	Theme 4- Responding to Demographic Change	General Comment	better land management,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16542	Theme 4- Responding to Demographic Change	General Comment	better property management,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16543	Theme 4- Responding to Demographic Change	General Comment	Share back office services,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16544	Theme 4- Responding to Demographic Change	General Comment	use transparency to cut waste,	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16545	Theme 4- Responding to Demographic Change	General Comment	any unused buildings could be used as new business ventures.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16546	Theme 4- Responding to Demographic Change	General Comment	Unsure if this is the correct area for this, however when my waste bin is removed - the flats in the same street are collected on a different day. How is that a use of council services? Shouldn't all waste be collected in the same street on the same day. For example my bins are emptied a Wednesday, the flat in the same street on a Friday. That is not a good use of resources.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16547	Theme 4- Responding to Demographic Change	General Comment	Recycling centers, why is there 4 of them? Why are they manned by 2 people at all times. I think remote monitoring, smart tech to allow entry to cars is needed to save those wages.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16548	Theme 4- Responding to Demographic Change	General Comment	Offer nominal amounts for people to buy things dumped in recycling centres that could be of use to up cycle etc	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16549	Theme 4- Responding to Demographic Change	General Comment	Less management, increase working hours, at nets.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16550	Theme 4- Responding to Demographic Change	General Comment	Install bus zone / cycle zones in high congestion areas such as Livingston Centre / Linlithgow Main Street this would encourage people to use sustainable methods of travel. It would also raised revenue if people were charged for driving through the no zones.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16551	Theme 4- Responding to Demographic Change	General Comment	Repurposing the building for leasing will continue to bring revenue rather than a one off payment. Request that the West Lothian licensing board bring in more alternatives landlords rather than just bookies, charity shops and barbers.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16552	Theme 4- Responding to Demographic Change	General Comment	Regular digital surveys, with a technical focus on simplicity, should be administered to gather live data on WL population demographics. Long term strategies should be prioritised ahead of party politics. Demographic changes take longer to have an impact than election cycles.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16553	Theme 4- Responding to Demographic Change	General Comment	We should be building more residential homes for elderly which could free up homes ti sell for first time buyers or to families as he schools not needed for children could be offered for community groups struggling to find accommodation we need to have our own independent country to grow	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16554	Theme 4- Responding to Demographic Change	General Comment	Yeah, a huge amount of people in pensionable age because younger people can't afford to live here. New houses are built and sold for prices that the only way to get one is by selling the house you already have for profit... Everyone is better off when everyone is better off. By ensuring affordable housing, decent (properly funded) education, transport links to reasonable employment, and leisure, the younger workers who will be responsible for looking after pensioners, but who won't have the same prospects, might feel better about the whole thing. I find it hard to believe that the population of West Lothian will continue to grow as it has in recent years, simply because what will be here for them to move for? The managed decline of public services.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16555	Theme 4- Responding to Demographic Change	General Comment	There are new housing estates being built constantly throughout West Lothian and the council should be including the building of schools, nursery and community leisure facilities within the planning approval. The construction companies should be footing the bill as they're the ones making the profit	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16556	Theme 4- Responding to Demographic Change	General Comment	Changing demographics must be analysed in depth, using robust forecasting and data - driven insights to anticipate future service demands. It's not enough to simply assess population size or age profiles; analysis should also consider the wider social, economic, and environmental factors that shape community needs. Different areas will experience unique pressures—for example, housing demand, health and social care requirements, or transport use—based on their local characteristics. A more holistic approach to demographic forecasting will enable the council to plan resources more effectively, target investment where it will have the greatest impact, and ensure that services evolve in line with the real and emerging needs of each community.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16557	Theme 4- Responding to Demographic Change	General Comment	If there is an over supply of school spaces and Nursery places why does the council keep building new one instead of using the capacity they already have, yes they may have to provide a bus but that is cheaper then building a school. When new housing is being built such as happened recently the builder should enter into an agreement to provide transport to the nearest school and not build a new school.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16558	Theme 4- Responding to Demographic Change	General Comment	I assume the significant population increase in West Lothian is down to the housing developers bonanza that is Winchburgh Development Ltd? Whilst the increase in council tax revenue will be welcome, the extra strain on health and social care will not. In order to increase these services as required, the financial burden must lie with the development companies and stakeholders. Possibly a simplistic view, but a very popular one nonetheless. Future planning consent should be dependant on this also.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16559	Theme 4- Responding to Demographic Change	General Comment	The council needs to look at the areas where houses are being built rapidly as there is a definite need for more school places in these areas. Maybe halt the building of large scale new build estates for a period	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16560	Theme 4- Responding to Demographic Change	General Comment	Why are the council allowing huge numbers of houses to be built in WL without having a plan for demographic change? House builders / developers should contribute more for infrastructure, to the extent that current services and council tax payers are not impacted.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16561	Theme 4- Responding to Demographic Change	General Comment	Ensure infrastructure can support the population before building more homes. Build high schools in highly populated areas such as East Calder, as promised many years ago.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16562	Theme 4- Responding to Demographic Change	General Comment	Encourage housing developments to pay more to help improve facilities.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16563	Theme 4- Responding to Demographic Change	General Comment	Incentives for key workers to live locally, encourage mixed tenure developments	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16564	Theme 4- Responding to Demographic Change	General Comment	Approve more flat developments to bring down cost of living and also pull in more tax paying properties	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16565	Theme 4- Responding to Demographic Change	General Comment	This is short sighted. Take planning for example.... aging population but never any private bungalows built. Look at Wester Inch and Winchburgh..... not one bungalow on any plan or development. Why?	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16566	Theme 4- Responding to Demographic Change	General Comment	Stop allowing more houses to be built as there are not enough schools, health centres to cater for these areas. The building of new schools how many so far have had to have extensions built on? again more money having to be spent.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16567	Theme 4- Responding to Demographic Change	General Comment	Stop providing bus fares etc to clients of Justice Services who come from court to the Council for this, same when released from Police custody.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16568	Theme 4- Responding to Demographic Change	General Comment	Criminal justice system is on rehabilitation should not get so much funding, as I have worked ha ds on in this before, a d they get far too much for a system that does not work.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16569	Theme 4- Responding to Demographic Change	General Comment	Undertake review of how Social Services provide the necessary support to those who need them most and determine where there is priority cases. I. e. Elderly, children.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16570	Theme 4- Responding to Demographic Change	General Comment	Social workers are needed but should be kept to a minimum level.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16571	Theme 4- Responding to Demographic Change	General Comment	Family centre meet up for broken family like counsellor	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16572	Theme 4- Responding to Demographic Change	General Comment	Can we look at how we support the ageing population in our communities, e. g. dementia friendly villages, so that they can remain at home.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16573	Theme 4- Responding to Demographic Change	General Comment	Preventative Shifts: Early community programs reduce care / repairs demand (£500k per Preventative Shifts: Early interventions in care / education prevent crises (£500k / yr savings per Scottish Gov stats).	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
16574	Theme 4- Responding to Demographic Change	General Comment	However still believe that savings can be made at top table by reducing excessive salaries for executive and Senior management.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16575	Theme 4- Responding to Demographic Change	General Comment	It should refuse to accept any further migrants until we take care of our own pensioners, army veterans and vulnerable people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16576	Theme 4- Responding to Demographic Change	General Comment	No confidence at all that WLC will make good decisions. Pensioners are voters and income tax payers and have more free residue if they have completed house loans, reducing services you will be biting the hand that feeds you, very simple.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16577	Theme 4- Responding to Demographic Change	General Comment	As a pensioner I believe the council does nothing for me! doesn't even provide grit in our estate forcing pensioners to get it themselves	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16578	Theme 4- Responding to Demographic Change	General Comment	The council should be doing a lot more things for younger generation basically play areas parks yeah they've spent a few quid on the local parks but it's not up to scratch but they don't spend enough but the big fat cat still get their big bonuses and pay deals and bonus cars and everything to do with the council as money money money and they should pull the finger out and do a bit more and stop blaming it on local government	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16579	Theme 4- Responding to Demographic Change	General Comment	Have people limited to one child most people over 65 still work as they can't afford to stop working and those that are retired live without enough to eat and can't heat themselves properly so don't take any thing else from them. most people with disabled kids all have 2 car homes make them take their own kids to school and stop paying parents money to be carers for their own children if you want kids they are the parents responsibility whether disabled or not you take what you get and look after them themselves	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16580	Theme 4- Responding to Demographic Change	General Comment	I live in Armadale. A town that's continually grown in size for years and still growing yet we continue to be stripped of services. It seems if you're not in Linlithgow or Livingston you're forgotten about.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16581	Theme 4- Responding to Demographic Change	General Comment	The council already wastes money on unnecessary projects demolishing and rebuilding structures without proper planning	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16582	Theme 4- Responding to Demographic Change	General Comment	Use the size and overall spending power of the council	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16583	Theme 4- Responding to Demographic Change	General Comment	Service demands change, services should also change to reflect what people are looking for and need. Eg. With an aging population it's more important than ever to maintain community facilities which encourage older people to get out of their homes to reduce social isolation, improve mental and physical health and reduce demand on health care services - both residency care and at home.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16584	Theme 4- Responding to Demographic Change	General Comment	I agree that the population is getting older, however there is no point in punishing them for it. Older people still need get out and socialise especially post covid. Loneliness is a dangerous feeling for older people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16585	Theme 4- Responding to Demographic Change	General Comment	All areas should be looked at. Again it needs to be a balance.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16586	Theme 4- Responding to Demographic Change	General Comment	We shouldn't waste money on unnecessary utilities	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16587	Theme 4- Responding to Demographic Change	General Comment	why have we not done this already	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16588	Theme 4- Responding to Demographic Change	General Comment	should consider the impacts on services of an ageing population who are experiencing increasingly complex issues	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16589	Theme 4- Responding to Demographic Change	General Comment	It is vital to be proactive and plan for the future to ensure the correct balance of service provision	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16590	Theme 4- Responding to Demographic Change	General Comment	Do the demographic change through due process if necessary change if not then leave alone.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16591	Theme 4- Responding to Demographic Change	General Comment	Awareness is essential - wide brush sweep won't do it as this should be an area by area decision carefully planned and monitored - in other words, 'rightsizing'. An area that hasn't grown can't simply be downgraded and deprived of services - it comes down to being fair to everyone who pays their council tax in a way that doesn't cause real grievance. eg Here in Greentop if we don't have schoolchildren, we are travelling to other parts of the county to access the kind of facilities we're paying for. Private sector expertise, knowledge and experience could be very valuable as a consultation exercise as successful private businesses have already had to do all of this to stay afloat.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16592	Theme 4- Responding to Demographic Change	General Comment	This plan should already be in place through census / planning	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16593	Theme 4- Responding to Demographic Change	General Comment	Encourage younger people to move to West Lothian by getting more jobs / businesses for the working class. Also bringing in more children to increase money circulation.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16594	Theme 4- Responding to Demographic Change	General Comment	Encourage younger people to move to West Lothian by getting more jobs / businesses for the working class. Also bringing in more children to increase money circulation.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16595	Theme 4- Responding to Demographic Change	General Comment	Future house development should be better controlled. Building extensions on high schools to accommodate pupil increase due to local housing development and have other schools underused shows poor planning and forecasting population levels. Increasing ageing population is to be expected when people have moved and settled here over last 40 - 50 years.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16596	Theme 4- Responding to Demographic Change	General Comment	It would appear obvious that is responsibility and accountability of the council.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16597	Theme 4- Responding to Demographic Change	General Comment	A reduction in education costs should automatically direct savings there to the increasing ageing population	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16598	Theme 4- Responding to Demographic Change	General Comment	services need to support the people of today. Not what used to be.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16599	Theme 4- Responding to Demographic Change	General Comment	The service should suit demographic change	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16600	Theme 4- Responding to Demographic Change	General Comment	Encourage and create opportunities for young people to stay. Take care of aging population.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16601	Theme 4- Responding to Demographic Change	General Comment	However, maintaining that Christian values are the underpinning of our country.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16602	Theme 4- Responding to Demographic Change	General Comment	Adjustments for demographic can be adjusted, whiwever, the UK governments are far too focused on diverting resource and public funds to illegal immigrants over their own people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16603	Theme 4- Responding to Demographic Change	General Comment	What is the point? After what the council have done to the pensioners at Tosamount Cafe in Bathgate, it shows they couldn't care less about welfare of citizens	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16604	Theme 4- Responding to Demographic Change	General Comment	As it makes sense to	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16605	Theme 4- Responding to Demographic Change	General Comment	The above question is not what you asked. Changing services for the change in demographics is needed, however when it comes to schools how can you justify changing school catchment areas when you don't have sufficient transport options or links for children or their parents / carers to use. Not everyone drives or can drive everyday. There are children within mainstream schools who have ongoing disabilities or co morbidities reducing their options even further. So children won't go to school, they won't learn and the area will not be raising a generation who will pay back On the	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16606	Theme 4- Responding to Demographic Change	General Comment	Also the increase in immigration in the area is clearly making life harder	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16607	Theme 4- Responding to Demographic Change	General Comment	No but will council 's with more over 65s be penalised by numbers moving to their location e. g. Moray Council has a big problem with aging demographics	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16608	Theme 4- Responding to Demographic Change	General Comment	West Lothian is expected to have the fastest growth in people of pensionable age in Scotland. Largest areas of growth are those aged over 65.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16609	Theme 4- Responding to Demographic Change	General comment	It seems like some elected members are badly in need of a 'Janet and John' introduction to the concept however. I've just been treated to the unedifying spectacle of politicians apparently arguing in favour of taking on £90 million of debt for 25 years for a school building that is not necessary. Surely they don't expect us to believe they would actually do something so outrageous if they were actually in power? Pure political opportunism. At least I hope it is. God help us all if this is the true quality of political leadership 'in West Lothian, and God help democracy.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16610	Theme 4- Responding to Demographic Change	General Comment	Can't ignore the demographics! Essential to find decent people who are natural leaders as this council is going nowhere! Needs LEADERS WITH VISION. WLC used to be Council of the Year in 2006. Visitors came from abroad to see staff and follow the vision for Older People's care services. WLC was famous! Need to find ways to once more make West Lothian THE place for businesses to be based thus bringing in a younger workforce population. This would help with care service provision Our historical assets are not well enough marketed. We have Linlithgow Palace / Burgh, Torphichen etc. but people miss the sights here go to Edinburgh instead!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16611	Theme 4- Responding to Demographic Change	General Comment	The council usually does what they want spend the money of the way they want and when it doesn't work out they usually put prices up and the percentages fees costs all to the end - user who are usually tenants of taxpayers or whoever else bling government and then have Daft Council bodies like labour / conservatives probably vote reform this year	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16612	Theme 4- Responding to Demographic Change	General Comment	With a growing older population, preventative community services and accessibility must remain priorities.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16613	Theme 4- Responding to Demographic Change	General Comment	Offer training and support to help older residents access online services, reducing isolation and improving access to council resources. Train staff to work across age groups and service types, allowing for more agile deployment based on demand. If facilities are to be closed or repurposed, provide clear timelines, alternative options, and support for those impacted. Test new service models in select areas before expanding, allowing for feedback and adjustment.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16614	Theme 4- Responding to Demographic Change	General Comment	Council needs to act more like a business than a charity, too many people abusing it. Getting paid for doing nothing	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16615	Theme 4- Responding to Demographic Change	General Comment	stop cutting jobs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16616	Theme 4- Responding to Demographic Change	General Comment	Reduce spending on new town, already over spending for the new developing town and leave other towns living like ghost town	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16617	Theme 4- Responding to Demographic Change	General Comment	I simply don't think the present council is capable of doing this	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16618	Theme 4- Responding to Demographic Change	General Comment	Pensioners are always targeted because we live longer so as we paid into system we are entitled benefits and parents want children at schools closest to home also we need more nurseries	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16619	Theme 4- Responding to Demographic Change	General Comment	Mid West Lothian council is not looking after west Lothian only there is the problem	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16620	Theme 4- Responding to Demographic Change	General Comment	[XXXX] Starmer [XXXX] Digital ID	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16621	Theme 4- Responding to Demographic Change	General Comment	Our local gp practice isn't fit for purpose with all the building at calderwood and we can't even drive through local villages. Our school would fit into East calder school but there's already a bullying problem in our local school and making the children go to a bigger school would likely make that worse. Why don't you sterilize the junkies and give them one child's worth of child benefit in return then you won't have the cost of raising their neglected kids. The whole country is going downhill.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16622	Theme 4- Responding to Demographic Change	General Comment	Services will only work efficiently when you have the right staff - sack the lazy ones, and start with the middle management!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16623	Theme 4- Responding to Demographic Change	General Comment	Isso é realmente um absurdo. Como pode reduzir escolas? Reduzir creches?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16624	Theme 4- Responding to Demographic Change	General Comment	More money and time should be spent on the youth! The 'lost youth' who had their lives messed up by covid! The youth many call trouble makers who hang around corners or cause problems in the park areas! Why separate the ages? Maybe they could all learn from each other. Youth from old. Babies with youth! Integration and not separation?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16625	Theme 4- Responding to Demographic Change	General Comment	The council need to put more funding into additional support need settings as there is not enough.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16626	Theme 4- Responding to Demographic Change	General Comment	Ensure there is no services being under used. Allow for some home schooling days	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16627	Theme 4- Responding to Demographic Change	General Comment	No Muslim learning in classroom	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16628	Theme 4- Responding to Demographic Change	General Comment	Encouraging people to car share if can for school drop off etc save council budgets	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16629	Theme 4- Responding to Demographic Change	General Comment	Improved forecasting of demographic changes and the impact this has on council buildings such as schools & nurseries, to prevent such surpluses occurring.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16630	Theme 4- Responding to Demographic Change	General Comment	Buildings no longer needed for education could be repurposed into community hubs, adult training spaces, or health and wellbeing centres to serve our ageing population.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16631	Theme 4- Responding to Demographic Change	General Comment	Group texting like this cost what!!!!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16632	Theme 4- Responding to Demographic Change	General Comment	Early intervention was available a few years ago in family centres until closed and are in schools (family support officers). I don't see savings here just council making more cuts and less services where they are really needed.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16633	Theme 4- Responding to Demographic Change	General Comment	Schools need punishment intact again, behaviour lines, detention, put out of class more set than all kids think there in charge because of the laws, not fare on all parents	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16634	Theme 4- Responding to Demographic Change	General Comment	Not hardly enough provisions for Special ed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16635	Theme 4- Responding to Demographic Change	General Comment	Provide places for teenagers to socialise.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16636	Theme 4- Responding to Demographic Change	General Comment	There are a lot of volunteers in relation to children. Maybe more interaction required.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16637	Theme 4- Responding to Demographic Change	General Comment	I agree in principle that any schools which are running with a low number of pupils should be closed. However I don't agree that older people should be prioritised over younger people just because there 's more of them. Resources should be focused on having the most impact. Most pensioners are reasonably well off, and can pay, or contribute towards, their care. A lot of children are living in poverty.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16638	Theme 4- Responding to Demographic Change	General Comment	Focus should be on quality education and supported teachers.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16639	Theme 4- Responding to Demographic Change	General Comment	The changes to the demographic may not actually be in line with what you are planning for given the huge increase in new housing and the number of migrants moving into the area.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16640	Theme 4- Responding to Demographic Change	General Comment	As council will use this as an excuse to cut child care and other services that have already cut.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16641	Theme 4- Responding to Demographic Change	General Comment	The council already tried to make savings by closing family centres which had a detrimental effect on children and families - they were suppose to be more collaborative working with families in their home and families who needed the family centres are still suffering and this has been put on schools and nurseries to pick up the pieces - costing more money!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16642	Theme 4- Responding to Demographic Change	General Comment	Education is very important as these children are our future work force	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16643	Theme 4- Responding to Demographic Change	General Comment	What about the new Calderwood primary which is full to bursting and their appointed secondary West Calder say they can't take any more	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16644	Theme 4- Responding to Demographic Change	General Comment	Kids have rights as well	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16645	Theme 4- Responding to Demographic Change	General Comment	The councils budget must be growing due to the extra housing giving them more council tax revenues	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16646	Theme 4- Responding to Demographic Change	General Comment	Please stop using our money for funding other people who constantly make the wrong choices in life	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16647	Theme 4- Responding to Demographic Change	General Comment	Cleaning it up. Shaping up the buildings to look clean. Take out the old windows and replace with new windows. The old wood and the insides need renovation. It needs a face lift. People need to renovate. It takes money to make money. No one wants to be here if it looks old and run down.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16648	Theme 4- Responding to Demographic Change	General Comment	the council needs to ask much larger contributions from developers towards education etc.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16649	Theme 4- Responding to Demographic Change	General Comment	Yes, I agree the Council needs to plan ahead and shape services around the changing population. It makes sense to make sure resources go where they're most needed. However, I think the government also needs to provide more funding to help councils cope with these changes, especially with the growing number of older people who will need more care and support. It's not fair for local services to be stretched so thin that quality suffers. Changes should be made carefully, with proper consultation, so that no community loses out on important facilities like schools or nurseries that families still rely on.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16650	Theme 4- Responding to Demographic Change	General Comment	More support for older people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16651	Theme 4- Responding to Demographic Change	General Comment	If there are more pensioners, they need to be paying a fair share of council tax too, especially when most of the services will be benefiting them. We are at the child rearing stage and the cost for everything is extortionate.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16652	Theme 4- Responding to Demographic Change	General Comment	Football pitches for kids	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16653	Theme 4- Responding to Demographic Change	General Comment	Instead of building small you need to look at the future people are living longer so more and more services are needed not less	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16654	Theme 4- Responding to Demographic Change	General Comment	Like I said before it's nothing to do with demographics cause everyone should pay on time and adequate amount.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16655	Theme 4- Responding to Demographic Change	General Comment	Plenty of money coming in from the Scottish Government and for all the additional council taxes via new builds. If the Council handled their money properly there would be no need to keep making cuts! It's the public who are paying the money and yet are having our services cut! It's not adding up.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16656	Theme 4- Responding to Demographic Change	General Comment	As more houses are built you are getting more council tax, more money from developer's.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16657	Theme 4- Responding to Demographic Change	General Comment	more business tax more clubs for people to access	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16658	Theme 4- Responding to Demographic Change	General Comment	I have put no as I think the council has removed socially integrative services across all age sector in the name of budget cuts and cost cutting	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16659	Theme 4- Responding to Demographic Change	General Comment	Stop conning the public, the council is inept.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16660	Theme 4- Responding to Demographic Change	General Comment	The number of adults reaching pension age is reducing due to cost of Living	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16661	Theme 4- Responding to Demographic Change	General Comment	Children shouldn't suffer because the council are using their budget in the wrong areas. These children are our future, and deserve better opportunities than we had.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16662	Theme 4- Responding to Demographic Change	General Comment	All cut I have mentioned	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16663	Theme 4- Responding to Demographic Change	General Comment	There will be less families having children due to the simple fact of cost of living	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16664	Theme 4- Responding to Demographic Change	General Comment	What ever the answer, you will spend a fortune on a review and still not get it right.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16665	Theme 4- Responding to Demographic Change	General Comment	Mote for older kids	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16666	Theme 4- Responding to Demographic Change	General Comment	Completely agree, it's what makes the community.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16667	Theme 4- Responding to Demographic Change	General Comment	Instead of cutting services and increasing tax a better solution would be to stop wasting money.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16668	Theme 4- Responding to Demographic Change	General Comment	Only acceptable with a new justice scheme. The old pals act when it comes to appointments must be abolished	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16669	Theme 4- Responding to Demographic Change	General Comment	Yes, councils must respond to demographic change by shaping their services around the local population. Ignoring these shifts can lead to a mismatch between resident needs and public services, creating financial and social pressures. Aging population: Many areas of Scotland are seeing an increase in the number of older people, especially those aged 85 +. This impacts services such as social care, housing, and healthcare. Migration affects a population's size and character, creating a need for services that support newly arrived residents, including housing and tailored communication strategies. Changing household sizes: There is a long - term trend of decreasing household sizes, the number of older adults is increasing while average household size is decreasing.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16670	Theme 4- Responding to Demographic Change	General Comment	It's great Britain help it be great for its citizens	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16671	Theme 4- Responding to Demographic Change	General Comment	Take a sample of the race and model things to what they need. For example there are more migrants that have come in due to the	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16672	Theme 4- Responding to Demographic Change	General Comment	West Lothian must not however forget that it prides itself on being multicultural and not slide into the way some parts of the United Kingdom have down by allowing certain groups areas set aside just for them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16673	Theme 4- Responding to Demographic Change	General Comment	Protest the poorest communities	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16674	Theme 4- Responding to Demographic Change	General Comment	I believe this is beginning to happen	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16675	Theme 4- Responding to Demographic Change	General Comment	You keep closing schools nurseries libraries etc but then the government bring more people over to stay it does t make sense	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16676	Theme 4- Responding to Demographic Change	General Comment	About 10 council stood up so why shouldn't west Louisiana cancel	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16677	Theme 4- Responding to Demographic Change	General Comment	Limit the losers moving into our areas	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16678	Theme 4- Responding to Demographic Change	General Comment	Where the money going from all new houses, land and council tax,	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16679	Theme 4- Responding to Demographic Change	General Comment	Activities for all ages	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16680	Theme 4- Responding to Demographic Change	General Comment	A lot of the issues are directly out with control, the council can only operate with the data it has, trying to plan for what might happen rather than what is happening is how funds become mismanaged	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16681	Theme 4- Responding to Demographic Change	General Comment	Stop going on 4star fact finding holidays, sorry missions.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16682	Theme 4- Responding to Demographic Change	General Comment	Again make sure all peoples are cared for. Great consideration and not being to hasty in your decisions. So no one is left out.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16683	Theme 4- Responding to Demographic Change	General Comment	Focus on core activities, providing services to local people. Anything else is unsustainable.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16684	Theme 4- Responding to Demographic Change	General Comment	Of the population is high things has to change aswell, for example population in elderly council have to find a way of accommodating them.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16685	Theme 4- Responding to Demographic Change	General Comment	How about encouraging and incentivising the indigenous tax payers to have children instead of importing a financial burden!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16686	Theme 4- Responding to Demographic Change	General Comment	You are saying we are growing too quickly as a community but then opening the gates to foreign nationals so the two things don't correlate either we are to over populated so we can't bring in more or we aren't and we can help.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16687	Theme 4- Responding to Demographic Change	General Comment	More mosques	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16688	Theme 4- Responding to Demographic Change	General Comment	Though services should depend on the population not a the cost of completely removing a communities access to a service	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16689	Theme 4- Responding to Demographic Change	General Comment	Better bus services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16690	Theme 4- Responding to Demographic Change	General Comment	I believe I touched on this above. I feel a lot of council Romney is being used for new, growing towns whereas small villages are being overlooked. People there still matter even if there are not as many.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16691	Theme 4- Responding to Demographic Change	General Comment	This is tricky as it is dependant on where you live within WL. I appreciate growth and income but stop building so many houses which would then reduce the strain. If houses continue to be built then ensure the correct infrastructure is in place	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16692	Theme 4- Responding to Demographic Change	General Comment	Yes, when you are allowing building companies to build more housing estates in West Lothian, they should also be accountable for the cost of the infrastructure ie; schools, doctor and dental surgeries, pay more money to the council for refuse collection.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16693	Theme 4- Responding to Demographic Change	General Comment	Previous question	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16694	Theme 4- Responding to Demographic Change	General Comment	At the end of the day the people matter	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16695	Theme 4- Responding to Demographic Change	General Comment	More way books	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

16696	Theme 4- Responding to Demographic Change	General Comment	That way we get to experience new things	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16697	Theme 4- Responding to Demographic Change	General Comment	Try and bring people back into west lothian rather than sourcing things outwith to other councils and pay over the odd for care and support from other councils and also west lothian tenants moving to care homes outwith west lothian.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16698	Theme 4- Responding to Demographic Change	General Comment	Whitburn is generally an elderly population.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16699	Theme 4- Responding to Demographic Change	General Comment	no	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16700	Theme 4- Responding to Demographic Change	General Comment	In appropriate and most needful areas.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16701	Theme 4- Responding to Demographic Change	General Comment	The council should absolutely proactively plan council services around changing demographics	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16702	Theme 4- Responding to Demographic Change	General Comment	there should be more family support not less	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16703	Theme 4- Responding to Demographic Change	General Comment	We need to put more money into creating new and maintaining old nursing homes for the increase in elderly population. They should knock down places that aren't being used by some of the population. We need to spend more money for medicine for elderly.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16704	Theme 4- Responding to Demographic Change	General Comment	Free my boy diddy	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16705	Theme 4- Responding to Demographic Change	General Comment	How many questions is there	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16706	Theme 4- Responding to Demographic Change	General Comment	Provide a better mix of housing types. This allows older people to downsize in the same area with easier access to the services they need freeing up larger homes further from the centre for younger families.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16707	Theme 4- Responding to Demographic Change	General Comment	Local councils have much more knowledge about local needs and ambitions so rather than service duplication. If you want it you pay for it not local citizens.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16708	Theme 4- Responding to Demographic Change	General Comment	I agree that savings could come from demographic change	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16709	Theme 4- Responding to Demographic Change	General Comment	More older people so need more social care	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16710	Theme 4- Responding to Demographic Change	General Comment	Are the other 'new towns' eg Cumbernauld, Irvine ad before Glenrothes, East Kilbride, experiencing the same problems	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16711	Theme 4- Responding to Demographic Change	General Comment	No - but having larger classes will impact young people's education. I appreciate, however, the demographic change but just wanted to point this out.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16712	Theme 4- Responding to Demographic Change	General Comment	Personally, we unfortunately don't have children but totally support opportunities for out young persons.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16713	Theme 4- Responding to Demographic Change	General Comment	Although I have replied yes to this question, I don't have a solution to your dilemma. Education is the key to the future success of the county. At the same time, elderly people have worked and contributed to the income of the county. As a senior citizen who has lived most of my life in the county and paid my community charges, still working and paying income tax, I do worry about a reduction of services for elderly people in the future if I ever need support to live independently as I get older.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16714	Theme 4- Responding to Demographic Change	General Comment	Community hubs for older people to visit to socialise and make use of services available, thus ensuring their wellbeing and causing less demand on individual needs.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16715	Theme 4- Responding to Demographic Change	General Comment	An increase of service provision should be reflected in the total sum of contributions collected from the population. I. e. one should be directly finances by the other. More housing is needed for the growing population, so growth in services and service users is inevitable.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16716	Theme 4- Responding to Demographic Change	General Comment	Yes I think it seems reasonable to shape the councils operation around the demographics of the county	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16717	Theme 4- Responding to Demographic Change	General Comment	This is an area where more joined up working between services would be beneficial.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16718	Theme 4- Responding to Demographic Change	General Comment	Please do not penalise the elderly population as they have already contributed significantly. It feels like some of the cuts are penalising the elderly, yet money is given to people who have not contributed to society.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16719	Theme 4- Responding to Demographic Change	General Comment	These ideas seem sensible in theory but children cannot be disadvantaged by closing schools.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16720	Theme 4- Responding to Demographic Change	General Comment	It seems to respond to fall in birth rate but not increase in older ages. There's so many retiring early that are not elderly or frail and many want to be useful. They could be useful.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16721	Theme 4- Responding to Demographic Change	General Comment	Although a need to contain increased costs, there is little pressure on developers to make significant infrastructure commitment, with the council left holding the baby!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16722	Theme 4- Responding to Demographic Change	General Comment	Yes WLC should respond to demographic changes but in an intelligent and thoughtful way. The key is improving population health. People are living longer but it is essential that good health is a lifetime 'investment' by individuals, in partnership with the NHS and local authorities. Be brave and bold with your messages. Don't be deterred if it seems politically unpalatable. Scotland is drowning under the weight of obesity and people in West Lothian are massive - do something about this. Take the lead on tough messaging that promotes healthy living, healthier weight (BMI under 25) and don't be afraid to tell people in West Lothian that ill health costs and that it comes at the expense of other services. Getting older doesn't mean being infirm and unable to move. The over - reliance on social work and social care is a direct consequence of Scottish Government and local authorities being too afraid to tell people to be resilient and look after their own health. It comes at a massive cost.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16723	Theme 4- Responding to Demographic Change	General Comment	Provide more information and news for older people. In formats they want.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16724	Theme 4- Responding to Demographic Change	General Comment	I see every day how important it is to have services that meet the needs of people in our community. Many of use who come her are older or have health conditions and need support and social contact. Braid House provides a safe, friendly place that helps us stay connect & independent whilst giving families vital respite. As population changes and more people need care & Support the council should work closely with services like Braid House to plan ahead & make sure these essential services continue to mee the need of local people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16725	Theme 4- Responding to Demographic Change	General Comment	more facilities and support for those over 65 particularly those living alone and those caring for family members.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16726	Theme 4- Responding to Demographic Change	General Comment	Braid House provides a vital service to my mother and is in our local community which is good for my mother. The council needs to support this vital service	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16727	Theme 4- Responding to Demographic Change	General Comment	Instead of wasting money on new schools build more day centres and care homes for elderly	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16728	Theme 4- Responding to Demographic Change	General Comment	Braid House provides me with a safe and entertaining environment and helps me to socialise in my community. Otherwise I'd only see my family day to day.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16729	Theme 4- Responding to Demographic Change	General Comment	Think we need to look at all of this not sure of any answers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16730	Theme 4- Responding to Demographic Change	General Comment	It's important that Braid House Day Centre remains withing the centre of Livingston.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16731	Theme 4- Responding to Demographic Change	General Comment	The council should ensure services reflect the needs of all community members, including those with disabilities and their families, Braid House provides vital support and respire for clients and their carers. meeting a clear local need as demographics changes. The council could work more closely with organisations like Braid House to understand evolving demand, plan services accordingly and ensure resources are allocated efficiently to support those in need.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16732	Theme 4- Responding to Demographic Change	General Comment	Depends on what the demands are.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16733	Theme 4- Responding to Demographic Change	General Comment	It depends on what they say.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16734	Theme 4- Responding to Demographic Change	General Comment	As more ethic people moving to West Lothian, there is no current service to support new Scots project.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16735	Theme 4- Responding to Demographic Change	General Comment	I think that for older generation facilities and thing that would benefit them should stay open longer as they are living longer and I don't think it's fair to take away things for them if they are the ones living the longest	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16736	Theme 4- Responding to Demographic Change	General Comment	If the nursery 's are getting used then yes	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16737	Theme 4- Responding to Demographic Change	General Comment	need more services to give carers a rest.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16738	Theme 4- Responding to Demographic Change	General Comment	They can cut costs by using the facility's and things they already have instead of building new things	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16739	Theme 4- Responding to Demographic Change	General Comment	All other agencies don't do enough	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16740	Theme 4- Responding to Demographic Change	General Comment	Responding effectively to changing demographic trends must include recognition of neuro - developmental differences. Data, especially that connected with mental health and education, shows a significant, sustained rise in the number of people diagnosed with or seeking a diagnosis of autism, ADHD, or another neurodivergence. It is vital that existing funding for neurodivergent people via neuro - affirming support services and Self - Directed Support (SDS) is protected, given that demand is only going to rise further. We look forward to partnership working with West Lothian Council and the HSCP in their own response to meeting the challenges of delivering for this growing community and that growing need.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16741	Theme 4- Responding to Demographic Change	General Comment	From our vantage point, the services the Council should prioritise protecting include: • Grant funding mechanisms for voluntary / community organisations and infrastructure support (e. g., capacity building, volunteer development). • Community based programmes tackling poverty, social exclusion, mental health & wellbeing – especially in areas of multiple deprivation. • services that support the third sector's operations (e. g., governance support, training, digital infrastructure) so the sector remains resilient and effective. Opportunity for sharing back office administration moving forward.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16742	Theme 4- Responding to Demographic Change	General Comment	1. Create or build a more user - friendly surgery in Whichburgh as path from parking area is very poor, even dangerous, for those with walking difficulties. 2. Create another post office to service new areas of Winchburgh. 3. Get Railway station built!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16743	Theme 4- Responding to Demographic Change	General Comment	Older population increasing and younger population increasing. Redress the balance to meet the need of the demographic today and not yesteryear.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16744	Theme 4- Responding to Demographic Change	General Comment	Help the elderly more	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16745	Theme 4- Responding to Demographic Change	General Comment	This should be an ongoing activity	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16746	Theme 4- Responding to Demographic Change	General Comment	Why did the council not anticipate there were going to be issues around population growth when allowing the sale of land and develop of new houses and estates geared towards attracting people to West Lothian in the first place.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16747	Theme 4- Responding to Demographic Change	General Comment	Only where realistically possible.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16748	Theme 4- Responding to Demographic Change	General Comment	West Lothian has and is still growing more houses being built should raise more revenue through council tax and yes more homes means more refuse vehicles on the road as of now they're coping just. Selling of unused buildings and land could also generate more cash flow	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16749	Theme 4- Responding to Demographic Change	General Comment	It's clear that Social Policy have the issue of demand outstripping funding available. There should be a minimum cost per individual in care for the years that cost outstrips budget. SG should fund this properly.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16750	Theme 4- Responding to Demographic Change	General Comment	Yes 100 % agree	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16751	Theme 4- Responding to Demographic Change	General Comment	Child care is important to fund, but we should not let private companies manage these services. It leads to terrible workplace practices (underpaying staff yet over working them). We need a subsidised local government to manage this and parents can pay for these services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16752	Theme 4- Responding to Demographic Change	General Comment	It would make sense to prioritise services where there is a great need.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16753	Theme 4- Responding to Demographic Change	General Comment	Reactive and robust planning and fast and effective decision making!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16754	Theme 4- Responding to Demographic Change	General Comment	I note you mention making savings, but you will need to review spend on services too with an aging population. Please do.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

16755	Theme 4- Responding to Demographic Change	General Comment	Start providing the resources for earlier intervention, especially staff who can be available when necessary not having to follow a specific	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16756	Theme 4- Responding to Demographic Change	General Comment	Yes and No These decisions will impact the smaller communities more.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16757	Theme 4- Responding to Demographic Change	General Comment	Don't cut group work	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16758	Theme 4- Responding to Demographic Change	General Comment	With the increase of population. The demographics always need to be taken into consideration.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16759	Theme 4- Responding to Demographic Change	General Comment	I have already explained how I would make savings here - see earlier parts	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16760	Theme 4- Responding to Demographic Change	General Comment	My comments don't seem to be being saved.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16761	Theme 4- Responding to Demographic Change	General Comment	Planning for the future is the best way.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16762	Theme 4- Responding to Demographic Change	General Comment	So difficult as so many services are vital.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16763	Theme 4- Responding to Demographic Change	General Comment	Just like age demographics the populace will increase / decrease within areas to west lothian itself social services in general whether you like or dislike the service is a vital part of the community as a whole but is in desperate need of an overhaul in its operation and staff and transparency of it work and conduct of staff as well as how those points also factor into how it delivers its service as a whole not just budgetary. Winchburgh region is future proofing itself for time ahead where school numbers are low it will increase in future as the boundaries of winchburgh continue to expand with new and future housing what may cost now in building will save in longrun we have seen too many times the errors and financial costs associated with too many short sighted plans	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16764	Theme 4- Responding to Demographic Change	General Comment	Why not consider demographic engineering instead of accepting the problem. What attracts young people to West Lothian invest in that	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16765	Theme 4- Responding to Demographic Change	General Comment	Create more services relevant to the current political and social environment.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16766	Theme 4- Responding to Demographic Change	General Comment	As said earlier the demographic and influx of residents has been catastrophic and meeting this demand is now impossible. West Lothian was already over run years ago and more people are living longer, families are growing and people entering Scotland has just blown everywhere out of the water. I'm scared to say this demand has gone too far and I don't think West Lothian can meet the need anymore Scotland have let down its citizens massively with the housing crisis, cost of living crisis and immigrant / moving fleeing from home countries. Scotland not just West Lothian is unable to meet this need and should be managing families who have been struggling for years, communities and local authorities infrastructure as a priority	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16767	Theme 4- Responding to Demographic Change	General Comment	Every one	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16768	Theme 4- Responding to Demographic Change	General Comment	There was a time not too long ago where social workers didn't exist. The council could move more back to encouraging parents to take responsibility for their kids and all for taking more responsibility for their own life. As more of the population stick their hands out asking local and national government to take care of them, then more local governments inevitably slide toward bankruptcy and those who take responsibility for themselves and helping others pay the price.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16769	Theme 4- Responding to Demographic Change	General Comment	involve the pensioners more in public service	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16770	Theme 4- Responding to Demographic Change	General Comment	If your catchment is a primary school school and you don't send your children to it. This threatens it staying open and other schools end up have 35 in a class and the other school have resource and only 14 attending this is not good on all levels. Regarding house building the infrastructure needs to be in place first this needs to change.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16771	Theme 4- Responding to Demographic Change	General Comment	The council should be mindful of residents that have lived in the area and have contributed to the area for a considerable period of time.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16772	Theme 4- Responding to Demographic Change	General Comment	The council should focus on the indigenous population who for centuries families have built this country and paid into the system. The council should stop appeasing incomers as they should be able to support themselves and should integrate with our laws and religions	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16773	Theme 4- Responding to Demographic Change	General Comment	If people want children you should be able to look and pay for them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16774	Theme 4- Responding to Demographic Change	General Comment	In your last supposed round of savings you cut support to young people and focused on the aging population. Clearly you got this wrong if you are having to make more changes.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

16775	Theme 4- Responding to Demographic Change	General Comment	Cant cut everything on a wim	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16776	Theme 4- Responding to Demographic Change	General Comment	The demographics are the way they are perceived as the people that you see as a burden are and were the workforce that helped provide your services by paying taxes	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16777	Theme 4- Responding to Demographic Change	General Comment	Clowncil should be run by the public	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16778	Theme 4- Responding to Demographic Change	General Comment	Everyone 's welcome here who is here for the right reasons. To raise their families in safe ccommunities and because they respect the Scottish way of life. If we went to their countries we 'd be expected to respect that and not ask everything to be changed to suit us. We need to continue to offer safe environments and changing facilities such as unisex toilets for adults in facilities does not offer that. Men have been charged for attacking women by pretending to be non binary or transgender in mixed sex facilities as such and vice versa. At this moment in time, safety is paramount	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16779	Theme 4- Responding to Demographic Change	General Comment	~~of the numbers of people who are the numbers of these people who have to end up on the street because of life that is not needed and not~~ Sounds like another excuse for yet more surveys then paying for people to review and plan. Concentrate on basic services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16780	Theme 4- Responding to Demographic Change	General Comment	Is this the justification for 15 minute cities	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16781	Theme 4- Responding to Demographic Change	General Comment	don 't pay for deliveries use cheaper couriers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16782	Theme 4- Responding to Demographic Change	General Comment	I feel that this is the start of the 2030 Agenda and 15 minute cities. Labour are already forcing through digital ID, starve the system, reduce services, destroy the infrastructure. Im concerned about the childrens services as the state are increasingly taking over more and more control from parents. This a bigger issue than funding. The country has been stripped bare by policy after policy something needs to change but cutting more services, closing schools is not the answer. the definition of insanity is repeating the same thing and expecting different results. Time for the council to diversify	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16783	Theme 4- Responding to Demographic Change	General Comment	How about refusing to bring in any of these immigrants, these aren't men fleeing from war they are non screened MEN coming over who ant to bring their way of life into the country. Raping women and children being one of their ways. Set an example and stand up to this government and home your own people first	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16784	Theme 4- Responding to Demographic Change	General Comment	Piggy bank	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16785	Theme 4- Responding to Demographic Change	General Comment	Continuous loss of local services, such as schools, libraries kills smaller opportunities and throws more traffic onto roads - people don't have pride in or identify with larger institutions.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16786	Theme 4- Responding to Demographic Change	General Comment	Stop funding immigration - would we get put up in, hotels & get funding elsewhere?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16787	Theme 4- Responding to Demographic Change	General Comment	I disagree with your findings, if you look at how many new houses have been built around the local villages there are hundreds and the biggest majority are family homes. The Council are quick to put up taxes when the people wonder why! all these extra houses must be bringing in a lot of money. The people are wondering why we have the worst roads for pot holes and the roads and pavements are being dug up all the time. Somebody should check up on the workmanship when they say its finished. This takes money from the already tight purse of the local population for car repairs and it leaves no money for spending on other things that have now become luxuries. Nobody has disposable income and this has a knock on affect.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16788	Theme 4- Responding to Demographic Change	General Comment	Find savings in other areas	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16789	Theme 4- Responding to Demographic Change	General Comment	Only if supporting the communities. Having worked for the council for many years (and appreciated support), there are many areas including procurement, property services and facilities management where costs have been existential and when asked to make relative savings, they're small in comparison - realise mandatory requirements and not sure of solution, but very frustrating.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16790	Theme 4- Responding to Demographic Change	General Comment	Respond positively	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16791	Theme 4- Responding to Demographic Change	General Comment	Livingston is growing, with mix tenure housing. This means more amenities re needed.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16792	Theme 4- Responding to Demographic Change	General Comment	I 'm not exactly sure what this means and the benifits it would bring	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16793	Theme 4- Responding to Demographic Change	General Comment	Have community services in facilities	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

16794	Theme 4- Responding to Demographic Change	General Comment	We think no because you could, but you don't have to	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16795	Theme 4- Responding to Demographic Change	General Comment	Nursery bus to pickup them	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16796	Theme 4- Responding to Demographic Change	General Comment	I think we need to prioritise investment in children and reduce investment in older people. I am amazed how older people get collected from their house and taken to a day centre, how c. a group of 10 older people are then looked after by c. 5 staff, given a three course meal, entertained by musicians, and therapists and driven home. Where as young children struggle to get a bus to school because it breaks down / is full, then sit in a class all day in a group of 30 with one teacher, only to find at lunch time there is barely enough food. I think we have got the balance totally wrong.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16797	Theme 4- Responding to Demographic Change	General Comment	Who can predict when or if with family life nobody knows how long we are going to live or how many children a family decide to have we are building more houses in West Lothian of 3 and 4 bed homes do they have inside info of who are moving into these homes if only we had a crystal ball what can we do put 2 schools into one or 2 nurseries into 2 then all the people moving into West Lothian with families where do they go with no room because we knocked down the schools and sold the land for these houses that big families are going to move into	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16798	Theme 4- Responding to Demographic Change	General Comment	These are priority areas	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16799	Theme 4- Responding to Demographic Change	General Comment	The British people are becoming minority in our own county we are losing services due to high immigration	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16800	Theme 4- Responding to Demographic Change	General Comment	stop funding hotels for illegal immigrants	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16801	Theme 4- Responding to Demographic Change	General Comment	Is this for all the people who arrive from other countries??	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16802	Theme 4- Responding to Demographic Change	General Comment	Previous statement	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16803	Theme 4- Responding to Demographic Change	General Comment	Measuring need against provisions. If not enough need then cut back on the service provided. Increase provision where needed eg at the moment points system in use in housing. Categories would work better eg starters, seekers, movers, disabled. To clarify, I need to move to Linlithgow. I am an unpaid carer. Currently, I am competing for a house with young families who often are living with relatives. They have a need for sure but so have I. I'm 69 and have to travel constantly in order to help my Daughter. She has a package of care but I have to do the practical things such as housework, dealing with bureaucracy etc. I wrote to allocations weeks ago but have not received an answer as to whether I can be awarded extra housing points.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16804	Theme 4- Responding to Demographic Change	General Comment	Build around 30 one bedroom houses in each village. Too many single people / couples in 2 and 3 bedroom houses. This should not be happening. No wonder the waiting list is so high	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16805	Theme 4- Responding to Demographic Change	General Comment	Stop allowing housing estates to be built without additional infrastructure.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16806	Theme 4- Responding to Demographic Change	General Comment	They are building more and more houses so they have to be able to offer more service for the people they are bringing in from all over that are draining our services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16807	Theme 4- Responding to Demographic Change	General Comment	with regards to housing and community planning. WLC could rebalance housing mix, by shifting focus from family homes to accessible bungalows, retirement apartments, and intergenerational housing. A focus on the workforce and economy - encouraging older people to remain in work, promoting flexible, part time or remote working opportunities for those over 60. Another idea is to support local community groups to co - design and co - deliver services, particularly for older residents in rural areas. But also focus and expand more home - based support for older residents, and invest in health promotion, for example physical activity programmes, falls prevention, and digital health tools to reduce future care needs. A strong focus on informal carers - offer stronger financial respite, emotional support for unpaid carers.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16808	Theme 4- Responding to Demographic Change	General Comment	By housing the people who are here legally	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16809	Theme 4- Responding to Demographic Change	General Comment	Suggestions only focus on the impact of lower children 's numbers. What is the impacts and costs of higher aged demographic. You will need more services for them, how can the existing buildings be repurposed to meet demographic change needs	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16810	Theme 4- Responding to Demographic Change	General Comment	More cash for plumbers	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16811	Theme 4- Responding to Demographic Change	General Comment	With increasing in family housing, there should be the correct amount of play areas, Drs, dentists ect	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16812	Theme 4- Responding to Demographic Change	General Comment	Stop putting up stupid temporary traffic light for no reason.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16813	Theme 4- Responding to Demographic Change	General Comment	Seek to encourage development of more retirement ready homes and communities for the aging population to downsize into and release larger family homes. Ensure developers contribute to increased GP capacity whatever homes are approved as the current availability is beyond unacceptable.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16814	Theme 4- Responding to Demographic Change	General Comment	This would require limiting building in / around WLC. Could this have an adverse affect on housing purchases?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16815	Theme 4- Responding to Demographic Change	General Comment	Stop blaming population growth, try rejecting the house building applications.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16816	Theme 4- Responding to Demographic Change	General Comment	Stop building houses and people won't live here, stop burning down buildings / swimming pools to create space to build houses on, less houses less people less infrastructure, simple!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16817	Theme 4- Responding to Demographic Change	General Comment	In East Calder the number of houses has increased exponentially over the last 5 - 10 years however local services eg doctors dentists and pharmacies haven't and now cannot cope	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16818	Theme 4- Responding to Demographic Change	General Comment	Not sure	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16819	Theme 4- Responding to Demographic Change	General Comment	Are we looking at what we can do to attract younger people? Are we building enough affordable houses to make this happen? Are we using the housing stock we have efficiently? (e.g. empty homes, second homes etc)	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16820	Theme 4- Responding to Demographic Change	General Comment	Partially but being mindful that providing poor provisions will only reduce the likelihood that families will move to the area also, West Lothian needs to be seen as an attractive place to have families and raise children	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16821	Theme 4- Responding to Demographic Change	General Comment	Stop selling off all spare bits of green space for more blooming houses!!	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16822	Theme 4- Responding to Demographic Change	General Comment	Just more money being wasted, demographic change, we don't want mosques and change waste of money take them else where out of the uk	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16823	Theme 4- Responding to Demographic Change	General comment	West Lothian Council need to take a very long term approach. It is essential that physical and mental health of the local community is at the heart of everything. A healthier community will put less demands on the Council in terms of the services they provide across all areas	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16824	Theme 4- Responding to Demographic Change	General Comment	Same with elderly support. Families should support each other not the state.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16825	Theme 4- Responding to Demographic Change	General Comment	See the polyclinic idea above Create incentives for families to look after elderly relatives at home	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16826	Theme 4- Responding to Demographic Change	General Comment	Support day centres for older people to cut the amount spent on some of the costly home care services. We also need to prevent older people making unnecessary hospital admissions.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16827	Theme 4- Responding to Demographic Change	General Comment	There is a great need for a new health centre in East Calder. This is a old run down building and not fit for purpose with all the extra people coming into East Calder with new house building.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16828	Theme 4- Responding to Demographic Change	General Comment	If the council decided to close schools due to lack of people in the future, they should increase with care home alternatives to compensate the expected increase of older people / pensioners	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16829	Theme 4- Responding to Demographic Change	General Comment	I would add that an increase in people of pensionable age doesn't immediately lend itself to an increase of people depending on council services. Many will be affluent and independent. Take a % of pensioners in the council right now that use services regularly and that would give you a rough idea to forecast with. Plus technological enhancements will further allow for greater independence as the years roll by.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16830	Theme 4- Responding to Demographic Change	General Comment	Care and support for elderly crucial, however WLC don't listen and close the cafe / restaurant at Rosemount Gardens, Bathgate	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16831	Theme 4- Responding to Demographic Change	General Comment	Many retired people are relatively wealthy and can pay for private sector services. Council should attract private sector providers to the area while subsidising those most needy cases	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16832	Theme 4- Responding to Demographic Change	General Comment	Much of the retired population is relatively wealthy and able to pay for services. Council should encourage and facilitate private sector fee charging services, while subsidising the most needy.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16833	Theme 4- Responding to Demographic Change	General Comment	I agree there is no point having too many opportunities in the wrong area and too few in other areas, but this should this not already have been planned for?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16834	Theme 4- Responding to Demographic Change	General Comment	Yes more than they are as it argues care homes are required so why close them down.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16835	Theme 4- Responding to Demographic Change	General Comment	Growing older populations will need more home support, social care, and accessible transport—services that must be planned now to avoid higher costs later. By carefully reshaping services, using accurate data, and engaging openly with residents, West Lothian can manage change responsibly, protecting both younger and older generations without damaging local pride or fairness.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16836	Theme 4- Responding to Demographic Change	General Comment	Most care homes seem to be privately run and make good profits. If council provided care homes this profit would go to the council rather than private individuals With do many new houses being built, despite objections re building on Livingston Countryside Belt,	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16837	Theme 4- Responding to Demographic Change	General Comment	In areas where you have an older population the need for certain services will drop. Also not all over 65s will require the services provided for them. Just ask them what they need and provide it to them.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16838	Theme 4- Responding to Demographic Change	General Comment	Encourage the older population to share their wealth of knowledge Take into consideration what the older population would like for instance the closing of the very popular Rosemount gardens Cafe which I believe was well used especially by older retired residents of West Lothian not just Bathgate. Encourage volunteers to help run places like this saving on wages and giving them a sense of being needed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16839	Theme 4- Responding to Demographic Change	General Comment	Implement a minimum facility charter and work from there	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16840	Theme 4- Responding to Demographic Change	General Comment	If the figures and forecast is correct then yes as we need to put more money into Older Adults services as there is a huge need for this	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16841	Theme 4- Responding to Demographic Change	General Comment	Don't reduce any services from disabled or elderly.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16842	Theme 4- Responding to Demographic Change	General Comment	I have no suggestions however the very nature of a new town means that the elderly population will increase at a faster rate than the younger population, so facilities for an elderly population is extremely important to avoid the elderly experiencing loneliness and isolation. Sadly this is as aspect of new town living that should have been envisaged in the early stages of creating a new town. Someone with expertise in the area of elderly populations, such as Age UK or possible university lecturers with expertise of the needs of an elderly population need to be consulted as to the best way forward. As the population grows, the need for facilities for the elderly will increase and the need for facilities for the elderly will increase.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16843	Theme 4- Responding to Demographic Change	General Comment	Why is there no reflection here of the fact services for pensioners will need significant funding boost, yet there 's no talk of efficiency savings in delivery of these services like single use bottles for schools. This should be a strand here.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16844	Theme 4- Responding to Demographic Change	General Comment	It should prioritise the elderly instead of just expecting them to pay for the younger generation. Remember, the people of pensionable age have likely contributed to the economy and should be rewarded, not expected to fund services those who haven't contributed.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16845	Theme 4- Responding to Demographic Change	General Comment	stop cutting OAP services	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16846	Theme 4- Responding to Demographic Change	General Comment	More social work posts would ensure older adults receive assessments for support and care at earlier stage and would prevent many care home admissions. Currently the waiting lists for assessments take too long which results in clients being unable to manage at home, deterioration in health, being admitted to hospital and then discharged to care homes.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16847	Theme 4- Responding to Demographic Change	General Comment	I live in Broxburn and the facilities for the elderly are non-existent there is nowhere that elderly people can meet for a lunch or coffee and cake for a chat in the day time as Broxburn main street is full of fast food premises and hairdressers. You mention a growing number of elderly residents in West Lothian they need to be able to interact with others in person not by IT or digitally which seems to be the way of the younger generation. No thought is being given to both elderly and disabled people. I find that both young able bodied people do not think like elderly or disabled, people	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16848	Theme 4- Responding to Demographic Change	General Comment	Older residents 's needs are important of course, but have never been addressed. More daytime provision is required with resources made available towards this.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16849	Theme 4- Responding to Demographic Change	General Comment	There needs to be facilities for our older generation - we will all be there one day. Especially in care - there are few places that will take people who have no money. I am amazed that the council allows companies to build new care homes without offering council places. My dad had to go to a home in Mid Lothian as there were no places here. Please keep our care facilities.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16850	Theme 4- Responding to Demographic Change	General Comment	Braid House faces increased demand due to our community 's shifting demographics, with a growing pensioner population. This surge intensifies the need for its services: social activities, arts and crafts programs, and support networks crucial for senior well-being. Current funding struggles to meet this rising demand, threatening the center 's ability to serve its expanding elderly clientele effectively. More pensioners rely on Braid House to combat loneliness, access vital resources, and maintain an active, engaged lifestyle. Increased funding is essential to adapt to these demographic	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16851	Theme 4- Responding to Demographic Change	General comment	Stop cutting services for older people.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16852	Theme 4- Responding to Demographic Change	General Comment	Nursing homes are very much needed. Parents can travel further to school. I took my kids 45 min journey every day. Buses could be provided but in my experience there is risk of bullying and bad behavior unless there is a supervisor as well as driver	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16853	Theme 4- Responding to Demographic Change	General Comment	Improve cost recovery for elderly social care	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16854	Theme 4- Responding to Demographic Change	General Comment	Funding for the people that have already paid their dues having worked all their lives should definitely be considered. Dementia is a growing concern for everyone, families already do everything they can to help make extra to add to the funding that the council currently give. This council funding shouldn't be removed because of that.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16855	Theme 4- Responding to Demographic Change	General Comment	Older people are really being neglected and expected to pay for their own care which is really not fair especially when they worked and contributed to West Lothian in their younger days.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16856	Theme 4- Responding to Demographic Change	General Comment	Aging population which should be catered for	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16857	Theme 4- Responding to Demographic Change	General Comment	Use council - drafted Ben care facilities for the elderly instead of private higher cost firms	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16858	Theme 4- Responding to Demographic Change	General Comment	What about the rising population? All the houses being built in West Lothian are bringing in more people and more money for the councils. yet no facilities or infrastructure to go along with these new residents. hospitals, health centres etc but your talking about schools?	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16859	Theme 4- Responding to Demographic Change	General Comment	we must serve the whole community evenly and fairly, as it is West Lothian residents see places like Winchburgh, Linlithgow appearing to receive much better services and facilities from WLC. Other areas with a poorer demographic, seem to be getting left behind.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16860	Theme 4- Responding to Demographic Change	General Comment	A proper community impact statement needs looking at - it seems accountants are just scoring lives through areas with no thought on long term damage for minimal savings if any the policy is skewed	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16861	Theme 4- Responding to Demographic Change	General Comment	Build a new purpose built "super" nursing home you can put all these pensioners your worried about in.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16862	Theme 4- Responding to Demographic Change	General comment	No to cuts in care places. Both groups serve a good provision of services, I live in Holmes Gardens and depend on the staff helping me.	Corporate Policy and Resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
16863	Theme 4- Responding to Demographic Change	General Comment	If the aged population is increasing, there should be some form of means tested premium that those who are retired pay in order for the services and amenities that they wish to have have sufficient care and capacity to accommodate the demand	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16864	Theme 4- Responding to Demographic Change	General Comment	Offer early retirement and put age back down	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16865	Theme 4- Responding to Demographic Change	General Comment	Stop the boats crossing the channel, close the migrant hotels and HMO 's, deport anybody that is in he country illegally. We can 't afford it anymore.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16866	Theme 4- Responding to Demographic Change	General Comment	Strict border controls. Not allowing WLC to be a dumping ground for non tax contributing illegal immigrant groups. Deported on arrival, not given time to breed.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16867	Theme 4- Responding to Demographic Change	General Comment	Extend rail timetables for stations in the region.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16868	Theme 4- Responding to Demographic Change	General Comment	Give pensioners option to do without winter heat allowance.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16869	Theme 4- Responding to Demographic Change	General Comment	give pensioners option to do without winter heating allowance	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16870	Theme 4- Responding to Demographic Change	General Comment	I think the main problem is that local councils aren't getting enough support from the government. Instead of closing more buildings, the government should be giving councils more funding so services can be kept local and accessible. Yes, I agree the Council needs to plan ahead and shape services around the changing population. It makes sense to make sure resources go where they're most needed. Cutting facilities might save money in the short term, but it ends up hurting communities in the long run. • Agree planning ahead is important to meet needs of a growing and ageing population. • Calender, maintenance and services are vital for many with disabilities and need to ensure our Council services meet needs of all residents.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16871	Theme 4- Responding to Demographic Change	General Comment	Yes spend the money from 1000s of new homes to invest in East Calder medical practice and a light clinic in Kirknewton - we lay the same council tax we did 30 years ago but due to a massive new village you have allowed to build we cannot access doctors any more.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16872	Theme 4- Responding to Demographic Change	General Comment	A difficult area to manage because population levels change, particularly with the UK approach to immigration differentiating from Scotland. What would happen if Scotland gains independence and regions the EU (embracing immigration). There also seems to be a growing UK consensus to rejoin the EU.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16873	Theme 4- Responding to Demographic Change	General Comment	Why penalise your pensioners, they have been paying rates, poll tax, then council tax all their working lives - paying your wages! Why not look at penalising the ones who havent worked a day in their lives. Or perhaps cut back on the money being spent converting buildings and paying for onsite services for migrants who have brought nothing to the area, and cant work to bring in council revenue	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16874	Theme 4- Responding to Demographic Change	General Comment	If Scotland was able to run its own finances then there would be no need to cut any services!!!!	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16875	Theme 4- Responding to Demographic Change	General Comment	There a limited facilities, buildings and entertainment for young people in West Lothian. Looking at other demographics such as religious venues and centres would be more beneficial	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

16876	Theme 4- Responding to Demographic Change	General Comment	Stop giving money to refugees	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16877	Theme 4- Responding to Demographic Change	General Comment	People need council services help our ageing population get more money for council from Westminster government Scotlands water wind farms oil Westminster get there fair share from Scotland that 's for sure.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16878	Theme 4- Responding to Demographic Change	General Comment	Council needs to structure it 's services to facilitate the British and cut funding to services that do not fit with that	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16879	Theme 4- Responding to Demographic Change	General Comment	Keep building more houses but are trying to cut infrastructure constantly. Schooling, GPs, hospital services are absolutely essential and are the core of any good society. These services must be protected at all costs and above all else.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16880	Theme 4- Responding to Demographic Change	General Comment	savings could be made by the removal of the free bus pass from Young people who have often Abused it, and have carried out Civil unrest on more than one occasion, Young people need to learn this is not a right but a priv	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16881	Theme 4- Responding to Demographic Change	General Comment	Before introducing suffering to children 's lives, please at least try to take more money from richer residents. If the power to do so lies with the Scottish government, tell your residents. If the power to do so lies with the UK government, tell your residents. Positive change won 't happen if people are uninformed, so don 't realise their own voting habits are to blame for their predicament.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16882	Theme 4- Responding to Demographic Change	General Comment	I've always thought a programme similar to one in Japan where senior care as well as pre - school care is combined where the old help look after the young. This would give the elderly purpose as well as the need for less staffing in such facilities. Child care is a huge barrier to employment so this could be a win win situation.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16883	Theme 4- Responding to Demographic Change	General Comment	School meals could be cut back for only certain families in receipt of appropriate benefits.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16884	Theme 4- Responding to Demographic Change	General Comment	I think there needs to be a change to the way council tax bands are calculated is needed (probably out of your remit) to recalculate the method of council tax bandings. Using the assumed price from early 1990 is not helpful. It does not make sense that 500k and 1m houses pay the same council tax amounts at G.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16885	Theme 4- Responding to Demographic Change	General Comment	If you have worked and paid taxes you should receive a government pension. If you have claimed benefits and not worked in your lifetime you should not continue to receive benefits into retirement age - you should have to save like everyone that works needs to	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16886	Theme 4- Responding to Demographic Change	General Comment	The government is allowing more people to come to any areas which is causing issues with all services. More funding should be given to LA to help with immigration and oversupply of refugees. This is not an issue that we as taxpayers should have to pay for	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16887	Theme 4- Responding to Demographic Change	General Comment	Stop wasting money on foreigners and stupid social experiments.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16888	Theme 4- Responding to Demographic Change	General Comment	Ensure that people. using these services are paying tax and national insurance.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16889	Theme 4- Responding to Demographic Change	General Comment	I would focus on increasing income by reviewing council tax particularly for those living in houses valued above £1m and consider introducing a road tax for residents driving SUVs or other private vehicles that are unnecessarily large.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16890	Theme 4- Responding to Demographic Change	General Comment	Charge immigrants more	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16891	Theme 4- Responding to Demographic Change	General Comment	Stop the free bus passes for 16 to 25 year olds they are just causing major disruption in our communities and shopping centres. Using them to go missing prompting Facebook search pages when they are not really missing	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16892	Theme 4- Responding to Demographic Change	General Comment	Reduce imigration	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16893	Theme 4- Responding to Demographic Change	General Comment	Including even a local doctor for our village as we bavenone??	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16894	Theme 4- Responding to Demographic Change	General Comment	Review illegal migrant hotels in the area maybe look at a tent area it 's good enough for our soldiers	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16895	Theme 4- Responding to Demographic Change	General Comment	Stop giving benefits to people who dont need it - all new generations learned how to claim money of you and its given to anyone who knows how to lie!!! Review their conditions - I understand people in need must be supported but their condition changes for better often and you just keep pumping the money to them - its pure madness!! Min salary almost equal your benefits - why to work then???	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16896	Theme 4- Responding to Demographic Change	General Comment	I think the government also needs to provide more funding to help councils cope with these changes, especially with the growing number of older people who will need more care and support. It's not fair for local services to be stretched so thin that quality suffers. Changes should be made carefully, with proper consultation, so that no community loses out on important facilities like schools or nurseries that families still rely on.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16897	Theme 4- Responding to Demographic Change	General Comment	Dentist, doctors etc have silly waiting lists to get appointments but can't handle the amount of people coming in	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16898	Theme 4- Responding to Demographic Change	General Comment	Not sure about this but think Free Bus Passes up to 22years of age is ridiculous. This should be stopped when children leave education	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16899	Theme 4- Responding to Demographic Change	General Comment	Stop taking in migrants and look after our own. Young folk cannot get houses these days it's ridiculous	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16900	Theme 4- Responding to Demographic Change	General Comment	Close the migrant hotels, stop the small boats crossing the channel that bring people who use council resources but don't contribute anything.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16901	Theme 4- Responding to Demographic Change	General Comment	More doctors more dentists all nhs more facilities for teens and old people	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16902	Theme 4- Responding to Demographic Change	General Comment	Financial support for carers of the elderly may mean that you can save on ever more expensive hospice / care home fees. Encourage family to care for their own. I think labour need to realise that rinsing everyone instead of supporting them like other European countries will reduce costs overall	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16903	Theme 4- Responding to Demographic Change	General Comment	Save money by sending ask the illegals and asylum seekers back home then we will have money to do things	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16904	Theme 4- Responding to Demographic Change	General Comment	Housing of illegal immigrants also has an impact on services housing and school nursery places no mention here	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16905	Theme 4- Responding to Demographic Change	General Comment	Demographic changes should however not be looking at increasing spend for housing immigrants and asylum seekers as they have not contributed to the system which you are refining for people who have worked and contributed.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16906	Theme 4- Responding to Demographic Change	General Comment	Yes things have to change with the times but why should British born children or adults be penalised by cost cutting when West Lothian house the most illegal immigrants in Scotland so get that right first	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16907	Theme 4- Responding to Demographic Change	General Comment	Get the illegal immigrants out our area to start with! Benefit fraudsters outted it along with people that have never worked and the generations after that manage to lock the correct boxes to be given everything, while the normal "common" people like most of us hard working locals would never get cause we pay all our taxes and get nothing for it	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16908	Theme 4- Responding to Demographic Change	General Comment	Stop housing illegals	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16909	Theme 4- Responding to Demographic Change	General Comment	Should start taxing car owners for parking spots. Max 2 cars per living space. Should tax and punish bus stop parkings - bus stops should be accessible by bus as plenty disabled or old persons don't need jump and injure when getting in or out of bus. Fight ableism.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16910	Theme 4- Responding to Demographic Change	General Comment	Take East Calder for an example, mass housing has been granted however the doctors surgery is STILL in desperate need of expansion and improvement, this is causing a detrimental effect on our community	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16911	Theme 4- Responding to Demographic Change	General Comment	To think about GP numbers and school numbers before granting houses to be built. In Armadale another 500 houses have been approved at the brickworks site however many of us cannot access GP appointments already and are sent to Blackridge or told to phone / go to the hospital.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16912	Theme 4- Responding to Demographic Change	General Comment	a large number of new build family homes are too expensive and not affordable for families. Cheaper homes may entice more younger families to move the area.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16913	Theme 4- Responding to Demographic Change	General Comment	Stop allowing the construction of so many large new houses (4 / 5 bedrooms) and build many more 1 / 2 bedroom, simple flats. Insist on house builders making large downpayments to ensure the contributions they say they will make are actually received.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16914	Theme 4- Responding to Demographic Change	General Comment	Build a train station in Winchburgh to respond to the significant demographic of new residents who commute into Edinburgh for work. If the train station operates at a profit (coffee / car parking / charge for toilet access etc), the Council will make money on all the people who currently just drive into Edinburgh for free.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16915	Theme 4- Responding to Demographic Change	General Comment	But all this building on green belt needs to stop.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16916	Theme 4- Responding to Demographic Change	General Comment	Stop building new houses until the services are in place to support the increase in population.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16917	Theme 4- Responding to Demographic Change	General Comment	Charge the housebuilders for infrastructure. Have a moratorium on new building unless it's for locals as council property.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16918	Theme 4- Responding to Demographic Change	General Comment	Stop building houses if theres no facilities for the residents. The county can not maintain this level.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16919	Theme 4- Responding to Demographic Change	General Comment	Make it a provision for all new housebuilding companies to contribute to the community. They should provide parks / play areas AND be made to maintain them if they want to build in West Lothian. They should build community hubs.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16920	Theme 4- Responding to Demographic Change	General Comment	Surely all the "new" house builders should be giving money towards to supporting community projects.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16921	Theme 4- Responding to Demographic Change	General Comment	There needs to be more doctors' surgeries, schools etc to cope with influx of families into new homes that are constantly being built	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16922	Theme 4- Responding to Demographic Change	General Comment	Plus more doctors and dental facilities. Social care in West Lothian is also extremely under staffed and do not provide a good quality service for the elderly and disabled Those who require more help are getting less and less help.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16923	Theme 4- Responding to Demographic Change	General Comment	There is a great need for a new health centre in East Calder. This is a old run down building and not fit for purpose with all the extra people coming into East Calder with new house building.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16924	Theme 4- Responding to Demographic Change	General Comment	Build in services before the housing starts charge the buildings this first change this process. Overcrowding happens then	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16925	Theme 4- Responding to Demographic Change	General Comment	Make house builders build what they promised	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16926	Theme 4- Responding to Demographic Change	General Comment	Don't understand how it is aproved that so many houses etc keep getting built but o enough schools, doctors and huge waiting times on NHS.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16927	Theme 4- Responding to Demographic Change	General Comment	Demographically West Lothian is growing already should they choose to add on to this or change the way West Lothian is at present runs the risk of putting further pressure on the resources already used by the public in West Lothian, St John's hospital will have even more pressure on it and ambulance crews stretched further than they already are. At present West Lothian ambulance service on a night shift runs with 2 night shifts from Livingston, 2 from Bathgate fire station and 1 from Bo'ness station to cover the entirety of West Lothian, when crews are dragged into other areas this further leaves West Lothian under resourced and adding or stretching the area with have further impacts on this leading to delays in pt care.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16928	Theme 4- Responding to Demographic Change	General Comment	Yes but this should cater for people and demographic that has contributed throug council tax, not the ones who come to this country purely for benefits. If people who work and pay tax see all funds going to improve the lives of people who contribute them that would be a step forward.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16929	Theme 4- Responding to Demographic Change	General Comment	Train unemployed people to do support care for adults and children	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16930	Theme 4- Responding to Demographic Change	General Comment	Re Support for families. If a person's child ends up being fostered the parent should not be able to claim child benefit if the child is not living with them.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16931	Theme 4- Responding to Demographic Change	General Comment	Many elderly individuals have resided in other countries for decades not contributing into the Scottish pot, but in retiring or seeking end of life support they come back "home" looking for help. In an ideal world this would be manageable but if they have not contributed for decades and expect us to hand out already stretched resources, homes accommodations, infrastructure they should be requested to pay handsomely for the privilege. Make our area more attractive looking for young families to want to raise families here, west Lothian has so much potential but is a grey, depressing hole that is not fit for the future.	Corporate Policy and Resources	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
16932	Theme 4- Responding to Demographic Change	General Comment	Have WLC not already been considering the change in population and the needs of the population over all years? Why would this not be an ongoing part of the process in managing council services	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16933	Theme 4- Responding to Demographic Change	General Comment	This review should be done meticulously so as not to pass the proposed council savings unto the residents of West Lothian.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16934	Theme 4- Responding to Demographic Change	General Comment	The council should not just respond to these changing demographics but consider how to slow it down. West Lothian needs younger, working, tax paying citizens and therefore needs to advertise itself as a good place to live and work to those for example in Edinburgh where house prices are unaffordable.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16935	Theme 4- Responding to Demographic Change	General Comment	You need to build in a way that flexes up and down. House builders should be building the facilities for the new population	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16936	Theme 4- Responding to Demographic Change	General Comment	The questions yes / no are terrible. "do you agree we should save money?" "Who would say no?" Yes demography changes with time and we need to find way to allocate the right resources in front of the needs. Without data, impossible to tell you what to do. Mind that the public service and council should serve the people will, you do not have a mandate to have a will on behalf of the people.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16937	Theme 4- Responding to Demographic Change	General Comment	These areas have been well thought of in this plan	Corporate Policy and Resources	9. The respondent made a comment on the survey question

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16938	Theme 4- Responding to Demographic Change	General Comment	There are too many areas lumped into one section and it's not a yes or no to all as the survey is seeking. Additionally there is not enough detail given. This is a poorly designed survey, designed to get agreement by stealth. If the focus is on early years and early intervention, why not be looking at reduced class sizes so children's needs and rights are met. The cuts so far in education, additional support needs and school meals has an effect on young people. Closing areas of education down or streamlining areas of education impacts on school transport and the obligations attached for	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16939	Theme 4- Responding to Demographic Change	General Comment	Poor question and proposals lack detail	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16940	Theme 4- Responding to Demographic Change	General Comment	Leading question again. Closures need proper consultations.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16941	Theme 4- Responding to Demographic Change	General Comment	Sounds like sage planning.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16942	Theme 4- Responding to Demographic Change	General Comment	Surveys	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16943	Theme 4- Responding to Demographic Change	General Comment	Design unbiased survey's which better allow people to comment on your ideas.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16944	Theme 4- Responding to Demographic Change	General Comment	While responding to demographic change we also need to be fully aware and acknowledge equality and fairness in the services provided which is not apparent in current model.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16945	Theme 4- Responding to Demographic Change	General Comment	I don't now what that means so I just put yes.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16946	Theme 4- Responding to Demographic Change	General Comment	Yes, you should be doing all these reviews anyways to ensure you are working to the council 's potential. I do find the council 's messaging very confusing around the schools being oversubscribed, but it doesn't warrant schools being built, or but at the same time some schools aren't at capacity. Huh? Sounds really messy and sounds like when you started accepting all these new builds you got blinded by the money and didn't consider your service at all.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16947	Theme 4- Responding to Demographic Change	General Comment	I don't have any suggestion as I don't have the statistics.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16948	Theme 4- Responding to Demographic Change	General Comment	Not sure I agree with the figures and stats which roughly say west Lothian is expanding but it's mainly older people who will expand the most in The next 25 years - 25 years is too long a view. If there's less expansion why are all the new builds being built which are aimed at families - these stats don't make sense	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16949	Theme 4- Responding to Demographic Change	General Comment	I think changes need to be made, however what schools are you talking about, what age are the kids, what is the distance to the nearest school, how much would transport cost or is it within walking distance. There is an awful lot of information missing in order to make an informed decision.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16950	Theme 4- Responding to Demographic Change	General Comment	ask the people doing the actual job what they think would help, not people that have never done the job or done it 20 + years ago when things where very different	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16951	Theme 4- Responding to Demographic Change	General Comment	Don't really understand this one, you need to try to make these surveys easier to understand.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16952	Theme 4- Responding to Demographic Change	General Comment	Be more honest from the data available about the changes in demographics Explain why a nursery or certain building is closed Don't hide at public consultation. That what senior officers are paid for. To listen explain the reasoning and develop the strategy.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16953	Theme 4- Responding to Demographic Change	General Comment	Ask the people at local meetings.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16954	Theme 4- Responding to Demographic Change	General Comment	This is a very poor survey	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16955	Theme 4- Responding to Demographic Change	General Comment	Nowhere in those comments did I read what the council are planning to aid people age 65 +. Everything is about closing schools and facilities for children?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16956	Theme 4- Responding to Demographic Change	General Comment	More information on this is required as it's not fully clear on the impact this could mean.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16957	Theme 4- Responding to Demographic Change	General Comment	As a lay person I cannot understand how this will benefit without costing more money	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16958	Theme 4- Responding to Demographic Change	General Comment	This question is not valid as you should allow for voting on individual items as each one should stand on its own merit. The buildign can be repurposed or sensible alternative use identified or provide it to the communists. It is not fair to ask for a vote on items with the values to be defined. This seem that the council is going through the motions and can then justify their actions.	Corporate Policy and Resources	9. The respondent made a comment on the survey question

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16959	Theme 4- Responding to Demographic Change	General Comment	This is just a question to be seen to have public support for closures. Think about repurposing etc. This is into a valid question as a mixed bag so each item should have a specific vote.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16960	Theme 4- Responding to Demographic Change	General Comment	I am surprised by this question as West Lothian is one of the few areas where there is population growth and where we have increasing numbers of young children not a demographic of the majority of councils?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16961	Theme 4- Responding to Demographic Change	General Comment	Again to many q 's for a yes or no answer.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16962	Theme 4- Responding to Demographic Change	General Comment	don't understand	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16963	Theme 4- Responding to Demographic Change	General Comment	Your figures are for 10 years on this subject, 25 on another. Population change year on year you have massive increase in income from all the new housing, payment from contractors and council tax, what are you doing with that?	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16964	Theme 4- Responding to Demographic Change	General Comment	I've personally been involved where statistics have said one thing when the reality was very different. The difficulty is when it's gone, it's gone, never to return and that could be problematic further down the road. Some of the suggestions are acceptable but there is no way of individually selecting them. The survey layout found to be better for selection.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16965	Theme 4- Responding to Demographic Change	General Comment	These forms are a waste of time and resources and money could have made a saving there.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16966	Theme 4- Responding to Demographic Change	General Comment	You really couldn't be more dishonest in the way you've framed these questions... It's sickening the contempt you obviously have for members of the public, demonstrated by this nonsense. No... it doesn't matter how you dress up the denial of service to those who need and pay for it!	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16967	Theme 4- Responding to Demographic Change	General Comment	The questions are structured poorly as a blanket yes or no doesn't cover the complexities of the proposals as you may agree with some and disagree with others, this is far too blunt a tool to justify significant change in the council's approach	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16968	Theme 4- Responding to Demographic Change	General Comment	In respect of school provision, it is a difficult balance as closure of local schools, means that children will require transport to other schools, which has a cost. In addition, children and their families may feel a detachment from their local community if they are not educated there. The need for cost savings of closure versus transport costs would need to be assessed and balanced.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16969	Theme 4- Responding to Demographic Change	General Comment	I need more information to be able to provide sensible suggestions	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16970	Theme 4- Responding to Demographic Change	General Comment	However council should not take measures now that will increase costs unnecessarily or disproportionately in future.	Corporate Policy and Resources	9. The respondent made a comment on the survey question

16972	Theme 4- Responding to Demographic Change	General Comment	Make each option an individual point that can be surveyed on, having all the options as one yes or no answer is completely [XXXX] pointless	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16973	Theme 4- Responding to Demographic Change	General Comment	Again, I refer you to my "suggestion box" idea for your website. I don't have anything off the top of my head here but I urge you to remain open to people's ideas going forward. This isn't the only opportunity to implement changes and we must have an outlet to contribute ideas and solutions as problems evolve.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16974	Theme 4- Responding to Demographic Change	General Comment	The population actually is being increased and you can tell by the demand on housing	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16975	Theme 4- Responding to Demographic Change	General comment	I think money should also be invested into social policy as this sector is awful currently. People with learning disabilities have nothing and are the most vulnerable part of society. There is no where near enough social workers for the amount of people in WL that have LD. I work in the NHS with people with LD and we suspect there is around 800 + people with LD living in West Lothian.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16976	Theme 4- Responding to Demographic Change	General Comment	Clear understanding required of area's specific needs	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16977	Theme 4- Responding to Demographic Change	General Comment	We have to face reality.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16978	Theme 4- Responding to Demographic Change	General comment	More information needed regarding Social Policy / Work changes. Review housing stock and occupancy. Care homes are being shut down and numbers are increasing, what is being done about this? Have more home support to reduce need for care provision.	Corporate Policy and Resources	9. The respondent made a comment on the survey question
16979	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	With exception of youth social activity funding everything else should be cut	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
16980	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cut cloth accordingly	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16981	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with this in principle however it is essential council continues to support important and vital community organisations & activities.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16982	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some massive savings to be had here and these are some of the areas you need to look at in great detail.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16983	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Times are tough. Time to tighten the belt and maybe when you are crippled by debt you can look at these items again to reintroduce them.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16984	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Within reason	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16985	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Enforcement expenditure is too high, unless you collect more fines for dumping litter and social behaviour / damage to council property.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16986	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16987	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Although this is a difficult decision it is required to balance the books based on the funding allocation.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16988	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Look at ways to reduce costs in each area but do not cut any of the services entirely	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16989	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes but leave the schools alone.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16990	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	A lot of the rest seems like wasted money really.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16991	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some not all should be cut. Agree with cutting all except 5d, f, i, j, K, L, WX.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16992	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes, there should be a common sense approach but not to the detriment of the majority. There will be corner cases that need reviewed separately HOWEVER all waste should be eradicated.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16993	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	We have never been in a worse state, stop funding the nice to do and fund the must do	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16994	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes. They should be providing a statutory service of maintaining roads, refuse collections and recycling etc. But anything out with statutory needs to go	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16995	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Absolutely, maintain and improve core services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16996	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes but not everything at once. Please be mindful about our safety and wellbeing	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16997	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree to reduce this spending but not at the expense of safety (i.e. gritting of roads etc) also people's mental wellbeing needs to be at the forefront, especially as these times are hard financially on all of us.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16998	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of this is just crazy. Major cuts needed	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
16999	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All other extras reduce or eliminate.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17000	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I would agree although we must be looking at improvements / cuts that will be in favour of future generations. The country is on its knees and it's not going to get any better	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17001	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes but we can also reduce spending on statutory services. We still provide the service but to a lesser extent	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17002	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	If it's not legally required to be provided then why would the council pay for it. You need to start thinking with private sector mindset if you have such a dire financial shortfall.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17003	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes stop spending on all non statutory areas	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17004	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I think all these proposals make sense	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17005	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All the non statutory spending should be cut to a bare minimum.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17006	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with most of these.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17007	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Sadly, I do agree	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17008	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Any none essentials should be reduced.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17009	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala bunting and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!!	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17010	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with the exception of the following items: e, f, h, k, m, n, p, q, r, v, x and z	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17011	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All of the above	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17012	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I don't see why you couldn't make significant changes in the budget and the way things are run	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17013	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of these are ridiculous amounts being spent on these items and feel hugely inflated, a complete waste of money if that's the true amount. B, c, f, i, s, & a should already be gone.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17014	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Unfortunately only essential services should be supported	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17015	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Remove all services which are not mandatory	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17016	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Agree with almost all proposal - however disagree strongly in 5C / 5H our children should not suffer in budget cuts. Schools and support for schools particularly our children with additional needs should be the councils biggest priority. We value the service's provided but further rationalisation is required across all the other non - statutory services to ensure we protect the children of West Lothian's future.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17017	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes but it's mostly peanuts.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17018	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree, but... I can see west Lothian turning into a dump if they get rid off all those services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17019	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	With the exception of 5m, 5n, 5p and 5x which I think should remain, I believe all the other suggested savings should be made	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17020	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Reduce non - statutory spending as much as possible.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17021	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	stop funding to anything that is not for the most vulnerable people that reside in west Lothian	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17022	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Protect statutory services and stop delivering non statutory	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17023	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes, however, it will have an impact on communities and in some circumstances may lead to additional costs to the CCouncil	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17024	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes but perhaps increasing planning fees would assist this gap?	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17025	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with all of these proposals	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17026	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Only if necessary.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17027	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Absolutely agree	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17028	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17029	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	You could balance the books by stopping providing services that are not required by law - make savings in all these areas.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17030	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Make major savings from all non - statutory services in order to concentrate on statutory	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17031	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a - Reduce by half	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17032	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17033	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes I agree.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17034	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	To save money	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17035	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17036	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	There is definitely a need to reduce spending on non statutory services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17037	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	But only where there is no detrimental effect	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17038	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I would remove all but essential spend.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17039	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree this has to happen because there is realistically no other option with such a significant budget gap. However, there needs to be careful consideration about the pressure that these reductions in spending will place on Statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17040	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop altogether.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17041	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes reduce services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17042	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All the suggestions on the previous page have merit	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17043	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	this is an obvious area to look at, however some of the items listed would be a great loss and this needs careful consideration.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17044	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Agree that Council should look at range of non - statutory services being provided but acknowledging that many add significant economic, social, community and environmental value and benefits to West Lothian residents and communities - which without these services would potentially have an adverse impact on these very communities.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17045	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes, reduce spending here. I think it is still important to offer some support for less fortunate and possible at risk children during school holidays and offering days where a professional will see them in order to monitor safety	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17046	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Review these and make savings / better planning for services on offer and who uses which facilities	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17047	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with all of these ways of saving money, I know people who get a council house then lets someone else live in it, most common people who are in drug related I understand the need to save money, s for the council homes that are not used for people's drug related acts this has to include looking at the fraud side this has been going on for along time.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17048	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	To a certain extent but I would need very careful scrutiny and thought which might outweigh the benefits	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17049	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise what's the point?	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17050	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, but a careful re-evaluation of their necessity and efficiency is required. Some services may be able to be delivered more cost-effectively through partnerships or voluntary arrangements.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17051	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All of these are ancillary and should be eliminated. People who care about such things can demonstrate such by paying for them	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17052	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I have insufficient knowledge of the details of non - statutory services provision to provide further suggestions. However, in the current economic position, the cessation of many of those activities listed previously is a no-brainer. I'm surprised they have not been stopped before. 5g is the most alarming item to me.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17053	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	This is the easiest option and shows that the extras that need to be saved	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17054	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree. Money is being overspent.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17055	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Too much money is being wasted on these services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17056	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Only provide essential services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17057	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Funding should be reduced for non statutory services unfortunately needs must.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17058	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Almost all of the above should be reviewed to assess the impact of this spend has on achieving councils core priorities and to see if it duplicates / competes with third sector or other stakeholder provision. Could some of this provision be delivered as well / better by other agencies e.g. NHS, college, charities or the business community. Is the provision needed in an AI world where people can access a wealth of information in other ways?	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17059	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Points 5A, should all be cut or stopped in my opinion.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17060	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	scrap the others completely	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17061	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Scrap environmental services waste of time and money	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17062	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Keep: 5a.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

17063	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Reduce spending in all non statutory services before cutting statutory services. Parliament has decided which services are statutory, and funds councils to provide them. Don't risk the effectiveness of statutory services by throwing this money away where it's not required. Stop some spending completely i.e anti-poverty, regeneration, non-statutory school buses.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17064	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes. Cut: 5a	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17065	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes agree	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17066	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	anything non statutory should be stopped immediately - we are not in a time where we have the luxury of extras.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17067	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17068	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All items in 5 should be executed on as there is significant cost savings to be achieved in non statutory services. However as it's around 10 % of total spend efficiencies in statutory services is an absolute priority.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17069	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Everything should be looked at any surplus cash accounted for and not spent because it's there	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17070	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	During current climate these are not required	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17071	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop spending on all non-statutory services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17072	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Do all of the above if the budget cannot be met, by the steps previously noted.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17073	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Reduce spending on non-statutory services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17074	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The provision of statutory services must be reviewed and where not appropriate action should be taken to object.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17075	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Make up the rest by cutting non-statutory services to protect core services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17076	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Review all services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17077	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The list published of non-essential spending seems to include a lot of things that don't seem necessary and could be withdrawn.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17078	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	You have to look at all these services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17079	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Defo that these should be looked at and stopped	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17080	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Agree with them all	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17081	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	You must make savings in all these non-statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17082	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The services that are non-statutory should not be funded. Instead the money should be used to keep partnership buildings well maintained.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17083	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Agree to all	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

17105	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Spending on these services should be revised. Some areas get more of these services than others. A complete overhaul of services and budgets are required.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17106	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I would find it offensive to be educated in how to manage waste.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17107	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The majority of these are essential to the well being of everyone but agree non west lothian residents should not be subsidised for child care spaces	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17108	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cut discretionary services,	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17109	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop spending on non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17110	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Reduce spending on non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17111	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cut everything unnecessary and provide essential services only.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17112	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I think a consideration should be given to more focus on reduction of non statutory services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17113	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cut back non essential services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17114	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Live within your means and don 't spend money on unnecessary non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17115	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Its very simple - stop spending money you don 't have on services you don 't need to provide,	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17116	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop paying for non essential services and save the money from that	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17117	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Rather than tax more, cut the non - statutory services you are not obliged to provide,	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17118	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	While I agree some of these services need to be cut alot of communities really need them	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17119	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	If the service isnt benefiting people and not being used then thinking about removing it worth considering.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17120	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a - agree to make savings here	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17121	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Balance the books by cutting non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17122	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Your wn figures show you can live within your means if you cut unnecessary non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17123	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop spending on non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17124	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Your figures show you don 't need to raise taxes or charges if you stop spending money on non - statutory services - this is where the savings should come from.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17125	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop spending money on non - statutory services.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

17126	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cut spending on non - statutory services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17127	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop spending on unnecessary non - statutory services	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17128	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a. YES REMOVE. 5	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17129	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a should be funded by public health. There is no reason for the council fund this.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17130	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on it's knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to delivery the services needed.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17131	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All non statutory services should be looked at to help streamline and make savings if possible, but completely stopping funding seems short sighted. Especially in areas such as environmental enforcement and education. The future of our planet is in jeopardy and there is already not enough education. Teaching people about conservation and their world is the best way to help them advocate for it and protect it. Education in all areas is so important and so much education and opportunities happen out of the school environment, in clubs and youth groups.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17132	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with majority except Christmas lights.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17133	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	where possible retain any involving vulnerable or young persons within the county but remove any that aren't shown to be working and can be replicated in other savings.	Environment and Sustainability	1. The respondent advised that they agree with the proposal.
17134	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of these services are essential for the community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17135	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These need to be run better not cutting in services	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17136	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Wow with the removal of all these West Lothian Council does not look like a place where I would like to stay in.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17137	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Put the responsibility of getting kids to school on the parents and introduce fines for where they don't do this	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17138	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by looking at people in their homes and in their streets. A council that does not care for its residents is not a council.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17139	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Environmental need to stay	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17140	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17141	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I agree with most of these but they are not saving money, These services need to be continued.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17142	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	While maintaining statutory services is important reducing services should be a last resort and carefully considered as to the long term impacts of not providing such services. For example the long term implications of not providing waste / environmental education would have a detrimental impact on our local environment and will likely increase landfill costs, litter and fly tipping.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17143	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	providing environmental education is vital - the loss of amenities at Beecraigs is a disgrace to WL.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17144	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Most of this spending improves the quality of life of West Lothian residents and any reduction should be done carefully.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17145	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Improve environment education to reduce litter and vandalism,	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17146	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	the work to keep our community safe - the bonfire night work	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

17147	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a. This is essential and should not be cut.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17148	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I don't think all the examples given should be cut. Those supporting promoting the environment should be maintained.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17149	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17150	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	some services yes but not all 5a) no environmental education is extremely important	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17151	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Extremely high spot fines on any person seen dropping a cigarette butt or absolutely any item.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17152	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a. Environmental education vital in the current climate.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17153	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Keep: 5a.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17154	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a. We are in the midst of a climate and environmental crisis, therefore education in this area is vital.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17155	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The non statutory areas are necessary	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17156	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	the rest of these are viable and have to stay	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17157	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Everything else can stay.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17158	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	That's why we pay the council. There will be little support for any of you if you continue down this route. You are hitting out at the most vulnerable in our society. Shame on you.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17159	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No cuts to non - statutory services these are life enhancing and have suffered many reductions in funding	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17160	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These are so important for communities and morale. Please don't take these away.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17161	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Would question what exactly we are paying our council tax for?	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17162	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The time you do that we would have nothing	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17163	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Stop cutting back on things the public actually accesses. Also I think meetings should be shown to the public and allow the public to vote on what you are proposing. As suggested in the first one, look on the inside before you start cutting people use! If this is what WL is planning in doing you will find a lot of people move away or choose not to live in this area. Ridiculous	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17164	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Look at ways to keep the services but reducing the times.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17165	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Going to ruin communities	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17166	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cutting is not the answer, efficiency is the answer.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17167	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	we need all of these services to continue	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17168	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These are essential services to our communities Not seeing a. Reduction in council salaries	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17169	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	While some statutory services could be reduced, most of them are very important, and their recipients often belong to vulnerable groups. Significant cuts to these services will cause significant problems which could require solutions more costly than the current cost of statutory services.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17170	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I think funding for these should be kept to improve communities and support families within the community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17171	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	This impacts people and community, and they are struggling just like you are. Don't penalise us further.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17172	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No I don't agree.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17173	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	They may not be statutory but they all look essential to me	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17174	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	you want to create communities not just statutory funded functions for the residents of West Lothian. It's not enough just to exist, you want to create communities worth living in.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17175	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I think these services are important to the people who benefit for them.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17176	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	You have already cut back so much so no!	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17177	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services all have far reaching benefits for the community.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17178	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Remove more services but council tax payers get hit in the pocket? Joke.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17179	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Please no further cuts. Its not viable.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17180	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Every one of these services should be statutory. Removal or reduction of any of these, and so may more is abhorrent.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17181	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Why should they lose out	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17182	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	It must always be considered how some of the 'non 'statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... Please examine the long term future and savings / income / grants etc	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17183	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All vital services needed to support people to live their best lives. The council needs to support people and not keep removing things. WL has very limited opportunities without cutting anymore. Look at more efficient ways. Actually engage with service users for each service as they would have the ideas you seek!	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17184	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	stop taking everything away from us you get enough tax money from us so stop digging up the same road over and over again wasting precious money	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17185	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Reducing all these listed will reduce the appeal of West Lothian. These services should be improved.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17186	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Reducing these costs would affect our communities and destroy family life.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17187	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of these services are essential for the community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17188	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services are vital	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17189	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Absolutely not! Leave as is.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17190	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Non - Statutory services are vital to the community and removing them would be seriously detrimental. Perhaps looking at streamlining services so related information is available in one place & cutting out several layers of management.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17191	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These are vital services and should not be touched.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17192	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The majority of these are what I would consider good council services and should be retained.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17193	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Do not reduce spending on any of these	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17194	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Councils should not reduce this. They need to increase joint up working	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17195	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Although these services are not required by law, they are essential for community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17196	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Although these services are not required by law, they are essential for community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17197	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No, these services are needed.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17198	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17199	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids needs music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17200	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they cant cope. Bad. This is a recipe for disaster. Stop these cuts now! Let 's kids play let youth get support. Let LGBT community get support from the service.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17201	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17202	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter, you'll still increase costs and reduce services.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17203	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Council officers need to be aware that the savings they may make from these options will just increase the demand on other services council or not. Removing environmental enforcement will mean fly tipping events, abandoned vehicles et al	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17204	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	reads like a dereliction of duty here.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17205	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Protect all the stated services here. Has anyone projected the disaster this can and will cause if this goes ahead.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17206	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No, you are cutting to the bone not to the benefit of the people of West Lothian.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17207	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little for staff morale to keep being touted as a solution to a problem not of their making. Have some compassion and show some sensitivity!	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17208	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I don't necessarily think that non - statutory spending should be reduced although I do think that all spending should be considered. Many of the non - statutory items are very important to people and communities.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17209	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Difficult one, but these are the things that bind our society together. The importance of these things can be so much more beneficial than any monetary value can say.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17210	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The problem with reducing non statutory spending is it may make a short term saving the long term cost, which will have to be paid for by the council although may not be a direct cost	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17211	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No. These are important and make West Lothian an excellent place to live	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17212	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I cannot agree with reducing spending on non - statutory services. It is an easy financial win; however, the long - term consequences of reducing or removing some of these services are huge	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17213	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Dumbfounded someone actually costed losing these facilities. Disgusting proposals.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17214	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services add quality to life in West Lothian. Please do not cut further.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17215	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	services to the community should not be cut.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17216	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No we need these it 's important there 's hardly anything out there Go tax the big wigs with money more instead of coming after the poor!!!!	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17217	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17218	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17219	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	A lot on non statutory services are required and relied upon by us as public members whether you see it as non statutory or not, it is in the eyes of the public	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17220	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Lack of non statutory services just puts pressure on statutory services and is therefore an inefficient response.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17221	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services are vital and a life line for many people - if you remove them they will require formal services and these will cost more	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17222	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These would be detrimental.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17223	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Totally disagree with this	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17224	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	So if the council will give up all those services who then will deliver them as there is not many in West Lothian free services	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17225	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services are what hold our communities together and I would vehemently be against their removal. How about making savings from those who do not contribute to our communities, as opposed to those who do?	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17226	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Most of the services provided appear to be important and with the exception of one or two would seem to be what's needed.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17227	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Again, too much lost already	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17228	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Many of these services are essential	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17229	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	most of the non statutory services are beneficial for community as there is not any alternatives for access them apart via the council.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17230	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Although these are non - statutory services they make an important contribution to life in West Lothian and how West Lothian Council Works. The knock on effect of removing these services is far larger than is implied by the accompanying statements. In addition there are no alternative services for to fill the gaps created by their removal.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17231	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	these are important - keep them and make decisions on the big stuff where big savings can be made	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17232	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	This is the vital unseen part of what's needed in communities - this needs continual funding, especially on local infrastructure	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17233	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Most of these are vital community services which could probably benefit from more spending	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17234	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Too many depend on these non statutory services and alienating tourists mean income moves elsewhere	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17235	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	They may be non statutory but seem very important and if removed would significantly impact on communities.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17236	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These cuts will impact on the community hugely	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17237	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Nope, they should be put money into the services making the services more stable not taking the money away from it all	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17238	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I do not. This is all very important to the community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17239	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Too many cuts already	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17240	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Most of these non - stat services are services council tax payers expect to see. To remove them would be nothing short of a joke.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17241	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Environmental protection and community engagement through the ranger services is a non negotiable service, given the high economic deprivation levels throughout West Lothian any cuts to these services are likely to have far reaching effects on communities and remove access to outdoor education from the most deprived communities. Environmental protection through planning and biodiversity advice services is a critical part of the planning process and should be bolstered and improved, not degraded.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17242	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Feel this could be better managed but don't believe reducing / removing these services is a good idea	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17243	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I don't think any of this should be reduced.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17244	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	A lot of people rely on these services	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17245	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	This is an example of expenditure which often benefits the whole of West Lothian rather than just those who are in challenging circumstances. I think it's important that even the wealthier in our region feel they get something back and things like environmental enforcement support the whole community. If the council wanted to reduce expenditure on these items, I would encourage them to look for corporate sponsorship and paid partnerships rather than removing the actual provision.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17246	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Often the non statutory aspects are the buffer for those on low incomes and loss of these supports affects the physical and mental well being of the clients. Large employers should be encouraged to support more community based projects.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17247	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cutting off from other sources not from these essential services	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17248	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	With the exception of bunting, Christmas lights and golf courses, these are all essential services. Surely the Council would not remove itself from COSLA?	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17249	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Most of these services seem important and vital. Cutting environmental awareness programme delivery will only encourage lawbreakers, for example, and who will foot the bill and face the consequences?! Local taxpayers. Focus on efficiencies at Head Office, not in local provision, otherwise the Council will simply be run to support it's HQ wage bill.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17250	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No I do not agree, these services are important to communities	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17251	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Absolutely not these services are vital for West Lothian	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17252	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	non statutory services cannot be cut, these services are essential to early intervention and prevention for chronic issues e.g. violence against women and girls and mental health services	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17253	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	non statutory services are just as valuable if not more so and if they didn't exist this would put even more pressure on schools social services and social workers. 5a yes	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17254	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Looking at the services that are provided, I am concerned that should the council stop providing these potentially vital services, it would have an impact on the local community and Services that could be removed NOT TO BE CUT (however savings could be identified in levels of non front line roles). 5a	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17255	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some services can be removed or capped. But since you have placed them all on one category. Without being able to vote for specific ones, my answer is no	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17256	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	All of these seem vital to the community	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17257	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services are critical to West Lothian, and some of these services helps people meet other people and also assist with these day activities. West Lothian council needs to make sure they are not making people who use these services from being affected by physical and emotional stress of not having these services	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17258	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No - absolutely do not agree. And I have already gave a brief run down of why I think this and also what my idea to improve things would consist of. To take funding away from these would be abhorrent to the people who make use of them	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17259	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	There should also be a clearer focus on local reinvestment to ensure communities benefit from any income raised. Non - statutory services need careful evaluation before cuts to ensure critical support is not lost. Above all, the Council must be transparent with figures and involve the community more directly in decisions.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17260	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Many of these services are those that, for a relatively small amount, provide significant benefits to local communities such as environmental enforcement and education.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17261	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These are the services that mostly support the most vulnerable in our community. everything is important to the functioning of our society.	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17262	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	think these are all services that are needed	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17263	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These are all important funding	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17264	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	all these things are needed	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17265	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	These services should be kept in place	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17266	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No there are too many things on this list that are needed	Environment and Sustainability	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17267	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No	Environment and Sustainability	3. The respondent advised that they had no comment to make.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17268	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	No	Environment and Sustainability	3. The respondent advised that they had no comment to make.
17269	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	no	Environment and Sustainability	3. The respondent advised that they had no comment to make.
17270	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	The council should only spend what it can afford to spend. If it can afford to spend on non statutory then it should but it should be well thought out and if you can't do it all maybe you do it on rotation for every year	Environment and Sustainability	4. The council is already doing this.
17271	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I'd also quite like punitive charges for litter dropping	Environment and Sustainability	4. The council is already doing this.
17272	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Could we organise local community groups to do litter picking etc?	Environment and Sustainability	4. The council is already doing this.
17273	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of the roles could be amalgamated, such as 5a and 5t	Environment and Sustainability	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17274	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Litter dropping and dog fouling should be fined, with hefty fines taking staff from areas that are overstaffed to create dog and litter wardens.	Environment and Sustainability	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17275	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	5a - combine with 5t	Environment and Sustainability	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17276	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Redesign (don't remove) - 5a. Merge education, enforcement and ranger roles into a single, leaner team.	Environment and Sustainability	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17277	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Yes they should, but not across all of the services listed, some of them are essential	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17278	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	A lot of these services are already being or have been cut back. Not all should be cut back.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17279	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	See what non - statutory services are not being used fully in all areas and maybe end them and move the money elsewhere.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17280	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	I thought these services were already paid for through council tax!	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17281	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	some things are necessary such as clearing up environmental pollution left by travellers as happened in Linlithgow. Is there any way these travellers can be charged for this substantial cost?	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17282	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	This needs looked at carefully and prioritised many of the things listed could be cut but others should be kept a degree of common sense needed	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17283	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of the areas highlighted are critical for the residents of west lothian and further investigation would be required	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17284	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Consider all of these to be important. We would support efficiency savings if that can be achieved but this should not come at the cost of reduction of quality of service.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17285	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	what is environmental enforcement and education and what do they do?	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17286	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isn't a direct loss of service.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17287	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Cuts and more cuts. Some yes but the majority no. These are much needed services	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17288	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Non - statutory services need careful evaluation before cuts to ensure critical support is not lost. Above all, the Council must be transparent with figures and involve the community more directly in decisions.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.

17289	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Ask people, advertise, educate people on reusing items such as toys, clothes, water bottles etc.	Environment and Sustainability	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.
17290	Theme 5- Reducing Spending on Non-Statutory Services	5a - Providing environmental enforcement and education.	Some of them should be prioritised above others	Environment and Sustainability	9. The respondent made a comment on the survey question
17291	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop broadcasting committee meetings. Put minutes on Internet.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17292	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop broadcasting council meetings. Put minutes online.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17293	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop broadcasting your meetings online - who actually watches them?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17294	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree with this in principle however it is essential council continues to support important and vital community organisations & activities.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17295	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some massive savings to be had here and these are some of the areas you need to look at in great detail.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17296	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Times are tough. Time to tighten the belt and maybe when you arnt crippled by debt you can look at these items again to reintroduce them.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17297	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Within reason	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17298	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Cut b in their entirety.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17299	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17300	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Although this is a difficult decision it is required to balance the books based on the funding allocation.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17301	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Broadcasting online seems an unnecessary use of money.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17302	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These need to be run better not cutting in services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17303	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Look at ways to reduce costs in each area but do not cut any of the serviced entirely	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17304	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes but leave the schools alone.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17305	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	A lot of the rest seems like wasted money really.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17306	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some not all should be cut. Agree with cutting all except 5d, f, i, K, L, WX.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17307	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes, there should be a common sense approach but not to the detriment of the majority. There will be corner cases that need reviewed separately HOWEVER all waste should be eradicated.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17308	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stream council committee meetings online using existing digital services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17309	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	We have never been in a worse state, stop funding the nice to do and fund the must do	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17310	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes. They should be providing a statutory service of maintaining roads, refuse collections and recycling etc. But anything out with statutory needs to go	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17311	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Absolutely, maintain and improve core services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17312	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b Broadcasting council committee meetings online. (£51, 000) - really? Although a drop in the ocean on how much needs to be saved, this is a ridiculous amount of money to broadcast long, drawn out meetings. There needs to be a paper submitted for absolutely everything and it is an absolute waste of time. Cut these meetings down as the number of them are unnecessary.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17313	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes but not everything at once. Please be mindful about our safety and wellbeing	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17314	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree to reduce this spending but not at the expense of safety (i. e. gritting of roads etc) also people's mental well being needs to be at the forefront, especially as these times are hard financially on all of us.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17315	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some of this is just crazy. Major cuts needed	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17316	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All other extras reduce or eliminate.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17317	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I would agree although we must be looking at improvements / cuts that will ho in favour of future generations. The country is on its knees and its not going yo get any better	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17318	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes but we can also reduce spending on statutory services. We still provide the service but to a lesser extent	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17319	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	If it's not legally required to be provided then why would the council pay for it. You need to start thinking with private sector mindset if you have such a dire financial shortfall.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17320	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes stop spending on all non statutory areas	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17321	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I think all these proposals make sense	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17322	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b Broadcasting council committee meetings online. (£51, 000) - waste of time	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17323	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All the non statutory spending should be cut to a bare minimum.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17324	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree with most of these.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17325	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Sadly, I do agree	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17326	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Any none essentials should be reduced.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17327	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop broadcasting council committee meetings online.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17328	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Completely agree, some of the charges are a complete waste of money and unnecessary! Public should pay for some of these themselves and gala bunting and Christmas lighting is completely unnecessary. That money could be used on cleaning the streets instead of improving cycling paths etc. Over £700k a year for lollipop man is also excessive and providing school transportation over £1m shouldn't be the councils money to spend. It should definitely be paid by the people requiring those services or case by case basis and when absolutely necessary!!	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17329	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree wiht the exception of the following items: e, f, h, k, m, n, p, q, r, v, x and z	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17330	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All of the above	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17331	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yeah absolutely these are all things that could be readjusted.... by either minimising staff in certain areas and charging for certain services such as the music group and waste disposal.... if you are providing a service you can charge a fee to make a profit rather than just blowing it out the window.... if certain positions are overstaffed and could be done with less cut down.... if one person could update headteachers via video link instead of hiring out a whole team and building etc change things up a bit have people work from home or freelance in one area on the side of a main job if there 's not much to be done in certain areas instead of hiring a whole lot of people... if you focus on shaking things up a little, bringing in money where you can and streamlining some of the bigger things like schools and public transport etc I dont see why you couldn 't make significant changes in the budget and the way things are run	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17332	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some of these are ridiculous amounts being spent on these items and feel hugely inflated, a complete waste of money if that's the true amount. B, c, f, i, s, & a should already be gone.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17333	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Unfortunately only essential services should be supported	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17334	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Remove all services which are not mandatory	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17335	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Review why your policies lead the cost of broadcasting council meetings to be £52k. A laptop and Teams would cost close to nothing	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17336	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Agree with almost all proposal - however disagree strongly in 5C / 5H our children should not suffer in budget cuts. Schools and support for schools particularly our children with additional needs should be the councils biggest priority. We value the service 's provided but further rationalisation is required across all the other non - statutory services to ensure we protect the children of West Lothian 's future.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17337	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree, but.. I can see west Lothian turning into a dump if they get rid off all those services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17338	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	With the exception of 5m, 5n, 5p and 5x which I think should remain, I believe all the other suggested savings should be made	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17339	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Reduce non - statutory spending as much as possible.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17340	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	stop funding to anything that is not for the most vulnerable people that reside in west Lothian	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17341	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Protect statutory services and stop delivering non statutory	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17342	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes, however, it will have an impact on communities and in some circumstances may lead to additional costs to the Council	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17343	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes but perhaps increasing planning fees would assist this gap?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17344	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree with all of these proposals	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17345	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Broadcasting council meetings is a waste of money.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17346	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Costs can be cut in other non - statutory ways. not sure how important broadcasting of comitee meetings are?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17347	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Only if necessary.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17348	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Things like broadcasting council meetings can be made more cost effective I 'm sure - publish written transcript for example.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17349	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The council should only spend what it can afford to spend. If it can afford to spend on non statutory then it should but it should be well thought out and if you can't do it all maybe you do it on rotation for every year	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

17350	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17351	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Cancel activities b	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17352	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	You could balance the books by stopping providing services that are not required by law - make savings in all these areas.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17353	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop broadcasting Committee meetings - not an edifying site. So much money wasted by grandstanding politicians more interesting in their own careers than providing efficient and effective services. Not a good advert for democracy. Cut the number of Council meetings - pointless, poor quality debate - not a good advert for democracy.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17354	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b - cut this altogether - maybe a student on placements could film / cut edit free - good experience	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17355	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Broadcasting council committee meetings online. (£51, 000) - this should be removed - this is unnecessary	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17356	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17357	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop broadcasting council meetings.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17358	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	To save money	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17359	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Council meeting broadcasts generally get less than 1000 views so this could easily be removed with no real impact on the community, members of the public could attend meetings in person if they have a particular interest.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17360	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17361	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	There is definitely a need to reduce spending on non statutory services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17362	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	But only where there is no detrimental effect	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17363	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I would remove all but essential spend.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17364	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Focus on reducing spending on services which have no positive impact on residents, for example, broadcasting committee meetings. Protect spending on services which lead to improved services for residents.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17365	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree this has to happen because there is realistically no other option with such a significant budget gap. However, there needs to be careful consideration about the pressure that these reductions in spending will place on Statutory services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17366	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop altogether.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17367	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Fine	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17368	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Paying £51, 000 a year to broadcast council committee meetings is a gross waste of money. Any time I click to view one there is a maximum of about 5 people watching.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17369	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	This needs looked at carefully and prioritised many of the things listed could be cut but others should be kept a degree of common sense needed	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17370	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes reduce services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17371	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All the suggestions on the previous page have merit	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17372	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	this is an obvious area to look at, however some of the items listed would be a great loss and this needs careful consideration.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17373	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Agree that Council should look at range of non - statutory services being provided but acknowledging that many add significant economic, social, community and environmental value and benefits to West Lothian residents and communities - which without these services would potentially have an adverse impact on these very communities.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17374	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b, 5c, 5g and 5m are not required which would save £2. 5m straight away and 5k seems excessive.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17375	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes, reduce spending here. I think it is still important to offer some support for less fortunate and possible at risk children during school holidays and offering days where a professional will see them in order to monitor safety	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17376	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Review these and make savings / better planning for services on offer and who uses which facilities	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17377	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree with all of these ways of saving money, I know people who get a council house then lets someone else live in it, most common people who are in drug related I understand the need to save money, s for the council homes that are not used for people's drug related acts this has to include looking at the fraud side this has been going on for along time.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17378	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17379	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	To a certain extent but I would need very careful scrutiny and thought which might outweigh the benefits	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17380	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Most of this seems reasonable but you could save money by encouraging community engagement with these ideas. People will lend their time to improving the world around them if you let them. Encourage people to get involved with these and help communities start to engage with themselves. Otherwise what's the point?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17381	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes, I agree that the Council should reduce spending on non - statutory services, especially in the current financial climate. Given the size of the budget gap facing West Lothian Council, it is essential to prioritise funding for statutory services that the council is legally obliged to provide, such as education, social care, and waste collection. Non - statutory services, while valuable, are discretionary and may need to be scaled back or redesigned to ensure the council can continue to deliver its core responsibilities effectively. This does not necessarily mean removing these services altogether, stop broadcasting council meetings	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17382	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	stop broadcasting council meetings	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17383	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All of these are ancillary and should be eliminated. People who care about such things can demonstrate such by paying for them	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17384	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I have insufficient knowledge of the details of non - statutory services provision to provide further suggestions. However, in the current economic position, the cessation of many of those activities listed previously is a no-brainer. I'm surprised they have not been stopped before. 5g is the most alarming item to me.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17385	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	We don't need to cut all these services completely, but it is very clear that continued spending on these 'nice to haves' is no longer sustainable. Broadcasting council committee meetings online should be stopped immediately - democracy thrived for generations before it was introduced. It probably encourages pointless political grandstanding rather than constructive, co-operative decision making.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17386	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	This is the easiest option and shows that the extras that need to be saved	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17387	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree. Money is being overspent.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17388	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Too much money is being wasted on these services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17389	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	£51000 to have committee meetings online is a ridiculous amount to spend	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17390	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Only provide essential services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17391	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Funding should be reduced for non statutory services unfortunately needs must.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17392	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Almost all of the above should be reviewed to assess the impact of this spend has on achieving councils core priorities and to see if it duplicates / competes with third sector or other stakeholder provision. Could some of this provision be delivered as well / better by other agencies e. g. NHS, college, charities or the business community. Is the provision needed in an AI world where people can access a wealth of information in other ways?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17393	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	scrap the others completely	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17394	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Agree with cuts to following Broadcasting council committee meetings online. (£51, 000)	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17395	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Reduce spending in all non statutory services before cutting statutory services. Parliament has decided which services are statutory, and funds councils to provide them. Don't risk the effectiveness of statutory services by throwing this money away where its not required. Stop some spending completely i. e anti - poverty, regeneration, non - statutory school busses.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17396	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b look like prime areas for savings.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17397	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Broadcasting meetings	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17398	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5B around the broadcasting of council meetings online, this seems expensive when once the equipment is paid for streaming should be relatively cheap. Appreciate the goal is to save money in this area, this feels like low hanging fruit.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17399	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes. Cut: 5a to 5e.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17400	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes agree	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17401	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Remove council meeting online - how may people watch this?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17402	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I'm struggling to understand £51000 to publish minutes of meetings? This is essential for transparency and accountability, but it shouldnt cost £51000, another eg. Of council being over charged.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17403	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b, could be reduced.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17404	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	anything non statutory should be stopped immediately - we are not in a time where we have the luxury of extras.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17405	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Yes	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17406	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	having online committee meetings is cost effective way to reduce funds many other ways of cost cutting, lots of way to reduce costs if you think about how to make things better for the council and the community	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17407	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Savings could be mae on 5B,	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17408	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All items in 5 should be executed on as there is significant cost saves to be achieved in non statutory services. However as it's around 10 % of total spend efficiencies in statutory services is an absolute priority.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17409	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The following points is where I agree savings can be made in this section: 5b, 5c, 5f, 5g, 5l. I strongly disagree that cuts should be made to all other points in particular point 5o. The Advice Shop offers an invaluable service to the residents of WL. If cuts were made to Advice Shop then this would have a detrimental impact on WL in particular the most vulnerable who seek support this includes older people, those with a cancer diagnosis & long term conditions. In 2024 / 25 the Advice Shop received 3500 referrals into service including 410 customers from carers of WL generating £1. 2m in extra income for them. Last year the Advice Shop prevented 175 evictions through advice & assistance from their court advice project. The total cost of evicting a single person can be around £24k, this is a substantial saving to the council. Last year the Advice Shop supported 1732 customers from a child poverty priority group - this includes lone parents & families with a disabled adult or child.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17410	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Everything should be looked at any surplus cash accounted for and not spent because its there	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17411	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	During current climate these are not required	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

17496	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Live within your means and don't spend money on unnecessary non - statutory services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17497	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Its very simple - stop spending money you don't have on services you don't need to provide,	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17498	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop paying for non essential services and save the money from that	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17499	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Rather than tax more, cut the non - statutory services you are not obliged to provide,	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17500	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b broadcasting council meetings - could probably be done cheaper.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17501	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	You could definitely reduce some of these but focus should be on things that wouldn't result in a loss of service and support for vulnerable people. So no cuts to community services for vulnerable groups but maybe spend less where there isn't a direct loss of service.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17502	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	While I agree some of these services need to be cut a lot of communities really need them	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17503	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	If the service isn't benefiting people and not being used then thinking about removing it worth considering.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17504	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	A review of the audience watching council meetings may be worthwhile. It must be expensive to provide and support this function and I suspect that it is not widely used.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17505	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Councils meetings do not need to be streamed live. The simply require recording (by law) then placed on an accessible site. This should not cost thousands of pounds	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17506	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b - this should be stopped there is no need	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17507	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b Broadcasting council committee meetings online. (£51, 000) absolutely yes this is the whole point of time management	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17508	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	This is a terrible list of doom, to present £1. 6 million savings and compare it to £51K of council meeting broadcast - ridiculous. If you want meaningful engagement reissue this question. As for broadcasting council meetings that is what Microsoft Teams is for and shouldn't cost anything over the current council licence costs	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17509	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b could be cut completely	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17510	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Balance the books by cutting non - statutory services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17511	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Your own figures show you can live within your means if you cut unnecessary non - statutory services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17512	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop spending on non - statutory services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17513	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Your figures show you don't need to raise taxes or charges if you stop spending money on non - statutory services - this is where the savings should come from.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17514	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop spending money on non - statutory services.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17515	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Cut spending on non - statutory services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17516	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	meetings online. (£51, 000) waste of money no one looks at	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.

17517	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Council meeting should be done on teams like everyone else.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17518	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I do feel the council meetings don't need to be on YouTube as this is not essential and hardly any one looks at them anyway.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17519	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	How much to broadcast council meetings! That's outrageous! Plenty of platforms where you can livestream for FREE! Just love wasting money WLC, well done	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17520	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Stop spending on unnecessary non - statutory services	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17521	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	You've not outlined what income is generated from some of these activities so it's not clear if these are net expenditure figures. We pay council tax that you can use on top of the money from SG, we expect you to manage that appropriately and do what you can to maximise income. Also why is there an ongoing £51k expenditure to broadcast council meetings, surely you've invested in the infrastructure to do that, you're paying over the odds - what else are you over paying for?	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17522	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b. YES REMOVE.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17523	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b - seek savings on your streaming costs. 51K is far too high.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17524	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Following services to be cut: 5b	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17525	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	West Lothian Council has a proven track record of delivering huge savings. Now the council is on its knees as a result of lack of funding from central government for years - suggest services should be restricted to statutory only unless the financial settlement provided to the council is fair and reasonable to enable council to deliver the services needed.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17526	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some aspects, such as broadcasting council committees do seem reasonable to consider for reduced spending	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17527	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	£51,000 for broadcasting online meetings? I believe there are many ways of doing this with no cost, apart of electricity.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17528	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I only agree with 5b Broadcasting council committee meetings online. (£51,000)	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17529	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All non statutory services should be looked at to help streamline and make savings if possible, but completely stopping funding seems short sighted	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17530	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree with majority except Christmas lights.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17531	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	council meetings - should be stopped being broadcasted, people interested go them in person, and put in a way that lay person could understand.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17532	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	we agree with such as 5b Broadcasting - details of meetings are available.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17533	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b / How are the council spending £51,000 on broadcasting meetings? In this age of Teams & Zoom a lower cost solution must be possible? How many people watch these meetings? If only 3 or 4 councillors, then scrap the live broadcast, record it on Teams and share the recording online afterwards, cost one hour of comms manager's time.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17534	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	With exception of youth social activity funding everything else should be cut	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17535	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	5b- agree	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17536	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	where possible retain any involving vulnerable or young persons within the county but remove any that aren't shown to be working and can be replicated in other savings.	Corporate Policy and Resources	1. The respondent advised that they agree with the proposal.
17537	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Wow with the removal of all these West Lothian Council does not look like a place where I would like to stay in.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

17538	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	None of these should be stopped! Every one of these includes life or death circumstances! They incorporate the health and wellbeing of the residents. You are suggesting cutting items that people need. It is items people assume is why we pay a council tax! Reducing gritting or roads and pavements more has the possibility of causing injury or death! No cost is too much for this. We need each other. We need companionship. We need groups and locations where people can sit and talk and learn and eradicate racism bigotry and counter the fake news and gossip spread by locking people in their homes and not allowing them to move from their homes. Council tax is not a luxury, it is a necessity for the community to be able to function. There are savings and efficiencies to be made but there is also a lot of value in the services being offered so there is nothing on the list that I would be in favour of scrapping entirely. For example the central services provided in Education Services are important for ensuring statutory compliance and quality of service, and the work that is carried out would not just go away, it would be passed to Headteachers and their staff who would not have capacity to do it.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17539	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.		Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17540	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I agree with most of these but they are not saving money, These services need to be continued.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17541	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Absolutely agree with the exception of broadcasting council meetings. Rather than spend tens of thousands doing this why not make the meetings open to public for viewing and communicating dates times and locations. This seems an exceptionally high amount of money to be spent on streaming.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17542	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I don't agree with some of the suggestion reductions such as publishing the minutes from committee meetings, surely this can be fully automated with dictation systems and AI for uploading onto the relevant webpages? You have a duty to be transparent to your constituents	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17543	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Most of this spending improves the quality of life of West Lothian residents and any reduction should be done carefully.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17544	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Important to broadcast meetings online to allow scrutiny	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17545	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Get rid of: 5b.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17546	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17547	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17548	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	There is a very wide range of non statutory services listed here with greatly differing importance. 5b seems particularly important to retain to the farthest extent possible	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17549	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Do not agree that 5b should be stopped.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17550	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The non statutory areas are necessary	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17551	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Everything else can stay.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17552	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	That's why we pay the council. There will be little support for any of you if you continue down this route. You are hitting out at the most vulnerable in our society. Shame on you.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17553	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No cuts to non - statutory services these are life enhancing and have suffered many reductions in funding	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17554	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These are so important for communities and morale. Please don't take these away.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17555	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Would question what exactly we are paying our council tax for?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17556	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The time you do that we would have nothing	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17557	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I think meetings should be shown to the public and allow the public to vote on what you are proposing.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17558	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Look at ways to keep the services but reducing the times.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

17559	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No there are too many things on this list that are needed	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17560	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Cutting is not the answer, efficiency is the answer.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17561	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	we need all of these services to continue	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17562	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These are essential services to our communities Not seeing a. Reduction in council salaries	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17563	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	While some statutory services could be reduced, most of them are very important, and their recipients often belong to vulnerable groups. Significant cuts to these services will cause significant problems which could require solutions more costly than the current cost of statutory services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17564	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I think funding for these should be kept to improve communities and support families within the community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17565	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	This impacts people and community, and they are struggling just like you are. Don't penalise us further.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17566	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No I don't agree.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17567	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	They may not be statutory but they all look essential to me	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17568	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	you want to create communities not just statutory funded functions for the residents of West Lothian. It's not enough just to exist, you want to create communities worth living in.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17569	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I think these services are important to the people who benefit from them.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17570	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	You have already cut back so much so no!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17571	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services all have far reaching benefits for the community.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17572	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Remove more services but council tax payers get hit in the pocket? Joke.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17573	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Please no further cuts. Its not viable.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17574	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Every one of these services should be statutory. Removal or reduction of any of these, and so may more is abhorrent.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17575	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Why should they lose out	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17576	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	It must always be considered how some of the 'non' statutory services provide much more than they cost in real terms!... as far as the health, wellbeing and future development of young people these services are imperative!... although the long term future of the average officer / councillor is finite... the future of West Lothian is a legacy that we, NOW, can futureproof!... a short sighted view of long established services will only harm our already poor reputation as we cannot provide the service we aspire to.... Please examine the long term future and savings / income / grants etc generated from some of these service areas	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17577	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All vital services needed to support people to live their best lives. The council needs to support people and not keep removing things. WL has very limited opportunities without cutting anymore. Look at more efficient ways. Actually engage with service users for each service as they would have the ideas you seek!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17578	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	stop taking everything away from us you get enough tax money from us so stop digging up the same road over and over again wasting precious money	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17579	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Reducing all these listed will reduce the appeal of West Lothian. These services should be improved.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17580	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Reducing these costs would affect our communities and destroy family life.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17581	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some of these services are essential for the community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17582	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services are vital	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17583	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Absolutely not! Leave as is.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17584	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Non - Statutory services are vital to the community and removing them would be seriously detrimental. Perhaps looking at streamlining services so related information is available in one place & cutting out several layers of management.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17585	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The majority of these are essential to the well being of everyone but agree non west lothian residents should not be subsidised for child care spaces	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17586	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These are vital services and should not be touched.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17587	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The majority of these are what I would consider good council services and should be retained.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17588	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Do not reduce spending on any of these	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17589	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Councils should not reduce this. They need to increase joint up working	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17590	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Although these services are not required by law, they are essential for community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17591	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Although these services are not required by law, they are essential for community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17592	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No, these services are needed.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17593	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services are important for the people of WLC and the community. Stripping these would make the area less attractive to stay in. I would rather pay more Council Tax. Why haven't the older houses been re - evaluated, I don't pay enough Council Tax in my opinion as I live in an old house. This simple exercise would rather millions rendering most of these cuts unnecessary.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17594	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Absolutely outrageous the propositions. Except the upkeep of golf courses (where rich people can fund and play) I don't agree with any of the cuts. Kids need music, education programs, health and safety support. Already they have very little things to do and most are disrespectful, idle having no courses to engage or develop their skills. Community projects are a must.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17595	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No as these are vital. I know you call them non statutory however adult youth and community services are vital. Statutory services rely on the no stats. As they can't cope. Bad. This is a recipe for disaster. Stop these cuts now! Let's kids play let youth get support. Let LGBT community get support from the service.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17596	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	If the council wants to just be a provider of last resort then go ahead and stop all non statutory functions. But I strongly suspect that this is not what people in West Lothian want and they will make their feelings known through the ballot box given the chance. Scotland is not a third world country (yet) and the services provided by local authorities need to be seen for more than just their monetary value. Local authorities should be funded to enrich the lives of the people they serve and the problem is clearly that they are not.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17597	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	You should be utterly ashamed at removing some of these services. You have a duty as a council to help the community. None of this will matter, you'll still increase costs and reduce services.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17598	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	reads like a dereliction of duty here.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17599	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Protect all the stated services here. Has anyone projected the disaster this can and will cause if this goes ahead.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17600	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No, you are cutting to the bone not to the benefit of the people of West Lothian.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17601	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	There seems to be a view that these are all 'nice to have' but not essential. I would strongly disagree. Once again it's a case of not seeing the true value of these things and just reducing it all to pounds and pennies. Just because a service is non statutory shouldn't diminish it's importance and make it fair game for getting cut. There are an awful lot of good people doing great things for the people of West Lothian and they certainly don't deserve to be treated as second class employees and jettisoned as a knee jerk reaction every time there is a need to find savings. It does very little to reduce the council's budget. I don't necessarily think that non - statutory spending should be reduced although I do think that all spending should be considered. Many of the non - statutory items are very important to people and communities.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17602	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Difficult one, but these are the things that bind our society together. The importance of these things can be so much more beneficial than any monetary value can say.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17603	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	The problem with reducing non statutory spending is it may make a short term saving the long term cost, which will have to be paid for by the council although may not be a direct cost	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17604	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No. These are important and make West Lothian an excellent place to live	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17605	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I cannot agree with reducing spending on non - statutory services. It is an easy financial win; however, the long - term consequences of reducing or removing some of these services are huge	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17606	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Dumbfounded someone actually costed losing these facilities. Disgusting proposals.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17607	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services add quality to life in West Lothian. Please do not cut further.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17608	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	services to the community should not be cut.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17609	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No we need these it's important there's hardly anything out there Go tax the big wigs with money more instead of coming after the poor!!!!	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17610	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	While reducing or cutting non - statutory services may appear to be an easy cost - saving measure on paper, it ignores the long - term social and financial impact these services have on our communities. Non - statutory does not mean non - essential. Many of these services — such as youth work, community centres, early intervention programmes, libraries, and mental health support — are vital in preventing more expensive statutory interventions down the line. Removing these supports would not only erode the quality of life in West Lothian but also drive increased demand in areas like social work, education support, and emergency services. In short, these are investments, not luxuries. Sustainable financial strategy means looking beyond short - term savings and recognising the true value these services provide to residents — particularly the most vulnerable.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17611	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No I disagree and feel very strongly that the Council needs to plan ahead and shape services around the changing population, but I feel that these services are absolutely crucial to supporting our local economy and community. It's not fair to expect local services to keep doing more with less, especially when the number of older people needing care and support is rising so quickly. Any changes should be made carefully and only after proper consultation with the people who actually use these services. Cutting too much now would harm our communities in the long run. I am really disappointed and frustrated by the amount of cost - cutting and money - saving measures being proposed. Local people and serv	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17612	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	A lot on non statutory services are required and relied upon by us as public members whether you see it as non statutory or not, it is in the eyes of the public	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17613	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Lack of non statutory services just puts pressure on statutory services and is therefore an inefficient response.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17614	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services are vital and a life line for many people - if you remove them they will require formal services and these will cost more	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17615	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These would be detrimental.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17616	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Totally disagree with this	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17617	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	So if the council will give up all those services who then will deliver them as there is not many in West Lothian free services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17618	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.			

WL2028 Your Council, Your Say Budget (Phase 3) Consultation Comments and Responses from Officers

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17619	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services are what hold our communities together and I would vehemently be against their removal. How about making savings from those who do not contribute to our communities, as opposed to those who do?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17620	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Most of the services provided appear to be important and with the exception of one or two would seem to be what's needed.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17621	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Again, too much lost already	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17622	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Cuts and more cuts. Some yes but the majority no. These are much needed services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17623	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Many of these services are essential	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17624	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	most of the non statutory services are beneficial for community as there is not any alternatives for access them apart via the council.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17625	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Although these are non - statutory services they make an important contribution to life in West Lothian and how West Lothian Council Works. The knock on effect of removing these services is far larger than is implied by the accompanying statements. In addition there are no alternative services for to fill the gaps created by their removal.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17626	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	these are important - keep them and make decisions on the big stuff where big savings can be made	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17627	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	This is the vital unseen part of what's needed in communities - this needs continual funding, especially on local infrastructure	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17628	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Too many depend on these non statutory services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17629	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	They may be non statutory but seem very important and if removed would significantly impact on communities.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17630	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These cuts will impact on the community hugely	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17631	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Nope, they should be put money into the services making the services more stable not taking the money away from it all	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17632	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I do not. This is all very important to the community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17633	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Also regarding council broadcast meetings you generate revenue from Google and YouTube for the amount of people who watch the meetings so cost cutting doesn't make sense on that point.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17634	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Too many cuts already	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17635	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Most of these non - stat services are services council tax payers expect to see. To remove them would be nothing short of a joke.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17636	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Feel this could be better managed but don't believe reducing / removing these services is a good idea	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17637	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	I don't think any of this should be reduced.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17638	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Not publicising council committee meetings allows potential for lies and misleading information to be presented. It's important to maintain this public measure to hold those in positions of trust to account.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17639	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	A lot of people rely on these services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.

17640	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	DO NOT cut - 5b	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17641	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Often the non statutory aspects are the buffer for those on low incomes and loss of these supports affects the physical and mental well being of the clients. Large employers should be encouraged to support more community based projects.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17642	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Cutting off from other sources not from these essential services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17643	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	With the exception of bunting, Christmas lights and golf courses, these are all essential services. Surely the Council would not remove itself from COSLA?	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17644	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No I do not agree, these services are important to communities	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17645	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Absolutely not these services are vital for West Lothian	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17646	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	non statutory services cannot be cut. these services are essential to early intervention and prevention for chronic issues e. g. violence against women and girls and mental health services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17647	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	no	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17648	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	non statutory services are just as valuable if not more so and if they didn't exist this would put even more pressure on schools social services and social workers. 5 b no reps need to be open honest accountable	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17649	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Some services can be removed or capped. But since you have placed them all on one category. Without being able to vote for specific ones, my answer is no	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17650	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	All of these seem vital to the community	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17651	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services are critical to West Lothian, and some of these services helps people meet other people and also assist with these day activities. West Lothian council needs to make sure they are not making people who use these services from being affected by physical and emotional stress of not having these services	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17652	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	No - absolutely do not agree. And I have already gave a brief run down of why I think this and also what my idea to improve things would consist of. To take funding away from these would be abhorrent to the people who make use of them	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17653	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	There should also be a clearer focus on local reinvestment to ensure communities benefit from any income raised. Non - statutory services need careful evaluation before cuts to ensure critical support is not lost. Above all, the Council must be transparent with figures and involve the community more directly in decisions.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17654	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Broadcasting committees are needed as people cannot attend in person or during the day when they are held. This is a democracy issue to see what Councillors are doing.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17655	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These are the services that mostly support the most vulnerable in our community. everything is impotant to the functioning of our society.	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17656	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	think these are all services that are needed	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17657	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These are all important funding	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17658	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	all these things are needed	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17659	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	These services should be kept in place	Corporate Policy and Resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.
17660	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	NA	Corporate Policy and Resources	3. The respondent advised that they had no comment to make.

Master Reference Number	Theme	Option	Comment	PDSP	Officer Response
17661	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Broadcasting council committee meetings online. (£51, 000) Post it on YouTube save money	Corporate Policy and Resources	4. The council is already doing this.
17662	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	There is no structured planning in council decisions, it seems a few councillors vote to close, no proper discussion. Too many decisions made behind closed doors, more transparency in the council. More charging is not justified or cutting schools or hitting vital public transport.	Corporate Policy and Resources	4. The council is already doing this.
17663	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Council meetings, can I you just record and upload? Does anyone ever login to listen?	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17664	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Additionally, live broadcasting of council meetings could be replaced with AI tools like Microsoft Copilot to automatically record minutes, actions, and outcomes, which could then be published on the council website and social media for transparency. These changes would enhance efficiency, accountability, and community engagement across all services.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17665	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Additionally, live broadcasting of council meetings could be replaced with AI tools like Microsoft Copilot to automatically record minutes, actions, and outcomes, which could then be published on the council website and social media for transparency. These changes would enhance efficiency, accountability, and community engagement across all services.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17666	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Can we record the council meetings on teams?	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17667	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Proposal 5b does not specify if the saving also relates to stopping recording meetings entirely and if hybrid meetings would stop. As the saving is unclear, the following concerns relate to ceasing broadcasting, the continuation of hybrid meetings, and the removal of published recorded meetings: broadcasting and publishing recorded meetings promotes both greater openness and transparency; hybrid meetings on the Confero platform experience technical issues that require to be fixed by someone with the required technical expertise; recorded meetings are an essential resource and avoids the need for Committee Services involvement when information is sought; if recorded meetings are not available the public would need to attend meetings in person to hear discussions which would also lead to minutes requiring to be more comprehensive and the resource is not currently available for this. A move to Teams offers some solutions, such as providing meeting transcripts and preparing minutes.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
17668	Theme 5- Reducing Spending on Non-Statutory Services	5b - Broadcasting council committee meetings online.	Also - reduce Committee meetings by half by extending the gap between them. This would achieve a major saving in officer time - which could be devoted to direct service provision, or be taken as a saving by reducing the number of managers.	Corporate Policy and Resources	6. The respondent suggested an improvement. Officers will consider how this could be developed.
