ONLINE FEEDBACK PROVIDED	Date received: 7 th May 2024			
	Total cost of work: £750			
	Description of work: Our tiles were moving with grout that had cracked, we were quoted for removal of tiles and subfloor. It was highlighted to us by Dougie at the start that the cost would depend on what was under the tiles. As well as being poorly laid, The original timber floor was very wet so all had to removed and replaced. Once the new floor was in place, tiles were replaced on wall and new floor tiles fitted, it was done to an excellent standard.			
	Comments: Dougie done an excellent high quality job, very pleased with work, excellent value for money. I would highly recommend.
