<p>ONLINE FEEDBACK PROVIDED</p>	<p>Date received: 23rd May 2025</p> <p>Total cost of work: £700</p> <p>Description of work: Lifting of old cracked tiles on bathroom floor and replacing with new after electrician had installed new underfloor heating mat. Full new tiling of entire en-suite, including several corners and inside a cupboard, also once again working after the electrician had installed underfloor heating. A complex install requiring a LOT of cuts.</p> <p>Comments: Despite the amount of cuts, Dougie managed to complete the install with the bare minimum of wastage. As I'd chosen quite expensive tiles I was very grateful for this. He also helped choose a grout & trim colours. Cleaned up after himself, good crack to have around, and did an excellent job, checking in with me regularly to ensure I agreed his decisions on layout etc. I have no hesitation in recommending him elsewhere and I'd absolutely have him back to do more work for me.</p>

ONLINE FEEDBACK PROVIDED	<p>Date received: 7th May 2024</p> <p>Total cost of work: £750</p> <p>Description of work: Our tiles were moving with grout that had cracked, we were quoted for removal of tiles and subfloor. It was highlighted to us by Dougie at the start that the cost would depend on what was under the tiles. As well as being poorly laid, the original timber floor was very wet so all had to be removed and replaced. Once the new floor was in place, tiles were replaced on wall and new floor tiles fitted, it was done to an excellent standard.</p> <p>Comments: Dougie done an excellent high quality job, very pleased with work, excellent value for money. I would highly recommend.</p>
